To the Plan Administrator of
Rockwood Manufacturing Company, Inc.
401(k) Profit Sharing Plan
Rockwood, Pennsylvania

We were engaged to audit the accompanying statements of net assets available for benefits of Rockwood Manufacturing Company, Inc. 401(k) Profit Sharing Plan as of October 3, 2011 and December 31, 2010, and the related statement of changes in net assets available for benefits for the period from January 1, 2011 to October 3, 2011, and the supplemental schedule as of October 3, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information identified in Note 6, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of October 3, 2011 and December 31, 2010, and for the period from January 1, 2011 to October 3, 2011 and the year ended December 31, 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ROCKWOOD MANUFACTURING COMPANY, INC.
401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
OCTOBER 3, 2011 AND DECEMBER 31, 2010

NOTE 1 - PLAN DESCRIPTION

The following description of Rockwood Manufacturing Company, Inc. 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Rockwood Manufacturing Company, Inc. (Company). Employees become eligible to participate in the Plan upon completion of one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Merger

The Company approved the merger of the Plan into the Assa Abloy, Inc. Retirement Savings Plan (Assa Abloy Plan). As a result, all plan investments were transferred from the Plan to the Assa Abloy Plan on that date, however there was additional plan level activity up through October 3, 2011 (see Note 13).

Contributions

Each year, participants may contribute up to twenty percent (20%) of pretax annual compensation, as defined in the Plan, not to exceed certain IRS limits.

The Company may make a discretionary match which can be adjusted on an annual basis. For the period ended October 3, 2011, the Company's matching contribution was based on 50 percent of the participant's elective deferral, not to exceed 3 percent of the participant's pretax annual compensation. In addition, the Company contributes a discretionary contribution equal to 3 percent of each eligible participant's annual compensation, subject to certain IRS limitations. The Company's discretionary contribution amounted to \$77,986 for the period from January 1, 2011 to October 3, 2011. Contributions to the Plan are recorded in the period that payroll deductions are made from participants. Company contributions are accrued based upon the period those contributions relate to.

Participants who have attained age 50 by the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

Participants may direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts as well as an investment contract with an insurance company as investment options.

Participant Accounts

Each participant's account is credited with (a) the participant's contribution and related employer matching contribution, (b) an allocation of the Company's discretionary contribution, (c) investment earnings and administrative fees, and (d) an allocation of forfeitures of terminated participant's nonvested amounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are always fully vested in their voluntary contributions, rollover contributions, and any earnings thereon. Vesting in the remainder of their account is earned in accordance with the following six year graded schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans are secured by the vested balance in the participant's account and are charged interest at a rate comparable to rates charged by area banks for similar loans. Loans must be repaid within five years. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service, a participant may elect to receive either a lump sum distribution or an annuity. Participants with account balances of less than \$5,000 upon termination will automatically receive a lump sum distribution. Upon reaching age 59 1/2, participants may elect to receive in-service withdrawals. The Plan also maintains a provision for hardship withdrawals.

Forfeited Accounts

At December 31, 2010, forfeited nonvested accounts totaled \$12,907. There were no forfeited nonvested accounts as of October 3, 2011. The forfeited amounts are used to reduce administrative fees or reduce employer contributions paid by the plan sponsor.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan's investment contract with the insurance company has been determined to not be fully benefit responsive and has a contract value which approximates fair value.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a description of the valuation methodologies used for assets measured at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Administrative expenses are paid by the Company and the Plan.

Subsequent Event Evaluation

The Plan has evaluated subsequent events through May 18, 2012, the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets. All investments are participant directed.

	<u>2011</u>	<u>2010</u>

During the period from January 1, 2011 to October 3, 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$493,047 as follows:

Pooled Separate Accounts	\$ 497,758
Guaranteed Interest Accounts	(<u>4,711</u>)
	<u>\$ 493,047</u>

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include significant inputs, other than Level 1 inputs, that are observable either directly or indirectly for substantially the full term of the asset through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets, quoted market prices in markets that are not active for identical or similar assets, and other observable inputs.

Level 3 – Inputs to the valuation methodology are unobservable inputs and significant to the fair value measurement.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 3, 2011 and December 31, 2010.

Pooled separate accounts: The value of the pooled separate accounts are expressed in units as determined by dividing the value of the entire account by the total number of units in the plan account. Valued at the respective fair value of the underlying assets, which are principally marketable equity and fixed income securities. One pooled separate account invests mainly in commercial real estate which is stated at fair value as determined by an independent third party appraiser.

Investment contract with insurance company: The investment contract with the insurance company is part of Principal Life Insurance Company's Group Annuity Contract. The fair value of the investment contract with insurance company represents the contract value of the investment net of surrender or early withdrawal charges. The investment contracts provide information about redemption frequency and notice periods, if applicable. There are no unfunded commitments associated with these contracts.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Substantially all Plan assets were transferred to the Assa Abloy Plan on May 31, 2011. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Investments Whose Fair Value is Calculated Using Net Asset Value Per Share

The following table sets forth additional disclosures for the investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2010. The disclosures describe the nature and risks associated with such investments as well as whether it's probable those investments will be sold at amounts different from their reported net asset value per share based on redemption restrictions, if any.

