NOTE A - DESCRIPTION OF PLAN -

The following description of the Avocent Corporation (the Company) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General - The Plan is a defined contribution plan covering all full-time employees of the Company. Prior to the termination of the Plan, employees were eligible to participate on the first day of the month following employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan administrator is Avocent Corporation. The plan trustee is DWS Trust Company. On June 30, 2010, the assets for the Avocent Corporation employees were transferred to the Emerson Employee Savings Investment Plan. On March 31, 2011 the remaining assets for the LANDesk division employees were transferred to the LANDesk Software, Inc. 401(K) Plan.

2. Contributions - Each year, participants can contribute not less than two-percent (2%) up to thirty-percent (30%) of pretax annual pay, as defined in the Plan, not to exceed IRS allowable limits. Participants can also contribute amounts representing distributions from other qualified plans. The Company's matching contribution is determined by the Board of Directors for each plan year. For the current plan year, the matching contribution was fifty-percent (50%) of the participant's deferred contribution up to six-percent (6%). Deferred contributions in excess of six-percent (6%) are not matched. Additional amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations. The plan also allows certain participants to make additional pre-tax contributions to the plan, called catch-up contributions.

3. Participant Accounts - Each participant's account is credited with the participant's contribution, the Company's contribution, Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant account balances, as defined. Forfeitures attributable to matching accounts can be used to offset administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts is based on years of continuous service. A participant is one hundred-percent (100%) vested after five years of credited service.

5. Payment of Benefits - Upon termination of employment, a participant may elect to receive a lump-sum amount, installment payments equal to the value of his or her account, or the value of the benefits in the form of a joint and survivor annuity.

NOTE A - DESCRIPTION OF PLAN - Continued -

6. Notes Receivable from Participants - Participants can borrow from their fund accounts up to a maximum equal to the lesser of $50,000 reduced by any outstanding loan balance or 50% of the participant's vested account reduced by any outstanding loan balance. Loan transactions are treated as a transfer from the investment fund to the loans to participant's fund. The loans are secured by up to 50% of the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest is paid through biweekly payroll deductions.

7. Investment Options - Participants can direct contributions, including employer matching and discretionary contributions, into any of the investment options offered under the Plan. Participants can change their investment elections daily and/or their elective deferral percentages daily.

NOTE B - SUMMARY OF ACCOUNTING POLICIES -

Basis of Accounting - In accordance with generally accepted accounting principles, the Plan has changed its basis of accounting used to value plan assets from the ongoing plan basis to the liquidation basis for periods after December 31, 2010 (See Note F).

Investment Valuation and Income Recognition - The Plan's investments in mutual funds are stated at fair value. Shares of registered mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

As required by current accounting standards, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. At December 31, 2010, fair value approximates contract value for the fully benefit-responsive investment contracts.

Investment and Securities Transactions - All Plan assets were transferred to the LANDesk Software, Inc. 401(K) Plan before the close of business on March 31, 2011.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - The Plan pays all administrative fees from the Plan's earnings and forfeitures of non-vested accounts.

(continued)

NOTE B - SUMMARY OF ACCOUNTING POLICIES - Continued -

Net Appreciation (Depreciation) in Fair Value of Investments - Realized gains (losses) and unrealized appreciation (depreciation) are recorded in the accompanying financial statements as net appreciation (depreciation) in fair value of investments.

Contributions - Employee elective contributions are recorded in the period in which the Employer makes the deductions from the participants' payroll. Employer matching contributions are recorded in the same period.

New Accounting Pronouncements - In January 2010, the FASB issued Accounting Standards Update 2010-06, Improving Disclosures about Fair Value Measurements (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and requires a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and presented information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Adoption of ASU 2010-06 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In September 2010, the FASB issued Accounting Standards Update 2010-25, Reporting Loans to Participants by Defined Contribution Pension Plans (ASU 2010-25). This Accounting Standard Update requires that loans to the participants in an entity's defined contribution pension plan be classified as notes receivable. These loans are to be reported separately from plan investments. The proper measurement of these loans is their unpaid principal balances, plus all accrued but unpaid interest. The guidance in ASU 2010-25 becomes effective for reporting periods ending after December 15, 2010 and must be applied retrospectively. Adoption of ASU 2010-25 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Party in Interest Transactions - Some of the Plan's investments is managed by the DWS Trust Company. Thus, these investment transactions qualify as party-in-interest transactions

NOTE B - SUMMARY OF ACCOUNTING POLICIES - Continued -

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates. The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rates, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such change could materially affect the amounts reported in the financial statements.

Date of Management's Review - Subsequent events were evaluated through April 26, 2012, which is the date the financial statements were available to be issued.

NOTE C - INVESTMENTS -

The fair market values of individual assets that represent five-percent (5%) or more of the Plan's net assets are as follows:

DWS Stable Value A	$ -	$ 678,791
T. Rowe Price Mid Cap Value - R	$ -	$ 245,979

During the period January 1, 2011 through March 31, 2011, the Plan's investments in registered investment companies - mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $75,741.

