INDEPENDENT AUDITORS' REPORT

To the Trustees and Participants of the Employees Pension Plan of Battelle Memorial Institute:

We have audited the accompanying statements of net assets available for benefits of the Employees Pension Plan of Battelle Memorial Institute (the "Plan") as of June 30, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the financial status of the Plan as of June 30, 2011 and 2010, and the changes in its financial status for the years then ended in conformity with accounting principles generally accepted in the United States of America.

70	100.00	4,051	4,051	283,566
Total			100,000	6,003,538
Average				60.04

The weighted average retirement age is the total for column E divided by the total for column D, rounded to the nearest integral age. It should be noted that while only integral values are shown in the table, the full content of each cell, including decimal portions, is used in the calculations.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial assumptions****Discount rate sponsor elections**

▪ Segment rates or full yield curve	Segment
▪ Look-back months	4
▪ First 5 years	4.44%
▪ Next 15 years	6.62%
▪ Over 20 years	6.74%

Mortality sponsor elections

▪ Healthy participants	Section 430(h)(3) prescribed separate generational annuitant and nonannuitant mortality tables.
▪ Pre-1995 disabilities	Revenue Ruling 96-7 table for participants who became disabled before 1995
▪ Post-1994 disabilities	Revenue Ruling 96-7 table for participants who became disabled after 1994 and are eligible for Social Security disability benefits

Non-417(e) lump sums

▪ Mortality table	N/A
▪ Interest rate	N/A

Other economic assumptions

▪ Salary increases	Salary rates begin with 12.0% at age 20 and reduce until age 61 where the rate is then held constant at 4.5% to age 70. However, salary increases during 2010 are expected to be 50% of the long term rates. See table of sample rates.
▪ Social Security wage base	3.50% per year
▪ Inflation	2.50% per year
▪ Expected investment return	7.75% per year for years 2008 through 2010
▪ Expenses	The prior year's administrative and investment expenses adjusted for expected events, rounded up to the next \$5,000. For 2010, \$4,215,000 is added to current year normal cost.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- **Accrual of Future Credited Service for Benefit Accrual** Hourly employees are assumed to accrue .30 of a year during each future plan year. Non-hourly full-time employees are assumed to accrue 1 year for each future year of employment. Non-hourly employees who are not full-time are assumed to accrue 1 year times their percent full-time for each future year of employment

Demographic assumptions

Withdrawal	Rates are based on length of service and age, based on Battelle's actual experience. See table of sample rates.		
Disability incidence	1985 Pension Disability Table (Class 1) with an adjustment of 43% for Battelle experience. See table of sample rates.		
Retirement age	Rates are based on length of service and age, based on Battelle's actual experience. See table of sample rates.		
Benefit commencement age	Participants retiring from active status are assumed to start their pension benefits immediately. Participants who terminated prior to retirement eligibility are assumed to commence their benefits on the first day of the month preceding, or coinciding with the participant's 65th birthday.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods****Asset methods**

We used financial data submitted by the trustee as of the valuation date without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

We used the participant data supplied by the plan sponsor. We have reviewed the data and have no reason to doubt its substantial accuracy. Participants or former participants are included or excluded from the valuation as described below:

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.
- **Disabled participants:** The liabilities for participants on long-term disability have been included with the liabilities for terminated vested participants. Participants who become disabled before retirement continue to earn credited service during their disability. We have valued these participants using the assumption that they will remain disabled until normal retirement.
- **Transferred participants:** The liabilities for employees who have transferred into another business unit of the plan sponsor have been included with the liabilities for terminated vested participants; liabilities for employees who have transferred from another business unit of the plan sponsor have been included with the liabilities for active participants, with credited service from date of transfer.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Thus, the total pension to which each participant is expected to become

entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount."

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Plan amendments:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* The plan does not have any unpredictable contingent event benefits.
 - *Plan amendments:* See above.
 - *Prohibited payments:* The plan does not have any limitations on prohibited benefits prior to the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70 ½. This valuation does not currently include increases for current participants over age 70, as it was determined the effect of doing so would be minimal. This will be reevaluated on an annual basis.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). The funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Following is a summary of the major plan provisions used to determine the plan's financial position. It should not be used in determining plan benefits.

Effective date and plan year	Original plan: July 18, 1941 Restated plan: July 1, 2002 Plan year: July 1 through June 30
Most recent amendment	July 1, 2010
Status of the plan	The plan has ongoing benefit accruals and new employees are eligible to participate in the plan once they satisfy the participation requirements.
Significant events that occurred during the year	None.

Definitions

▪ Covered employees	Any Employee who is employed by a Participating Employer and who is not classified as one or more of the following: (1) a member of the Board of Directors (formerly Board of Trustees) unless such member is also an employee; (2) an employee who is covered by a collective bargaining agreement unless such agreement provides for participation in the Plan; (3) an individual employed outside the United States by a foreign-based subsidiary or division of Employer; (4) an employee of the Pacific Northwest Laboratories of Battelle Memorial Institute; (5) effective January 1, 2008, an employee of Battelle National Biodefense Institute, LLC; (6) an employee who is covered by any other qualified defined benefit pension plan funded by Employer; (7) an employee of any Battelle Affiliate that has not adopted this Plan for its employees; (8) a Leased Employee; (9) an independent contractor; and (10) effective on and after February 13, 2003, an individual employed as a telephone interviewer or research intern. For the period from May 10, 2001 to February 13, 2003, an individual employed for the sole purpose of completing a specific project or projects expected to be of limited duration not to exceed 12 months shall not be considered an Eligible Employee.
▪ Participation	Participation commences on the date of employment for employees other than hourly employees. Hourly employees participate after completing 1,000 hours of service.
▪ Employee contributions	None.

