Independent Auditors' Report

To the Participants and Administrative Committee
of the Dash Multi-Corp, Inc. 401(k) Plan
St. Louis, Missouri

We were engaged to audit the financial statements of the Dash Multi-Corp, Inc. 401(k) Plan as of December 31, 2010 and 2009, and for the years then ended, and the supplemental schedule as of December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note D, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009 that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

(See Independent Auditors' Report)

Note A - Description of Plan

The following description of Dash Multi-Corp, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan for employees of Dash Multi-Corp, Inc. and subsidiaries (the Company or Employer) who are age 21 or older, have completed one year of service, and have worked a minimum of 1,000 hours. The Plan is a salary reduction plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Plan participants may elect to enter into a written salary deferral agreement with the Company which will be applicable to all payroll periods within such Plan year. The terms of any such salary deferral agreement shall provide that the participant agrees to accept a deferral in compensation from the Company. In addition, the Company shall, at its discretion, match participant deferrals in an amount to be determined by the Company which are allocated ratably among participants based upon compensation.

Contributions are subject to certain limitations.

Participant Accounts

The participant's account is credited with the participant's deferral contribution, and once each year it is credited with the Company's matching and discretionary contributions, if any. Allocations are based on participant earnings or account balances, as defined. The participant's account is debited with any distributions or withdrawals made to the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures

As of December 31, 2010 and 2009, forfeited non-vested accounts totaled \$14,250 and \$11,845, respectively. These amounts are used to offset administrative expenses of the Plan, then to reduce the Company's contribution. Forfeitures used during 2010 and 2009 were \$14,924 and \$500, respectively.

Note A - Description of Plan (Continued)

Vesting

Participants shall at all times be one hundred percent (100%) vested in salary deferral, rollover, transfer contributions, and safe harbor Company matching contributions. After six years of service, participants are fully vested in non safe harbor Company matching and discretionary contributions. Participants are fully vested at their normal retirement date, death, or disability, regardless of the number of years of participation.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions in any of seventeen investment options.

- T. Rowe Price International Discovery Fund
- T. Rowe Price Growth Stock Fund
- T. Rowe Price New Era Fund
- T. Rowe Price High-Yield Fund
- T. Rowe Price Mid-Cap Growth Fund
- T. Rowe Price Small-Cap Stock Fund

Note A - Description of Plan (Continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Notes receivable from participants are treated as transfers between the investment fund and the participant loans fund. Loan terms range from 1-5 years unless it is for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate at the time of the loan. Principal and interest are paid ratably through payroll deductions ranging from bi-weekly to monthly.

Payment of Benefits

Upon attainment of normal retirement age or total disability, the amount credited to a participant's account shall be payable in a lump sum payment or as an annuity, based on each participant's election in accordance with the Plan agreement. The amount credited to the account of the participant at the date of death shall be distributed to the named beneficiary as a lump sum cash payment.

Upon termination of employment for reasons other than death, total disability or retirement, the participant may also elect to receive his or her vested balances in the form of a lump sum payment or annuity.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting, in accordance with accounting principles generally accepted in the United States of America.

December 31, 2010

(See Independent Auditors' Report)

Note B - Summary of Significant Accounting Policies (Continued)

Basis of Accounting (Continued)

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of this plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The administrative costs of the Plan are first borne by Plan forfeitures and then allocated to participant accounts in proportion to their percentage of plan assets.

Benefit Payments

Benefits are recorded when paid.

Use of Estimates in Financial Statement Preparation

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect reported amounts of net assets available for benefits and changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Note B - Summary of Significant Accounting Policies

New Accounting Pronouncement

In September 2010, the FASB released Accounting Standards Update No. 2010-25 ("ASU 2010-25"), *Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Plans*, which provide guidance on how loans to participants should be classified and measured by defined contribution pension plans. This update requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their principal balance plus any accrued but unpaid interest. This update requires retrospective application to all periods presented. ASU 2010-25 was adopted for the year ended December 31, 2010. December 31, 2009 amounts and disclosures have been revised to reflect the retrospective application of adopting ASU 2010-25.

Subsequent Events

The Plan has evaluated all subsequent events through October 7, 2011, the date the financial statements were available to be issued.

Note C - Income Tax Status

The Internal Revenue Service has determined and informed the company by a letter dated July 7, 1999, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note D - Investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Trustees have obtained a certification from State Street Bank and Trust Company (State Street) that all of the information provided by State Street and included in the accompanying financial statements and schedule is complete and accurate. Information as to the investments in the accounts of State Street, investment income, and all information appearing in the accompanying schedule is presented in reliance solely upon that certification.

The Plan's investments are held by registered investment companies and a trust company. Investments at December 31, 2010 and 2009 that represent 5% or more of the Plan's net assets are as follows:

	December 31,	December 31,

Note E - Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds – Valued at the net asset value (NAV) of shares held by the Plan at year end.

(See Independent Auditors' Report)

Note E - Fair Value Measurements (Continued)

Collective trust – Valued at NAV as practical expedient of fair value. The NAV is based on the underlying investments which are traded on an active market. The Plan does not have any collective investment funds with unfunded commitments or with any long-term redemption restrictions.

The preceding methods used to arrive at a fair value calculation may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009:

Note F - Investment in Collective Trust

The T. Rowe Price Stable Value Fund (the “Fund”), collective trust fund, invests in a variety of investment contracts such as guaranteed investment contracts (“GICs”) issued by insurance companies and other financial institutions and other investment products with similar characteristics. The Fund primarily holds investments in fully benefit-responsive investment contracts that provide that the Plan may make withdrawals at contract value for benefit-responsive requirements.

The Plan’s interest in the Fund is calculated by applying the Plan’s ownership percentage in the Fund to the total fair value of the Fund. The underlying assets owned by the Fund consist primarily of the readily marketable fixed income securities with quoted market prices. The interest-crediting rate is determined quarterly and is calculated using the dollar weighted yield to maturity of the covered investments. There is no relationship between future crediting rates and the adjustments to contract value reported in the Statements of Net Assets Available for Benefits.

Note F - Investment in Collective Trust (Continued)

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Fund at contract value. Certain events, such as termination of the Plan or a material adverse change in the provisions of the Plan, may limit the ability of the Plan to transact at contract value with the issuer. The Plan administrator does not believe the occurrence of any such event is probable.

The average yield earned by the Plan's investment in the Stable Value Fund that also reflects the actual interest credited to the participants for the years ended December 31, 2010 and 2009 was 3.65% and 4.23%, respectively.

Note G - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements for the years ended December 31, 2010 and 2009, to Form 5500:

	<u>2010</u>	<u>2009</u>

Note H - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Note I - Related Party Transactions

Certain Plan investments are shares of mutual funds and an interest in a collective trust managed by T. Rowe Price. T. Rowe Price is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note J - Excess Contributions Refundable

The Plan failed the Actual Deferral Percentage (ADP) test for the year ended December 31, 2009. Excess contributions amounting to \$98,742 were recorded as a liability in the accompanying statement of net assets available for benefits and as a reduction of participant-directed contributions during the year. The Plan reimbursed these excess contributions to its participants during 2010.
