We were engaged to audit the accompanying statements of net assets available for benefits of the Insurance.com 401(k) Plan (the Plan) as of June 9, 2011 and December 31, 2010, and the related statements of changes in net assets available for benefits for the period from January 1, 2011 through June 9, 2011 and the year ended December 31, 2010. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Fidelity Management Trust Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executed investment transactions. The Plan administrator has obtained certifications from the custodian as of and for the period ended June 9, 2011 and as of and for the year ended December 31, 2010, that the information provided to the Plan administrator by the trustee and the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee and the custodian, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As further described in Note A to the financial statements, the Plan sponsor approved a plan of liquidation effective December 31, 2010 and completed liquidation as of June 9, 2011. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting from the ongoing plan basis used for the year ended December 31, 2010 to the liquidation basis for the period ended June 9, 2011.

INSURANCE.COM 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A - Plan description

Effective December 1, 2008, the Comparison Market, Inc. 401(k) Plan changed its name to the Insurance.com 401(k) Plan and adopted a Fidelity prototype plan document. The following description of the Insurance.com 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was originally established on March 1, 2001. The Plan operated in accordance with Section 401(k) of the Internal Revenue Code. The Plan was a defined contribution plan generally covering all eligible employees of Insurance.com, Inc. (the Company) who have attained the age of 21 and have completed 2 months of service, as defined by the Plan. The Plan excluded non-resident aliens and employees covered under a collective bargaining unit under which pension benefits were a subject of good faith bargaining. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Company absorbed substantially all of the Plan administration costs other than expenses attributable to a particular Plan participant.

During 2010, the Company sold substantially all of the operating assets of the Company to an independent third party. As a result, the Plan sponsor approved a plan of liquidation effective December 31, 2010. All participants were 100% vested in their accounts at December 31, 2010 regardless of prior termination dates. No further employee contributions were permitted to the Plan subsequent to December 31, 2010, and all participant balances were distributed by June 2011. There were no exit fees incurred by the Plan due to termination of the contracts with Fidelity Management Trust Company.

Contributions

Participants could elect to defer up to 75% of their compensation (as defined in the Plan document). The definition of compensation excluded all bonuses, severance pay and benefits credits.

The Company could make discretionary matching contributions, as declared by a Board of Directors' resolution, on behalf of each participant who had elected to have deferral contributions made to the Plan. The Company could also contribute a discretionary amount to be allocated to employees who worked at least 1,000 hours based on a ratio of compensation and were employed by the Company on the last day of the Plan year.

Catch-up contributions could be made by participants who were age 50 by December 31 of that calendar year. No matching contributions were made with respect to catch-up contributions.

INSURANCE.COM 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A - Plan description, continued

Participant accounts

A separate account was maintained for each participant in the Plan, reflecting participant and Company contributions and allocation of the Plan's earnings and losses. The net value of each participant account was established at the close of each business day through the valuation of each fund's assets at fair market value. A participant may have elected to invest contributions and transfers from other plans in any combination of various investment funds. Participants could have changed their investment direction or transferred funds on a daily basis.

Vesting

Participants were 100% vested as to their contributions. Prior to December 31, 2010, the vesting schedule for the Company's matching contributions ranged from 25% after one year of service, as defined by the plan document, increasing for each additional year of service in 25% increments until obtaining 100% after four years.

Payment of benefits

Distributions from a participant's account were not permitted before age 65 except in the event of death, disability or termination of employment as defined in the Plan. Distributions may have been made in the form of direct rollover or a lump sum – cash distribution. If the vested balance was greater than \$1,000 and less than \$5,000 and the participant did not make an election to receive or rollover the distribution, the distribution must have been rolled over to an IRA. Upon an event described above, the Company was required by law to make a distribution of any account balance less than \$1,000.

Financial hardship withdrawals

Financial hardship withdrawals of the participant's voluntary 401(k) contributions were permitted in specialized circumstances of immediate and heavy financial need. Distributions prior to the attainment of 59½, disability or death may have been subject to a 10% federal tax penalty. A participant who received a hardship distribution of voluntary contributions should have been prohibited from making elective deferrals and employee contributions for six months after receipt of distribution.

Forfeitures

Forfeitures were created when participants terminated employment before becoming entitled to their full benefits under the Plan. Forfeitures were used to reduce the employer's contributions to the Plan. Forfeited non-vested accounts totaled \$5,552 as of December 31, 2010 and were allocated to the remaining participants in 2011.

INSURANCE.COM 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A - Plan description, continued

Notes receivable from participants

The Plan allowed participants to borrow against their vested account balance in the Plan. Participants might have borrowed up to the lesser of \$50,000, (reduced by the highest outstanding balance of Plan loans during the prior one-year period) or one-half of their vested account balance. No more than one loan per participant may have been outstanding at any one time. No loan of less than \$1,000 was made. Loans bore an interest rate of prime plus 1% with repayments of no longer than five years, unless the loan was used to acquire a principal residence. Interest rates ranged from 5.00% to 9.25%. Principal and interest was paid ratably through payroll deductions.

NOTE B - Summary of significant accounting policies

Basis of presentation

The accompanying financial statements were prepared on the accrual basis of accounting and included recognition of net unrealized appreciation and depreciation of investments, which was included as a component of net appreciation (depreciation) in fair value of investments.

Valuation of investments

The Plan's investments were stated at fair value. Fair value was the price that would have been received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for fair value measurements.

The Financial Accounting Standards Board guidance on defined contribution pension plans required that investment contracts held by a defined-contribution plan be reported at fair value. However, contract value was the relevant measurement attributed for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value was the amount participants would receive if they initiated permitted transactions under the terms of the Plan. As required by the guidance, the Statements of Net Assets Available for Benefits presented the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits were prepared on a contract value basis.