Schedule SB, Part V — Summary of Plan Provisions

▪ Credited Service for Vesting	A participant receives one year of Credited Service for Vesting for every plan year he is credited with at least 1,000 hours of service or a fraction of a year if credited with at least 500 hours of service.
▪ Credited Service for Benefit Accrual	A participant receives one year of Credited Service for Benefit Accrual for every plan year he is credited with at least 2,080 hours, or a fraction of a year if credited with less than 2,080 hours. Note that hourly employees must complete a minimum of 1,000 hours of service to receive any credit.
▪ Monthly compensation	Monthly equivalent of compensation as if the employee worked full-time. Effective 7/1/2001, incentive compensation and overtime are counted as plan compensation. However, compensation is limited to \$245,000 annually (indexed for future years).
▪ Final average earnings	The average of the highest 60 consecutive months of compensation.
▪ Accrued benefit	The normal retirement benefit based on Credited Service for Benefit Accrual and Final Average Compensation on the date of determination.
Normal retirement	
▪ Eligibility	Attainment of age 65.

Schedule SB, Part V — Summary of Plan Provisions

▪ Benefit	Larger of: i) <u>For service after June 30, 1979</u> - 1.2% of Final Average Compensation plus .45% of Final Average Compensation in excess of Social Security Covered Compensation per year of Credited Service for Benefit Accrual (maximum 35). <u>For service before July 1, 1979</u> - 1-1/2% of Final Average Compensation per year of Credited Service for Benefit Accrual. No participant's accrued benefit shall be less than his accrued benefit under the provisions of the prior plan on July 1, 1990, for most participants and July 1, 1989, for certain highly compensated participants; and, ii) Accrued Retirement Benefit as of June 30, 1994, plus 1.2% of Final Average Compensation plus .45% of Final Average Compensation in excess of Social Security Covered Compensation per year of Credited Service for Benefit Accrual after June 30, 1994 (total Credited Service for Benefit Accrual after July 1, 1979 may not exceed 35). Benefits attributable to service prior to July 1, 2009 are adjusted actuarially from the prior 10 years Certain and Life normal form to the current Single Life Annuity form of payment.
Early retirement	
▪ Eligibility	The later of attainment of age 50 and the completion of 5 years of Credited Service for Vesting.
▪ Benefit	<u>Benefit Attributable to Credited Service for Benefit Accrual earned prior to July 1, 2009</u> Normal retirement benefit, reduced as follows: <u>10 or more years of Credited Service for Vesting</u> - No reduction after age 62; 6-2/3% per year reduction from 62 to 55; actuarial equivalent reduction prior to 55. <u>Less than 10 years of Credited Service for Vesting</u> - 6-2/3% reduction for each of the first 5 years prior to age 65; 3-1/3% for each of the next 5 years; actuarial equivalent thereafter.

Schedule SB, Part V — Summary of Plan Provisions

▪ Benefit	<u>Benefit Attributable to Credited Service for Benefit Accrual earned after July 1, 2009</u> Normal retirement benefit, actuarially reduced based on the 1984 Unisex Pension Mortality Table (set back three years for a Spouse, or Registered Domestic Partner, if applicable) and 7% interest compounded annually.
Late retirement	
▪ Eligibility	Actual retirement after age 65.
▪ Benefit	The benefit reflects Credited Service for Benefit Accrual and Monthly Compensation earned after age 65.
Deferred vested	
▪ Eligibility	100% after 5 years of Credited Service for Vesting; no vesting prior to 5 years. Participant is 100% vested on normal retirement date. As a result of Section 420 transfers to the retiree medical plan, effective July 1, 2000, any participant who earns at least one hour of vesting service during the plan year ending June 30, 2000 is deemed fully vested. This has been updated through June 30, 2009. Employees hired on or after July 1, 2009 will become vested according to the typical vesting schedule described above.
▪ Benefit	Accrued Retirement Benefit payable at age 65 or payable at or after age 55 and reduced for each month benefit commencement date precedes age 65.
Disability	
▪ Eligibility	For salaried participants, total and permanent disability as defined in the plan.
▪ Benefit	A monthly annuity equal to the regular retirement benefit calculated with Compensation and Credited Service for Benefit Accrual to benefit commencement date as if the participant were employed on the same basis immediately before disablement. This benefit will be reduced for early retirement if applicable.
Pre-retirement death	
▪ Eligibility	Eligible if employee has a vested benefit.
▪ Benefit prior to early retirement	For death after vesting but prior to early retirement eligibility the benefit is equal to a 100% joint and survivor annuity payable when the participant would have reached age 50 (benefits are payable for 120 months if there is no surviving spouse).

Schedule SB, Part V — Summary of Plan Provisions

▪ Benefit after early retirement eligible	For death after early retirement eligibility the benefit is calculated as if the participant retired the day before death and elected a 100% joint and survivor annuity (benefits are payable for 120 months if there is no surviving spouse).
Form of benefits	
▪ Automatic form for unmarried participants	Single Life Annuity
▪ Automatic form for married participants	100% Joint & Survivor Annuity
▪ Optional forms	50%, 75%, or 100% joint and survivor annuity, life annuity with 5 or 10 years of payments certain to be made. Additional options include a guaranteed number of payments of any duration with or without a life annuity.
▪ Optional form conversion factors	Optional forms of benefit, other than the lump sum, are determined using the 1984 Unisex Pension Mortality Table (set back three years for a Spouse, or Registered Domestic Partner, if applicable) and 7% interest compounded annually.
Miscellaneous	
▪ Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2010, the limit is \$245,000.
▪ Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2010, the limit is \$195,000.

