TRW Automotive U.S. LLC,
Plan Administrator of the
TRW Automotive Lebanon Hourly Plan C
Livonia, Michigan

We were engaged to audit the accompanying financial statements and supplemental schedule of TRW Automotive Lebanon Hourly Plan C as of December 31, 2007 and 2006, and for the year ended December 31, 2007, as listed in the table of contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified by Mellon Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2007 and 2006, and for the year ended December 31, 2007, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

As of December 31, 2007 and 2006, and
for the Year Ended December 31, 2007

1. Summary of Significant Accounting Policies

Cash is composed of funds that were transferred from Mellon Bank, N.A., the Trustee, on December 26, 2007 to the plan administrator, Fidelity, for the purpose of funding January 1, 2008 benefit payments.

Investments are stated at aggregate fair value. Investments consist primarily of units of the TRW Automotive Master Trust (Master Trust) at December 31, 2007 and 2006. Investments in the Master Trust are stated at the underlying fair value of investments held by the Master Trust. Fair value is determined as follows: Investments in marketable equity securities and debt securities which are traded on national securities exchanges are valued at the last reported sale price on the last business day of the year. Securities traded in the over-the-counter market are valued at the average of the last reported bid and ask prices. Securities denominated in other than U.S. currency are classified as foreign investments and translated into U.S. dollars at current exchange rates. Cash and cash equivalents are valued at cost, which approximates fair value.

The Master Trust may have invested in indexed securities, whose value was linked either directly or inversely to foreign currencies, interest rates, commodities, indices, or other reference instruments. Index securities may be more volatile than the reference instrument itself, but any loss was limited to the amount of the original investment.

The Master Trust does not amortize premiums or discounts on debt securities because it is not the practice of the Master Trust to hold such investments until maturity. Purchases and sales of securities are recorded on the trade date. The cost of securities sold is determined by the average cost method for purposes of determining realized gains and losses. All losses and expenses incurred with regard to the purchase, sale, or transfer of investments and other assets are borne by the Master Trust.

The Plan's interest in the Master Trust is based upon the combined market value of the Plan's proportionate share of assets in the Master Trust.

Basis of Presentation and Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Notes to Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees on the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired, terminated, and active employees or their beneficiaries are determined on the basis of fixed benefit rates stipulated in the plan, and on the number of years of credited service at termination of employment. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

New Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board issued Statement on Financial Accounting Standards No. 157 (SFAS No. 157), *Fair Value Measurement*. This standard defines fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosures about fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. Plan management is currently evaluating the effect this provision will have on the Plan's financial statements.

2. Description of the Plan

The TRW Automotive Lebanon Hourly Plan C (the Plan) is a defined benefit plan covering substantially all hourly employees of the Commercial Steering Division, Lebanon Plant of TRW Automotive U.S. LLC (the Company) and provides pension benefits for such employees.

The Company has agreed to voluntarily contribute such additional amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan members. The Company's contributions to the Plan are based upon amounts required to annually fund normal cost and to amortize the unfunded actuarial liability over 30 years from the effective date of the Plan and any subsequent amendments to the Plan, in accordance with the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Contributions to the Plan have met the minimum funding requirements of ERISA.

TRW Automotive Lebanon Hourly Plan C

Notes to Financial Statements (continued)

2. Description of the Plan (continued)

The Company has the right under the Plan to discontinue such contributions for future periods and to terminate the Plan at any time provided that such discontinuance or termination will not be undertaken in such a manner as to constitute a violation of any applicable provision of the collective bargaining agreement between the Company and the union.

Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Information about the Plan agreement, the vesting and benefit provisions, and the PBGC's benefit guarantee is contained in the booklet summarizing plan benefits which is available from the TRW Benefits Service Center.

Administrative fees relating to auditing, PBGC premiums, actuarial, benefits administration and advisory services are paid by the Plan. All other costs of administering the Plan are paid by the Company.

For purposes of determining required minimum distributions for calendar years beginning on or after January 1, 2003, the plan was amended to allow an employee's entire interest to be distributed, or begin to be distributed, to the employee no later than the employee's required beginning date. If the employee dies before distributions begin, the employee's entire interest will be distributed, or begin to be distributed as outlined in the plan document. All distribution requirements will be determined and made in accordance with the Treasury regulations under section 401(a) of the Internal Revenue Code (IRC).

3. Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits was calculated by the Plan's actuary, Mercer Human Resource Consulting, for the years ended December 31, 2007 and 2006, as the amount that results from applying actuarial assumptions to plan participant data to determine the accumulated plan benefits earned to date by the participants. The present value reflects the time value of money (through discounts for interest) and the probability of payment recognizing decrements such as for death, disability, withdrawal, or retirement between the valuation date and the expected dates of payment.

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits (continued)

The accumulated plan benefit information follows:

	December 31	
	2007	2006
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 53,606,145	\$ 50,657,421
Other participants	10,662,853	14,487,374
	<u>64,268,998</u>	<u>65,144,795</u>
Nonvested benefits	2,085,361	2,504,937
Total actuarial present value of accumulated plan benefits	<u>\$ 66,354,359</u>	<u>\$ 67,649,732</u>

Changes in accumulated plan benefits:

Actuarial value of accumulated plan benefits at beginning of year	\$ 67,649,732
Change in actuarial assumptions	(1,686,756)
Benefits accumulated, including net gains (losses)	1,769,475
Increase for interest due to the decrease in discount period	3,742,639
Benefits paid	<u>(5,120,731)</u>
Net decrease	<u>(1,295,373)</u>
Actuarial value of accumulated plan benefits at end of year	<u>\$ 66,354,359</u>

TRW Automotive Lebanon Hourly Plan C

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits (continued)

The more significant assumptions underlying the actuarial computations are as follows:

	December 31	
	2007	2006
Interest rate	6.00%	5.75%
Mortality basis	UP-94 Mortality Table (Projected to 2010)	UP-94 Mortality Table (Projected to 2010)
Employee turnover	Rates varying by age and sex	Rates varying by age and sex
Retirement	Rates varying by age and service	Rates varying by age and service
Actuarial cost method	Unit credit	Unit credit

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Investments

All investment information disclosed in the accompanying financial statements and schedule, including investments held at December 31, 2007 and 2006, and net investment gain from the Master Trust, net appreciation (depreciation) in fair value of investments, interest and dividend income, other income and investment expenses for the year ended December 31, 2007, were obtained or derived from information supplied to the Company and certified as complete and accurate by Mellon Bank, N.A.

The Master Trust was established on February 28, 2003, to hold the investment assets of plans sponsored by TRW Automotive U.S. LLC and affiliates. Each participating retirement plan has an undivided interest in the Master Trust. The Plan's interest in the net assets of the Master Trust was approximately 5.2% and 5.2% at December 31, 2007 and 2006, respectively. Investment income and expenses are allocated to the Plan based upon its pro rata share in the net assets of the Master Trust.

Notes to Financial Statements (continued)

4. Investments (continued)

The following table presents the fair values of assets for the Master Trust at December 31, 2007 and 2006:

	2007	2006
Investments:		
Cash equivalents	\$ 33,530	\$ 159,065
Common stock	410,434,810	388,192,201
Preferred stock	432,067	1,189,245
Common/collective trusts	597,747,301	576,921,626
Registered investment companies	—	195,075
Total investments	1,008,647,708	966,657,212
Dividends receivable	509,321	429,156
Net receivables for security sales	1,172,890	1,417,756

Notes to Financial Statements (continued)

5. Party-in-Interest Transactions

Party-in-interest transactions included the purchase and sale of short-term investments and Master Trust units through the Trustee and the payment of services and expenses of the Trust by the Plan. Such transactions are exempt from being prohibited transactions.

Party-in-interest transactions also include transactions between the Plan and Fidelity, the Plan administrator.

There were no party-in-interest transactions which were prohibited under the Department of Labor regulations.

Other than those described above or pursuant to a certain trust agreement (see Notes 2, 3, and 4), the Plan has had no agreements or transactions with related parties.

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated June 24, 2002, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Sponsor believes the Plan is operating in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

TRW Automotive Lebanon Hourly Plan C

Notes to Financial Statements (continued)

8. Subsequent Events

Effective September 4, 2008, new hires are not eligible to participate in the Plan. Hourly "B" employees hired on or after November 1, 1997 will cease accruing benefit service for purposes of determining the amount of their benefit (or early retirement supplement) effective December 1, 2008. They will continue to accrue service for purposes of vesting and eligibility for early retirement after the plan freeze date. Active employees hired before November 1, 1997 continue to accrue benefit service for both benefit accrual and early retirement eligibility.

