Plan Administrator & Participants
TRAFFIC CONTROL PRODUCTS OF FLORIDA, INC. RETIREMENT PLAN

INDEPENDENT AUDITORS' REPORT

I have audited the accompanying statements of net assets available for benefits of **TRAFFIC CONTROL PRODUCTS OF FLORIDA, INC. RETIREMENT PLAN** as of **December 31, 2011** and **2010**, and the related statements of changes in net assets available for benefits for the **year**. These financial statements are the responsibility of the Plan's management. My responsibility is to express an opinion on these financial statements based on my audits.

Except as discussed in the following paragraph, I conducted my audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that our audits provide a reasonable basis for our opinion.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed me not to perform, and I did not perform, any auditing procedures with respect to the information summarized in Note C which was certified by John Hancock Life Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. I have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the **years** ended **December 31, 2011** and **2010**, that the information provided to the plan administrator by the trustee is complete and accurate.

In my opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had I performed procedures with respect to the information summarized in Note C the financial statements referred to above present fairly, in all material respects, the financial status of **TRAFFIC CONTROL PRODUCTS OF FLORIDA, INC. RETIREMENT PLAN** as of **December 31, 2011** and **December 31, 2010**, and the changes in its financial status for the **year** ended **December 31, 2011**, in conformity with accounting principles generally accepted in the United States of America.

My audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Assets Held at the End of the Year is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and related directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, except for the effects on the Schedule of Assets Held at the End of The Year of such adjustments, if any, as might have been determined to be necessary had I performed procedures with respect to the information summarized in Note C as described in the second preceding paragraph, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Date of Management's Review

Subsequent events were evaluated through **May 5, 2012**, which is the date of the financial statements were available to be issued.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income sis recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

NOTE C - FAIR VALUE MEASUREMENTS:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

December 31, 2011	Fair Value	Fair Value Measurements at Reporting Date Using: Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds	$1,150,623	$1,150,623	$0	$0
Common stocks	0	0	0	0
Investment contract with insurance company	0	0	0	0
Total	**$1,150,623**	**$1,150,623**	**$0**	**$0**

December 31, 2010	Fair Value	Fair Value Measurements at Reporting Date Using: Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds	$1,087,093	$1,087,093	$0	$0
Common stocks	0	0	0	0
Investment contract with insurance company	0	0	0	0
Total	**$1,087,093**	**$1,087,093**	**$0**	**$0**

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair values of common stocks, certain corporate bonds, and U.S. government securities are based on the closing price reported in the active market where the individual securities are traded, when available.

Level 2 Fair Value Measurements

The fair value of certain corporate bonds for which quoted market price are not available are valued based on yields currently available on comparable securities of issuers with similar credit ratings. Investments in certain restricted common stocks are valued at the quoted market price of the issuer's unrestricted common stock less an appropriate discount. The fair value of the certificates of deposit is based on amortized cost or original cost plus accrued interest.

Level 3 Fair Value Measurement

The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

	Investment Contract with Insurance Company

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the **year** ended **December 31, 2011**, are reported in net appreciation in fair value investments.

NOTE D - INVESTMENTS:

Except for its investment contract with an insurance company, the Plan's investments are held in a bank-administered trust fund. The following table presents fair value of investments measured on a recurring basis at **December 31, 2011** and **2010**. Investments that represent 5% or more of the Plan's net assets are separately identified.

During 2011, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value as follows:

Mutual Funds	$34,366
Common stocks	0
	$34,366

NOTE E - PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTE F - TAX STATUS:

The Internal Revenue Service has determined and informed the Company by letter in 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

NOTE G - RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
