1. DESCRIPTION OF THE PLAN

The following summary description of Independent Options, Inc. Profit Sharing 401(k) Plan ("the Plan") is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General

The Plan is a defined contribution plan covering essentially all employees of Independent Options, Inc. ("the Company") who have six months of service.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

Executive Benefits, Inc. is the administrator of the Plan.

Contributions

Participants may contribute up to a maximum of 10% of pre-tax compensation, subject to a maximum annual contribution limit of $16,500 ($22,000 for any employee age 50 or older).

Participant Accounts

Each participant's account is credited with the participant's contribution, allocation of the Company's contribution and account earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants immediately vest in their voluntary contributions. Vesting in the Company's contributions is based upon years of service as follows:

Years of Service	Vested Percentage
0 - 1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

1. DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits

On termination of service, a vested participant may elect to receive either a lump sum distribution equal to the value of his or her account or annual installments over a period not exceeding the life expectancy of the participant or the joint life expectancy of the participant and their designated beneficiary.

Forfeited Accounts

Forfeited non-vested accounts are used to pay administrative expenses of the Plan. As at June 30, 2010 and 2009, $10,673 and $394, respectively, of forfeitures are available for paying administrative expenses. The Plan sponsor pays for plan expenses which exceed available cash balances of the Plan and not seek subsequent disbursement from the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting and present the net assets available for Plan benefits and the changes in those net assets.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investments

Investments, consisting of pooled separate accounts and guaranteed investments, are required to be stated at fair value based on quoted market prices. For guaranteed investments, however, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of defined contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as adjustment of the fully benefit-responsive investment contracts from fair value to contract value.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments (Continued)

Net unrealized appreciation and depreciation resulting from revaluation of investments to fair value are reflected in the statements of changes in net assets available for Plan benefits.

Risks and Uncertainties

Investment securities are exposed to various risks such as interest rate, market and credit. The financial markets in recent months have had great volatility. Due to the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in the various factors, in the near term, could materially affect investment balances and the amounts reported in the financial statements. Additionally, many mutual funds invest in securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic development. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than similar types of securities of comparable U.S. companies.

3. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are observable either directly or indirectly and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 2 inputs because they generally provide fair values of the pooled separate accounts that are observable either directly or indirectly. No Level 1 inputs were available to the Plan. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

3. FAIR VALUE MEASUREMENTS (continued)

Level 2 Fair Value Measurements

The majority of the Plan's assets are in pooled separate accounts, the investment options offered by Principal Life Insurance Company, the trustee of the Plan. These pooled separate accounts use level 2 input fair value measurements. The value of a separate account is its market value less operating expenses accrued but not deducted, if any. If there is no readily available market, its value is the fair value of the underlying investments held in such separate account as determined by John Hancock using generally accepted accounting practices and applicable law. The operating expenses deductible from a separate account include, but are not limited to, custodial fees, transfer taxes, brokerage fees, processing fees and other taxes and fees associated with the operation of the separate account.

Level 3 Fair Value Measurements

Guaranteed interest contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined using an income approach by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of June 30, 2011 and 2010:

		Fair Value Measurements Using:	
June 30, 2011	Contract Value	Inputs that are Observable Either Directly or Indirectly (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 2,399,855	$ 2,399,855	$ -
Guaranteed interest accounts	74,130	-	74,584
Total	$ 2,473,985	$ 2,399,855	$ 74,584
June 30, 2010			
Mutual funds	$ 2,160,712	$ 2,160,712	$ -
Guaranteed interest accounts	68,501	-	68,602
Total	$ 2,229,213	$ 2,160,712	$ 68,602

3. FAIR VALUE MEASUREMENTS (continued)

The following tables reconcile the beginning and ending balances of fair value measurements using significant unobservable (Level 3) of the investment contract with insurance company for the year ended June 30, 2011:

At fair value	June 30, 2011
Beginning balance	$ 68,602
Contributions	8,397
Interest	1,825
Withdrawals	(3,954)
Fees	(286)
Net change	5,982
Ending balance	$ 74,584

The Plan Administrator believes that the Plan will continue to qualify under applicable provisions of the Internal Revenue Code and will thereby continue to be exempt from Federal income taxes.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to amend, modify, suspend or terminate the Plan at any time by the adoption or execution of appropriate resolutions, subject to the provisions of ERISA.
