INDEPENDENT AUDITORS' REPORT

Plan Administrator
Salaried Employees' Pension Plan of Wynn's-Precision, Inc.:

We were engaged to audit the financial statements of Salaried Employees' Pension Plan of Wynn's-Precision, Inc. (the "Plan") as of June 30, 2011 and 2010, and for the years then ended, as listed in the foregoing table of contents. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by The Bank of New York Mellon for 2011 and KeyBank National Association for 2010, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustees as of and for the years ended June 30, 2011 and 2010 that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustees, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SALARIED EMPLOYEES' PENSION PLAN OF WYNN'S-PRECISION, INC.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011 AND 2010

NOTE 1 – PLAN DESCRIPTION AND RELATED INFORMATION

The following brief description of the Salaried Employees' Pension Plan of Wynn's-Precision, Inc. (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a complete description of the Plan.

Purpose of the Plan - The Plan was established to provide retirement benefits to all salaried employees of Wynn's-Precision, Inc. and its affiliated companies (collectively referred to as the "Company"), who meet certain requirements regarding length of employment and age. Until the applicable freeze dates, employees could voluntarily contribute up to 3% of their compensation to the Plan. Effective January 1, 2001, the Plan was amended in its entirety and accumulation of benefits for the eligible participants ceased as of the following freeze dates:

- Dynamic Seals, Inc. – December 31, 2000;
- Wynn's Keeper, Inc. – February 28, 2001;
- Wynn's-Precision, Inc. – May 1, 2001.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

All of the following information relates only to those eligible participants, who were hired prior to the applicable freeze dates.

Pension Benefits - The normal retirement age is sixty-five years. The standard noncontributory benefit is \$100.00 per month. In no event shall the noncontributory benefit of an employee who was an active participant on December 31, 1982 be less than \$3.50 times credited service at the applicable freeze date. The standard contributory benefit includes the above plus 2.33% of monthly plan compensation multiplied by the number of years of service at retirement date (not to exceed 15 years). In addition, this benefit is increased by .75% of monthly plan compensation for those participants retiring prior to January 1, 1991 and 1.0% for those participants retiring after December 31, 1990 multiplied by benefit service in excess of 15 years. Employee service vests 100% upon the completion of five years of continuous service. Early retirement and disability benefits are available to any participant who has completed five or more years of service and is within ten years of his normal retirement date. An eligible participant may choose an early retirement monthly pension benefit or receive a disability benefit determined as of his Early Retirement Date, reduced actuarially for each month by which such deferred date precedes his Normal Retirement Date. Severance benefits in an amount equal to the participant's accumulated benefit are available to employees who have completed five years of credited service when employment is terminated. Death benefits prior to termination of employment are payable in an amount equal to the participant's accumulated benefit.

Plan Funding Policies and Administration - The Plan is funded by contributions from the Company in such amounts so as to comply with the minimum funding requirements of ERISA. Under ERISA, no company contribution was required, and no contribution was made for 2011 and 2010. The Plan incurs all significant administrative costs.

SALARIED EMPLOYEES' PENSION PLAN OF WYNN'S-PRECISION, INC.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2011 AND 2010

NOTE 1 – PLAN DESCRIPTION AND RELATED INFORMATION (CONTINUED)

Plan Termination - Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, its available net assets will be allocated to benefits as prescribed by ERISA and its related regulations, generally in the following order:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving had they retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations, as discussed below.
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Tax Status - The Internal Revenue Service has determined and informed the plan administrator by a letter dated July 21, 1997, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

United States generally accepted accounting principles require the Plan Administrator to evaluate uncertain positions taken by the Plan. The Plan Administrator has concluded that as of June 30, 2011, there were no uncertain tax positions taken or expected to be taken by the Plan. The Plan has not recognized any interest or penalties related to uncertain tax positions.

SALARIED EMPLOYEES' PENSION PLAN OF WYNN'S-PRECISION, INC.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2011 AND 2010

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Tax Status (continued) - Each year, the Plan Administrator files Form 5500 Annual Return/Report of Employee Benefit Plan with the Employee Benefits Security Administration of the U.S. Department of Labor. Currently, there are no examinations in progress or planned by any federal authorities with respect to these filings.

Accounting Periods – All references to 2011 and 2010 in these financial statements refer to the years ended June 30, 2011 and 2010, respectively, unless otherwise noted.

Basis of Accounting - The financial statements of the Plan are maintained on the accrual basis of accounting. Contributions are recognized in the year accrued by the Company. Security transactions are accounted for on the trade date. Interest and dividend income are recorded when earned.

Valuation of Investments - The Company has established the Parker-Hannifin Collective Trust (the "Master Trust") at The Bank of New York Mellon. The only participants in the Master Trust are the various pension plans of the Company. A plan acquires interests and income in the Master Trust based on the fair value as of the date of acquisition. A plan realizes a gain or loss when withdrawing interests from the Master Trust (i.e. selling interests back to the Master Trust) measured by the difference between the average acquisition cost and the fair value of the Master Trust at the withdrawal date.

