1. Description of Plan

The following description of the Jonathan's Landing Golf Club, Inc. ("Club") 401(k) Retirement Plan, (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

- a) *Merger* – On July 7, 2011, the Jonathan's Landing Golf Club, Inc. 401(k) Retirement Plan was merged into the Oasis Retirement Savings Plan (the "Oasis Plan"). As a result, all assets were transferred from this Plan into the Oasis Plan on that date, effectively terminating Jonathan's Landing Golf Club, Inc. 401(k) Retirement Plan.
- b) *General* – The Plan was a defined contribution plan covering all employees of the Club, except employees of a collective bargaining unit, who had at least one year of service to the Club and had attained the age of twenty-one. It was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was formed on January 1, 1999, and most recently restated on August 29, 2009.
- c) *Plan Administration* – Members of the Club's Board of Directors and employees served as trustees of the Plan. Principal Financial Group (Principal) was the Plan's servicer, administrator, and custodian of the Plan. Principal held custody and serviced the Plan's investment assets as of July 7, 2011 and December 31, 2010.
- d) *Contributions* – Each year, participants were able to contribute up to 100% of pretax annual compensation, as defined in the Plan and as subject to limitations defined by the Internal Revenue Code. Participants were also able to contribute amounts representing distributions from other qualified plans. The Plan allowed the Club to make matching, and/or discretionary contributions. For the period ended July 7, 2011 and year ended December 31, 2010, the Club matched 100% of participant deferrals up to 3% of participant's plan compensation. For this period, the contributions reflected in the Statement of Changes in Net Assets Available for Benefits represent contributions for the month of January 2011. Contributions beginning in February 2011 were made to the Oasis Plan.
- e) *Participant Accounts* – Each participant's account was credited with participant's contributions, Plan earnings, and the employer's matching contribution, if any. In addition, participant accounts were credited with an allocation of employer non-matching contributions and forfeitures of terminated participants' non-vested accounts, if any. Allocations were based upon an eligible participant's relative compensation.
- f) *Vesting* – Participants were immediately vested in their contributions plus actual earnings thereon. Vesting in the Club's matching and discretionary contribution portion of their accounts plus actual earnings thereon was based on years of continuous service. A participant became 100% vested after 3 years of credited service, or immediately upon death or disability. The vesting provisions continue pursuant to the Plan merger.
- g) *Administrative Expenses* – Individual participants paid for loan and distribution fees, and investment management expenses. The Plan sponsor paid for other costs of plan administration.

For the Period from January 1, 2011 to July 7, 2011

1. Description of Plan, continued

- h) *Investment Options* - Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan offered 25 investment options for participants. Participants could change their investment allocation and their individual contributions at any time.
- i) *Participant Loans Receivable* – Participants were able to borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan transactions were treated as a transfer to (from) the investment fund from (to) the Participant Loans fund. Loan terms ranged from 5 to 60 months. The loans were secured by the balance in the participant's account and bore interest at a rate commensurate with local prevailing rates as determined by the loan administrator. The interest rate on participant loans as of July 7, 2011 and December 31, 2010 was 5.50%. Principal and interest were paid ratably through weekly payroll deductions. Loans to participants were reported at their unpaid principal balances plus any accrued, but unpaid interest. The loan balances were secured by the participants' investment accounts, therefore, no allowance for uncollectible loans was deemed necessary.
- j) *Payments of Benefits* – Upon retirement, disability, or termination of service a participant was able to elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or an option of annuities.
- k) *Forfeited Accounts* – All non-vested benefits are forfeited by participants should they terminate employment prior to becoming vested. Amounts forfeited were used to offset the employer matching contribution. As of July 7, 2011 and December 31, 2010 there were no forfeitures available to future years.

2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

- a) *Basis of Accounting* – The accompanying financial statements were prepared on the accrual basis of accounting.
- b) *Use of Estimates* – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

