Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

We were engaged to audit the accompanying statements of net assets available for benefits of TRW Automotive/ICWU Local 192 Pension Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified by The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

TRW Automotive/ICWU Local 192 Pension Plan

Notes to Financial Statements

As of December 31, 2009 and 2008,
and for the Year Ended December 31, 2009

1. Description of the Plan

The TRW Automotive/ICWU Local 192 Pension Plan (the Plan) is a defined benefit plan, established through collective bargaining, which covers substantially all current and former hourly employees of the Auburn Plant of TRW Automotive U.S. LLC (the Company) and provides pension benefits for such employees.

The Company periodically contributes amounts necessary to provide assets sufficient to meet the benefits to be paid to Plan members. For any plan year, the Company's contributions to the Plan are, at a minimum, equal to the amounts required to fund the Plan's actuarial normal cost and to amortize the Plan's unfunded actuarial liability in accordance with the minimum amortization requirements of the Pension Protection Act of 2006 (PPA). Contributions to the Plan have met the minimum funding requirements of ERISA, as amended by the PPA. The Company has the right under the Plan to discontinue such contributions for future periods and to terminate the Plan provided that such discontinuance or termination will not be undertaken in such a manner as to constitute a violation of any applicable provision of a collective bargaining agreement between the Company and a union. Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Information about the Plan agreement, the vesting and benefit provisions, and the PBGC's benefit guarantee is contained in the Summary Plan Description which is available from the Company.

2. Summary of Significant Accounting Policies

Basis of Presentation and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees on the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired, terminated, and active employees or their beneficiaries are determined on the basis of fixed benefit rates stipulated in the Plan, and on the number of years of credited service at termination of employment. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Investment Valuation and Income Recognition

The Plan's investment and those investments held in the TRW Automotive Master Trust (Master Trust) are stated at fair value. The fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussions of fair value measurements.

Cash is composed of funds that were transferred from The Bank of New York Mellon/BNY Mellon, N.A., the Trustee, on December 28, 2009 to the Plan administrator, Fidelity, for the purpose of funding January 1, 2010 benefit payments.

Investments are stated at fair value. Investments consist primarily of units of the Master Trust at December 31, 2009 and 2008. Purchases and sales of securities are recorded on the trade date. The cost of securities sold is determined by the average cost method for purposes of determining realized gains and losses. All losses and expenses incurred with regard to the purchase, sale, or transfer of investments and other assets are borne by the Master Trust.

The Plan's interest in the Master Trust is based upon the combined market value of the Plan's proportionate share of assets in the Master Trust.

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP 157-4). FSP 157-4 amended FASB Statement No. 157 (codified as Accounting Standards Codification (ASC) 820) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events,* which was codified into ASC 855, *Subsequent Events,* to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010.

In September 2009, the FASB issued Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12). ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009, and have utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV.

In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note 5 for these disclosures. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

2. Summary of Significant Accounting Policies (continued)

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements* (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

3. Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits was calculated by the Plan's actuary, Mercer Human Resource Consulting, for the years ended December 31, 2009 and 2008, as the amount that results from applying actuarial assumptions to plan participant data to determine the accumulated plan benefits earned to date by the participants. The present value reflects the time value of money (through discounts for interest) and the probability of payment recognizing decrements such as for death, disability, withdrawal, or retirement between the valuation date and the expected dates of payment.

