NORTH COAST COOPERATIVE, INC. 401(K) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

March 31, 2011 and 2010

1. DESCRIPTION OF PLAN

The following description of the North Coast Cooperative, Inc. (the "Company") 401(k) Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General The North Coast Cooperative, Inc. 401(k) Plan and Trust is a defined contribution plan established on April 1, 1987, which covers substantially all employees. This Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and is exempt from federal and California taxes on income under the current provisions of the Internal Revenue Code and the California Revenue and Taxation Code, respectively.

Contributions The Plan allows discretionary company contributions, tax-deferred savings contributions, employer matching contributions, qualified non-elective contributions, and other contributions. Employees are eligible to participate in the Plan at the first enrollment date (January 1, April 1, July 1, October 1) after their date of hire, provided they are at least 18 years of age.

1. Discretionary Company Contributions:
   The Company may make a discretionary contribution which is not limited to its current or accumulated Net Profit.

2. Tax-Deferred Savings Contributions:
   Generally, each participant in the Plan may make a tax-deferred savings contribution through payroll deductions. For the year ended March 31, 2011, the limitation is $16,500 for participants under the age of 50, or $22,000 for participants over 50 years of age due to an additional $5,500 catch-up contribution.

3. Employer Matching Contributions:
   The employer is required to make matching contributions equal to the participants' contributions limited to a maximum of 5 percent of employee compensation.

4. Qualified Non-Elective Contributions:
   The employer may make a qualified non-elective contribution to be determined by the Company to only non-highly compensated employees.

1. DESCRIPTION OF PLAN - CONTINUED

5. Other Contributions:
Participants in the Plan under certain circumstances may roll over or transfer assets from qualified plans, subject to federal law. These amounts become part of the participant's vested balance.

Distributions Distributions to a participant or beneficiary normally commence within a reasonable time after a request due to death, hardship, disability, normal or late retirement, or termination of service.

Vesting Participants are always 100 percent vested in their account. However, prior to September 1, 2007, participants vested in employer contributions on a 6 year cliff.

Participants' Accounts An individual account is maintained for each participant, which includes the following components as of March 31:

1. Employee contributions made by the participants.

2. Employer contributions made by the employer.

3. The participant's investment income is earned on their account net of investment and administrative expenses directly deducted from their accounts.

4. Deductions for benefits paid.

5. Deductions of, and repayment of, participant loans as well as loan fees.

Loan Program Participants may apply for a loan secured by the participant's account. Generally, the maximum amount of a loan is limited to the lesser of $50,000 or 50 percent of the individual's account balance. The minimum amount of a loan is $1,000 and the participant may have only one loan outstanding at any time. Repayments must be made through payroll deductions. The repayment term shall not exceed five years unless the loan is used to acquire a principal residence.

Forfeited Accounts At March 31, 2011 and 2010, forfeited non-vested accounts totaled $- and $1,172, respectively. In 2011, employer contributions were reduced by $1,186 from forfeited non-vested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. See Note 3 for discussion of fair value measurement.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Date of Management's Review

Management has evaluated subsequent events through January 5, 2012, the date on which the financial statements were available to be issued.

New Accounting Pronouncement

In September 2010, the FASB issued guidance clarifying the classification and measurement of participant loans by defined contribution pension plans. That guidance requires that participant loans be classified as notes receivable from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest. The Plan reported participant loans as notes receivables for Plan years ending March 31, 2011 and 2010 so there is no retrospective change on the statement of net assets available for benefits. The participant loans were shown as Level 3 investments as of March 31, 2010 in the Fair Value Disclosure and per the newly adopted guidance they are no longer reported in this disclosure and have been retrospectively removed.

Terminated Participants Under the terms of the Plan Agreement, terminated participants have the option of withdrawing the accumulated benefits, valued at the date of termination, in a lump sum or rollover accumulated benefits into another plan. If the value of the vested balance is less than $5,000, a distribution will be made to the participant.

Administrative Expenses Certain record keeping expenses and investment expenses are paid by the Plan as a reduction to investment income. The sponsor generally pays all other administrative costs such as accounting and auditing, bonding insurance, etc.

There were no non-participant-directed investments in the Plan during 2011 and 2010.

5. FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:

  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 Input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2011 and 2010.

5. FAIR VALUE MEASUREMENTS - CONTINUED

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common/collective trust funds: Investments in collective trusts are stated at fair value on the statement of net assets available for benefits with an adjustment from fair value to contract value for fully benefit-responsive collective trusts. The valuation at year end is based on audited financial statements of the collective trusts, and are valued using the net asset value, referred to as NAV, provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, less its liabilities, and then divided by the number of share outstanding. The NAV is a quoted price in a market that is not active.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2011 and 2010:

Assets at Fair Value as of March 31, 2011

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,688,694	$ 1,544,239		$ 4,232,933
Total assets at fair value	$ 2,688,694	$ 1,544,239	$ -	$ 4,232,933

Assets at Fair Value as of March 31, 2010

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,410,548	$ 1,289,819		$ 3,700,367
Total assets at fair value	$ 2,410,548	$ 1,289,819	$ -	$ 3,700,367

6. INCOME TAXES

The federal income tax returns of the Plan for 2010, 2009, and 2008 are subject to examination by the IRS, generally for three years after they were filed.

7. RELATED PARTY TRANSACTIONS

There were no related party transactions during 2011 and 2010.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. TAX STATUS

The Internal Revenue Service has determined and informed the Plan Trustee, Alerus Financial, by a letter dated January 31, 2006 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
