MKI, Inc. Profit Sharing Plan

Notes to Financial Statements

Years Ended October 31, 2010 and 2009

1. Description of Plan

The following description of the ***MKI, Inc. Profit Sharing Plan*** (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all salaried employees who have three months of service and are age 21 ½ years or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

The Plan is sponsored by MKI, Inc. (the Company) which became a division of L-3 Services, Inc. as of December 31, 2007. The Plan is currently administered by Principal Life Insurance Company (the Custodian). At October 31, 2010 there were two trustees, James P. Blaire, Jr. and Jennifer Strapko.

Plan Termination/Merger

Effective December 31, 2007, MKI Systems, Inc. became a division of L-3 Services, Inc. The plan sponsor was therefore changed to L-3 Communications Corp. and new trustees were appointed.

Effective March 31, 2008, the Plan was frozen and the following amendments were adopted: no employees can become participants, no elective deferrals, no matching contributions, no discretionary company contributions, no voluntary or rollovers contributions and no loans from the Plan will be allowed.

Effective October 31, 2010, the assets of the plan were transferred to the L-3 Communications Master Savings Plan.

Contributions

Prior to the plan being frozen, participants could contribute up to the limit established by Internal Revenue Code for that year (\$16,500 for 2010). Participants who have attained age 50 before the end of the Plan year were eligible to make certain catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants directed the investment of their contributions into various investment options offered by the Plan. At the discretion of the Company's board of directors, the Company may make discretionary additional matching contributions not to exceed the federal statutory maximum. The Plan was frozen for the plan year ended October 31, 2010 and hence there were no employee or employer contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on account balance as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Each participant's account is divided into sub-accounts known as a voluntary contribution account, an employer contribution account, and where applicable, a rollover contribution account. Prior to the plan being frozen, the Plan permitted each participant to direct their investment to any of the 26 funds held by Principal Life Insurance Company.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of credited service.

Notes Receivable from Participants

Prior to the plan being frozen, participants could borrow from their fund accounts up to a maximum equal to fifty percent of their vested account balance or \$50,000, whichever is lesser. The loans were secured by the balance in the participant's account and bear interest at the rate of 5%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through regular payroll deductions.

Payment of Benefits

On termination of service, a participant whose vested account balance does not exceed \$1,000 will receive a lump sum payment. For balances greater than \$1,000 and not exceeding \$5,000, the participant may elect to have the distribution paid directly to a qualified plan in a direct rollover or to receive the distribution directly. If no election is made, the Plan shall pay the distribution in a direct rollover to an individual retirement plan. For balances exceeding \$5,000, a participant may elect a lump sum or partial withdrawals of their account balance.

Forfeitures

At October 31, 2009, forfeited nonvested account balances were \$28,036. These forfeitures were allocated to eligible participant accounts during the plan year ended October 31, 2010.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared under the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) require the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balance plus any accrued but unpaid interest.

Investment Contracts

Investment contracts held by defined contribution plans are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivable from participants and distributions) are charged directly to the participant account.

Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through March 19, 2012, the date the financial statements were available to be issued.

3. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value.

These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels. There have been no changes in the methodologies used at October 31, 2010 and 2009.

When quoted prices are available in active markets for identical instruments, investment securities are classified within Level 1 of the fair value hierarchy.

Level 2 investments include pooled separate accounts for which quoted prices are not available in active markets for identical instruments, but are instead valued based on net asset value (NAV) of the underlying investments.

Due to significant unobservable inputs included in the valuation model for the guaranteed interest accounts, the resulting fair value of this security is classified as level 3. The contract value and fair value of the guaranteed interest accounts were provided and certified by Principal Life Insurance Company and have been used in the statement of net assets available for benefits.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of 2009:

Assets at Fair Value as of October 31, 2009				
	Level 1	Level 2	Level 3	Total
Pooled separate accounts				
Blended funds (a)	\$ -	\$ 931,171	\$ -	\$ 931,171
Bond funds (b)	-	947,370	-	947,370

Value funds (g)	-	260,079	-	260,079
Total pooled separate accounts	-	4,243,884	280,289	4,524,173
Guaranteed interest accounts (h)	-	-	508,252	508,252
Total assets at fair value	\$ -	\$ 4,243,884	\$ 788,541	\$ 5,032,425

- (a) Represents investments in pooled separate accounts with an investment strategy seeking long-term growth of capital and income by investing in U.S. equities as well as bonds and preferred stocks. There are no unfunded commitments. The redemption frequency is daily and one transfer is allowed per 30 day period by each participant.
- (b) Represents investments in pooled separate accounts with an investment strategy seeking current income by investing in fixed-income instruments. There are no unfunded commitments. The redemption frequency is daily and one transfer is allowed per 30-day period by each participant.

