Note 1: Description of the Plan

The following description of The Uniontown Hospital Employee Controlled Retirement Account (Plan) provides only general information. Participants should refer to the *Plan Document and Summary Plan Description* for a more complete description of the Plan's provisions, which is available from the plan administrator.

General

The Plan is a defined contribution plan according to Code Section 403(b) sponsored by The Uniontown Hospital (Hospital) for the benefit of certain employees (full time, part time and occasional) hired after July 1, 2006 (both union and nonunion), and those hired before that date that elected to participate in the Plan at July 1, 2006, 2007 or 2009. The Fayette Regional Health System and Fayette Homecare are also participating employers. An employee is eligible to receive a contribution after 90 days of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Management Executive Committee of the Uniontown Hospital serves as the administrator of the Plan. Metropolitan Life Insurance Company served as custodian for the Plan from July 1, 2006, to August 19, 2009. Effective July 10, 2009, The Nationwide Financial Services, Inc. serves as the new plan custodian.

Effective July 1, 2011, the Plan was amended to name Fayette Regional Health System as the plan sponsor, although the participating employers remained the same: The Fayette Regional Health System, The Uniontown Hospital and Fayette Homecare.

Contributions

For eligible full-time or part-time employees who have completed 90 days of service, or for occasional or casual employees who have completed 1,000 hours of service, the Hospital makes contributions of 2-6% of eligible wages based on the number of points an employee has earned. Points are determined by the participant's age plus the participant's years of service as of the day before at the beginning of each plan year. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing the contributions to his account into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the Hospital's contribution and plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**The Uniontown Hospital
Employee Controlled Retirement Account
Notes to Financial Statements
June 30, 2011 and 2010**

Vesting

Participants are immediately vested in the Hospital's contributions plus earnings thereon.

Payment of Benefits

Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of his account or have the balance rolled to an IRA or another plan.

Plan Termination

Although it has not expressed an intention to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements
June 30, 2011 and 2010

Plan Tax Status

The Plan has not requested or obtained a determination letter as the Internal Revenue Service does not currently provide that service for 403(b) plans. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. With a few exceptions, the Plan is no longer subject to U.S. federal, state and local income tax examinations by tax authorities for years before 2008.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Hospital or the Plan at the Hospital's discretion.

Subsequent Events

Subsequent events have been evaluated through March 27, 2012, which is the date the financial statements were available to be issued.

Note 5: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, and an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

Prior to August 19, 2009, certain plan investments in mutual funds were managed by Metropolitan Life Insurance Company. The Nationwide Financial Services, Inc. (Nationwide) has been custodian of the Plan since July 10, 2009. Expenses paid to Nationwide totaled \$17,913 and \$12,959 in the year ended June 30, 2011, and the period ended June 30, 2010, respectively. Expenses paid to the third-party administrator, Capital Retirement Plan Services, totaled \$14,173 and \$9,629 in the years ended June 30, 2011 and 2010, respectively.

Certain legal and accounting fees and certain other administrative expenses relating to the Plan are paid by the Hospital. In addition, the Hospital provides certain administrative services at no cost to the Plan.

Note 6: Fair Value Measurements

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

The Uniontown Hospital
Employee Controlled Retirement Account
Notes to Financial Statements
June 30, 2011 and 2010

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include mutual funds and money market mutual funds and are valued at the net asset value (NAV) of shares held at year end. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. The Plan held no investments at year end classified as Level 2. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The Plan held no investments at year end classified as Level 3 investments.

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at June 30, 2011 and 2010:

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. The Plan's exposure to these risks has been heightened because of the current economic environment. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially adversely affect the participants' account balances and the amounts reported in the statements of net assets available for benefits. The financial statements have been prepared using values and information currently available to the Plan.