3. Accumulated Plan Benefits (continued)

The accumulated plan benefit information follows:

	December 31 2009	2008
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	**$ 4,299,774**	$ 3,354,643
Other participants	**9,916,905**	9,523,940
	14,216,679	12,878,583
Nonvested benefits	**199,555**	227,025
Total actuarial present value of accumulated plan benefits	**$ 14,416,234**	$ 13,105,608

Changes in accumulated plan benefits:	
Actuarial value of accumulated plan benefits at beginning of year	$ 13,105,608
Change in actuarial assumptions	664,969
Benefits accumulated, including net gains or losses	239,698
Increase for interest due to the decrease in discount period	806,582
Benefits paid	(400,623)
Net increase	1,310,626
Actuarial value of accumulated plan benefits at end of year	$ 14,416,234

The more significant assumptions underlying the actuarial computations are as follows:

	December 31 2009	2008
Interest rate	**6.00%**	6.25%
Mortality basis	**UP-94 Mortality Table (projected to 2010)**	UP-94 Mortality Table (projected to 2010)
Employee turnover	**Rates varying by age and gender**	Rates varying by age and gender
Retirement	**Rates varying by age with 100% by age 65**	Rates varying by age with 100% by age 65
Actuarial cost method	**Unit credit**	Unit credit

3. Accumulated Plan Benefits (continued)

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2009 and 2008, and net appreciation in fair value of investments, interest and dividends from the Master Trust for the year ended December 31, 2009, was obtained or derived from information supplied to the Company and certified as complete and accurate by The Bank of New York Mellon/BNY Mellon, N.A., Trustee of the Plan.

The Master Trust was established on February 28, 2003, to hold the investment assets of plans sponsored by TRW Automotive U.S. LLC and affiliates. Each participating retirement plan has an undivided interest in the Master Trust. The Plan's interest in the net assets of the Master Trust was approximately 1.4% and 1.3% at December 31, 2009 and 2008, respectively. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust.

4. Investments (continued)

The following table presents the fair values of net assets for the Master Trust at December 31, 2009 and 2008:

	2009	2008
Investments at fair value:		
Cash equivalents	$ 22,719	$ 14,991

Total net assets	$ 755,277,429	$ 699,907,020

4. Investments (continued)

Net investment gain for the Master Trust is as follows for the year ended December 31, 2009:

Net appreciation in fair value of investments determined by quoted market price:	
Cash equivalents	$ 335,865
Common stock	89,741,789
Common/collective trusts	39,739,317
Convertible debt	3,182
Preferred stock	506,988
	130,327,141
Interest income	45,155
Securities lending income	227,374
Dividend income	5,475,831
	$ 136,075,501

5. Fair Value Measurements

In accordance with ASC 820, *Fair Value Measurements and Disclosures* (formerly FASB Statement No. 157), assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

Level 1 – Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date. The Company utilizes the market approach to determine the fair value of its assets under Level 1 of the fair value hierarchy.

5. Fair Value Measurements (continued)

Level 2 – Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability. Classified within the Level 2 hierarchy are investments by the Plan in other investments through common/collective trust funds held by the trustee, Bank of New York Mellon. The common/collective trust funds invest in commingled cash equivalent funds, commingled U.S. equity funds, and commingled U.S. debt funds. These funds are designed to deliver safety and stability by preserving principal and accumulating earnings. The Plan may be required to provide a one-year redemption notice to withdraw assets from the fund. The fair value of the fund has been estimated based on the fair value of the underlying investment contracts. Also included in the Level 2 hierarchy are investments in convertible bonds of $28,795. The fair value of the convertible debt has been estimated based on quoted prices for similar investments in active markets.

Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed. There were no investments in the Master Trust which were classified within Level 3 of the hierarchy.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The following table sets forth by level, within the fair value hierarchy, the Plan assets held outside of the Master Trust at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009

