THE HOTWATT, INC. PROFIT SHARING & 401(K) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED JUNE 30, 2011 AND 2010

A. Description of Plan:

The following description of The Hotwatt, Inc. Profit Sharing & 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Hotwatt, Inc. Profit Sharing & 401(k) Retirement Plan became effective on July 1, 1986. The Plan is a defined contribution benefit plan covering substantially all employees of Hotwatt, Inc. Effective July 1, 1992, the Plan was amended to include a salary reduction provision under Section 401(k) of the Internal Revenue Code for the exclusive benefit of eligible employees of Hotwatt, Inc. (the Company). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility:

All employees of Hotwatt, Inc. are eligible to participate in the 401(k) portion of the Plan on their date of hire or their 21st birthday, whichever is later.

Employees who are at least twenty-one years of age and have completed one year of service are eligible to participate in the profit sharing portion in the Plan.

Contributions:

The Company may make annual contributions to the Plan at the discretion of the Board of Directors, not to exceed the maximum amount permitted by the Internal Revenue Code.

Participants may contribute the maximum amount permitted by the Internal Revenue Code.

Participant accounts:

Employer contributions are allocated to participant accounts based on the participant's compensation.

Income is allocated to participant accounts pro-rata when received; gains and losses from the sale of assets are allocated to the participant(s) initiating the sale; unrealized gains/losses are inherent in the participant's balance on a daily basis, since all assets are priced daily.

A. Description of Plan – (continued):

Payment of benefits:

Eligible employees are entitled to payment of benefits beginning sixty days after attaining normal retirement age (65). If a participant's employment ends because of disability, his/her account becomes fully vested. Distributions in an amount equal to the value of a participant's account will be made in four different forms:

- a. Lump-sum distribution of participant's entire account;
- b. Installment payments approximately equal in amount payable in a manner so that 50% of the benefits are paid over the life expectancy of the joint lives of the participant and his/her spouse, and 50% of such benefits are paid over the life expectancy of the survivor, unless the participant is not married and, in such case, 100% of the benefits must be paid over the participant's life expectancy;
- c. Purchase and distribution of non-transferable annuities; or
- d. Any reasonable combination of the above or any reasonable time or manner of distribution not otherwise prohibited by the Plan.

If a participant's employment ends because of death, his/her account becomes fully vested, and any part of his/her account not otherwise disposed of under the Plan will be distributed to the beneficiaries named in the manner elected by the participant or, if not determined, in a lump-sum distribution to the participant's estate.

Vesting:

A participant is immediately vested in his or her contributions, plus actual earnings thereon.

A participant's vested interest in employer contributions and earnings thereon is as follows:

<u>Years of Service</u>	<u>% of Account Vested</u>
One	0%
Two	20%
Three	40%
Four	60%
Five	80%
Six	100%

(continued)

A. Description of Plan – (continued):

Vesting: - (continued)

If an employee terminates before rendering six years of services, he/she forfeits the right to receive the nonvested portion of his/her benefits. Forfeitures of nonvested amounts are used to offset the administrative expenses of the Plan.

Notes receivable from participants:

The Trustee may make loans to participants provided the loans, among other things, are made available to all participants on a reasonably equivalent basis; bear a reasonable interest rate; are adequately secured; and, have a definite repayment schedule to be paid over a reasonable period of time, not to exceed beyond the earlier of five years or normal retirement date.

Hardship withdrawals:

The Plan does allow participants to make hardship withdrawals, provided certain conditions are met.

Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

B. Summary of Significant Accounting Policies:

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED JUNE 30, 2011 AND 2010

(continued)

B. Summary of Significant Accounting Policies – (continued):

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Income taxes:

The Plan obtained its latest determination letter on November 19, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code; and the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2008.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payments of benefits:

Benefits are recorded when paid.

Administrative expenses:

Administrative expenses relating of the Plan which are not paid by the Company are allocated to the individual accounts of participants as a reduction of investment earnings.

The Plan has evaluated subsequent events through April 2, 2012, which is the date the financial statements were available to be issued.

D. Fair Value Measurements:

FASB ASC 820, *Fair Value Measurements and Disclosures*, defines fair value, establishes a framework to measure fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability, or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach are used to measure fair value.

Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 – valued via quoted prices in active markets for identical assets, from direct market inputs from sources independent of the reporting entity.

Level 2 – valued via observable inputs that might reflect a similar, but not identical, asset in an active or inactive market.

Level 3 – valued based on significant unobservable units, which might include the assumptions of the party valuing the assets, or be the result of modeling necessitated by a lack of market activity for the security in question.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2011 and 2010.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the plan at year end.
