Independent Auditors' Report

To the Participants and Trustees
Jasmine Vineyards, Inc. Profit Sharing Plan
Delano, California

We have audited the accompanying statements of net assets available for benefits of Jasmine Vineyards, Inc. Profit Sharing Plan as of June 30, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Jasmine Vineyards, Inc. Profit Sharing Plan as of June 30, 2011 and 2010, and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audit for the year ended June 30, 2011 was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental information included in Schedule H-Financial Schedules (IRS Form 5500) is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

Note 1. Plan Description

The following description of the Jasmine Vineyards, Inc. Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General:

The Plan is a profit sharing plan covering the employees of Jasmine Vineyards, Inc. (the Company) who have completed 1,000 hours of service within a twelve month period and reached the age of 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

The Company makes an annual discretionary contribution of up to 25% of eligible compensation pursuant to IRC limits. The contributions are calculated using cross-testing methods, testing contributions on an equivalent benefit basis. The contribution formula for the Plan separates participants into two groups: non-owners and owners. For the years ended June 30, 2011 and 2010, the contribution percentages for non-owners and owners were 5% and 20%. Contributions are funded annually.

Forfeitures result from nonvested benefit payments remaining in the Plan for all terminated employees. These accounts will be used to reduce employer contributions.

At June 30, 2011 and 2010, forfeited nonvested accounts totaled $7,626 and $4,950, respectively. Employer contribution receivable at June 30, 2011 and 2010 was reduced by $7,626 and $4,950, respectively, from forfeited nonvested accounts.

Participant accounts:

Each participant's account is credited with (a) the Company's contributions, and (b) allocation of Plan earnings or losses. The allocation of earnings or losses is based on beginning account balance less distributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

A participant is 100% vested after five years in employer contributions, based on a graded vesting schedule.

Participants automatically become 100% vested upon death or termination due to disability.

Benefit payments and withdrawals:

Upon termination of service due to death, disability or retirement, a participant, with a vested account balance in excess of $5,000, may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum payment, installment payments, or a combination of lump-sum and installment payments. If the participant's vested account balance is less than $5,000, a lump-sum distribution will be made.

Amounts allocated to accounts of persons who, at June 30, 2011, have elected to withdraw from the Plan but have not been paid are $256.

Note 2. Significant Accounting Policies

Basis of accounting:

The financial statements of the Plan are maintained on the accrual basis of accounting.

Investment valuation and income recognition:

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invests in various investment securities. Investments securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Tax status:

The Plan and related trust are designed and operating in accordance with Section 401(a) of the Internal Revenue Code. During 2002, the Plan was restated to a Volume Submitter Plan Document, sponsored by Sungard Corbel, Inc. The Sungard Corbel, Inc. Volume Submitter Plan document and related Profit Sharing Plan Adoption Agreement have received a favorable opinion letter from the Internal Revenue Service dated January 16, 2002. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provisions for income taxes have been included in the Plan's financial statements.

Use of estimates:

The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Administrative expenses:

During the years ended June 30, 2011 and 2010, the Plan sponsor paid a significant amount of the Plan's other expenses.

Note 3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account. Payment of such amounts will be made to participants by the Trustees.

Note 4. Fair Value Disclosure

The Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB are described as follows: Level 1- inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access; Level 2 – inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means; Level 3- Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2011 and 2010:

Registered investment companies and unit investment trusts: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Common stocks and preferred/fixed rate cap securities: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriated and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level the Plan's assets at fair value as of June 30, 2011 and 2010 within the fair value hierarchy:

Independent Auditors' Report

To the Participants and Trustees
Jasmine Vineyards, Inc. Profit Sharing Plan
Delano, California

We have audited the accompanying statements of net assets available for benefits of Jasmine Vineyards, Inc. Profit Sharing Plan as of June 30, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Jasmine Vineyards, Inc. Profit Sharing Plan as of June 30, 2011 and 2010, and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audit for the year ended June 30, 2011 was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental information included in Schedule H-Financial Schedules (IRS Form 5500) is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

Note 1. Plan Description

The following description of the Jasmine Vineyards, Inc. Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General:

The Plan is a profit sharing plan covering the employees of Jasmine Vineyards, Inc. (the Company) who have completed 1,000 hours of service within a twelve month period and reached the age of 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

The Company makes an annual discretionary contribution of up to 25% of eligible compensation pursuant to IRC limits. The contributions are calculated using cross-testing methods, testing contributions on an equivalent benefit basis. The contribution formula for the Plan separates participants into two groups: non-owners and owners. For the years ended June 30, 2011 and 2010, the contribution percentages for non-owners and owners were 5% and 20%. Contributions are funded annually.

Forfeitures result from nonvested benefit payments remaining in the Plan for all terminated employees. These accounts will be used to reduce employer contributions.

At June 30, 2011 and 2010, forfeited nonvested accounts totaled $7,626 and $4,950, respectively. Employer contribution receivable at June 30, 2011 and 2010 was reduced by $7,626 and $4,950, respectively, from forfeited nonvested accounts.

Participant accounts:

Each participant's account is credited with (a) the Company's contributions, and (b) allocation of Plan earnings or losses. The allocation of earnings or losses is based on beginning account balance less distributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

A participant is 100% vested after five years in employer contributions, based on a graded vesting schedule.

Participants automatically become 100% vested upon death or termination due to disability.

Benefit payments and withdrawals:

Upon termination of service due to death, disability or retirement, a participant, with a vested account balance in excess of $5,000, may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum payment, installment payments, or a combination of lump-sum and installment payments. If the participant's vested account balance is less than $5,000, a lump-sum distribution will be made.

Amounts allocated to accounts of persons who, at June 30, 2011, have elected to withdraw from the Plan but have not been paid are $256.

Note 2. Significant Accounting Policies

Basis of accounting:

The financial statements of the Plan are maintained on the accrual basis of accounting.

Investment valuation and income recognition:

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invests in various investment securities. Investments securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Tax status:

The Plan and related trust are designed and operating in accordance with Section 401(a) of the Internal Revenue Code. During 2002, the Plan was restated to a Volume Submitter Plan Document, sponsored by Sungard Corbel, Inc. The Sungard Corbel, Inc. Volume Submitter Plan document and related Profit Sharing Plan Adoption Agreement have received a favorable opinion letter from the Internal Revenue Service dated January 16, 2002. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provisions for income taxes have been included in the Plan's financial statements.

Use of estimates:

The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Administrative expenses:

During the years ended June 30, 2011 and 2010, the Plan sponsor paid a significant amount of the Plan's other expenses.

Note 3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account. Payment of such amounts will be made to participants by the Trustees.

Note 4. Fair Value Disclosure

The Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB are described as follows: Level 1- inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access; Level 2 – inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means; Level 3- Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2011 and 2010:

Registered investment companies and unit investment trusts: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Common stocks and preferred/fixed rate cap securities: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriated and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level the Plan's assets at fair value as of June 30, 2011 and 2010 within the fair value hierarchy:

Note 6. Party-in-Interest Transactions

Certain Plan investments were shares of mutual funds held by Wells Fargo Advisors, the Plan's asset custodian. During the years ended June 30, 2011 and 2010, the Plan paid fees of $34,796 and $14,995 to Wells Fargo Advisors. These transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

Note 7. Reconciliation of the Plan Financial Statements to the Form 5500

Certain balances included on Schedule H Part I, II on the Annual Return/Report of Employee Benefits Plan (Form 5500) have been reclassified for purposes of presentation in the financial statements.

The following is a reconciliation of net assets available for benefits according to the financial statements to those shown on the Plan's Form 5500 at June 30:
