These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the 2009 information summarized in Note 4, which was certified by Hartford Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2009, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2009 financial statements and supplemental schedule taken as a whole. The form and content of the information included in the 2009 financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have compiled the accompanying statement of net assets available for benefits of the Green Tree School 401(k) Plan as of December 31, 2008, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying 2008 statement of net assets available for benefits and, accordingly, do not express an opinion or any other form of assurance on it.

GREEN TREE SCHOOL 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the Green Tree School 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan is a defined contribution plan sponsored by Green Tree School (the "Company") for the benefit of its employees who have completed one year of service, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Participants may contribute a percentage of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan.

The Company contributes 50% of the first 6% of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Company. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants' contributions plus actual related earnings are 100% vested immediately. Employer contributions are subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vested %</u>
0-1	0
2	25
3	50
4	75
5	100

Note receivable from participant - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the Wall Street Journal prime rate plus one percent at the origination of the note. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - On termination of service or certain hardship events, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. Effective January 1, 2010, the Plan was restated and a mandatory cash-out provision was added for participant accounts under \$1,000 for terminated participants.

GREEN TREE SCHOOL 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan (continued)

Forfeited accounts - As of December 31, 2009 and 2008, forfeited nonvested accounts totaled \$922 and \$164, respectively. These accounts will be used to reduce future employer contributions. No forfeitures from nonvested accounts were used to reduce employer contributions.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation in fair value of pooled separate account investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Note receivable from participant - Note receivable from participant is measured at its unpaid principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits.

(3) Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2009	(Unaudited) 2008
American Funds Growth Fund of America	\$ 130,833	\$ 77,224

GREEN TREE SCHOOL 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

(4) Information prepared and certified by the custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Hartford Life Insurance Company, the custodian of the Plan, has certified that the following data included in the accompanying 2009 financial statements and supplemental schedule is complete and accurate with respect to investments:

- Investments at fair value
- Note receivable from participant
- Net appreciation in fair value of pooled separate account investments
- Interest income on note receivable from participant
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the 2009 financial statements and supplemental schedule.

(5) Fair value measurements

Financial Accounting Standard Board Accounting Standard Codification ("FASB ASC") 820, "*Fair Value Measurements and Disclosures*," provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used as of December 31, 2009 and 2008.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

(5) Fair value measurements (continued)

The preceding method described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009 and 2008:

Investments at Fair Value as of December 31, 2009				
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Growth funds	\$ 170,691	\$ -	\$ -	\$ 170,691

(6) Related party transactions

Plan investments are pooled separate accounts managed by Hartford Life Insurance Company. Hartford Life Insurance Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management and recordkeeping services amounted to \$1,901 for the year ended December 31, 2009.

(7) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(8) Excess contributions refundable

Contributions received from participants during the year ended December 31, 2009, are net of payments of \$2,825 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. Excess contributions refundable of \$13,950 and \$11,125 are included in the Plan's statements of net assets available for benefits as of December 31, 2009 and 2008, respectively.

(9) Tax status

The Internal Revenue Service has determined the prototype plan adopted by the Plan is designed in accordance with applicable sections of the IRC and informed the prototype sponsor of such in a letter dated March 31, 2008. The plan administrator has adopted the prototype plan, and believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2009, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

(10) Employee Plans Compliance Resolution System

During 2012, the plan administrator detected certain operational failures in the Plan that it corrected under the Employee Plans Compliance Resolution System (the "EPCRS"). The plan administrator included \$9,961 as of December 31, 2009 and 2008, in employer contributions receivable for each year, which represents the estimated correction amount under the EPCRS. The plan sponsor intends to remit the total correction amount to the Plan during 2012.

(11) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(12) Subsequent events

The Plan has evaluated subsequent events through May 9, 2012, which is the date the financial statements were available to be issued. The Plan document was restated effective January 1, 2010. Changes made to the provisions of the Plan document were not significant, other than the following provisions:

- Immediate vesting of participant accounts upon the participant reaching 55 years of age or the participant's death or disability prior to termination; and
- Mandatory cash-out provision added to the Plan for participant accounts under \$1,000 for terminated participants.

No other significant matters were identified for disclosure during this evaluation.