6. Securities Lending

The Master Trust is authorized to engage in the lending of certain investments. Securities lending is a temporary exchange of portfolio assets for acceptable collateral (typically cash) between a lender and an approved borrower. The market value of securities on loan in the Master Trust was approximately $37,715,878 and the collateral held was approximately $39,331,428 at December 31, 2009. In return for the loaned securities, the agent, prior to or simultaneous with delivery of the loan securities to the borrower, received collateral in the form of cash, U.S. government securities, or letters of credit as a safeguard against possible default of any borrower on the return of the loan. Each loan is initially collateralized, in the case of (a) loaned securities denominated in U.S. dollars or whose primary trading market is located in the U.S. at 102% of the market value of the loaned securities, or (b) loaned securities not denominated in U.S. dollars or whose primary trading market is located in the U.S. to the extent of 105% of the market value of the loaned securities. The collateral is marked to market on a daily basis. The Master Trust maintains full ownership rights to the securities loaned (except for the right to vote proxy whereas the customer can request that the security be returned at a best efforts basis and consideration of normal settlement cycle), and accordingly, classifies loaned securities as investments. Securities lending income earned by the Master Trust was approximately $0.2 million for the year ended December 31, 2009.

7. Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan which consist primarily of auditing, benefit administration, advisory, and actuarial fees. These expenses are reported on the statement of changes in net assets available for benefits as administrative expenses. Investment related expenses for the Master Trust are allocated to the Plan and are reflected in the net investment gains/losses from the Master Trust. All other costs of administrating the Plan are paid by the Company.

8. Party-in-Interest Transactions

Party-in-interest transactions included the purchase and sale of short-term investments and Master Trust units through the Trustee and the payment of services and expenses of the Trust by the Plan. Party-in-interest transactions also include transactions between the Plan and Fidelity, the Plan administrator. Such transactions are exempt from being prohibited transactions.

There were no party-in-interest transactions which were prohibited under the Department of Labor regulations.

8. Party-in-Interest Transactions (continued)

Other than those described above or pursuant to a certain trust agreement (see Notes 1, 3, and 4), the Plan has had no agreements or transactions with related parties.

9. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated June 11, 2009, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan Sponsor believes the Plan is operating in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

11. Subsequent Events

Management evaluated subsequent events for the Plan through September 10, 2010, the date the financial statements were available to be issued.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V – Statement of actuarial assumptions/methods

A. Minimum funding method

The target liability for minimum funding calculations is computed using the traditional unit credit method of funding.

A detailed description of the calculation follows:

- An individual's **target liability** is the present value of benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **normal cost** is the present value of the benefit expected to accrue in the plan year.
- The plan's **target normal cost** is the sum of the individual normal costs, and the plan's **funding target liability** is the sum of the target liabilities for all participants under the plan.

Use of this method is prescribed by the PPA.

B. Maximum deductible contribution method

Maximum funding calculations include the excess of the accrued liability computed using the projected unit credit method over the minimum funding target liability.

A detailed description of the calculation follows:

An individual's **projected accrued liability** is the present value of benefits based on credited service as of the beginning of the plan year, but compensation that would be used in the calculation of the benefit on each expected separation date.

The plan's **projected funding target liability** is the sum of the projected accrued liabilities for all participants under the plan.

C. Asset valuation method

We used audited financial data submitted by the Plan Administrator as of January 1, 2009 without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

The asset valuation method used is the average value determined over the 24 months preceding the valuation date (using two 12-month averaging periods), as described in Section 430(g)(3)(B) as amended by Worker, Retiree and Employer Recovery Act of 2008 and described in IRS Notice 2009-22.

A characteristic of this asset valuation method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than market.

Schedule SB, Part V – Statement of actuarial assumptions/methods *(continued)*

D. Valuation procedures

We used the participant data supplied by the plan sponsor. We have reviewed the data and have no reason to doubt its substantial accuracy. Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides data on all employees as of the valuation date, but only those employees who have satisfied the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a one-year break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.
- **Disabled participants:** The liabilities for participants on long-term disability have been included with the liabilities for terminated vested participants.
- **Transferred participants:** The liabilities for employees who have transferred into another plan of the plan sponsor have been included with the liabilities for terminated vested participants.
- **Estimated benefits:** We estimated benefits for terminated vested participants to the extent that exact accrued benefit amounts were not provided to us.

