NOTE 1 — DESCRIPTION OF THE PLAN

General:

The following description of the Currier McCabe & Associates, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Currier McCabe & Associates, Inc. 401(k) Profit Sharing Plan is a defined contribution plan which covers substantially all full-time employees of Currier McCabe & Associates, Inc. (the "Company") who have met certain age and length of service requirements. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions:

The Plan allows participants to contribute up to 50% of their compensation with an annual limit of $16,500 for calendar year 2010. At the discretion of the Company, the Company may match contributions made by eligible participants for the year. The matching contribution formula is 50% of employee contributions up to a maximum Company match of $5,000. The Company suspended the matching contribution in January 2009. Forfeitures of the nonvested portion of accumulated matching contributions for terminated employees are used to reduce future administrative expenses and matching contributions of the Company.

Investment options:

All Plan investments are participant directed with various investment options offered by the Plan. Participants may change their investment options at any time.

Participants accounts:

Each participant's account is credited with the participant's contribution and an allocation of the Company's discretionary contributions and Plan earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants:

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans generally must be repaid over a period not longer than five years. Loans are collateralized by the balance in the participant's account and bear interest at rates ranging from 3.25% to 8.25%. Principal and interest is paid ratably through payroll deductions.

Vesting:

Participants are fully vested with respect to their own contributions plus actual earnings thereon and become vested with respect to employer contributions at the rate of 20% per year. Employees become fully vested after five years of service. In addition, upon retirement, permanent disability, or death before retirement, the participant will be fully vested, regardless of the years of service.

NOTE 1 — DESCRIPTION OF THE PLAN (Continued)

Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their employer contributions.

Payment of benefits:

On termination of service or retirement, a participant is entitled to receive a distribution of his or her vested interest in a lump-sum amount or in installments.

Administrative expenses:

The Company pays for substantially all expenses incurred in connection with the administration of the Plan.

NOTE 2 — SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting:

Currier McCabe & Associates, Inc. 401(k) Profit Sharing Plan financial statements are prepared on the accrual basis of accounting.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investments valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable form participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits:

Benefits are recorded when paid.

Subsequent events:

The Plan has evaluated subsequent events through March 1, 2012, the date the financial statements were available to be issued.

NOTE 3 — FORFEITURES

At September 30, 2010 the Plan had no unallocated forfeitures ($13,311 in 2009). These amounts will be used to reduce future Company paid administrative expenses and employer contributions.

NOTE 4 — INVESTMENTS

The following table represents investments as of September 30, 2010 and 2009. Investments that represent 5% or more of the Plan's net assets are separately identified (*):

NOTE 5 — FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy under FASB ASC 820 are described below:

NOTE 5 — FAIR VALUE MEASUREMENTS (Continued)

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access;

Level 2 - Inputs to the valuation methodology are observable inputs other than quoted market prices in active markets for identical assets and liabilities; and

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of valuation methodologies used for assets measured at fair values. There have been no changes in the methodologies used at September 30, 2010 and 2009.

Mutual Funds: Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. The net asset value of the mutual funds is based on quoted market prices in active markets.

Common/Collective Trust: Unit value is valued at amortized cost unless the board of trustees determines that amortized cost does not represent fair value. Under the amortized cost method, each investment is initially valued at cost, and thereafter assumes the constant accretion/amortization to maturity date or next reset date of any discount or premium.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2010 and 2009:

	Assets at Fair Value as of September 30, 2010			
	Level 1	Level 2	Level 3	Total

Total Assets at fair value	$8,199,843	$ -	$ -	$8,199,843

NOTE 6 — INCOME TAX STATUS

The Company has adopted a prototype (Prototype) non-standardized profit sharing plan (Prototype) which complies with the applicable requirements of the Internal Revenue Code (IRC). The Plan does not have its own separate Internal Revenue Service determination letter but the Prototype has a letter dated March 31, 2008. Although the Plan has been amended since the Prototype received its determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of American require plan management to evaluate tax positions taken by the Plan and recognized a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of September 30, 2010, there are no uncertain positions taken or expected to be taken that would require recognition as liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 7 — RECONCILIATION TO FORM 5500

The following is a reconciliation of the net assets available for benefits per the financial statements at September 30, 2010 and 2009 to Schedule H of Form 5500:

	2010		
	Per Financial Statements	Per Form 5500	Difference
Employee contributions receivable	$ -	$ -	$ -
	$ -	$ -	$ -

	2009		
	Per Financial Statements	Per Form 5500	Difference
Employee contributions receivable	$ 48,214	$ -	$ 48,214
	$ 48,214	$ -	$ 48,214

The Plan was delinquent in its filing of its 2009 Form 5500 for the Plan year ended September 30, 2010. The Plan has taken steps to ensure timely filing of its Form 5500 in the future.

NOTE 8 — PARTY-IN-INTEREST TRANSACTIONS

Through August 16, 2010, the Plan invested in mutual funds that were managed by American Funds Distributors Inc. ("American"), an affiliate organization to Capital Bank and Trust Company. These transactions by American qualify as party-in-interest transactions for which a statutory exemption exists. Capital Bank and Trust Company and State Street Bank and Trust the trustees of the Plan are considered parties in interest. Notes receivable to participants are considered party-in-interest transactions.

NOTE 9 — RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