The investment valuation and income recognition policies of the Master Trust are as follows. Investments in securities traded on the national securities exchange are valued on the last reported sales price on the last business day of the fiscal year; securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at fair value as determined by the trustee. Purchases and sales of securities are reflected on a trade date basis. Gain or loss on disposition of securities is based on average cost. The Master Trust records dividend income on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis.

See Notes 3 and 4 for further details related to investments.

Benefits - Benefit payments to participants are recorded upon distribution.

Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Events Occurring after Reporting Date - The Plan has evaluated events and transactions that occurred between June 30, 2011 and March 24, 2012, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

SALARIED EMPLOYEES' PENSION PLAN OF WYNN'S-PRECISION, INC.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2011 AND 2010

NOTE 3 – INVESTMENTS

The Plan's net assets consist entirely of its investment in the Master Trust.

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Investments held by the Master Trust at June 30, 2011 and 2010 are summarized as follows:

NOTE 4 – FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a framework for measuring fair value and expands the related disclosure requirements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The literature establishes a valuation hierarchy for disclosure of the inputs to the valuations used to measure fair value. The hierarchy prioritizes the inputs into three broad levels as follows:

Level 1 – Quoted prices for identical assets in active markets.

Level 2 – Quoted prices for similar assets in active markets; quoted prices for identical or similar assets in markets that are not active; and model-driven valuations whose inputs are observable or whose significant assumptions are observable principally from or corroborated by observable market data through correlation.

Level 3 – Significant inputs to the valuation model are unobservable.

A financial asset or liability's classification within the hierarchy is determined based on the lowest input that is significant to the fair value measurement. Inputs used in valuing financial assets are not necessarily indicative of the risk associate with investing in the assets.

NOTE 4 – FAIR VALUE MEASUREMENTS (CONTINUED)

The valuation techniques used to measure the fair values in the tables above are as follows:

Cash equivalents, which include repurchase agreements and other short-term investments, are valued at cost, which approximates fair value.

Equity securities consist of common stock of both U.S. and foreign corporations and are valued at the closing price reported on the active market on which the individual securities are traded

Fixed income securities are valued using both market observable inputs for similar assets that are traded on an active market and the closing price on the active market on which the individual securities are traded.

Mutual funds are valued using the closing market price reported on the active market on which the fund is traded and primarily consist of equity and fixed income funds. The equity funds primarily provide exposure to U.S. and international equities and fixed income securities, real estate and commodities. The fixed income funds primarily provide exposure to high-yield securities and emerging market fixed income instruments. In the June 30, 2010 table presented above, the classification of the fixed income funds category has been changed from the prior year classification to more accurately categorize the assets within the fair value hierarchy. There has been no change in the method used to calculate the fair value of these assets.

Common/collective trusts primarily consist of equity and fixed income funds and are valued using a net asset value per share. Common/collective trust investments can be redeemed daily and without restriction. Redemption of the entire investment balance generally requires a 30-day notice period. At June 30, 2011 and 2010, the Plan had no unfunded commitments related to these investments. The equity funds provide exposure to large, mid and small cap U.S. equities, international large and small cap equities and emerging market equities. The fixed income fund provides exposure to U.S., international and emerging market debt securities.

Miscellaneous primarily includes limited partnerships, which primarily consist of small cap equity and hedge funds and are valued using a net asset value per share. Limited partnership investments can be redeemed daily and without restriction. Redemption of the entire investment balance generally requires a 30-day notice period. At June 30, 2011 and 2010, the Plan had no unfunded commitments related to these investments. Small cap equity funds provide exposure to domestic small cap equities and hedge funds provide exposure to a variety of hedging strategies including long/short equity, relative value, event driven and global macro.

NOTE 5 – ACTUARIAL INFORMATION

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees and their beneficiaries. Benefits under the Plan are based on employees' compensation during the five years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by Hewitt Associates LLC and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrement such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The following presents the actuarial present value of accumulated plan benefits at July 1, 2010 and 2009:

	<u>July 1, 2010</u>	<u>July 1, 2009</u>
Vested benefits:		
Participants currently receiving benefits	\$ 1,034,001	\$ 698,810
Other participants	3,021,879	4,002,906
Nonvested benefits	<u>34,666</u>	<u>39,789</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 4,090,546</u>	<u>\$ 4,741,505</u>

The following presents the change in the actuarial present value of accumulated plan benefits from July 1, 2009 to July 1, 2010:

Actuarial present value of accumulated plan benefits at July 1, 2009	\$ 4,741,505
Increase (decrease) attributable to:	
Increase for interest due to the decrease in the discount period	349,909
Plan experience changes	180,618
Change in actuarial assumptions (primarily related to change in interest rate and the updating of mortality tables)	94,396
Plan benefits paid	<u>(1,275,882)</u>
Actuarial present value of accumulated plan benefits at July 1, 2010	<u>\$ 4,090,546</u>

