July 31, 2011 and 2010

(1) Description of Plan

Effective July 1, 1969, Wheel Horse Products, Inc. (the Company) established a defined benefit retirement plan that, as of July 31, 2011, covered 207 former hourly employees of the Company who were represented by a collective bargaining unit. The Wheel Horse Products, Inc. Employees' Retirement Plan (the Plan) is administered by the Company's parent, The Toro Company, and the plan assets are held by JP Morgan Chase Bank, N.A., the trustee. Pension benefits are paid to participants when their retirement dates are reached. A normal retirement date is the later of the date of a participant's 65th birthday or the date a participant completes five years of credited service. An election can be made for an early, late, or disability retirement date. Normal retirement benefits are paid monthly to the retiree or the surviving spouse of the retiree. Maximum benefits are limited to the lesser of \$160,000 or 100% of the participant's highest average compensation.

A participant who terminates employment and who is not eligible for normal retirement benefits will become eligible for vested termination benefits after five years of vesting service and will become eligible for early retirement benefits after attainment of age 60 with five years of vesting service or attainment of age 55 with thirty years of vesting service.

On March 26, 1993, the Wheel Horse plant closed. This eliminated future service for all employees, and all employees became 100% vested.

The Toro Company, administrator of the Plan, absorbs all administrative costs of the Plan, except for the trustee fees. The Toro Company designs, manufactures, and markets professional turf maintenance equipment and services, turf and agricultural microirrigation systems, landscaping equipment, and residential yard and snow removal products.

(2) Summary of Significant Accounting Policies

The accompanying financial statements of the Plan are presented on an accrual basis in accordance with U.S. generally accepted accounting principles.

(a) Investments

Investments in units of participation in the JP Morgan Prime Money Market Fund are stated at cost, which approximates fair value. Investments in the JP Morgan Fixed Income and Equities Mutual Funds are stated at fair market value based on quoted market prices of the underlying securities as determined by the trustee.

Purchases and sales of securities are reflected on a trade-date basis. Net unrealized appreciation (depreciation) of investments (including investments bought, sold, and held during the year) is reflected in the statements of changes in net assets available for benefits.

EMPLOYEES' RETIREMENT PLAN**

Notes to Financial Statements

July 31, 2011 and 2010

The Plan categorizes its assets and liabilities into one of three levels based on the assumptions (inputs) used in valuing the asset or liability. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Assets and liabilities measured at fair value, as of July 31, 2011 and 2010, are summarized below:

2011	Fair value	Level 1	Level 2	Level 3
Assets:				
Cash and cash equivalents	\$ 64,378	64,378	—	—
Fixed income mutual funds	1,072,117	1,072,117	—	—

Notes to Financial Statements

July 31, 2011 and 2010

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, accumulated plan benefits, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

(c) Risks and Uncertainties

Investments in general are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(3) Party-in-interest Transactions

JP Morgan Chase Bank, N.A. is a party in interest with respect to the Plan. In the opinion of the Plan's legal counsel, transactions between the Plan and the trustee are exempt from being considered as "prohibited transactions" under the Employee Retirement Income Security Act of 1974 (ERISA) Section 408(b).

(4) Actuarial Present Value of Accumulated Plan Benefits, Actuarial Assumptions, and Methods

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries and beneficiaries of employees who have died. Benefits under the Plan are based on employees' number of credited years of service and normal retirement date, as defined in the agreement.

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and expected date of payment. Actuarial calculations were made using the standard unit credit cost method.

As of August 1, 2010 (beginning of the Plan year), the actuarial present value of accumulated plan benefits, as determined by consulting actuaries, was:

Actuarial present value of accumulated plan benefits:

Participants currently receiving benefits	\$ 1,754,448
Other participants	1,046,617
	<hr/>
Total actuarial present value of accumulated plan benefits	\$ 2,801,065
	<hr/>

WHEEL HORSE PRODUCTS, INC.
EMPLOYEES' RETIREMENT PLAN

Notes to Financial Statements

July 31, 2011 and 2010

The total actuarial present value of accumulated plan benefits decreased \$171,882 from the prior year due to benefit payments of \$245,345 and other changes related to the normal operation of the Plan of \$154,765, offset by an increase of \$228,228 related to the accumulation of interest.

The more significant assumptions underlying the actuarial computations are as follows:

Discount rate	8.00%
Mortality basis	RP 2000 Combined Healthy Mortality Table
Retirement age	Age 65 with five years of service
Valuation method	Standard Unit Credit Cost Method
Expected long-term rate of return	8.00%

(5) Trust Fund Investments and Investment Income

The trustee provided the plan administrator with certifications as to the completeness and accuracy of investment assets of the trust aggregating \$4,146,840 and \$3,757,932 as of July 31, 2011 and 2010, respectively, and the related investment income on such assets of \$629,655 and \$497,208, respectively, for the years then ended.

During fiscal 2011 and 2010, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$559,928 and \$436,288, respectively.

Such amounts are included in the accompanying financial statements and supplemental schedules based on such certifications from the trustee.

(6) Plan Termination

While the Company has not expressed any intent to terminate the Plan or to discontinue contributions, it is free to do so at any time, subject to the provisions set forth in ERISA.

If the termination is the result of the bankruptcy or near bankruptcy of the plan sponsor and the Plan's assets are not adequate to pay all benefits vested prior to the termination, the Pension Benefit Guaranty Corporation (PBGC) will take over the Plan and will pay those benefits that it guarantees. In this case, some participants may receive a smaller benefit than if the Plan had continued. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Upon termination, funds shall be allocated, to the extent sufficient, among participants and their beneficiaries in the order of precedence specified in ERISA Section 4044, as amended from time to time.

If, however, the Plan is terminated for any reason other than the bankruptcy or near bankruptcy of the Company and the Plan has insufficient assets, the Company will be required to pay to the Plan an amount that, together with the Plan's assets, will satisfy all benefits accumulated to the date of the Plan's termination.

Notes to Financial Statements

July 31, 2011 and 2010

(7) Federal Income Taxes

The plan administrator received a favorable determination letter dated April 20, 2012 from the Internal Revenue Service stating that the Plan constitutes a qualified plan under Section 401(a) of the Internal Revenue Code (the Code) and that the trust created under the Plan is exempt from federal income tax under Section 501(a) of the Code.

(8) Funding Policy

The Company's contributions to the Plan are designed to annually fund the prior service costs (present value of accumulated benefits), less net assets available, over approximately 30 years, which is in compliance with the minimum funding requirements under the ERISA.

(9) Investments

The following investments represent 5% or more of the Plan's net assets available for plan benefits at July 31, 2011 and 2010:

	Fair value	
	2011	2010
JP Morgan Core Bond Fund*	\$ 515,082	454,784

(10) Subsequent Events

The Plan has evaluated subsequent events through May 15, 2012, the date at which the financial statements were issued, and has determined that there were no material events requiring recognition or disclosure.
