INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
Coronado Stone Products 401(k) Plan
Fontana, California

We were engaged to audit the financial statements of net assets available for benefits of the Coronado Stone Products 401(k) Plan as of December 31, 2008 and 2007, and the related statement of changes in net assets available for benefits for the years then ended, and the supplemental schedule of Schedule H, line 4i-Schedule of Assets (Held At End of Year) as of and for the year ended December 31, 2008. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Hartford Life Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2008 and 2007, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CORONADO STONE PRODUCTS
401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2008 and 2007

NOTE 1 - PLAN DESCRIPTION

The following description of the Coronado Stone Products, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan and was started on August 4, 2006, to cover all employees of the Company who have completed one year of service and are at least eighteen years of age. Eligible employees may enter the Plan on February 1 and August 1 of each plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute pre-tax annual compensation, as defined in the Plan. Total contributions per participants may not exceed $15,500 for the years ended December 31, 2008 and 2007. Participants who are a least 50 years of age were allowed an additional "catch-up contribution" up to $5,000 for the years ended December 31, 2008 and 2007. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. Hartford Insurance Company acts as transfer agent. The company may provide a discretionary matching contribution equal to a percentage or dollar amount of salary deferrals, determined each year by the employer. The Company made discretionary matching contributions of $173,824 and $179,458 as of December 2008 and 2007, respectively. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 20% vested after two years and continues to vest 20% per year thereafter, and is 100% vested after six years of service.

Participant Loans

Participants may borrow from their fund accounts the lesser of 50% of their account balance or $50,000. The loans are secured by the balance in the participant's account and are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through monthly payroll deductions.

NOTE 1 - PLAN DESCRIPTION (CONTINUED)

Payment of Benefits
On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distributions.

Forfeitures
Forfeitures of the unvested balance of the Company's contribution by terminated participants are used to reduce employer discretionary contributions. There were no unused forfeitures available to reduce future contributions at December 31, 2008 and 2007.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting
The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment Valuation and Income Recognition
Investments are reported at fair value in the financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Certain administrative functions are performed by officers or employees of the Company. No such officer of employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Company and by Plan participants, through Plan earnings.

NOTE 3 - FAIR VALUE MEASURES

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 are valued using inputs other than quoted prices and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements
The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Level 3 Fair Value Measurements
Participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of participant loans approximate the amortized cost of the loans because the loans secured by each respective participant's account balance.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2008 and 2007.

		Fair Value Measurements at Reporting Date Using:	
December 31, 2008	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
