Note 1 DESCRIPTION OF PLAN

The following description of Control Products, Inc. 401(k) Savings & Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined-contribution plan covering all employees of Control Products, Inc. (the Employer) who have one year of service with at least 1,000 hours worked and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

CONTRIBUTIONS

Participants are allowed to make an elective deferral contribution up to 100% of their compensation as defined by the Plan, not to exceed dollar limitations imposed by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make rollover contributions. The employer match is discretionary and equals 50% of the first 2% of employee contributions. The match was discontinued as of February 29, 2009 and was reinstated in March of 2010.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contributions and an allocation of (a) Employer's contributions and (b) plan earnings or losses. Allocations are based on participant's compensation or account balance, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

NOTES RECEIVABLE FROM PARTICIPANTS

Loans may be made from the participant's account. Participants may borrow up to 50% of their vested benefit with a minimum of $1,000. All loans are repaid in equal amounts over the repayment term. The loans are secured by the balance of the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Interest rates on participant loans ranged from 4.25% to 9.25% during the period ended November 30, 2011. Principal and interest are paid ratably through payroll deductions. Outstanding loans of terminated participants are repaid prior to distributions of the participant's account balance.

BENEFIT PAYMENTS

Upon a participant's death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested account.

FORFEITURES

At November 30, 2011 and December 31, 2010 there were no forfeited non-vested accounts. During 2010, $2,301 of forfeitures were allocated pro-rata to participants. There was $367 of forfeitures used to reduce employer contributions for the period ended November 30, 2011.

ADMINISTRATIVE EXPENSES

With exception of the annual audit, which is paid for by the Employer, the costs of administering the Plan are paid for by the Plan and are included in the Plan's financial statements.

TRANSFER OF PLAN ASSETS DUE TO MERGER

Effective September 30, 2011, the Plan merged its 401(k) plan with the Emerson Employee Savings Investment Plan. All assets held by the Plan were transferred to the Emerson Employee Savings Investment Plan during the Plan year. All distributions and transfers related to the Plan merger were completed by November 30, 2011.

Note 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The accompanying financial statements of the Plan have been prepared on the accrual method of accounting.

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for fair value measurements.

Purchases and sales of securities are recorded on a trade-date-basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and held during the year.

PAYMENTS OF BENEFITS

Benefits are recorded when paid.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Note 3 INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The trustee, Charles Schwab Trust Company, has certified that the following information included in the accompanying financial statements is complete and accurate.

1. Investments and notes receivable from participants reported on the statements of net assets available for benefits as of November 30, 2011 and December 31, 2010.
2. Investment activity reported on the statement of changes in net assets available for benefits for the period ended November 30, 2011.

Common collective trust	1,694
	($345,017)

Note 5 FAIR VALUE MEASUREMENTS

The Plan follows the provisions of Financial Accounting Standards Board (FASB) authoritative guidance regarding *Fair Value Measurements*. This guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the authoritative guidance are described below:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at November 30, 2011 and December 31, 2010.

Mutual funds: Valued at quoted prices available in an active market.

Common collective trust: The common collective trust fund is valued at the unit value as reported by the investment manager at year-end based on quoted prices for similar assets or liabilities in active markets. The fund’s underlying assets consist of investment contracts and security-backed contracts.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	2010

Note 6 TAX STATUS

The Company adopted a non-standardized prototype profit sharing plan sponsored by Interactive Retirement Systems, Inc. which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the non-standardized plan and related trust, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter; however, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of November 30, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 7 PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Charles Schwab Trust Company, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants and transactions with the Employer also qualify as party-in-interest transactions.

Note 8 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 FULLY BENEFIT-RESPONSIVE CONTRACTS

The financial statements reflect the adoption of FASB's authoritative guidance regarding *Reporting of Fully Benefit-Responsive Contracts Held By Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*. The Plan adopted the guidance because of its investment in the Wells Fargo Stable Return Fund (the "Fund"). Investments held by a collective investment trust are required to be reported at fair value. However, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As of December 31, 2010, contract value approximates fair value for the Wells Fargo Stable Return Fund. Therefore, the Plan's financial statements do not include a separate line item that reconciles the difference between the two values.

The objective of the Fund is to provide a moderate level of stable income without principal volatility while seeking to maintain adequate liquidity and returns superior to shorter maturity instruments. The Fund seeks to achieve this objective by investing in contracts and instruments issued by selected high-quality insurance companies and financial institutions.

The average yield earned by the entire Fund was 2.38% during the year ended December 31, 2010. This average yield was calculated by dividing the annualized earnings of all investments in the Fund (irrespective of the interest rate credited to participants) by the fair value of all investments in the Fund.

The average yield earned by the entire Fund with an adjustment to reflect the actual interest rate credited to participants in the Fund was 2.90% during the year ended December 31, 2010. This average yield was calculated by dividing the annualized earnings credited to participants in the Fund (irrespective of the actual earnings) by the fair value of all investments in the Fund.

Market value events may limit the Plan's ability to transact at contract value with the issuer. Market value events are events or conditions that occur which are outside the normal operation of the Fund and lead to any Fund disbursements which have or will have a material adverse effect on the operations of the Fund and a financial effect on the investment contract. Such events may include but are limited to: Fund administration is amended or changed, merger or consolidation of investors, group terminations or layoffs, implementation of an

early retirement program, termination or partial termination of the Fund, failure to meet certain tax qualifications, participant communications that is designed to influence participants not to invest in the Fund, transfer to competing options without meeting the equity wash provisions of the Fund, and plan sponsor withdrawals without the appropriate notice to the Fund and/or issuer. In the normal course of business, such events or conditions would not limit the ability of the Fund to transact at contract value with participants in the Fund. The Fund is managed to maintain a certain amount of liquidity to provide for the day-to-day liquidity needs of participants as well as the occasional market value event.

Note 10 SUBSEQUENT EVENTS

Subsequent events have been evaluated for recognition or disclosure through June 6, 2012, which is the date that financial statements were available to be issued.