During the period January 1, 2011 through March 31, 2011, the Plan's investments in common collective trust funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $6,160.

NOTE C - INVESTMENTS - Continued -

At times, some of the individual funds within the Plan may invest in derivatives such as futures and options. Derivatives may involve risks different from, and possibly greater than, the risk associated with investing directly in securities and other traditional investments.

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs were only used when Level 1 inputs were not available. Level 3 inputs were used when no Level 1 or Level 2 inputs were available to the Plan. There were no changes in the methodologies during the period January 1, 2011 through March 31, 2011.

Level 1 Fair Value Measurements

The fair values of investments with registered investment companies are available and are based on quoted market prices.

Level 2 Fair Value Measurements

The fair values of investments in common/collective trust funds for which quoted market price are not available are valued based on the market value of its underlying investments (See Note D).

NOTE D - COMMON COLLECTIVE TRUSTS -

At December 31, 2010, the Plan had investments in the DWS Stable Value Fund and the DWS Stock Index Fund which are separate accounts. The Plans investments in the funds are through investments in common collective trusts.

The DWS Stable Value Fund is fully-benefit responsive and, therefore, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the common collective trust. Contract value represents contributions made under the contracts, plus earnings, less withdrawals and administrative expenses. At December 31, 2010, the DWS Stable Value Trust invested 100% of its investment portfolio in Pyramid Stable Value Portfolio Fund. The Pyramid Stable Value Portfolio Fund (the Fund) is invested in one or more agreements, collectively referred to as general account guaranteed investment contracts ("GICs") issued by banks, insurance companies or other financial institutions, domestic and foreign, pursuant to which the issuer undertakes to repay the principal amounts deposited and interest at such fixed, variable or other rates specified under the terms of the agreement. The Fund may also invest in one or more agreements known as separate account guaranteed investment contracts or in a portfolio of marketable fixed income securities and other financial instruments. As of December 31, 2010, the contract value of the fully-benefit responsive common collective trust investment approximates fair value.

The DWS Stock Index Fund is a collective investment trust. At December 31, 2010, the trust invested approximately 20% of its portfolio in State Street Global Advisors S&P 500 Index Securities Lending Series Fund - Class I, and approximately 80% of its portfolio in NTGI-QM Collective Daily S&P 500 Equity Index Fund-Non Lending. Investments in the underlying funds are valued at the closing net asset value per unit/share as determined on each valuation date. Securities and other assets for which market quotations are not readily available are valued in a manner that is intended to reflect their fair value in accordance with procedures approved by the trustee.

NOTE E - FORFEITURES -

During the period January 1, 2011 to March 31, 2011 and during the year ended December 31, 2010, participants of the Plan forfeited non-vested benefits of approximately $13,000 and $92,000, respectively.

NOTE F - PLAN TERMINATION -

On June 30, 2010, all of the assets of the Avocent Corporation participants were transferred to the Emerson Employee Savings Investment Plan held by Vanguard. Subsequently, the LANDesk employees were given the option to transfer their account balances to the LANDesk Software, Inc. 401(K) Plan, roll their balance into an IRA or another qualified plan, or take a distribution and pay appropriate taxes and applicable penalties. On March 31, 2011 the remaining assets for the LANDesk division employees were transferred to the LANDesk Software, Inc. 401(K) Plan leaving no assets remaining in the Plan at March 31, 2011. The Avocent Corporation Retirement Plan was terminated upon the complete distribution of the remaining assets of the Plan.

NOTE G - TAX STATUS -

Although the Plan has not requested determination from the Internal Revenue Service as to the Plan's tax-exempt status, the master prototype plan from which the Plan was drafted has received a favorable determination from the IRS. Plan management believes that the Plan is designed to operate in accordance with all applicable provisions of the Internal Revenue Code. Therefore, management believes that the Plan is qualified and that the related trust is exempt from taxation under the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of March 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE H - ADMINISTRATIVE EXPENSES -

The annual fees for the audit of the Plan's financial statements and the administrative fees for the asset custodian and third party record-keeper are paid by the employer. The Company provides certain accounting, administrative, and investment management services to the Plan for which no fees are charged.

(continued)

NOTE I - RISKS AND UNCERTAINTIES -

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits. A reasonable estimate of these changes cannot be made.

NOTE J - EXCESS EMPLOYEE CONTRIBUTIONS -

As of March 31, 2011, there was $137,936 owed to participants who made excess contributions based on compliance testing performed by the Plan's record-keeper. Since the assets of the Plan have been transferred out prior to corrective action being taken to refund the excess contributions, the refunds will be made out of the plans and individual accounts to which the assets were transferred. As a result, no liability for the excess contributions has been recorded on the Avocent Corporation Retirement Plan financial statements at March 31, 2011. As of the date of these financial statements, the excess contributions have not been refunded.