For the Period from January 1, 2011 to July 7, 2011

2. Summary of Significant Accounting Policies, continued

- c) *Valuation of Investments and Income Recognition* – The Plan's investments were valued at fair value. All Plan assets were transferred to the Oasis Plan before close of business on July 7, 2011. Guaranteed interest contracts (i.e., benefit responsive investment contracts,) were generally valued at contract value (Note 5) which approximates fair value. The circumstances under which fair value was used was when the applicable interest rate was greater than the contract rate. Investment funds held in pooled separate accounts were valued at quoted market prices (i.e. net asset value – NAV), if available, of a national securities exchange on the last business day of the year. Investment options that do not have readily available market quotations were valued according to quotations from the custodian. Purchase and sales of securities were recorded on a trade-date basis. Interest income was recorded on an accrual basis. Dividends were recorded on the ex-dividend date.
- d) *Payment of Benefits* – Benefits were recorded when paid.
- e) *Plan Risk and Uncertainties* – The Plan and the Plan assets were sensitive to economic pressures prevalent in the investment market. The pressures primarily stemmed from interest rate, market and credit risk and their effect on bond rates, mortgage rates, the value of real estate, stock prices, and the overall stability of the market. Certain Plan investments were shares of pooled trust funds managed by the custodian. Change in the custodian's management may have affected operating results of the funds adversely. Additionally, the financial position of the Plan Sponsor, Jonathan's Landing Golf Club, Inc., may have had a significant impact on the Plan. Specifically, these include the ability of the Plan Sponsor to continue to make contributions under the program and/or the stability of the Plan Sponsor's operations. The Plan Sponsor made a decision not to continue this Plan independently, but did merge the Plan into the Oasis Plan. Other external factors which may have affected the Plan and the Plan assets include legislation or regulations established by the Internal Revenue Service, Employee Retirement Income Security Act of 1974 (ERISA), and/or Department of Labor (DOL).

3. Fair Value Measurements

FASB Accounting Standards Codification (FASB ASC) 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

For the Period from January 1, 2011 to July 7, 2011

3. Fair Value Measurements, continued

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2010. There were no changes in the methodologies used for the period from January 1, 2011 to July 7, 2011.

- a) *Guaranteed interest contract* – Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 5).
- b) *Pooled separate accounts* – Valued at the net asset value ("NAV") as reported by the investment manager of the fund as of December 31, 2010.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010.

	<u>Assets at Fair Value as of December 31, 2010</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

4. Information Certified by the Plan's Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Financial Group, the custodian, certified that the data included in the accompanying financial statements is complete and accurate. The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements. The information certified includes total investments and loans of \$0 and \$1,672,224 at July 7, 2011 and December 31, 2010, respectively, and related investment income and loan interest of \$96,311 for the period from January 1, 2011 to July 7, 2011.

As of December 31, 2010, the Plan's investments and participant loans were held by Principal Financial Group in various funds. The following table represents the information that was certified by the custodian. Single investments that represent 5% or more of the Plan's net assets as of December 31, 2010 are separately identified:

For the Period from January 1, 2011 to July 7, 2011

	December 31, 2010

All other pooled separate accounts	<u>424,977</u>	
Total pooled separate accounts	<u>\$1,358,400</u>	
Participant loans	<u>\$ 20,979</u>	

5. Investment Contract with Insurance Company

The Plan had a guaranteed interest contract (i.e., benefit responsive investment contract) with Principal. Principal maintained the contributions in both general and separate accounts. The accounts were credited with earnings on the underlying investments and charged for participant withdrawals. The contracts were included in the financial statements at contract value, which approximated fair market value as reported to the Plan by Principal. Net change in fair market value of \$1,388 for the period from January 1, 2011 to July 7, 2011 is reported as other income in the statement of changes in net assets available for benefits.

The contract value (versus fair value) of the investment contract as of July 7, 2011 and December 31, 2010 was \$0 and \$294,233, respectively. There can be a difference in contract value versus fair value when the applicable rate is greater than the contract rate. Contract values represented contributions made under the contract, plus earnings (at the contract rate), less participant withdrawals. Participants could ordinarily direct transfer of all or a portion of their investment at contract value. The average yield and crediting interest rate for 2011 and 2010 was approximately 2.85%. The crediting interest is based on an agreed-upon formula with the issuer. Such interest rate is reviewed on an annual basis for resetting.

6. Related Party Transactions

Certain plan investments were managed by Principal Financial Group. Principal was the custodian as defined by the Plan, and therefore, these transactions qualified as party-in-interest transactions. However, they were not considered prohibited transactions in accordance with appropriate ERISA exceptions.

For the Period from January 1, 2011 to July 7, 2011

7. Plan Termination

The Club had the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Although this Plan was terminated, it was through merger, not liquidation. Therefore, in addition to the assets being transferred to the Oasis Plan, the vesting percentages and requirements followed. For any employer contributions that were made to the Jonathan's Landing Golf Club 401(k) Retirement Plan the existing vesting schedule was applied.

8. Tax Status

The Plan was adopted via a Prototype Non-standardized Profit Sharing Plan Agreement, utilized by its Plan servicer and custodian – Principal Financial Group. The Prototype Plan has a favorable determination letter from the Internal Revenue Service. Furthermore, the Plan trustees believe that the Plan was designed and was being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. Subsequent Events

Management has evaluated subsequent events through May 10, 2012, the date on which the financial statements were available to be issued, and determined there were no events to disclose in these financial statements.
