Hudson Products Corporation Retirement Savings Plan

Notes to Financial Statements

December 31, 2011 and 2010

Note 1: Description of the Plan

The following description of the Hudson Products Corporation Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan administrator.

General

The Plan is a defined contribution plan sponsored by Hudson Products Corporation (Company) for the benefit of its nonunion employees who are age 18 or older. Related employers who also participate in the Plan include Cofimco USA, Inc., Smithco Engineering, Inc. and Metal Services, Inc. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Wells Fargo Bank, N.A. (Wells Fargo) is the trustee of the Plan and serves as Plan custodian.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 100 percent of eligible compensation. Employee rollover and catch-up contributions are also permitted. Company matching and profit-sharing contributions are discretionary as determined by the Company's board of directors. No discretionary matching or profit sharing contributions were made to the Plan for the years ended December 31, 2011 and 2010. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Hudson Products Corporation Retirement Savings Plan

Notes to Financial Statements

December 31, 2011 and 2010

Vesting

Participants are immediately vested in their voluntary contributions, plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is fully vested after three years of continuous service. Benefits accrued in the Smithco Engineering, Inc. 401(k) Profit Sharing Plan that was merged with and into the Plan during the year ended December 31, 2009, shall be vested after five years of service. The nonvested balance is forfeited upon termination of service. Forfeitures are used to reduce Company contributions or to pay administrative expenses of the Plan.

Payment of Benefits

Upon termination of service, an employee may elect to receive either a lump-sum amount equal to the value of his account, installment payments or a joint and survivor annuity.

Forfeited Accounts

At December 31, 2011 and 2010, forfeited nonvested accounts totaled \$69 and \$1,196, respectively. These accounts will be used to reduce future employer contributions or to pay administrative expenses of the Plan. Also, during the year ended December 31, 2011, the Plan paid \$7,428 of administrative expenses from forfeited nonvested accounts.

Notes Receivable From Participants

The Plan Document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be \$1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of \$50,000 or 50 percent of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the Plan administrator.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. The statement of net assets available for benefits presents the fair value of the investment in the collective trust, as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds are generally valued at the net asset value (NAV) of shares held by the Plan at year-end, although the Plan also holds a unitized mutual fund investment that holds shares of a mutual fund and other short-term investments. The unit price of the unitized mutual fund investment is not quoted on an active market; however, the input price is based on the underlying investment that is traded on an active market. The Plan's interest in the common trust fund is valued based on information reported by the custodian using the audited financial statements of the common trust fund at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Plan Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype defined contribution plan document sponsored by Wells Fargo Bank, N.A. This prototype retirement plan document has been filed with the appropriate agency. The Plan has not obtained or requested a determination letter. However, the Plan administrator believes the Plan is currently

designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan was qualified and the related trust was tax exempt as of the financial statement date. With a few exceptions, the Plan is no longer subject to U.S. federal, state, local or non-U.S. income tax examinations by tax authorities for years before 2008.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Reclassifications

Certain reclassifications have been made to the 2010 financial statement to conform to the 2011 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

Note 3: Investments

The following table presents the Plan's investments. Investments that represent five percent or more of total Plan assets are separately identified:

Notes to Financial Statements

December 31, 2011 and 2010

During the years ended December 31, 2011 and 2010, the Plan's investments (including gains and losses on investments bought, sold and held during the year) appreciated (depreciated) in value by \$(83,496) and \$1,437,483, respectively, as follows:

	2011	2010
Mutual funds	\$ (221,629)	\$ 1,164,883
Collective trust fund	138,133	272,600
	<u>\$ (83,496)</u>	<u>\$ 1,437,483</u>

Interest and dividends realized on the Plan's investments for the years ended 2011 and 2010 were \$117,013 and \$125,606, respectively.

Note 4: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain funds of the Plan trustee. The Plan recorded \$53,510 and \$76,699 of administrative fees to Wells Fargo and the previous custodian during 2011 and 2010, respectively. The Company also recorded \$45,505 and \$45,354 of fees to the third-party investment advisor during 2011 and 2010, respectively. The Company provides certain administrative services at no cost to the Plan.

Note 5: Fair Value of Plan Assets and Liabilities

ASC Topic 820, *Fair Value Measurements* (Topic 820), defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy, which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. Level 1 investments include mutual funds excluding the Plan's unitized mutual fund investment in the PIMCO Total Return Fund. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. The inputs used to determine fair value may include one, or a combination of, observable inputs, such as audited financial information of the collective trust, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and refinance data market research, publications and the related investments are classified within Level 2 of the valuation hierarchy. Level 2 investments include a collective trust fund and the Plan's unitized mutual fund investment in the PIMCO Total Return Fund. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy. The Plan holds no investments classified in Level 3 of the hierarchy.

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31:

Note 6: Significant Estimates and Concentrations

Current Economic Conditions

The current economic situation continues to present employee benefit plans with difficult circumstances and challenges, which in some cases have resulted in large and unanticipated declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.