Plan provision changes since prior valuation

- Maximum compensation and maximum benefits were updated from 2009 to 2010, although the limits did not change so there was no impact on results.
- A minimum benefit was updated effective June 30, 2010 for certain participants.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Plan amendments:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* The plan does not have any unpredictable contingent event benefits.
 - *Plan amendments:* See above.
 - *Prohibited payments:* The plan does not have any limitations on prohibited benefits prior to the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70 ½. This valuation does not currently include increases for current participants over age 70, as it was determined the effect of doing so would be minimal. This will be reevaluated on an annual basis.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). The funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Following is a summary of the major plan provisions used to determine the plan's financial position. It should not be used in determining plan benefits.

Effective date and plan year	Original plan: July 18, 1941 Restated plan: July 1, 2002 Plan year: July 1 through June 30
Most recent amendment	July 1, 2010
Status of the plan	The plan has ongoing benefit accruals and new employees are eligible to participate in the plan once they satisfy the participation requirements.
Significant events that occurred during the year	None.

Definitions

▪ Covered employees	Any Employee who is employed by a Participating Employer and who is not classified as one or more of the following: (1) a member of the Board of Directors (formerly Board of Trustees) unless such member is also an employee; (2) an employee who is covered by a collective bargaining agreement unless such agreement provides for participation in the Plan; (3) an individual employed outside the United States by a foreign-based subsidiary or division of Employer; (4) an employee of the Pacific Northwest Laboratories of Battelle Memorial Institute; (5) effective January 1, 2008, an employee of Battelle National Biodefense Institute, LLC; (6) an employee who is covered by any other qualified defined benefit pension plan funded by Employer; (7) an employee of any Battelle Affiliate that has not adopted this Plan for its employees; (8) a Leased Employee; (9) an independent contractor; and (10) effective on and after February 13, 2003, an individual employed as a telephone interviewer or research intern. For the period from May 10, 2001 to February 13, 2003, an individual employed for the sole purpose of completing a specific project or projects expected to be of limited duration not to exceed 12 months shall not be considered an Eligible Employee.
▪ Participation	Participation commences on the date of employment for employees other than hourly employees. Hourly employees participate after completing 1,000 hours of service.
▪ Employee contributions	None.

Schedule SB, Part V — Summary of Plan Provisions

▪ Credited Service for Vesting	A participant receives one year of Credited Service for Vesting for every plan year he is credited with at least 1,000 hours of service or a fraction of a year if credited with at least 500 hours of service.
▪ Credited Service for Benefit Accrual	A participant receives one year of Credited Service for Benefit Accrual for every plan year he is credited with at least 2,080 hours, or a fraction of a year if credited with less than 2,080 hours. Note that hourly employees must complete a minimum of 1,000 hours of service to receive any credit.
▪ Monthly compensation	Monthly equivalent of compensation as if the employee worked full-time. Effective 7/1/2001, incentive compensation and overtime are counted as plan compensation. However, compensation is limited to \$245,000 annually (indexed for future years).
▪ Final average earnings	The average of the highest 60 consecutive months of compensation.
▪ Accrued benefit	The normal retirement benefit based on Credited Service for Benefit Accrual and Final Average Compensation on the date of determination.
Normal retirement	
▪ Eligibility	Attainment of age 65.

Schedule SB, Part V — Summary of Plan Provisions

▪ Benefit	Larger of: i) <u>For service after June 30, 1979</u> - 1.2% of Final Average Compensation plus .45% of Final Average Compensation in excess of Social Security Covered Compensation per year of Credited Service for Benefit Accrual (maximum 35). <u>For service before July 1, 1979</u> - 1-1/2% of Final Average Compensation per year of Credited Service for Benefit Accrual. No participant's accrued benefit shall be less than his accrued benefit under the provisions of the prior plan on July 1, 1990, for most participants and July 1, 1989, for certain highly compensated participants; and, ii) Accrued Retirement Benefit as of June 30, 1994, plus 1.2% of Final Average Compensation plus .45% of Final Average Compensation in excess of Social Security Covered Compensation per year of Credited Service for Benefit Accrual after June 30, 1994 (total Credited Service for Benefit Accrual after July 1, 1979 may not exceed 35). Benefits attributable to service prior to July 1, 2009 are adjusted actuarially from the prior 10 years Certain and Life normal form to the current Single Life Annuity form of payment.
Early retirement	
▪ Eligibility	The later of attainment of age 50 and the completion of 5 years of Credited Service for Vesting.
▪ Benefit	<u>Benefit Attributable to Credited Service for Benefit Accrual earned prior to July 1, 2009</u> Normal retirement benefit, reduced as follows: <u>10 or more years of Credited Service for Vesting</u> - No reduction after age 62; 6-2/3% per year reduction from 62 to 55; actuarial equivalent reduction prior to 55. <u>Less than 10 years of Credited Service for Vesting</u> - 6-2/3% reduction for each of the first 5 years prior to age 65; 3-1/3% for each of the next 5 years; actuarial equivalent thereafter.

Schedule SB, Part V — Summary of Plan Provisions

▪ Benefit	<u>Benefit Attributable to Credited Service for Benefit Accrual earned after July 1, 2009</u> Normal retirement benefit, actuarially reduced based on the 1984 Unisex Pension Mortality Table (set back three years for a Spouse, or Registered Domestic Partner, if applicable) and 7% interest compounded annually.
Late retirement	
▪ Eligibility	Actual retirement after age 65.
▪ Benefit	The benefit reflects Credited Service for Benefit Accrual and Monthly Compensation earned after age 65.
Deferred vested	
▪ Eligibility	100% after 5 years of Credited Service for Vesting; no vesting prior to 5 years. Participant is 100% vested on normal retirement date. As a result of Section 420 transfers to the retiree medical plan, effective July 1, 2000, any participant who earns at least one hour of vesting service during the plan year ending June 30, 2000 is deemed fully vested. This has been updated through June 30, 2009. Employees hired on or after July 1, 2009 will become vested according to the typical vesting schedule described above.
▪ Benefit	Accrued Retirement Benefit payable at age 65 or payable at or after age 55 and reduced for each month benefit commencement date precedes age 65.
Disability	
▪ Eligibility	For salaried participants, total and permanent disability as defined in the plan.
▪ Benefit	A monthly annuity equal to the regular retirement benefit calculated with Compensation and Credited Service for Benefit Accrual to benefit commencement date as if the participant were employed on the same basis immediately before disablement. This benefit will be reduced for early retirement if applicable.
Pre-retirement death	
▪ Eligibility	Eligible if employee has a vested benefit.
▪ Benefit prior to early retirement	For death after vesting but prior to early retirement eligibility the benefit is equal to a 100% joint and survivor annuity payable when the participant would have reached age 50 (benefits are payable for 120 months if there is no surviving spouse).