Statement by Enrolled Actuary (see instructions before signing):

To the best of my knowledge, the information supplied in this schedule and on the accompanying schedules, statements, and attachments, if any, is complete and accurate, and in my opinion each assumption, used in combination, represents my best estimate of anticipated experience under the plan. Furthermore, in the case of a plan other than a multiemployer plan, each assumption used (a) is reasonable (taking into account the experience of the plan and reasonable expectations) or (b) would, in the aggregate, result in a total contribution equivalent to that which would be determined if each such assumption were reasonable; in the case of a multiemployer plan, the assumptions used, in the aggregate, are reasonable (taking into account the experience of the plan and reasonable expectations).

ACTUARIAL INFORMATION

Plan: TRW Automotive Lebanon Hourly Pension Plan

EIN/PN: 14-1857697/ 007

We used and relied upon financial data submitted by the trustee without further audit. We have also used and relied on participant data supplied by the plan sponsor; these data would customarily not be verified by a plan's actuary. We have reviewed the participant data for internal consistency and reasonableness and have no reason to doubt its substantial accuracy. The plan is solely responsible for the validity and completeness of this information.

The following separate exhibits are attached:

Schedule B, Line 6 – Summary of Plan Provisions

<i>Effective date</i>	January 1, 1963.						
<i>Covered employees</i>	Hourly paid employees of the Lebanon Plant of the TRW Commercial Steering Division who are members of the UAW Local 342.						
<i>Participation date</i>	Date of becoming a covered employee.						
Definitions							
<i>Vesting service</i>	One year for each 1,000-hour calendar year of service.						
<i>Benefit service</i>	One year for each calendar year with the required number of hours of service, shown below.						
	<table> <tr> <th><u>Year</u></th><th><u>Hours of Service</u></th></tr> <tr> <td>Prior to 1987</td><td>1,700</td></tr> <tr> <td>After 1/1/87</td><td>2,280</td></tr> </table>	<u>Year</u>	<u>Hours of Service</u>	Prior to 1987	1,700	After 1/1/87	2,280
<u>Year</u>	<u>Hours of Service</u>						
Prior to 1987	1,700						
After 1/1/87	2,280						
<i>Normal retirement date (NRD)</i>	First of month following the attainment of age 65 with five years of vesting service.						
<i>Monthly pension benefit</i>	For employees hired before November 1, 1997 - \$32.00 times benefit service, effective January 1, 2003; for employees hired on or after November 1, 1997 - \$24.00 times benefit service, effective January 1, 2003.						
<i>Special age 65 benefit</i>	\$60.00 per month, effective for 2004, payable after age 65 to all retired employees or surviving spouses unless the participant had retired from deferred vested status; \$65.00 effective for 2005; \$70.00 effective for 2006; \$75.00 effective for 2006.						
<i>Supplemental benefit</i>	A \$475 monthly supplement payable to age 62 for employees who retire early (\$500 effective as of January 1, 2005).						
Eligibility for Benefits							
<i>Normal retirement</i>	Retirement at NRD						
<i>Early retirement</i>	Retirement before NRD and on or after both attaining age 55 and completing ten years of benefit service, or after attaining age 55 and the sum of age and benefit service equals or exceeds 85.						
<i>Postponed retirement</i>	Retirement after NRD.						
<i>Disability</i>	Totally and permanently disabled, after ten years of benefit service.						
<i>Deferred vested</i>	Termination for reasons other than death or retirement after completing five years of vesting service.						
<i>Pre-retirement spouse</i>	Death while eligible for normal, early, postponed or deferred vested retirement benefits benefit having been married at least one year.						

Schedule B, Line 6 – Summary of Plan Provisions**Monthly Benefits Paid Upon the Following Events**

