Report of Independent Certified Public Accountants

To the Participants and Administrator of
Longview Fibre Paper and Packaging, Inc. Salaried 401(k) Plan

We were engaged to audit the financial statements of Longview Fibre Paper and Packaging, Inc. Salaried 401(k) Plan as of December 31, 2011 and 2010 and for the year ended December 31, 2011, and the supplemental schedules as of and for the year ended December 31, 2011, as listed in the accompanying index. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2011 and 2010 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and we do not express, an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 and 2010

Note 1 – Plan Description

The following description of the Longview Fibre Paper and Packaging, Inc. Salaried 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible salaried and non-union hourly employees of Longview Fibre Paper and Packaging, Inc. (the "Company"). Each eligible employee shall become a participant by completing a contribution agreement and if such agreement is received and processed prior to the date automatic enrollment would otherwise be effective, the employee shall become a participant on the first day of the first payroll period that begins after the date the agreement is received and processed. If an eligible employee does not complete a contribution agreement, or opt out, he or she shall become a participant on the first day of the first payroll period that begins on or after the date that is thirty days after the individual became an eligible employee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Investment of Plan Assets

Upon enrollment in the Plan, a participant may direct contributions in whole percentage increments into the following funds:

- American Funds EuroPacific Growth Fund seeks long-term growth of capital by investing in equity securities of companies in Europe and the Pacific Basin.
- American Funds Growth Fund of America seeks capital growth by investing primarily in common stocks and seeks to invest in companies that appear to offer superior opportunities for growth of capital. It may also hold cash or money market instruments.
- Columbia Real Estate Equity Fund seeks a high level of dividend income and long-term growth of capital by investing in equity securities of companies in the real estate industry.
- Janus Small Cap Value Fund Institutional seeks long-term growth of capital by investing in the stocks of small companies whose stock is considered undervalued in the marketplace relative to their assets, earnings, cash flow, or business franchise.
- Lazard Emerging Markets (Open Shares) Fund seeks long-term capital appreciation by investing primarily in equity securities of companies in countries with emerging markets.
- PIMCO Total Return Fund seeks maximum total return, consistent with preservation of capital, by investing in a diversified portfolio of Fixed-Income Instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements.
- PIMCO Real Return Fund aims to help investors protect their purchasing power against the effects of inflation by seeking real (inflation-adjusted) returns primarily from Treasury Inflation-Protected Securities

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 and 2010

Note 1 – Plan Description (continued)

- Rainier Small/Mid Cap Equity Portfolio seeks to provide maximum long-term capital appreciation by investing in the common stock of small- and mid-capitalization companies traded in the U.S. with prospects of strong earnings growth and attractive overall business fundamentals, selling at reasonable valuations.
- Vanguard 500 Index Fund seeks to provide long-term growth of capital and income from dividends by holding all of the 500 stocks that make up the unmanaged Standard & Poor's 500 Index.
- Vanguard Balanced Index Fund seeks to provide income and long-term growth of capital and income by dividing its assets between indexed portfolios of stocks (60%) and bonds (40%).
- Vanguard Extended Market Index Fund seeks to provide long-term growth of capital by attempting to match the performance of the Standard & Poor's Completion Index, a broadly diversified index of stocks of small and medium-size U.S. companies.
- Vanguard Global Equity Fund seeks to provide long-term capital appreciation by investing primarily in U.S. and foreign stocks chosen mostly on the basis of bottom-up stock analysis. The fund typically invests across a wide range of industries, and its holdings are expected to represent a mix of value and growth stocks, as well as a mix of established and emerging stock markets.
- Vanguard Prime Money Market Fund invests in high-quality, short-term money market instruments, including certificates of deposit, bankers acceptances, commercial paper, and other money market securities.
- Vanguard Retirement Savings Trust Fund seeks to provide a high level of income and a stable unit value of \$1 in most cases by investing primarily in investment contracts issued by insurance companies, banks or other financial institutions, including investment contracts backed by high-quality fixed income securities.
- Vanguard Target Retirement Funds (Vanguard Target Retirement 2005 Fund, Vanguard Target Retirement 2010 Fund, Vanguard Target Retirement 2015 Fund, Vanguard Target Retirement 2020 Fund, Vanguard Target Retirement 2025 Fund, Vanguard Target Retirement 2030 Fund, Vanguard Target Retirement 2035 Fund, Vanguard Target Retirement 2040 Fund, Vanguard Target Retirement 2045 Fund, Vanguard Target Retirement 2050 Fund, Vanguard Target Retirement 2055 Fund, Vanguard Target Retirement Income Fund) consist of twelve separate funds that include a portfolio of stocks, bonds and money market funds using an asset weighting that is appropriate for the targeted time horizon. As the years progress, the funds' allocations to the underlying investments will shift toward a more conservative stance.
- Vanguard Total Bond Market Index Fund seeks to track the performance of a broad, market weighted bond index.
- Vanguard Total International Stock Index Fund offers investors a low cost way to gain equity exposure to both developed and emerging international economies. The fund tracks stock markets all over the globe, with the exception of the United States. Because it invests in non-U.S. stocks, including those in developed and emerging markets, the fund can be more volatile than a domestic fund.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 and 2010

Note 1 – Plan Description (continued)

- Vanguard Windsor II Fund seeks to provide long-term growth of capital and income from dividends by investing in a diversified group of out-of-favor stocks of large-capitalization companies. The stocks generally sell at prices below the overall market average compared to their dividend income and future return potential.

Contributions

Each year, participants may contribute up to 100 percent of their eligible compensation as contributions, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to limitations established in the Internal Revenue Code (IRC) Section 415 (c). Additionally, the Tax Reform Act of 1986 limits annual amounts deferred by participants under all deferral arrangements to \$16,500 for taxable year 2011.

