The Plan Administrator and Participants
Precision Engineered Products, LLC
Employees 401(k) Savings Plan

We were engaged to audit the accompanying statements of net assets available for benefits of Precision Engineered Products, LLC Employees 401(k) Savings Plan as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements and supplemental schedule as a whole. *The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements, but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.* The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Precision Engineered Products, LLC Employees 401(k) Savings Plan

Notes to Financial Statements

December 31, 2011

1. Description of Plan

The following description of the Precision Engineered Products, LLC Employees 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, originally adopted on February 1, 2003, is a defined contribution plan covering all eligible employees of Precision Engineered Products, LLC and other participating employers (the Company or plan sponsor), as defined in the Plan, who have completed one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 60% of pretax annual compensation, and up to 100% of employer cash bonuses, as defined in the Plan, subject to Internal Revenue Service (IRS) limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Effective April 1, 2009, all Company match contributions are discretionary.

During 2009, all Company matching contributions were suspended. In April 2010, the Company match was reinstated in an amount equal to 100% of the first 2% of eligible compensation, and 50% of the next 2% of eligible compensation contributed to the Plan, subject to a maximum of 4% of eligible compensation.

Additional amounts may be contributed at the option of the Company's Board of Directors. No additional contributions were made during 2011 and 2010.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's contributions, and Plan earnings. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

1. Description of Plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is fully vested in Company match and non-elective contributions after reaching five years of service, 75% vested after reaching four years of service; 50% vested after reaching three years of service, and 20% vested after reaching two years of service.

Employees hired on or before January 15, 2003 are 100% vested in all Company contributions.

Effective October 1, 2008, Company match contributions are immediately 100% vested.

Forfeitures

Upon termination of employment, participants forfeit their nonvested balances. Forfeited balances of terminated participants' nonvested accounts are used for administrative expenses and to reduce future Company contributions. Unallocated forfeitures balances as of December 31, 2011 and 2010 were \$30,890 and \$37,980, respectively.

Participant Loans

Participants may borrow from their respective accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000, or 50% of their vested account balance. Loan terms range from one to five years, or up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participant's account, and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

Payment of Benefits

Upon death, disability, retirement, or termination of service, a participant may elect to receive a lump-sum distribution or an installment distribution equal to the vested value of his or her account.

Notes to Financial Statements (continued)

1. Description of Plan (continued)

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (the FASB) issued Accounting Standards Update, *Improving Disclosures about Fair Value Measurements* (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and requires a number of additional disclosures. The requirement to present changes in Level 3 measurements on a gross basis is effective for reporting periods beginning after December 15, 2010. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in U.S. generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a

2. Summary of Accounting Policies (continued)

particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

The Fidelity Managed Income Portfolio (Common Collective Trust) invests in fully benefit-responsive investment contracts. This Common Collective Trust is recorded at fair value (Note 4); however, since this contract is fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Precision Engineered Products, LLC Employees 401(k) Savings Plan

Notes to Financial Statements (continued)

2. Summary of Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance, plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2011 or 2010. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the excess contributions to the applicable participants prior to March 15, 2011 and 2010.

Administrative Expenses

All Plan expenses, except those associated with loans and non-Fidelity funds, are paid directly by the Company and, accordingly, are not reflected in the accompanying financial statements.

Subsequent Events

Management evaluated subsequent events for the Plan through June 8, 2012, the date the financial statements were available to be issued.

3. Investments

All investment information disclosed in the accompanying financial statements and schedule, including investments held and the adjustment from fair to contract value for fully benefit-responsive investment contracts at December 31, 2011 and 2010, net (depreciation) appreciation in fair value of mutual funds, and interest and dividends for the years ended December 31, 2011 and 2010, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan.

Precision Engineered Products, LLC Employees 401(k) Savings Plan

Notes to Financial Statements (continued)

2. Summary of Accounting Policies (continued)

The fair value of individual investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2011 and 2010 is as follows:

	<u>2011</u>	<u>2010</u>
Fidelity Managed Income Portfolio (contract value)*	\$ 4,216,757	\$ 4,186,841
PIMCO Total Return Fund	3,500,324	2,629,685
Fidelity Freedom 2020 Fund	**	2,495,388
Fidelity Low-Priced Stock Fund	**	1,305,319
T. Rowe Price Retirement 2020 Fund	2,611,822	**
Fidelity Spartan 500 Index-Investor Class Fund	1,224,789	**
T. Rowe Price Retirement 2030 Fund	1,209,770	**

*The fair value of the Plan's investment in the Fidelity Managed Income Portfolio was \$4,323,389 and \$4,221,163 at December 31, 2011 and 2010, respectively.

**Investment is less than 5%.

4. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). ASC 820 includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Precision Engineered Products, LLC Employees 401(k) Savings Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - quoted prices for similar assets and liabilities in active markets
 - quoted prices for identical or similar assets or liabilities in markets that are not active
 - observable inputs other than quoted prices that are used in the valuation of the asset or liability (e.g., interest rate and yield curve quotes at commonly quoted intervals)
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest-level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value.

Mutual funds are valued using quoted market prices in active markets. The common collective trust fund is valued based on net asset value of the fund and there are no redemption restrictions. Participant loans are valued at the outstanding principal balance. Current market interest rates of the loans approximate historical contractual interest rates, and the loan balances using the historical contractual interest rates approximate fair value.

Notes to Financial Statements (continued)

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Related-Party Transactions

The Plan holds units of a common collective trust fund and mutual funds managed by Fidelity Management Trust Company, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

7. Income Tax Status

The underlying volume submitter plan has received an opinion letter from the IRS, dated March 31, 2008, stating that the form of the plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is tax exempt. In accordance with Revenue Procedures 2011-6 and 2005-16, the plan sponsor has determined that it is eligible to, and has chosen to, rely on the current IRS volume submitter plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.
