Accutech Films, Inc.
401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Accutech Films, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Accutech Films, Inc. (the "Company") who have completed one year of eligibility service, which is defined as at least 1,000 hours of service and are age nineteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was restated on June 29, 2009 to include employees of Cleveland Plastic Films which was acquired by the Company. Those employees were immediately eligible for participation in the Plan. The Plan was amended January 1, 2010 to include an option for Roth deferrals. Additionally the Plan was amended July 1, 2010 to include the years of service for employees from other Clondalkin companies to be used in determining eligibility and vesting in the Plan.

Contributions: Each participant may contribute a portion of their gross pay to the Plan. The amount contributed is tax deferred in accordance with Section 401(k) of the Internal Revenue Code ("IRC") with the maximum amount a participant can contribute and defer being limited to certain limits as established by tax laws. The Plan allows individuals who will be at least age 50 by the end of the plan year to make an additional "catch-up" contribution, which is limited to \$5,500 annually for the year ended December 31, 2010. Participants may also contribute amounts representing distributions from other qualified defined benefit or compensation plans (rollovers).

The Company matches an amount equal to 100% of the participant's elective deferral not to exceed 2% of the participant's compensation. The employer may also make an additional discretionary profit-sharing contribution to the Plan. There were no additional discretionary contributions to the Plan for the year ended December 31, 2010.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company's contribution and an allocation of (a) the Company's discretionary contribution (if any), and (b) Plan earnings and investment gains or losses. Participants are charged with certain transaction fees as they relate to their specific accounts. Allocations of discretionary contributions are based on the ratio of a participant's compensation to the total compensation of all participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions and all actual earnings thereon. Vesting in the employer contributions and any actual earnings thereon is determined using a progressive schedule based on years of service. The schedule of vesting begins with 2 years of service resulting in 20% vesting, and progresses as follows: 3 years 40%, 4 years 60%, 5 years 80%, and culminates with 6 years vesting to 100%.

If a participant dies or becomes permanently disabled while still employed with the Company, he or she immediately becomes 100% vested even if he or she otherwise would have a vested interest of less than 100%.

Investment options: Participants may direct contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options any time throughout the year via direct phone or Internet access.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Payment terms range from 1 to 5 years. The loans are secured by the vested balance of the participant's account and bear interest at prime plus 1% at the time of the loan. Interest rates for all loans outstanding as of December 31, 2010 were 4.25%-8.75%. Principal and interest are paid through payroll deductions.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Payment of benefits: Upon termination of service, a participant will receive a lump-sum payment equal to the value of his or her account. The Plan permits certain in-service withdrawals upon a participant reaching age 59-1/2. For participants who are terminated and their account balance is \$5,000 or less, a lump-sum payment will be made to them as soon as administratively feasible following the employment termination date.

Forfeitures: Nonvested portions of terminated participants' balances are used to reduce the Company's matching contribution. At December 31, 2010 and 2009, forfeited nonvested accounts totaled \$30 and \$9,259, respectively. During 2010, \$12,223 were used to reduce the Company's matching contribution.

Expenses of the Plan: Substantially all expenses incurred in the administration of the Plan are paid by the Company. Some administrative expenses are paid by the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Subsequent events: All the effects of subsequent events that provide additional evidence about conditions that existed at the financial statement date, including the estimates inherent in the process of preparing the financial statements, are recognized in the financial statements. The Plan does not recognize subsequent events that provide evidence about conditions that did not exist at the financial statement date but arose after, but before the financial statements are available to be issued. In some cases, nonrecognized subsequent events are disclosed to keep the financial statements from being misleading.

The Plan has evaluated subsequent events through March 30, 2012, the date the financial statements were available to be issued.

Note 2. Summary of Significant Accounting Policies (Continued)

Accounting pronouncements not yet effective: In May 2011, the FASB issued an amendment, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* ("ASU 2011-04"), to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Note 5. Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

- Level 1:** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2:** Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.
 If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3:** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is the description of the valuation methodologies used for assets measured at fair value. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used as of December 31, 2010 and 2009.

Money market funds: Valued at cost, which approximates fair value.

Registered investment companies: Valued at quoted market prices of shares held by the Plan at year end.

All investments in the statements of net assets available for benefits are reported at fair value. The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009.

Assets at Fair Value as of December 31, 2010

Note 6. Income Tax Status

Effective 2010, the Plan adopted a prototype plan under the Automatic Data Processing Flexible Defined Contribution Prototype Plan and Trust which received a favorable opinion letter from the Internal Revenue Service which stated that the prototype plan is designed in accordance with applicable sections of the IRC. The Plan was last amended July 1, 2010. The Plan Administrator believes that the Plan is currently designed and is being operated in compliance with the applicable provisions of the IRC, and therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2007.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 8. Risks and Uncertainties

The Plan's participants invest in various investment securities offered by the Plan. These investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Party-in-Interest Transactions

Parties in interest are defined under the DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan trustee is Reliance Trust Company as of December 31, 2010 and the Plan trustee was Frontier Trust Company as of December 31, 2009. Reliance Trust Company and Frontier Trust Company are trustees as defined by the Plan for the periods noted and, therefore, transactions with the trustees qualify as exempt party-in-interest transactions.