Benefits included or excluded

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Plan amendments:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Shutdown benefits:** We are not aware of any corporate actions that would create or trigger shutdown benefits; therefore, the valuation includes no provision for such.
- **IRC Section 415(b):** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **Benefit restrictions:** Benefit restrictions (if applicable) are ignored in this valuation.

Schedule SB, Part V – Summary of plan provisions

Following is a summary of the major plan provisions used to determine the plan's financial position. It should not be used in determining plan benefits.

Effective date	November 7, 1968
Covered employees	Hourly paid employees of the Auburn or Union Springs Plant who are members of the ICWU Local 192.
Participation date	Date of becoming a covered employee.

Definitions

Vesting service	Years and months of service from last date of hire to date of termination of employment, including any service reinstated prior to a break-in-service.
Benefit service	Years and months of service as a covered employee, including up to 12 months on layoff.
Normal retirement date (NRD)	First of month following the attainment of age 65 with five years of vesting service.
Monthly pension benefit	▪ $20.00 times benefit service, effective March 1, 2001. ▪ $20.75 times benefit service, effective January 1, 2007. ▪ $21.50 times benefit service, effective January 1, 2008.
Monthly disability benefit	A monthly pension equal to the unreduced accrued normal retirement benefit commencing at the date of disablement.

Eligibility for Benefits

Normal retirement	Retirement at NRD.
Early retirement	Retirement before NRD and on or after attaining age 55 and completing ten years of vesting service.
Postponed retirement	Retirement after NRD.
Disability	Totally and permanently disabled, after attaining age 60 and completing five years of vesting service.

Schedule SB, Part V – Summary of plan provisions *(continued)*

Deferred vested	Termination for reasons other than death or retirement after completing five years of vesting service.
Pre-retirement surviving spouse benefit	Death while eligible for vested retirement benefits, having been married at least one year.

Monthly Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD.
Early retirement	Monthly pension benefit determined as of early retirement date, reduced by 6.0% for each year of payment before age 65.
Postponed retirement	Monthly pension benefit determined as of actual retirement date.
Disability benefit	Monthly pension benefit determined as of disability date, payable immediately.
Termination with deferred vested benefit	An employee will receive a deferred pension commencing between the ages of 55 and 65 reduced 6.0% for each year by which commencement of benefits precedes age 65. The pension can only commence early if the employee had ten or more years of vesting service.
Death with pre-retirement spouse benefits	The benefit is calculated as if the employee had terminated his employment on the date of his death, had elected to have his pension commence on his earliest retirement date, had elected the 50% joint and survivor option, had survived to his earliest retirement date and died the following day.
Normal form	Life annuity if the participant has no spouse as of the date payments begin. If married, benefits are paid in the form of a 50% qualified joint and survivor annuity.
Other forms of payment	If participant elects and the spouse consents (if applicable), other actuarially equivalent optional forms offered by the plan. Pre-retirement spouse benefits are payable only as described above. Optional forms are 100%, 75% or 50% contingent annuitant.

Schedule SB, Part V – Summary of plan provisions *(continued)*

Maximum on benefits	All benefits for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code.
Changes in Plan Provisions Since Prior Year	Plan provisions have not changed since the prior year, except to reflect the actual current year changes in the Internal Revenue Code maximums on benefits.

Schedule SB, line 24 – Change in actuarial assumptions

The interest rate of discount increased from 6.19% as of January 1, 2008, to 8.08% as of January 1, 2009, reflecting a change in statutory interest rates during that period, and reflecting a change in method for determining discount rates, as described in the attachment to line 25.

The mortality table was updated from the 2008 PPA separate static annuitant/nonannuitant tables to the 2009 PPA separate static annuitant/nonannuitant tables. Additionally, the mortality table for disabled participants was changed from the 2008 PPA separate static annuitant/nonannuitant table to the Rev. Ruling 96-7 Post-1994 Disabled Mortality Table.

The expense assumption changed from $0 to $160,000 to reflect current provisions of PPA.