<i>Normal retirement</i>	Monthly pension benefit determined as of NRD.
<i>Early retirement</i>	<p>Monthly pension benefit determined as of early retirement date, reduced by 7.2% for each year of payment before age 60. There is no deduction for employees who retire with age plus years of benefit service greater than or equal to 85 ("85 points").</p> <p>A supplemental benefit of \$475 (\$500 effective January 1, 2007) per month for early retirement with less than 30 years of benefit service is payable between age 55 and 62, reduced 3.3% for each year less than 30 years. There is no reduction for employees with more than 30 years of benefit service.</p>
<i>Postponed retirement</i>	Monthly pension benefit determined as of actual retirement date.
<i>Disability</i>	Monthly pension benefit determined as of disability date, payable immediately.
<i>Termination with deferred vested benefit</i>	Monthly pension benefit determined as of termination date and deferred to age 65. If a participant elects to receive benefit after early retirement age, it will be reduced 7.2% per year under age 62.
<i>Death with pre-retirement spouse benefits</i>	If an employee dies after attaining age 55 with ten years of benefit service, his spouse receives the spouse benefit assuming the employee had retired early and elected the 50% joint and survivor option the day before his death. If an employee dies before age 55, the benefit is calculated as if the employee terminated his employment on his date of death, survived to his earliest retirement date and elected the 50% joint and survivor option.
<i>Normal form of payment</i>	Life annuity if the participant has no spouse as of the date payments begin. If married, benefits are paid in the form of a 66-2/3% joint and survivor annuity. However, if termination is due to disability prior to age 55, benefits are paid in the form of a 50% joint and survivor annuity.
<i>Other forms of payment</i>	If the participant elects and the spouse consents (if applicable), another actuarially equivalent optional form is offered by the plan. Optional forms are a 25%, 50%, 75% or 100% contingent annuitant, or a ten-year certain and life annuity, or (for married participants) a life annuity.
<i>Maximum on benefits</i>	All benefits for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. If necessary, the defined benefit plan is reduced.
Changes in plan provisions since prior year	None.

Schedule B, Line 6 – Statement of Actuarial Assumptions/Methods

Actuarial cost method: Liabilities and contributions shown in this report are computed using the individual entry age normal method of funding. The objective under this method is to fund each participant's benefits under the plan as payments in level dollar amounts, starting at hire date, and continuing until the assumed retirement, termination, disability or death.

A detailed description of the calculation follows:

- The **present value of projected benefits** is calculated as the value of all benefit payments expected to be paid to the plan's current participants, including active and retired members, beneficiaries, and terminated members with vested rights.
- The **normal cost** for each active participant under the assumed retirement age is calculated equal to the present value of projected benefits divided by the present value of expected future service as of the participant's date of entry into the plan.
- The **present value of future normal costs** is the total of the discounted values of all active participants' normal costs, assuming these to be paid in each case from the valuation date until retirement (termination, disability or death) date.
- The **accrued liability** is the excess of the present value of projected benefits over the present value of future normal costs. Both of these present values are calculated as of the valuation date.
- The **unfunded liability** is the excess of the accrued liability over the actuarial asset value of the fund, and represents that part of the accrued liability which has not been funded by accumulated past contributions.
- The **past service cost** is the level annual payment over a stipulated number of years which is required to amortize the unfunded liability.

Changes in actuarial cost method since prior valuation: None.

Current liability: The current liability is a present value of accrued benefits determined in accordance with IRC Section 412(l). The accrued benefits, including benefits accruing during the year, are valued under two different measures:

The RPA '94 current liability is computed using an interest rate between 90% and 100% of the weighted four-year average corporate bond rate. The required mortality tables are separate for the period before benefits are assumed to begin (nonannuitant table) and after benefits are assumed to – or actually – begin (annuitant table) and for male and female participants. The annuitant mortality tables are based on the RP-2000 Annuitant Mortality Tables for males and females, projected with Scale AA seven years beyond the valuation year (i.e., to 2014 for the 2007 valuation). The nonannuitant mortality tables are based on the RP-2000 Employee Mortality Tables for males and females, projected with Scale AA 15 years beyond the valuation year (i.e., to 2022 for the 2007 valuation). All plans can optionally elect to use a combined table for the 2007 plan year. For disabled participants, different IRS mandated tables may be used, as specified in Revenue Ruling 96-7.

Schedule B, Line 6 – Statement of Actuarial Assumptions/Methods

- The gateway current liability is computed using an interest rate equal to the highest interest rate allowed in the RPA '94 permissible range and the same mortality tables as the RPA '94 current liability.

Financial and census data: We used financial data submitted by the trustee as of January 1, 2007 without further audit and participant data as supplied by the plan sponsor. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

IRC Section 415(b): The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.

Participants included: The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities. No actuarial liability is included for participants who terminated nonvested prior to the valuation date.

Transferred participants: The liabilities for employees who have transferred into another plan of the plan sponsor have been included with the liabilities for terminated vested participants.

Disabled participants: The liabilities for participants on long-term disability have been included with the liabilities for terminated vested participants.

Schedule B, Line 6 – Statement of Actuarial Assumptions/Methods

The actuarial value of assets is determined on a smoothed basis that recognizes the market value of assets at the valuation date. Under the specific method employed, the actuarial value of assets is determined according to the following procedure date:

1. An expected actuarial value of assets at the valuation is determined from the actuarial value at the prior valuation date, by adding contributions made for the prior year; subtracting actual benefits and plan expenses paid from plan assets for the prior year; and adding interest at the prior year's valuation rate of interest.
2. The final actuarial value is determined as the expected actuarial value, plus 25% of the difference between the market value of assets and the expected actuarial value.