- (c) Represents investments in pooled separate accounts with an investment strategy seeking long-term growth of capital and current income by investing in assets that are gradually shifted to more conservative investment options as the target date approaches. There are no unfunded commitments. The redemption frequency is daily and one transfer is allowed per 30-day period by each participant.
- (d) Represents investments in pooled separate accounts with an investment strategy seeking long-term growth of capital by investing in corporate securities. There are no unfunded commitments. The redemption frequency is daily and one transfer is allowed per 30-day period by each participant.
- (e) Represents investments in pooled separate accounts with an investment strategy seeking preservation of principal and liquidity by investing U.S. denominated money market instruments. There are no unfunded commitments. The redemption frequency is daily and one transfer is allowed per 30-day period by each participant.
- (f) Represents investments in pooled separate accounts with an investment strategy seeking long-term growth of capital and income by investing in real estate. There are no unfunded commitments. The redemption frequency is daily and one transfer is allowed per 30-day period by each participant.
- (g) Represents investments in pooled separate accounts with an investment strategy seeking current income by investing primarily in a portfolio whose underlying portfolios invest primarily in corporate securities that are deemed to be undervalued in price. There are no unfunded commitments. The redemption frequency is daily one transfer is allowed per 30-day period by each participant.
- (h) Represents investments in pooled separate accounts with an investment strategy seeking long-term growth of capital and current income by investing primarily in a portfolio whose underlying portfolios invest primarily in assets that are gradually shifted towards more conservative options as the target date approaches. There are no unfunded commitments. The redemption frequency is daily and one transfer is allowed per 30-day period by each participant.

Level 3 Gains and Losses

The following table reconciles the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the investment contract with insurance company for the year ended October 31, 2010:

Beginning balance	\$	788,541
Total gains or losses included in changes in net assets available for benefits		15,378
Purchases, issuances, sales and transfer from plan:		
Purchases		3,846
Issuances		(102,699)
Transfers from plan		(705,066)
Ending balance	\$	-

4. Investments

The following presents investments that represent 5% or more of the Plan's net assets at October 31.

	2010	2009
Principal Lifetime 2010 Sep Account	\$ *	\$ 359,910
Principal International Small Cap Sep Account	*	340,831
Principal Bond and Mortgage Sep Account	*	428,083
Principal Money Market Sep Account	*	556,753
Principal Government and High Quality Bond Sep Account	*	519,287
Insurance Company General Guaranteed Interest Account	*	508,252
Principal US Property Sep Account	*	280,289

*Amount represents less than 5 percent of the Plan's net assets at the end of the year.

During 2010, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$472,647.

5. Investment Contract with Principal Life Insurance Company

The Plan entered into a guaranteed investment contract with Principal Life Insurance Company. Principal Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value. Contract value, as reported to the Plan by Principal Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at October 31, 2010 and 2009 was \$-0- and \$508,252, respectively.

Certain events limit the Plan's ability to transact at contract value with Principal Life Insurance Company. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2010	2009
Based on actual earnings	3.12%	3.34%
Based on interest rate credited to participants	3.12%	3.34%

6. Related Party Transactions

Certain plan investments are shares of pooled separate accounts managed by Principal Life Insurance Company. These transactions qualify as party-in-interest transactions since Principal Life Insurance Company is the custodian as defined by the Plan. Fees paid by the Plan for the contract administration services amounted to \$957 for the year ended October 31, 2010.

7. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated May 16, 1997, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of October 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of total additions per the financial statements for the year ended October 31, 2010 to Schedule H of Form 5500:

Total additions per the financial statements	\$ 481,184
Other income not recorded on the financial statements	<u>3,390</u>
Total income per the Form 5500	<u>\$ 484,574</u>

10. Contract Administrator's Certification

MKI, Inc. Profit Sharing Plan has all its plan assets administered under a contract with Principal Life Insurance Company. Principal Life Insurance Company has certified as to the completeness and accuracy of all assets held and to all transactions and income related to these assets.
