To the Trustees
Illinois Central Companies
401(k) and Profit Sharing Plan
Joliet, Illinois

We were engaged to audit the accompanying statements of net assets available for benefits of the Illinois Central Companies 401(k) and Profit Sharing Plan (the Plan) as of June 30, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended June 30, 2011, and the supplemental schedule of assets (held at end of year) as of June 30, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by John Hancock Life Insurance Company (U.S.A.), the custodian of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the custodian as of and for the year ended June 30, 2011, and as of June 30, 2010.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

Note 1. Plan Description

The following description of the Illinois Central Companies 401(k) and Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers all employees of Illinois Central School Bus, LLC, MAL Staffing, LLC and KB Staffing, LLC (collectively, the Company). Employees who are covered employees of the plan sponsor, excluding highly compensated employees, as defined, are eligible for the Plan after meeting 90 days of service and over 18 years of age. Eligible employees may begin deferring the first of the month following meeting eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: A participant may elect to contribute in 1 percent intervals of his/her annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans. The Company may make a discretionary contribution to the Plan. All contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and receives an allocation of Company discretionary contributions, if any, Plan earnings/losses and administrative expenses. Allocations are based on participant account balances or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus the actual earnings thereon. Vesting for the Company discretionary contributions is based upon years of service as defined. Participants are 100 percent vested after three years of credited service. Participants who attain retirement age 65, or terminate employment due to death or disability, are 100 percent vested in their accounts.

Investment options: Upon enrollment in the Plan, participants direct the investment of their account balances into a variety of investment options, as more fully described in the Plan's literature. Participants may change their investment options daily.

Forfeitures: At June 30, 2011, there were $1,040 of forfeited nonvested accounts and at June 30, 2010, there were no forfeited nonvested accounts. These accounts are used to reduce Company contributions and pay administrative expenses of the Plan. In 2011, no forfeitures were used.

Payment of benefits: On termination of service, death, retirement, or at the option of the employee, a participant will receive a lump-sum distribution. Withdrawals may also be made from the Plan in cases of financial hardship.

Note 2. Significant Accounting Policies

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Note 2. Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

New accounting pronouncement: In January 2010, the Financial Accounting Standards Board (FASB) issued an amendment, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements* (ASU 2010-06), which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these charges. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning after December 15, 2009, and has been adopted. The guidance related to Level 3 measurements is effective for periods beginning after December 15, 2010, and has been early adopted for the year ended June 30, 2011. See Note 4 for the impact of this pronouncement.

Pending accounting pronouncement: In May 2011, the FASB issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent events: The Company has evaluated subsequent events for potential recognition and/or disclosure through April 4, 2012, the date the financial statements were available to be issued.

Reclassifications: Amounts previously shown have been reclassified to conform to the current year presentation.

Note 3. Information Certified and Provided by John Hancock Life Insurance Company (U.S.A.) (John Hancock)

The following is a summary of the Plan's asset and income information as of June 30, 2011 and 2010, and for the year ended June 30, 2011, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets and income is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	June 30, 2011	June 30, 2010
Shares of pooled separate accounts	$ 290,021	$ 175,647
Shares of common/collective trust	10,950	6,495

John Hancock, the custodian, also certified to the completeness and accuracy of $45,858 of net appreciation in fair value of investments related to the aforementioned investments for the year ended June 30, 2011.

Note 4. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 4. Fair Value Measurements (Continued)

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2011 and 2010.

Shares of pooled separate accounts: Valued at the total of the net asset value of shares of mutual funds and cash held by the account at year-end. The Plan's interest in the pooled separate accounts is valued based on the information reported by the investment advisor.

Shares of common/collective trust: Value at the unit prices quoted by the fund, representing the fair value of the underlying investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of June 30, 2011 and 2010:

	Assets at Fair Value as of June 30, 2011

(a) This category invests substantially all of its assets in underlying funds using an asset allocation strategy designed for investors expected to retire in the designated retirement year. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(b) This category invests primarily in equity securities. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(c) This category invests primarily in inflation-indexed bonds and fixed income securities. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(d) This category invests primarily in the common stock of large capitalization U.S. companies and dividend-paying common stock. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(e) This category invests primarily in equity securities of real estate investment trusts and real estate companies. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

Note 4. Fair Value Measurements (Continued)

(f) This category invests primarily in the common stock of small and mid capitalization companies in the U.S. and foreign countries. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(g) This category invests primarily in equity securities of technology-based and natural resource-based companies. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(h) This category invests in a Group Annuity Contract issued originally by John Hancock Life Insurance Company that seeks to preserve capital and provide stability of principal. Investments in this category can be redeemed immediately, can be limited to every thirty days at the discretion of the contract issuer and has a redemption notice period of twelve months, at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

Note 5. Investments

The following table presents investments representing more than 5 percent of the Plan's net assets as of June 30, 2011 and 2010.

	2011	2010
Shares of pooled separate accounts:		
Lifecycle 2015	$ 22,483	$ 11,814
Lifecycle 2025	46,818	40,203
Lifecycle 2030	18,883	10,095
Lifecycle 2040	15,638	11,559
Lifestyle Conservative Fund	19,236	**
Lifestyle Balanced Fund	33,883	17,607
Lifestyle Growth Fund	26,800	19,142

** Less than 5% of net assets

During 2011, the Plan's investments (including investments bought, sold and held during the year) appreciated/(depreciated) in value as follows:

Shares of pooled separate accounts	$ 46,107
Shares of common/collective trust	(249)
	$ 45,858

Note 6. Related Party Transactions

All Plan investments are managed by John Hancock. John Hancock is the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan paid $4,208 in fees to John Hancock during the year ended June 30, 2011.

Certain accounting and administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan for such services. Other expenses of the Plan are paid by the Company.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 8. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at June 30, 2011 and 2010

	2011	2010
Net assets available for benefits per the financial statements	$ 302,164	$ 182,142
Participant contributions receivable	(427)	-
Net assets available for benefits per Form 5500	$ 301,737	$ 182,142

The following is a reconciliation of changes in net assets available for benefits per the financial statements for the year ended June 30, 2011, to Form 5500:

Changes in net assets available for benefits per the financial statements	$ 120,022
Participant contributions	(427)
Changes in net assets available for benefits per Form 5500	$ 119,595

Note 9. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated November 23, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan Administrator believes the Plan is designed and is being operated in accordance with the applicable requirements of the IRC.

Management evaluated the Plan's tax position and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2008.

Note 10. Risks and Uncertainties

The Plan provides for various investment options in funds which invest in any combination of stocks, bonds, fixed income securities, mutual funds and other investment activities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.