In no event will the actuarial value of assets fall outside of the limits provided under Regulation 1.412(c)(2)-1 of the Internal Revenue Code. This regulation generally describes the lower and upper limits as 80% and 120% of the market value of assets respectively.

Schedule B, Line 6 – Statement of Actuarial Assumptions/Methods

Form of Payment	
<i>Salaried Plan</i>	85% are assumed to take lump sum. Balance assumed to take life annuity.
<i>LRA Plan</i>	For Lucas Retirement Account group, 15% of all active participants are assumed to elect a life annuity, and 85% are assumed to elect a life annuity. 100% of vested terminated participants are assumed to elect annuities. The conversion basis from a lump sum to an annuity is 5.50% with Revenue Ruling 2001-62 mortality (50% male, 50% female). For Kelsey-Hayes group, 70% of males and 10% of females elect postretirement survivorship coverage; the balance are assumed to elect a life annuity.
<i>TRW Hourly Plans</i> ¹	Life annuity
<i>Varity Plans</i> ²	70% of males and 20% of females elect post-retirement survivorship coverage. The rest elect life annuity.
<i>Loadings</i>	Benefit liabilities for current deferred terminated vested participants have been loaded 2% to reflect the estimated value of the REA preretirement death benefit for the following plans: Brighton, Detroit, Fremont, Gunite, Jackson, Kingsway, Milford, Mt. Vernon and the K-H benefit structure within the LRA Plan.
<i>Administrative expense</i>	Investment return is assumed to be net of expenses.

¹ TRW Plans: Complemental Danville, Fasteners, ICWU Local 192 Auburn, Lafayette, Lebanon, Sterling, UAW Local 2400 Cleveland.

² Varity Plans: Brighton, Fayette, Fremont, Gunite, Jackson, Kingsway, Milford, Mt. Vernon, Detroit

Schedule B, Line 6 – Statement of Actuarial Assumptions/Methods

<i>Expense Allowance</i>	An explicit provision has been included in the costs for plan administrative expenses expected to be incurred and paid by the Plan during 2007. These allowances differ by Plan, and for 2007 are as follows:	
		<div>Expense Loadings</div>
	Salaried Plan	\$ 4,030,000
	Fasteners	\$ 190,000
	Local 192	\$ 120,000
	Lafayette	\$ 100,000
	Lebanon	\$ 260,000
	Sterling	\$ 230,000
	Fayette	\$ 130,000
	Jackson	\$ 250,000
	Kingsway	\$ 120,000
	Mount Vernon	\$ 90,000
<i>Percentage married</i>	Salaried plan 80%. Hourly plans – 80% males, 50% females	
<i>Spouse age</i>	Wife three years younger than husband	
Return from Laid-Off Status		
<i>Varity Plans</i>	No layoffs return. Appropriate service creep (additional service with a maximum of 1.9 years) is added to benefit and vesting service for participants in the collectively bargained plans that provide for it. Individuals are then treated as vested or nonvested terminations in valuation based on vesting service (including creep, if applicable).	

C. General Information

<i>Benefits Not Valued</i>	All benefits described in the Plan Provisions section of this report were valued except the \$15 supplemental disability benefit for Sterling due to the assumption that all disabled employees will receive Social Security disability payments and the qualified Social Security Supplement for the Salaried Plan due to the assumption that deferred vested employees are assumed to retire at age 65.
<i>Change in Assumptions and Methods Since Prior Valuation</i>	None.
<i>Data Sources</i>	Participant data was provided by TRW Automotive directly with respect to certain locations, and by TRW Automotive's administrative designates (Fidelity, Mercer Human Resource Consulting, and Benefits Outsourcing Solutions) with respect to the locations for which those organizations provided postretirement benefits administrative services during 2006.

Schedule B, Line 11 – Justification for Change in Actuarial Assumptions

Effective January 1, 2007, the Gateway and RPA '94 current liability interest rates were changed from 5.77% to 5.78%. The interest rate was changed due to changes in the required interest rate under Code Section 412(I)(7)(C)(i). The current liability mandated mortality assumption was changed from the 1983 Group Annuity Mortality tables for males and females to the mandated mortality tables based on the combined annuitant and non-annuitant tables.
