Kiss Nail Products 401(k) Plan
Notes to Financial Statements

A. Description of Plan

The following description of the Kiss Nail Products 401(k) Plan ("Plan") provides only general information. Participants should refer to the Summary Plan Description ("SPD") or the legal Plan document for a more complete description of the Plan's provisions.

1. General. The Plan is a type of qualified retirement plan commonly referred to as a 401(k) Plan. The Plan is subject to federal laws, such as the Employee Retirement Income Security Act (ERISA) and the Internal Revenue Code, as well as some state laws.

2. Contributions. Participants may elect to reduce their compensation by a specific percentage or dollar amount and have that amount contributed to the Plan on a pre-tax basis as an elective deferral as defined in the SDP and legal Plan document. Participants who are at least age 50 or will attain age 50 before the end of a calendar year are eligible to make catch-up contributions. At the discretion of the Plan Administrator, participants may be permitted to deposit into the Plan distributions from other plans and certain IRAs. In addition to any contributions that participants elect to make, the Employer will make a safe harbor matching contribution as defined in the SPD and legal Plan document. Also, the Employer may make a discretionary nonelective contribution to the Plan as defined in the SPD and legal Plan document.

3. Participant Accounts. Capital Bank and Trust Company, the trustee of the Plan, has been designated to hold the assets of the Plan for the benefit of Plan participants and their beneficiaries. The trust fund established by the Plan's Trustee will be the funding medium used for the accumulation of assets from which Plan benefits will be distributed. Each participant's account is credited with he participant's contribution and allocations of the Employer's contribution and plan earnings, and charged with an allocation of administrative expenses. Participants will be able to direct the investment of their entire interest in the Plan.

4. Vesting. Participants are always 100% vested in their accounts attributable to elective deferrals including catch-up contributions, rollover contributions and safe harbor contributions as defined in SPD. A participant is 100% vested in the portion attributable to nonelective contributions after three years of service.

5. Loans. Participants may borrow from their fund in accordance with the Plan Loan Policy.

6. Payment of Benefits. Participants may receive a distribution of the vested portion of some or all of their accounts in the Plan when you terminate employment with the Employer. For distributions prior to termination of employment and distributions upon death, participants should refer to the SPD or the legal Plan document.

7. Forfeited Accounts. At December 31, 2010 and 2009 forfeited nonvested accounts totaled $39,047 and #39,047. These accounts will be used to reduce future employer contributions.

B. Accounting Policies

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statement in conformity with accounting principles generally accepted in the United Stated of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income in recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

C. Investments

The following presents investments that represent 5 percent or more of the plan's net assets.

	2010	*2009*

Information about the net assets relating to the nonparticipant-directed investments is as follows;

	December 31,	
	2010	2009
Mutual funds	$39,047	$39,047

E. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standard Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. The framework provides a fair value hierachy that prioritizes the inputs to valuation techniques used to measure fair value. The hierachy gives the higest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierachy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active market; • quoted prices for identical or similar assets or liabilities in inactive market; • input other than quoted prices that are observable for the asset or liability; • input that are derived principally from or corroborated by observable market data by correlation or other means; If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds: Valued at the net asset value (NAV) generally obtained from a file feed from the National Securities Clearing Corporation, and/or directly from the fund house, or a secondary pricing source, such as Interactive Data Corporation (IDC).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierachy, the Plan's assets at fair value as of December 31, 2010 and 2009.

	Assets at Fair Value as of December 31, 2010

Money Market Funds	1,220,220			1,220,220

F. Tax Status

Prior to January 1, 2010, the Plan had adopted a Non-standardized Prototype Plan Document sponsored by American Funds Distributor Inc that obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service ("IRS") stated that the Prototype Document, as then designed, was in compliance with the applicable requirements of the IRC. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

G. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Changes in Net Assets Available for Benefits.