NOTE 5 – ACTUARIAL INFORMATION (CONTINUED)

The significant assumptions for Plan reporting requirements underlying the Plan's actuarial computations at July 1, 2010 valuation were as follows:

Actuarial cost method	Projected Unit Credit Cost Method
Interest rate	8.5%
Assumed mortality rates	RP-2000 Combined Healthy Mortality Table projected with Scale AA to 2010 (previously used RP-2000 Healthy Mortality Table projected with Scale AA to 2009)
Retirement age	The incidence of retirement ranges from .02 to 1.0 for participants who are age 55 or older

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 6 – INFORMATION CERTIFIED BY THE TRUSTEES

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements that was prepared by The Bank of New York Mellon for 2011 and KeyBank National Association for 2010, the trustees of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustees that such information is complete and accurate.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V—Summary of Plan Provisions

Plan Sponsor Parker Hannifin Corporation.

Effective Date June 14, 1959; as amended effective January 1, 2001 to freeze Plan participation and the accumulation of benefits as of the following “freeze dates.”

Freeze Date	Location
12/31/2000	Dynamic Seals, Inc.
02/28/2001	Wynn's Keeper, Inc.
05/01/2001	Wynn's-Precision, Inc.

Effective July 1, 2004, this Plan was further amended to change the Plan Year from a calendar year to the 12-month period beginning each July 1 and ending the following June 30. Most recently amended effective July 1, 2008 by Amendment 6.

Participation Eligible salaried employees participate in the noncontributory portion of the Plan upon date of hire. Participation in the contributory portion of the Plan is dependent upon the employee's agreement to make the required contributions.

Effective with the January 1, 2001 amendment to the Plan, participation is closed as of the applicable freeze date.

Service Before January 1, 1976, service for all purposes is credited from last date of hire to nearest $\frac{1}{4}$ year.

Service after January 1, 1976 for all purposes is credited on the basis of full years and month of employment completed as of a participant's applicable freeze date.

Accrual of Benefits A participant has accumulated a benefit payable at Normal Retirement Date based on Compensation and Benefit Service as of the applicable freeze date.

Schedule SB Attachment (Form 5500)—2010 Plan Year
Salaried Employees' Pension Plan of Wynn's Precision, Inc.

Employee Contributions

Employees are required to make contributions equal to 3% of compensation (not to exceed \$200,000, as adjusted) to receive contributory benefit accruals.

Employee contribution requirements were suspended as of the applicable freeze date.

Compensation

Compensation for contribution and pension calculation purposes is equal to 1/12th of the average of basic annual rate of compensation (not to exceed \$200,000 as adjusted) as of each January 1 for the highest five consecutive years of contributory benefit service granted prior to the applicable freeze date.

Normal Retirement

Eligible at age 65 or the fifth anniversary of plan participation, if later.

The monthly benefit is equal to the sum (a) and (b):

- a. Noncontributory Benefit amount determined as a monthly benefit equal to \$100.00, reduced by 1/15th for each year of service less than 15 years at the employee's Normal Retirement Date.

In no event shall the noncontributory benefit of an employee who was an active participant on December 31, 1982 be less than \$3.50 times credited service at his freeze date.

- b. Contributory Benefit amount determined as follows:
 1. 2-1/3% of monthly plan compensation times benefit service (not to exceed 15 years), plus
 2. 1% of monthly plan compensation times benefit service in excess of 15 years.

For purposes of determining the contributory benefit at the freeze date, benefit service means that period of credited service during which the participant made employee contributions as required by the contributory portion of the plan.

Early Retirement

Eligible at age 55 and 5 years of service.

The early retirement benefit is the accrued retirement benefit reduced 1/180 for each of the first 60 months and 1/360 for each additional month by which the Early Retirement Date precedes the Normal Retirement Date.

Termination

Participants who were active employees at the applicable freeze date became eligible for 100% of their accrued retirement benefit payable at their Normal Retirement Date. A participant with five years of service may elect to commence their benefit as early as age 55 reduced as for early retirement.

Spouse Pension

Upon death of an unmarried contributory participant or a married participant with non-vested benefit, the beneficiary receives the participant's accumulation payable in a lump sum. The surviving spouse of a vested participant receives the spouse's portion of a 100% survivor annuity reduced for early commencement and payable at the earliest retirement age of the participant or later date if elected by the spouse.

Disability Retirement

Eligible at age 55 and 5 years of credited service.

The disability retirement benefit is the accrued retirement benefit reduced for early payment.

Late Retirement

Eligible if employment continues after Normal Retirement Date.

The late retirement benefit is equal to the retirement benefit determined at the applicable freeze date based on Normal Retirement Benefit formula and plan compensation and credited service at such date.

Forms of Payment

An employee will normally receive his benefit on a straight-life basis or, if married, the actuarial equivalent of such benefits payable as a 100% joint and survivor annuity. A single life annuity, 10 year certain annuity, and 50% Joint and survivor annuity are also available options.
