VERSA PRESS, INC. EMPLOYEES' RETIREMENT PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF PLAN

The following description of the Versa Press, Inc. Employees' Retirement Plan and Trust (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Versa Press, Inc. who have attained age 20 ½ and completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 100 percent of their annual compensation, subject to certain Internal Revenue Code limitations. Participants may make modifications to their contributions quarterly and terminate their contributions at their discretion. Versa Press, Inc. may make elective contributions up to 50% of the amount of an eligible employee's salary deferral, up to 4% of his or her total compensation. Versa Press, Inc. may also make a discretionary contribution that is allocated to eligible employees based upon total compensation. Employer contributions for 2011 and 2010 were $428,715 and $431,924, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution (if any) and an allocation of Plan earnings. Allocations are based on the performance of the participants' individual investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings thereon, as well as the employer contributions to their accounts.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant account may be distributed in a lump sum payment or annuity payments over a certain term.

Participant Loans

The Plan does not allow participant loans.

Forfeited Accounts

As participants are immediately vested in all contributions, there are no forfeited nonvested accounts.

Plan Termination

Although it has not expressed any intent to do so, Versa Press, Inc. has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants are 100 percent vested in their accounts.

Tax Status

Effective January 1, 2006, the Plan was amended and restated to adopt the Benefit Planning Consultants, Inc. Prototype Non-standardized Profit Sharing Plan with CODA. In a letter dated August 30, 2001, the Internal Revenue Service has informed Benefit Planning Consultants, Inc. that its prototype plan document is qualified under the appropriate sections of the code. The Plan has been amended since the latest determination letter. It is the opinion of the Plan trustees and the Plan's tax counsel that the Plan is in compliance with all applicable laws and regulations. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates based on management's knowledge and experience. Due to their prospective nature, actual results could differ from those estimates.

Investment Valuation

The Plan has entered into deposit contracts with John Hancock Life Insurance Company. As directed by the participants, the funds are invested in equity, money market, and bond funds. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

For the years ended December 31, 2011 and 2010, Versa Press, Inc. paid substantially all Plan-related administrative costs, including administrative salaries, accounting and legal fees.

Subsequent Events

The Plan has evaluated subsequent events through May 18, 2012, the date which the financial statements were available to be issued, and has determined there are no subsequent events that require recognition or disclosure in these financial statements.

John Hancock Life Insurance Company	Plan custodian and investment manager	Investment earnings are reported net of expenses.

NOTE 7. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 from prior year.

Separate accounts with insurance companies: Valued daily based on the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by the fund.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