Schedule SB, Part V — Summary of Plan Provisions

▪ Benefit after early retirement eligible	For death after early retirement eligibility the benefit is calculated as if the participant retired the day before death and elected a 100% joint and survivor annuity (benefits are payable for 120 months if there is no surviving spouse).
Form of benefits	
▪ Automatic form for unmarried participants	Single Life Annuity
▪ Automatic form for married participants	100% Joint & Survivor Annuity
▪ Optional forms	50%, 75%, or 100% joint and survivor annuity, life annuity with 5 or 10 years of payments certain to be made. Additional options include a guaranteed number of payments of any duration with or without a life annuity.
▪ Optional form conversion factors	Optional forms of benefit, other than the lump sum, are determined using the 1984 Unisex Pension Mortality Table (set back three years for a Spouse, or Registered Domestic Partner, if applicable) and 7% interest compounded annually.
Miscellaneous	
▪ Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2010, the limit is \$245,000.
▪ Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2010, the limit is \$195,000.

Plan provision changes since prior valuation

- Maximum compensation and maximum benefits were updated from 2009 to 2010, although the limits did not change so there was no impact on results.
- A minimum benefit was updated effective June 30, 2010 for certain participants.

Schedule SB, Line 24 — Change in Actuarial Assumptions

- Interest discounts were updated from 2009 to 2010 in accordance with PPA.
- Expense normal cost increased from \$3,685,000 to \$4,215,000 to reflect our expectations for the current plan year.
- Expected salary increases were updated to reflect new expected experience. However, the rates for 2010 reflect an average salary growth of 50% of the new long term rates. The new rates will then be effective in 2011 onwards.
- Hourly employees are assumed to accrue .30 of a year of credited service during each future plan year. Previously, it was assumed they would accrue .35 of a year of credited service during each future plan year.
- Disability Incidence was updated to the 1985 Pension Disability Table (Class 1) with an adjustment of 43% (same table for males and females) for Battelle experience. Previously, the 1985 Pension Disability Table (Class 1) adjusted for Battelle experience (33% for males and 60% for females) was used.
- Withdrawal rates were updated. They are still based on length of service. Last year's rates were as follows:

Attained age	Percentage	
	Less than 4 Years of Service	More than 4 Years of Service
20	10.0%	9.5%
25	10.0	9.5
30	10.0	9.0
35	10.0	7.3
40	10.0	5.9
45	10.0	5.0
50	10.0	4.8
55	10.0	5.2
60	10.0	5.6
65	10.0	N/A

Schedule SB, Line 24 — Change in Actuarial Assumptions

- Retirement rates were update based on length of service and age as shown in the tables of sample rates. Last year's rates were as follows:

Attained age	Percentage
Under 50	0.0%
50 - 59	5.0
60	7.5
61	10.0
62	15.0
63	20.0
64	30.0
65 – 69	50.0
70 and older	100.0

- The expected form of payment participants are elected to take upon retirement, termination, and becoming disabled were updated to those percentages shown above. Previously, the expected form of payments for these decrements were:

Form of payment prior year	<u>Single life</u>	<u>100% J&S</u> <u>w/ 10 CC</u>	<u>75% J&S</u> <u>w/ 10 CC</u>
▪ Active retirements	42.5%	42.5%	15%
▪ Current and future vested deferred	42.5%	42.5%	15%
▪ Future disabilities	Future disabilities were assumed to be paid as a Single Life Annuity with 10 Years Certain		

Salary scale, hourly credited service accrual, withdrawal rates, disability incidence, retirement rates, and expected form of payment were all updated to better reflect anticipated Battelle experience based on our experience analysis assumption study.

Schedule SB, Line 25 — Change in Method

As required by the final Section 430 regulations, the attribution of disability benefit costs to Funding Target and Target Normal Cost was changed to reflect accrued benefits at the valuation date plus the portion of disability benefits attributable to future benefits, with the future portion prorated by service at valuation date over service at decrement age. Previously, the Funding Target Liability accounted for all disability benefits (both past and future).

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Average				60.04

The weighted average retirement age is the total for column E divided by the total for column D, rounded to the nearest integral age. It should be noted that while only integral values are shown in the table, the full content of each cell, including decimal portions, is used in the calculations.

In each cell, the top number is the count of active participants for each age/service combination. The lower number is the average compensation of the active participants in that group.