- (a) Large US Equity: This class includes separate account funds that seek long-term capital growth by investing primarily in the equity securities of large domestic companies. While the underlying assets values are quoted prices, the net asset value of a separate account is not publicly quoted.
- (b) Small/Mid US Equity: This class includes separate accounts which invest in a variety of small and mid cap domestic equities. While the underlying assets values are quoted prices, the net asset value of a separate account is not publicly quoted.
- (c) International Equity: This class includes separate accounts that invest in international stocks. The majority of the underlying securities have observable Level 1 or 2 pricing inputs, including quoted prices for similar assets in active or non-active markets. Most of the security prices were obtained from a pricing service. When markets move outside of set thresholds in a day, instead of accepting the exchange quote from the pricing service, the custodian uses prices determined by the Fair Market Value mode which is a multi-factor regression model. This model is used to adjust closing prices on foreign markets for activity between the closing of the foreign and U.S. markets.
- (d) Balanced/Asset Allocation: This class consists of separate accounts which invest in various mutual funds or other pooled separate accounts offered by Principal. The objective of the funds is to maximize long-term total return consistent with prudent investment strategy.
- (e) Short Term Fixed Income: This class includes a money market separate account which invests mainly in short term securities such as commercial paper. The majority of the underlying securities have observable level 1 or 2 pricing inputs, including quoted prices for similar assets in active or non-active markets. Most of the security prices were obtained from a pricing service.
- (f) Fixed Income: This class includes a separate account which invests in a single mutual fund – The Principal Inflation Protection Institutional Fund. While the underlying assets values are quoted prices, the net asset value of a separate account is not publicly quoted.
- (g) Real Estate: This class includes a pooled separate account that is designed to provide returns reflective of core U.S. real estate markets. The account invests mainly in commercial real estate and includes mortgage loans which are backed by the associated properties. The fair value of the underlying real estate is estimated using discounted cash flow valuation models that utilize public real estate market data. Each property is also appraised on an annual basis by an independent appraiser. Until March 25th, 2011, this separate account had a temporary withdrawal limitation related to past turmoil in the credit markets that resulted in a sharp slowdown in the sale of commercial real estate assets over the last several years. The uncertain environment led to significantly increased requests for withdrawals. To allow for orderly administration and management benefiting all separate account investors, Principal Life implemented a pre-existing contractual limitation to delay certain withdrawal requests. Certain high need payments, such as death, disability, certain eligible retirements, and hardship withdrawals were not subject to the withdrawal limitation. Other withdrawal requests were subject to the limitation until certain liquidity levels were achieved, mainly via proceeds from sales of underlying properties, rents from tenants and new investor contributions. Since the inception of the withdrawal limitation, all sources of cash were first used to satisfy cash requirements at the properties, meet debt maturities, maintain compliance with debt covenants and meet upcoming separate account obligations. Outstanding withdrawal requests were paid in multiple payments. Except for certain de minimis payments, payments were made proportionately along with all other outstanding withdrawal requests, based upon available liquidity. All withdrawals were being transacted at the NAV price at the date of distribution. The restriction ended March 25, 2011.

- (h) Other: This class includes investments in Principal Financial Group stock. While the underlying securities have observable level 1 pricing inputs, the net asset value of a separate account is not publicly quoted.

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a non benefit-responsive guaranteed interest account with Principal Life Insurance Company (Principal). The contract is included in the financial statements at fair value, because it is not fully benefit responsive as there are restrictions when amounts are withdrawn prior to maturity (see Note 2). The contracts had various maturity dates through December 31, 2017 and provided for interest rates ranging from 0.63% to 1.67%. These investments were transferred out of the plan concurrent with the merger described in Note 1 and Note 13.

NOTE 6 - RELIANCE ON INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Under that section, no auditing procedures are required to be performed with respect to information certified by the custodian of the Plan, Principal Life Insurance Company, other than comparing such information to that contained in the financial statements and supplemental schedule. Accordingly, the amounts included in the financial statements and Note 3 and Note 4 as of October 3, 2011 and December 31, 2010, and for the period from January 1, 2011 to October 3, 2011 and the supplemental schedule as of October 3, 2011 have been prepared from statements certified as complete and accurate by the custodian in accordance with DOL regulation 29 CFR 2520-103-8.

NOTE 7 - TAX STATUS

The Plan adopted a non-standardized form of a prototype plan sponsored by Principal Life Insurance Company. The prototype plan has received an opinion letter from the Internal Revenue Service dated March 31, 2008, as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The prototype plan has been amended since receiving the determination letter. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions,

the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2008.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities held by the Plan, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 - RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Principal Life Insurance Company, the custodian and recordkeeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

NOTE 10 - PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants will become one hundred percent (100%) vested in their accounts. During 2011, the Plan merged with the Assa Abloy, Inc. Retirement Savings Plan (Note 1 and Note 13).

NOTE 11 - EXCESS CONTRIBUTIONS PAYABLE

In order to satisfy the relevant nondiscrimination provisions of the Plan, excess contributions amounting to \$-0- and \$14,034 have been recorded as a liability in the accompanying statements of net assets available for benefits as of October 3, 2011 and December 31, 2010, respectively. The plan refunded the 2010 excess contributions during the 2011 plan year.
