**NOTES TO FINANCIAL STATEMENTS**

**DECEMBER 31, 2010**

## NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the American Green, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

### General

The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

### Contributions

Each year, participants may contribute up to the maximum amount allowed by law. For calendar year 2010, participants may make elective deferrals up to $ 16,500. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. For calendar year 2010, participants who have reached age 50 by the end of the Plan year may make elective deferrals up to $ 22,500. Participants may also contribute amounts representing distributions (rollovers) from other qualified plans or individual retirement accounts (IRA's).

The Company may make matching contributions equal to a discretionary percentage of the participant's elective deferrals and up to a discretionary percentage of the participant's compensation, as determined each year by the Company. The Company may also make profit sharing contributions, which are allocated, in the same ratio as each participant's compensation bears to the total compensation of all such participants.

Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options.

### Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, Plan earnings (losses), and administrative expenses directly attributable to the participant. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### Vesting

Participants are immediately vested in their contributions, Company contributions, and actual earnings on all contributions.

## NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

### Participant Loans

Participants may borrow from their accounts a minimum of $ 1,000 up to a maximum equal to the lesser of $ 50,000 or 50% of their vested account balance. Loans are secured by the balance in the participant's account and bear interest at commercially reasonable rates as determined by the Plan administrator. The current interest rate for outstanding loans is 4.25%. Principal and interest payments are made through bi-weekly payroll deductions.

### Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, participants will receive a lump-sum distribution in an amount equal to the vested interest in their account.

### Forfeited Accounts

At December 31, 2010, forfeited assets amounted to $ 6,250 and were the result of incorrectly calculated Company match contributions. The forfeited assets reside in a money-market account for capital preservation and will be used to reduce future Company match contributions.

## NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Date of Management's Review

Subsequent events were evaluated through October 7, 2011, which is the date the financial statements were available to be issued.

### Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

### Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

### Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances.

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income from investments other than participant loans is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

### Payment of Benefits

Benefits are recorded when paid.

### Operating Expenses

The Company pays all expenses of maintaining the Plan.

## NOTE 3 – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were available to or used by the Plan.

The fair value of mutual funds in Level 1 is based on quoted net asset values of the shares held by the Plan at December 31, 2010 and 2009.

## NOTE 3 – FAIR VALUE MEASUREMENTS (CONTINUED)

## NOTE 8 – RISKS AND UNCERTANTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