Earnings shown in this matrix have been limited to \$245,000. Average compensation is not shown for cells with less than 20 participants.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- **Accrual of Future Credited Service for Benefit Accrual** Hourly employees are assumed to accrue .30 of a year during each future plan year. Non-hourly full-time employees are assumed to accrue 1 year for each future year of employment. Non-hourly employees who are not full-time are assumed to accrue 1 year times their percent full-time for each future year of employment

Demographic assumptions

- Withdrawal** Rates are based on length of service and age, based on Battelle's actual experience. See table of sample rates.
- Disability incidence** 1985 Pension Disability Table (Class 1) with an adjustment of 43% for Battelle experience. See table of sample rates.
- Retirement age** Rates are based on length of service and age, based on Battelle's actual experience. See table of sample rates.
- Benefit commencement age** Participants retiring from active status are assumed to start their pension benefits immediately. Participants who terminated prior to retirement eligibility are assumed to commence their benefits on the first day of the month preceding, or coinciding with the participant's 65th birthday.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods****Asset methods**

We used financial data submitted by the trustee as of the valuation date without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

We used the participant data supplied by the plan sponsor. We have reviewed the data and have no reason to doubt its substantial accuracy. Participants or former participants are included or excluded from the valuation as described below:

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.
- **Disabled participants:** The liabilities for participants on long-term disability have been included with the liabilities for terminated vested participants. Participants who become disabled before retirement continue to earn credited service during their disability. We have valued these participants using the assumption that they will remain disabled until normal retirement.
- **Transferred participants:** The liabilities for employees who have transferred into another business unit of the plan sponsor have been included with the liabilities for terminated vested participants; liabilities for employees who have transferred from another business unit of the plan sponsor have been included with the liabilities for active participants, with credited service from date of transfer.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum suggested contribution method

Calculations of maximum suggested contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Thus, the total pension to which each participant is expected to become

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount."

Schedule SB, Line 24 — Change in Actuarial Assumptions

- Interest discounts were updated from 2009 to 2010 in accordance with PPA.
- Expense normal cost increased from \$3,685,000 to \$4,215,000 to reflect our expectations for the current plan year.
- Expected salary increases were updated to reflect new expected experience. However, the rates for 2010 reflect an average salary growth of 50% of the new long term rates. The new rates will then be effective in 2011 onwards.
- Hourly employees are assumed to accrue .30 of a year of credited service during each future plan year. Previously, it was assumed they would accrue .35 of a year of credited service during each future plan year.
- Disability Incidence was updated to the 1985 Pension Disability Table (Class 1) with an adjustment of 43% (same table for males and females) for Battelle experience. Previously, the 1985 Pension Disability Table (Class 1) adjusted for Battelle experience (33% for males and 60% for females) was used.
- Withdrawal rates were updated. They are still based on length of service. Last year's rates were as follows:

Attained age	Percentage	
	Less than 4 Years of Service	More than 4 Years of Service
20	10.0%	9.5%
25	10.0	9.5
30	10.0	9.0

55	10.0	5.2
60	10.0	5.6
65	10.0	N/A

Schedule SB, Line 24 — Change in Actuarial Assumptions

- Retirement rates were update based on length of service and age as shown in the tables of sample rates. Last year's rates were as follows:

Attained age	Percentage
Under 50	0.0%
50 - 59	5.0
60	7.5
61	10.0
62	15.0
63	20.0
64	30.0
65 – 69	50.0
70 and older	100.0

- The expected form of payment participants are elected to take upon retirement, termination, and becoming disabled were updated to those percentages shown above. Previously, the expected form of payments for these decrements were:

Form of payment prior year	<u>Single life</u>	<u>100% J&S</u> <u>w/ 10 CC</u>	<u>75% J&S</u> <u>w/ 10 CC</u>
Active retirements	42.5%	42.5%	15%
Current and future vested deferred	42.5%	42.5%	15%
Future disabilities	Future disabilities were assumed to be paid as a Single Life Annuity with 10 Years Certain		

Salary scale, hourly credited service accrual, withdrawal rates, disability incidence, retirement rates, and expected form of payment were all updated to better reflect anticipated Battelle experience based on our experience analysis assumption study.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Plan amendments:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* The plan does not have any unpredictable contingent event benefits.
 - *Plan amendments:* See above.
 - *Prohibited payments:* The plan does not have any limitations on prohibited benefits prior to the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70 ½. This valuation does not currently include increases for current participants over age 70, as it was determined the effect of doing so would be minimal. This will be reevaluated on an annual basis.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). The funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Following is a summary of the major plan provisions used to determine the plan's financial position. It should not be used in determining plan benefits.

Effective date and plan year	Original plan: July 18, 1941 Restated plan: July 1, 2002 Plan year: July 1 through June 30
Most recent amendment	July 1, 2010
Status of the plan	The plan has ongoing benefit accruals and new employees are eligible to participate in the plan once they satisfy the participation requirements.
Significant events that occurred during the year	None.

Definitions

▪ Covered employees	Any Employee who is employed by a Participating Employer and who is not classified as one or more of the following: (1) a member of the Board of Directors (formerly Board of Trustees) unless such member is also an employee; (2) an employee who is covered by a collective bargaining agreement unless such agreement provides for participation in the Plan; (3) an individual employed outside the United States by a foreign-based subsidiary or division of Employer; (4) an employee of the Pacific Northwest Laboratories of Battelle Memorial Institute; (5) effective January 1, 2008, an employee of Battelle National Biodefense Institute, LLC; (6) an employee who is covered by any other qualified defined benefit pension plan funded by Employer; (7) an employee of any Battelle Affiliate that has not adopted this Plan for its employees; (8) a Leased Employee; (9) an independent contractor; and (10) effective on and after February 13, 2003, an individual employed as a telephone interviewer or research intern. For the period from May 10, 2001 to February 13, 2003, an individual employed for the sole purpose of completing a specific project or projects expected to be of limited duration not to exceed 12 months shall not be considered an Eligible Employee.
▪ Participation	Participation commences on the date of employment for employees other than hourly employees. Hourly employees participate after completing 1,000 hours of service.
▪ Employee contributions	None.

