CRISSAIR, INC.
401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS
JULY 6, 2011 AND DECEMBER 31, 2010

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Crissair, Inc. (the Company) 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Effective July 6, 2011, the Plan was merged into the ESCO Employee Savings Investment Plan (see Note 8).

General

The Plan was a defined contribution plan covering all employees of the Company who were at least 18 years of age and had completed 3 months of service. Eligibility for matching and nonelective contributions was age 21 and 1 year of service. The Plan excluded employees who were covered under a collective bargaining agreement and nonresident aliens who received no earned income from sources within the United States. It was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants could contribute a maximum dollar amount as determined by the Federal Government. For 2011 and 2010, the maximum dollar amount was \$16,500. Participants who had attained age 50 prior to the close of a Plan year were also eligible to make a catch-up contribution. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan offered a number of mutual funds and a guaranteed account as investment options for participants. The Company, on a discretionary basis, contributed a matching amount as a percentage of the amount a participant contributed to the Plan. The matching Company contribution was invested in the investments as directed by the participants for their pre-tax deferrals. Additional amounts could be contributed at the option of the Company's board of directors. Contributions were subject to certain limitations.

Participant Accounts

Each participant's account was credited with the participant's contribution and an allocation of the Company's contribution and Plan earnings or losses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled to was the benefit that could be provided from the participant's account.

Vesting

Participants were immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon was based on years of continuous service. A participant was 100% vested after six years of credited service.

Participant Notes Receivable

Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions were treated as a transfer to (from) the investment fund from (to) the Participant Note Fund. Loan terms ranged from 1 to 5 years or for a reasonable period for the purchase of a primary residence. The loans were secured by the balance in the participant's account and bore interest at the prime interest rate plus 2%. Principal and interest were paid ratably through payroll deductions.

Payment of Benefits

If a participant's employment ceased as a result of normal retirement, death or disability, the participant or the participant's beneficiaries were entitled to receive the entire contents of the account. If a participant terminated for any other reason, the participant was entitled to receive only the vested percentage of the account. Participants received benefits in a single lump sum.

Forfeited Accounts

At July 6, 2011 and December 31, 2010 forfeited nonvested accounts totaled \$96,630 and \$95,548, respectively. The forfeiture balance at July 6, 2011 was transferred to the ESCO Employee Savings Investment Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements and methodologies.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain costs of administering the Plan were paid for by the Company and included the fees of accountants and administrators.

Subsequent Events

The Plan has evaluated subsequent events through January 26, 2011, the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

The following table presents the Plan's investments as of July 11, 2011 and December 31, 2010. Investments that represent 5% or more of the Plan's net assets are separately identified.

	<u>2011</u>	<u>2010</u>

Pooled-separate accounts	-	4,859
Common/collective trusts:

Other	-	2,879,412
	<u> </u>	<u> </u>
Total investments	<u>\$ -</u>	<u>\$ 10,072,452</u>

During 2011 the Plan's investments (including investments bought, sold, and held during the year) appreciated in value by \$426,361.

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010.

Common/Collective Trusts

Common/Collective trusts are public investment vehicles valued using the NAV provided by the Trustee. The NAV is based on the value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the fair value hierarchy.

Mutual Funds

Mutual Funds are public investment securities valued using the Net Asset Value (NAV) provided by the respective mutual fund companies. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the fair value hierarchy.

Pooled-Separate Accounts

These investments were made by the Plan in a group annuity contract which was invested in units of separate pooled accounts consisting of shares in mutual funds and funds of funds. The unit value was based on the value of the underlying assets owned by the account, minus its liabilities, and then divided by the number of units outstanding. The unit value is classified within level 2 of the valuation hierarchy because the unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Guaranteed Accounts

These investments (Guaranteed Income Fund) were made by the Plan in a group annuity contract which was invested in the general assets of the Prudential Life Insurance Company who guaranteed a fixed interest rate. These investments were valued at contract value as market value adjustments did not apply upon contract discontinuance.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the

reporting date. The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010:

	December 31, 2010			
	Prices in active markets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

NOTE 5 - FUNDS HELD IN INSURANCE COMPANY GENERAL ACCOUNT

The Plan had a group annuity contract with the Prudential Life Insurance Company (the "Guaranteed Income Fund"). The Prudential Guaranteed Income Fund was fully benefit-responsive. Prudential maintained the contributions in a general account, which was credited

with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value which approximates fair value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Prudential was contractually obligated to pay the principal and specified interest rate that was guaranteed to the Plan. The crediting interest rate was based on a formula agreed upon with the issuer. Such interest rates were reviewed on a semi-annual basis for resetting. The average annual return for the Guaranteed Income Fund was 2.65% in 2010. There were no valuation reserves against contract value for the credit risk of the contract issuer or otherwise.

NOTE 6 - INFORMATION CERTIFIED BY CUSTODIANS (UNAUDITED)

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule that was prepared by the custodians and furnished to the plan administrator. The plan administrator has obtained certifications from the custodians as of July 6, 2011 and December 31, 2010 and for the period ended July 6, 2011 that such information is complete and accurate:

	<u>2011</u>	<u>2010</u>
Shares of registered investment companies	\$ -	\$ 7,795,560
Common/collective trusts	-	566,800
Guaranteed accounts	-	1,705,560
Pooled-separate accounts	-	4,859

Net appreciation in fair value of investments	426,361	913,943
Interest and dividend income	60,312	145,874
Other income	26,998	-

NOTE 7 - EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others.

The Plan's investments are managed by Prudential Life Insurance Company and held by Prudential Bank & Trust F.S.B (collectively "Prudential"). Prudential is the recordkeeper, custodian and trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions.

NOTE 8 - PLAN TERMINATION

As a result of the acquisition of the Company by ESCO Technologies, Inc. on July 31, 2010, the Plan was merged into the ESCO Employee Savings Investment Plan effective July 6, 2011. Plan assets totaling \$10,683,336 were transferred to the ESCO Employee Savings Investment Plan including \$225,454 of participant loans.

NOTE 9 - TAX STATUS

The Plan was qualified under the provisions of the Internal Revenue Code (IRC) and was not subject to Federal and state income taxes. Participating employees were not subject to Federal and state income taxes on employee and employer contributions, or on income accruing to their accounts, until they received distributions from the Plan.

The Plan was amended and restated effective February 1, 2010 and was relying on an opinion letter issued on March 31, 2008 in which the Internal Revenue Service stated that the Prototype Non-standardized Profit Sharing Plan with CODA, as then designed was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan was designed and operated in compliance with the applicable requirements of the IRC.