Notes receivable from participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans were reclassified as distributions based upon the terms of the plan document.

NOTES TO FINANCIAL STATEMENTS

NOTE B - Summary of significant accounting policies, continued

Risks and uncertainties

The Plan invested in various investment securities. Investment securities were exposed to various risks such as interest rate, market volatility and credit. Due to the level of risk associated with certain investment securities, it was reasonably possible that changes in the values of investment securities would occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America required management to make estimates and assumptions that affected certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recent accounting pronouncements

In September, 2010, the FASB issued guidance to amend generally accepted accounting principles (GAAP) related to the classification and measurement of loans to participants by defined contribution pension benefit plans. Previous guidance required loans to participants to be classified as plan investments, which are generally measured at fair value in accordance with GAAP. The new guidance requires that loans to participants are classified as notes receivable from participants and measured at their unpaid principal balance plus any accrued but unpaid interest. The new guidance was effective for periods ending after December 15, 2010 to be applied retrospectively.

Evaluation of subsequent events

The Company has evaluated subsequent events through February 6, 2012 which is the date the financial statements were available to be issued.

NOTE C - Certified information

All investment and notes that were receivable from participants information disclosed in the accompanying financial statements, included investments and notes receivable from participants held at June 9, 2011 and December 31, 2010, and interest and dividends and net appreciation in the fair value of investments for the period ended June 9, 2011 and the year ended December 31, 2010, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the custodian.

NOTES TO FINANCIAL STATEMENTS

NOTE C - Certified information, continued

Investments that represented 5% or more of the Plan's net assets were separately identified as follows at December 31, 2010:

Fidelity Advantage Freedom 2030 Fund	\$ 556,754
Fidelity Advantage Freedom 2040 Fund	422,617
Fidelity Advantage Freedom 2035 Fund	409,531
Dreyfus S&P 500 Index	279,421
Fidelity Advantage Freedom 2025 Fund	237,597
Janus Overseas Growth Fund	196,482
Fidelity Advantage Asset Manager 20%	193,863

The Plan held no assets as of June 9, 2011.

The Plan's investments that were registered in investment companies (including investments bought and sold, as well as held during the year) appreciated in fair value \$91,055 and \$852,609 for the period ended June 9, 2011 and the year ended December 31, 2010, respectively.

NOTE D - Fair value measurements

The Accounting Standards Codification *Fair Value Measurements and Disclosure* defines fair value and provided guidance for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America. *Fair Value Measurements and Disclosure* did not require any new fair value measurements, but rather applied to all other accounting pronouncements that required or permitted fair value measurements. *Fair Value Measurements and Disclosure* established a framework for measuring fair value. That framework provided a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gave the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 – Valuation is based upon quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – Valuation is based upon quoted prices for similar assets and liabilities in active markets, or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3 – Valuation is based upon unobservable inputs that are significant to the fair value measurement.

INSURANCE.COM 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE D - Fair value measurements, continued

The asset's or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques used needed to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies: Valued at net asset value of shares held by the Plan at year-end.

Common/collective trusts: Valued at net asset value of units held by the Plan at year-end after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believed its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Registered investment companies:				
Bond fund	\$ 111,347	\$ -	\$ -	\$ 111,347

Balance at December 31, 2010	\$ 3,352,495	\$ 88,564	\$ -	\$ 3,441,059

The Plan held no assets as of June 9, 2011.

NOTES TO FINANCIAL STATEMENTS

NOTE E - Differences between Form 5500 and financial statements

As discussed in the valuation of investment section of Note B, the financial statements reported the value of the Plan's stable value trust investment at contract value whereas the Form 5500 reported at fair value.

The following was a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2010:

Net assets available for benefits per the financial statements	\$ 3,498,245
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	<u>1,656</u>
Net assets available for benefits per Form 5500	<u>\$ 3,499,901</u>

The following was a reconciliation of investment income per the financial statements to the Form 5500 for the:

	Period ended June 9, <u>2011</u>	Year ended December 31, <u>2010</u>
Net loss per the financial statements	\$ (3,498,245)	\$ (2,540,681)
Change in adjustment from contract value to fair value for fully benefit-responsive investment contracts	(1,656)	1,840
Assets converted/transferred to Fidelity	<u>-</u>	<u>(2,538)</u>
Net loss per Form 5500	<u>\$ (3,499,901)</u>	<u>\$ (2,541,379)</u>

NOTE F - Federal income tax

The Plan adopted a prototype plan document sponsored by Fidelity. Fidelity obtained a determination letter from the Internal Revenue Service (IRS) dated October 9, 2003, which stated that the prototype document satisfied the applicable requirements of the Internal Revenue Code (IRC). The Plan itself had not received a determination letter from the IRS and the prototype plan had since been amended. The Plan administrator and the Plan's tax counsel believed that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for Federal income tax had been made in the financial statements.

NOTES TO FINANCIAL STATEMENTS

NOTE F - Federal income tax, continued

Accounting principles generally accepted in the United States of America required Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan had taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator had analyzed the tax positions taken by the Plan, and had concluded that as of June 9 2011, there were no uncertain positions taken or expected to be taken that would have required recognition of a liability (or asset) or disclosure in the financial statements. The Plan was subject to routine audits by taxing jurisdictions; however, there were no audits for any tax periods in progress. The Plan administrator believed it was no longer subject to income tax examinations for years prior to 2008.

NOTE G - Related party transactions

Certain Plan investments were shares of mutual funds managed by Fidelity Management Trust Company. Transactions with the trustee qualified as party-in-interest transactions.