Schedule SB, Part V — Summary of Plan Provisions

▪ Credited Service for Vesting	A participant receives one year of Credited Service for Vesting for every plan year he is credited with at least 1,000 hours of service or a fraction of a year if credited with at least 500 hours of service.
▪ Credited Service for Benefit Accrual	A participant receives one year of Credited Service for Benefit Accrual for every plan year he is credited with at least 2,080 hours, or a fraction of a year if credited with less than 2,080 hours. Note that hourly employees must complete a minimum of 1,000 hours of service to receive any credit.
▪ Monthly compensation	Monthly equivalent of compensation as if the employee worked full-time. Effective 7/1/2001, incentive compensation and overtime are counted as plan compensation. However, compensation is limited to \$245,000 annually (indexed for future years).
▪ Final average earnings	The average of the highest 60 consecutive months of compensation.
▪ Accrued benefit	The normal retirement benefit based on Credited Service for Benefit Accrual and Final Average Compensation on the date of determination.
Normal retirement	
▪ Eligibility	Attainment of age 65.

Schedule SB, Part V — Summary of Plan Provisions

▪ Benefit	Larger of: i) <u>For service after June 30, 1979</u> - 1.2% of Final Average Compensation plus .45% of Final Average Compensation in excess of Social Security Covered Compensation per year of Credited Service for Benefit Accrual (maximum 35). <u>For service before July 1, 1979</u> - 1-1/2% of Final Average Compensation per year of Credited Service for Benefit Accrual. No participant's accrued benefit shall be less than his accrued benefit under the provisions of the prior plan on July 1, 1990, for most participants and July 1, 1989, for certain highly compensated participants; and, ii) <u>Accrued Retirement Benefit as of June 30, 1994</u>, plus 1.2% of Final Average Compensation plus .45% of Final Average Compensation in excess of Social Security Covered Compensation per year of Credited Service for Benefit Accrual after June 30, 1994 (total Credited Service for Benefit Accrual after July 1, 1979 may not exceed 35). Benefits attributable to service prior to July 1, 2009 are adjusted actuarially from the prior 10 years Certain and Life normal form to the current Single Life Annuity form of payment.
Early retirement	
▪ Eligibility	The later of attainment of age 50 and the completion of 5 years of Credited Service for Vesting.
▪ Benefit	<u>Benefit Attributable to Credited Service for Benefit Accrual earned prior to July 1, 2009</u> Normal retirement benefit, reduced as follows: <u>10 or more years of Credited Service for Vesting</u> - No reduction after age 62; 6-2/3% per year reduction from 62 to 55; actuarial equivalent reduction prior to 55. <u>Less than 10 years of Credited Service for Vesting</u> - 6-2/3% reduction for each of the first 5 years prior to age 65; 3-1/3% for each of the next 5 years; actuarial equivalent thereafter.

Schedule SB, Part V — Summary of Plan Provisions

▪ Benefit	<u>Benefit Attributable to Credited Service for Benefit Accrual earned after July 1, 2009</u> Normal retirement benefit, actuarially reduced based on the 1984 Unisex Pension Mortality Table (set back three years for a Spouse, or Registered Domestic Partner, if applicable) and 7% interest compounded annually.
Late retirement	
▪ Eligibility	Actual retirement after age 65.
▪ Benefit	The benefit reflects Credited Service for Benefit Accrual and Monthly Compensation earned after age 65.
Deferred vested	
▪ Eligibility	100% after 5 years of Credited Service for Vesting; no vesting prior to 5 years. Participant is 100% vested on normal retirement date. As a result of Section 420 transfers to the retiree medical plan, effective July 1, 2000, any participant who earns at least one hour of vesting service during the plan year ending June 30, 2000 is deemed fully vested. This has been updated through June 30, 2009. Employees hired on or after July 1, 2009 will become vested according to the typical vesting schedule described above.
▪ Benefit	Accrued Retirement Benefit payable at age 65 or payable at or after age 55 and reduced for each month benefit commencement date precedes age 65.
Disability	
▪ Eligibility	For salaried participants, total and permanent disability as defined in the plan.
▪ Benefit	A monthly annuity equal to the regular retirement benefit calculated with Compensation and Credited Service for Benefit Accrual to benefit commencement date as if the participant were employed on the same basis immediately before disablement. This benefit will be reduced for early retirement if applicable.
Pre-retirement death	
▪ Eligibility	Eligible if employee has a vested benefit.
▪ Benefit prior to early retirement	For death after vesting but prior to early retirement eligibility the benefit is equal to a 100% joint and survivor annuity payable when the participant would have reached age 50 (benefits are payable for 120 months if there is no surviving spouse).

Schedule SB, Part V — Summary of Plan Provisions

▪ Benefit after early retirement eligible	For death after early retirement eligibility the benefit is calculated as if the participant retired the day before death and elected a 100% joint and survivor annuity (benefits are payable for 120 months if there is no surviving spouse).
Form of benefits	
▪ Automatic form for unmarried participants	Single Life Annuity
▪ Automatic form for married participants	100% Joint & Survivor Annuity
▪ Optional forms	50%, 75%, or 100% joint and survivor annuity, life annuity with 5 or 10 years of payments certain to be made. Additional options include a guaranteed number of payments of any duration with or without a life annuity.
▪ Optional form conversion factors	Optional forms of benefit, other than the lump sum, are determined using the 1984 Unisex Pension Mortality Table (set back three years for a Spouse, or Registered Domestic Partner, if applicable) and 7% interest compounded annually.
Miscellaneous	
▪ Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2010, the limit is \$245,000.
▪ Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2010, the limit is \$195,000.

Plan provision changes since prior valuation

- Maximum compensation and maximum benefits were updated from 2009 to 2010, although the limits did not change so there was no impact on results.
- A minimum benefit was updated effective June 30, 2010 for certain participants.

Schedule SB, Line 25 — Change in Method

As required by the final Section 430 regulations, the attribution of disability benefit costs to Funding Target and Target Normal Cost was changed to reflect accrued benefits at the valuation date plus the portion of disability benefits attributable to future benefits, with the future portion prorated by service at valuation date over service at decrement age. Previously, the Funding Target Liability accounted for all disability benefits (both past and future).