No Company matching contributions shall be made to this Plan with respect to participant contributions made on pay dates on or after January 1, 2009 unless otherwise amended. Participant contributions made on pay dates prior to January 1, 2009, are held in the participant's matching contribution account and continue to vest.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of any applicable fund earnings or losses. Allocations are based on participant earnings on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

During the year, various employees transferred from hourly to salary jobs, or salary to hourly jobs, as part of the normal course of business. Under terms of the Plans, when an employee moves from one plan to another, their plan assets are transferred between Plans. All terms such as vesting, contributions and loans continue from their original date.

The net transfers between this Plan and other Company sponsored plans totaled \$(49,200) for the year ended December 31, 2011.

Vesting

Participants are immediately and fully vested in their pre-tax and after-tax contributions, including earnings thereon.

The Company's matching contributions become vested as follows:

Years of Service

Fewer than 3	0%
3 or more	100%

In addition, the Plan provides for full vesting of the Company's contributions, including earnings thereon, upon retirement, death or permanent and total disability. Normal retirement age is 65.

Longview Fibre Paper and Packaging, Inc.
Salaried 401(k) Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 and 2010

Note 1 – Plan Description (continued)

If a participant who is not fully vested terminates employment and returns to service after a break of five years or more, the value of the Company's unvested contributions credited to the participant's account prior to termination of employment is permanently forfeited. If a participant terminates employment but returns to service after a break in service of less than five years, the current value of the Company's unvested contributions credited to the participant's account prior to termination of service is credited to the participant's account upon the participant's return to service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to \$50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25 percent to 9.50 percent, which are commensurate with the prime rate as announced the last business day of each calendar quarter. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

If a participant's account balance exceeds \$5,000 upon termination, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or quarterly installments over a period not to exceed the life expectancy of the participant and his beneficiary. If upon termination, a participant's account balance does not exceed \$5,000, the balance may only be distributed in the form of a single lump-sum distribution. A lump-sum withdrawal may also be made upon attainment of age 59-1/2 or in the event of hardship. Withdrawal requests for financial hardship are limited to the amount of a participant's fully vested account balance.

Forfeited Accounts

As of December 31, 2011 and 2010, the Plan had amounts totaling \$30,873 and \$15,834 respectively, representing forfeited, non-vested amounts resulting from employee terminations. These amounts were allocated back into the Plan subsequent to employee termination, and will be used to restore accounts of rehired former participants, pay Plan fees and expenses, or to reduce future matching contributions.

Fees and Expenses

The Plan provides that the Company will pay administrative costs and expenses of the Plan, including trustee and management fees. Such costs not paid by the Company are paid from the Plan's assets. Fees for participant loans are paid by the participants receiving the loans.

Note 2 – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Longview Fibre Paper and Packaging, Inc.
Salaried 401(k) Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 and 2010

Note 2 – Summary of Accounting Policies (continued)

The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Except for the Vanguard Retirement Savings Trust Fund, the Plan's investments and changes in net assets are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. The net appreciation in the fair value of investments consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments held by the plan. See Note 8 for further discussion of fair value measurements.

Investments in the Vanguard Retirement Savings Trust Fund ("Trust"), which primarily holds investments in fully benefit-responsive insurance contracts, provide that the Plan may make withdrawals at contract value for benefit responsive requirements. The Plan's interest in the Trust is valued based on information reported by the investment advisor using the audited financial statements of the Trust at December 31 of the appropriate plan year. The Trust's contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may direct the withdrawal or transfer all or a portion of their investment at contract value.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Payment of Benefits

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 and 2010

Note 2 – Summary of Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (“FASB”) issue Accounting Standards Update (“ASU”) No. 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements* in U.S. GAAP and IFRS (“ASU 2011-04”), which amends FASB ASC Topic 820, *Fair Value Measurements and Disclosures* (“ASC 820”). The amendments in this guidance are not intended to result in a change in current accounting. ASU No. 2011-04 changes the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for measurements categorized within Level 3 of the fair value hierarchy. This guidance is effective for annual reporting periods beginning after December 15, 2011. Longview is currently evaluating the impact of adopting this guidance, but does not expect adoption to have a material effect on the Plan’s net assets available for benefits, changes in net assets available for benefits, or related disclosures.

Note 3 – Risks and Uncertainties

The Plan provides investment options in various combinations of investment securities. Investment securities are exposed to various risks including, but not limited to, interest rates, market conditions and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the financial statements.

Note 4 – Investments

The following presents investments that represent 5 percent or more of the Plan’s net assets:

Note 4 – Investments (continued)

During the year ended December 31, 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value as follows:

Note 5 – Certified Information

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Accordingly, Vanguard Fiduciary Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2011 and 2010.
- Net investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2011.
- Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2011.
- Schedule H, line 4j – Schedule of Reportable Transactions.

Note 6 – Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Vanguard Fiduciary Trust Company (the "Trustee"). Vanguard Fiduciary Trust Company is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid to the Trustee by the Plan amounted to \$7,865 for the year ended December 31, 2011.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 8 – Fair Value Measurements

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements).

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 and 2010

Note 8 – Fair Value Measurements (continued)

The three levels of the fair value hierarchy under FASB ASC 820 are as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Investments classified within level 3 whose fair value measurements consider several inputs may include level 1 or level 2 inputs as components of the overall fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the net asset value of shares held by the plan at year end.

Common and Collective Trust: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. See Note 2 for further discussion of investment valuation.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Internal Revenue Service has determined and informed the Company by letter dated August 14, 2002 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).