INDEPENDENT AUDITORS' REPORT

To the Trustees and Participants of the Employees Pension Plan of Battelle Memorial Institute:

We have audited the accompanying statements of net assets available for benefits of the Employees Pension Plan of Battelle Memorial Institute (the "Plan") as of June 30, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the financial status of the Plan as of June 30, 2011 and 2010, and the changes in its financial status for the years then ended in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED JUNE 30, 2011 AND 2010

(Dollars in thousands)

1. ORGANIZATION

The accompanying financial statements present the net assets of the Employees Pension Plan of Battelle Memorial Institute (the “Plan”) and changes therein. The net assets of the Plan are commingled with the assets of the Pension Plan of the Pacific Northwest Laboratories, Battelle Memorial Institute and the assets of the Employees Pension Plan of Battelle National Biodefense Institute, LLC within the Battelle Pension Trust (the “Master Trust”).

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General — The Plan is a defined benefit pension plan covering all United States-based salaried employees and eligible hourly employees of Battelle Memorial Institute (“Battelle” or “Plan Sponsor”) and those group members, as defined by the Plan, who have adopted the Plan, except employees who are covered by collective bargaining agreements or by another pension plan funded by the employer. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Plan Amendment — There was a plan amendment effective July 1, 2011, that amended the benefit formula. The Plan’s actuary estimated the amendment increased accumulated plan benefits in the amount of \$7,382.

Pension Benefits — Participants with five or more years of vested service, as defined by the Plan, are entitled to annual pension benefits beginning at normal retirement age of 65 based upon certain formulas using years of credited service up to a maximum of 35 years, the highest consecutive 60 months of compensation, and covered compensation period. The Plan permits early retirement at ages 50 to 64. Participants may elect to receive their vested benefit as a joint and survivor annuity payable monthly from the date of retirement. The normal form of benefit is a single life annuity payable monthly. If participants terminate before rendering five years of vesting service, they forfeit the right to receive their accumulated plan benefits. A participant is fully vested upon attainment of age 65 while in active service.

Death and Disability Benefits — If a vested participant dies before benefit payments begin, a death benefit equal to the participant’s accumulated benefits is paid to the participant’s spousal beneficiary based on certain payment options as defined by the Plan. Alternatively, the Plan provides spousal and nonspousal beneficiaries the option to elect a death benefit of 120 monthly payments commencing immediately where each monthly payment is equal to the actuarial equivalent of the monthly payment the participant would have received at normal retirement age, or the lump-sum present value of such 120 monthly payments.

Active participants who become totally disabled are immediately fully vested in their pension benefit under the Plan and may elect to begin receiving an annual disability retirement benefit. Alternatively, active salaried participants who become totally disabled may elect to continue to accrue benefits with their salary rate remaining the same as at the time they became disabled until normal or early retirement at which time disabled participants begin receiving normal or early retirement benefits.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets, liabilities, and pension obligations at the date of the financial statements and the reported amounts of changes in net assets and pension obligations during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties — The Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, salary increases, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition — Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for description of valuation methods. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits — Benefit payments to participants or beneficiaries are recorded upon distribution.

Administrative Expenses — Investment management and custodial fees, accounting fees, audit fees, and certain administrative, consulting, and legal fees are paid by the Plan and are expensed as incurred. Certain other administrative expenses not paid by the Plan are paid by the employer.

Subsequent Events — The Plan has performed an evaluation of subsequent events through April 10, 2012, which is the date the financial statements were available for issuance. There were no subsequent events noted, except as disclosed in Note 1.

Updates to Fair Value Measurements and Disclosures — In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures*, which amends ASC Topic 820 (originally issued as FASB Statement No. 157, *Fair Value Measurements*), adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. The Plan has adopted ASU No. 2010-

06 on a prospective basis for the year ended June 30, 2011. Adoption did not have a material impact on the fair value determination and disclosure of applicable investments. The effect of the adoption of ASU No. 2010-06 had no impact on the statements of net assets available for benefits and statements of changes in net assets available for benefits.

New Accounting Standards to Be Adopted — ASU No. 2011-04, Fair Value Measurements and Disclosures — In May 2011, the FASB issued ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, which amends ASC 820. ASU 2011-04 also requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, the ASU provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The ASU requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The new guidance is effective for reporting periods beginning after December 15, 2011. The adoption will not have a material effect on the statement of net assets available for benefits and statement of changes in net assets available for benefits. Plan management has not determined the impact on the disclosures in the financial statements.

3. BATTELLE PENSION TRUST

At June 30, 2011 and 2010, the Plan had an approximate 47.0% and 48.8% interest in the net assets available for benefits of the Master Trust. Interest, dividends, and realized gains (losses) relating to the Master Trust are allocated to the individual plans based on the weighted book value of each plan. Unrealized gains (losses) and administrative expenses relating to the Master Trust are allocated to the individual plans based on the weighted market value of each plan.

The fair values of the investments for the Master Trust at June 30, 2011 and 2010, are as follows (in thousands):

4. FAIR VALUE MEASUREMENTS

In accordance with ASC Topic 820, assets and liabilities are classified based on the inputs utilized in the fair value measurement. ASC Topic 820 provides definitions for two types of inputs: observable and unobservable. Observable inputs are valuation inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are valuation inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information in the circumstances.

As defined in ASC Topic 820, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). ASC Topic 820 establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to the unadjusted quoted process in active markets for identical assets and liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements).

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 — Inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 — Inputs are unobservable inputs for the asset or liability. Unobservable inputs shall be used to measure fair value to the extent that the observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. Level 3 inputs primarily consist of unobservable market data or are value based on models and/or assumptions.

As required by ASC Topic 820, financial assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and their placement within the fair value hierarchy levels.

The following table sets forth by level within the fair value hierarchy the Master Trust's assets that were accounted for at fair value on a recurring basis as of June 30, 2011 (in thousands).

The Plan's policy is to recognize significant transfers between levels at the actual date of the event or change in circumstances that caused the transfer. For the year ended June 30, 2011, there were no significant transfers in or out of Levels 1, 2, or 3. A reconciliation of the beginning and ending balances of the fair value measurements using significant unobservable inputs (Level 3) at June 30, 2011 and 2010, is as follows (in thousands):

	<u>\$ 24,250</u>	<u>\$ 1,045</u>

The Plan's investment in the Battelle Pension Trust Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust.

Common stocks are valued at the closing price reported in the active market in which the individual security is traded.

Mutual funds are valued based on the underlying investments within the funds, which have observable inputs.

Certain government securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available, the government security is valued under a discounted cash flow approach that maximizes observable inputs, such as current yields of similar instruments.

Certain corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flow approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Real estate is stated according to institutional valuations performed with observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

The Master Trust's investments in limited partnerships are valued at estimated fair value based on their proportionate share of the limited partnerships' fair value as recorded in the limited partnerships' financial statements. The limited partnerships invest primarily in readily marketable securities. The limited partnerships allocate gains, losses, and expenses to the partners based on the ownership percentage as described in the partnership agreements.

The 103-12 investments are valued at estimated fair value based on the Master Trust's proportionate share of the fair value. The 103-12 investments invest in primarily readily marketable securities.

5. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service participants have rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries.

The Plan amendment on accumulated plan benefits effective July 1, 2011, is recognized during the year in which such amendments are adopted. The Plan amendment was adopted during the year end June 30, 2011 which increased accumulated plan benefits by \$7,382.

The actuarial present value of accumulated plan benefits is determined by an independent actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of July 1, 2011 and 2010, is as follows (in thousands):

	2011	2010
Vested benefits:		
Participants currently receiving payments	\$ 335,116	\$ 304,119
Other participants	<u>330,753</u>	<u>316,608</u>
Total vested benefits	665,869	620,727
Nonvested benefits	<u>8,105</u>	<u>3,322</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 673,974</u>	<u>\$ 624,049</u>

The increase in actuarial present value of accumulated plan benefits during the years ended June 30, 2011 and 2010, resulted from the following (in thousands):

	2011	2010
Benefits accumulated	\$ 32,430	\$ 21,146
Increase for interest due to decrease in discount period	46,822	43,741
Plan amendment and changes in plan provisions	7,382	1,541
Change in actuarial assumptions		8,897
Benefits paid	<u>(36,709)</u>	<u>(34,202)</u>
Net increase	49,925	41,123
Beginning of year	<u>624,049</u>	<u>582,926</u>
End of year	<u>\$ 673,974</u>	<u>\$ 624,049</u>

The significant actuarial assumptions used in the valuations as of July 1, 2011 and 2010, were:

- a. Mortality — the Healthy Mortality — PPA Generational Table was used for 2011
- b. Mortality — the Healthy Mortality — PPA Generational Table was used for 2010
- c. Assumed participant turnover, retirement and salary increases based on updated experience
- d. Investment rate of return of 7.75%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Change in actuarial assumptions in 2010 was predominantly due to changes in the discount rate.

6. FUNDING POLICY

The employer makes contributions to the Plan, which are expected to be sufficient to provide the defined benefits of the Plan. Such contributions, as determined by actuaries, include provisions for normal costs as they accrue and unfunded prior service cost over a maximum of 30 years. Minimum funding requirements as set forth in ERISA have been met for the years ended June 30, 2011 and 2010.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, Battelle has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in ERISA. Should the Plan be terminated at some future time, all participants become fully vested in benefits earned as of the termination date.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits of any participant who retired three years or more prior to the date of termination or who could have retired as of such date (in the normal form of annuity) without in either case giving effect to any increase in benefits, which has been put into effect by a Plan amendment within five years prior to such date

- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed below
- c. All other vested benefits that are not insured by the PBGC
- d. All nonvested benefits

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

In 2011 and 2010, the shares of the money market funds held by the Master Trust were managed by Northern Trust. Northern Trust was the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. In addition, certain Plan investments were held in companies that also serve as portfolio managers, and these transactions also qualify as party in interest. The Plan Sponsor was reimbursed for certain administrative expenses from the Plan.

9. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed Battelle by a letter dated March 17, 2005, that the Plan and related Master Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter however, Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRC). The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to examination of its IRS Form 5500 filings for plan years prior to 2008.

10. QUALIFIED CURRENT RETIREE PAYMENTS

In May 1999, the Plan was amended to pay certain retiree medical claims for the Battelle Memorial Institute Employees' Comprehensive Medical Benefits Plan. In accordance with IRC Section 401(h), the Plan's investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their beneficiaries. Any assets transferred to the 401(h) account from the defined benefit pension plan in a qualified transfer of excess pension plan assets (and any income allocable thereto) that are not used during the plan year must be transferred out of the account to the pension plan. The related obligations for health benefits are not included in this Plan's obligations in the statements of accumulated plan benefits but are reflected as obligations in the financial statements of the health and welfare benefit plan. Plan participants do not contribute to the 401(h) account. Employer contributions or qualified transfers to the 401(h) account are determined annually and are at the discretion of the Plan sponsor. As required by IRC Section 420, any participant of the Plan with accrued benefits on the date of the transfer, and any participant with accrued benefits who terminated within the 12-month period ending on the date of the transfer, became 100% vested. On September 30, 2009, Plan assets of \$2,250,000, were transferred in accordance with IRC Section 420 to a separate 401(h) account established and maintained in the Plan. These assets were then immediately disbursed to pay postretirement medical claims resulting in no remaining asset or obligation in the 401(h) account of the Plan at June 30, 2009.
