Independent Auditor's Report

Plan Trustees
Blistex Inc. Employee Benefit Plan and Trust
Oak Brook, Illinois

We have audited the accompanying statement of net assets available for benefits and of plan's benefit obligations of the Blistex Inc. Employee Benefit Plan and Trust (the "Plan") as of December 31, 2011, and the related statements of changes in net assets available for benefits and of changes in the plan's benefit obligations for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit. Other accountants were engaged to audit the financial statements of the Plan as of and for the year ended December 31, 2010, whose report dated July 13, 2011, expressed an unqualified opinion.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits and plan's benefit obligations as of December 31, 2011, and the changes in its net assets available for benefits and changes in the plan's benefit obligations for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of assets (held at end of year) and schedule of reportable transactions are presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The accompanying supplemental five-year summary of operations is presented for the purpose of additional analysis and is not a required part of the financial statements. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other procedures in accordance with auditing standards generally accepted in the United States of America.

Other accountants were engaged to audit the supplemental five-year summary of operations for the year ended December 31, 2010, whose report dated July 13, 2011, expressed an unqualified opinion. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

BLISTEX INC. EMPLOYEE BENEFIT PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Blistex Inc. Employee Benefit Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan was established in 1982 to provide health care benefits for eligible Blistex Inc. (Employer) employees, their dependents and retired employees. The Plan also provides basic and voluntary life, long-term disability and accidental death and disability to all employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration

Overall responsibility for administering the Plan rests with the Plan Committee and Trustees of the Plan. The Employer directly absorbs a majority of the costs related to the administration of the Plan.

Contributions

The Plan is funded through contributions by the Employer and employees. The Employer contributes amounts to the Plan that are necessary to fund claims and Plan expenses. Employees contribute specified amounts to the Plan, as determined by the Trustees of the Plan, through payroll deductions.

Benefits

The Plan provides health benefits (medical, hospital, surgical, major medical, prescription benefits and dental), life insurance, disability and death benefits to all full-time Blistex Inc. employees with at least 30 days of service, and all permanent, part-time employees with at least 60 days of service, and to their eligible dependents. Retired employees who were hired prior to December 31, 2006, attained 62 years of age, and that have completed at least ten years of continuous, active, full-time service immediately prior to retirement are eligible for participation in the medical, dental, and prescription programs. Retired employees who continue in these employer-sponsored programs must apply for Medicare at age 65. Employees who cease employment may also purchase group coverage under COBRA.

Benefits paid under the Plan are administered by Blue Cross Blue Shield of Illinois (BCBSIL) under a minimum premium group insurance contract. Terms of the agreements require the Plan to pay claims up to $70,000 per participant for the years ended December 31, 2011 and 2010, after which benefits are paid by BCBSIL.

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

Benefits (continued)

Other benefits including long-term disability and accidental death and dismemberment coverage are provided by the Plan and are fully insured through the purchase of coverage from a third party insurer. The Plan retains no risk of loss associated with these benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates in Preparing Financial Statements

The preparation of the Plan's financial statements in conformity with accounting standards generally accepted in the United States of America requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the actuarial present value of accumulated post retirement benefit obligations as of the benefit information date, the changes in net assets available for benefits during the reporting period and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Payment of Benefits

Insurance premiums, claims, and administration or service fees for healthcare benefits are recorded when paid.

Health Claims Payable

Claims reported but not paid at year-end have been estimated based on claims payment data of the Plan.

Estimated Liability for Claims Incurred but Not Reported

The estimated liability for claims incurred but not reported is calculated based on the Plan's claims experience. This estimated reserve totaled $154,443 and $153,171 at December 31, 2011 and 2010, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on the trade-date basis. Interest income is recorded on the cash basis.

Actuarial Present Value of Accumulated Post Retirement Benefits

The amount reported as the accumulated post retirement benefit obligation represents the actuarial present value of those estimated future benefits that are attributed by the terms of the Plan to employees' service rendered to the date of the financial statements, reduced by the actuarial present value of the contributions expected to be received in the future from current Plan participants. Post retirement benefits include current and future benefits expected to be paid to or for: (1) currently retired employees and their beneficiaries and dependents, and (2) active employees and their beneficiaries and dependents after retirement from service with the sponsor. Prior to an active employee's full eligibility date, the post retirement benefit obligation is the portion of the expected post retirement benefit obligation that is attributed to that employee's service rendered to the valuation date.

The actuarial present value of the expected post retirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

For measurement purposes, the following assumptions were used for the years ended December 31, 2011 and 2010:

- Medical - A 11% and 11.5% annual rate of increase in the per capita cost of medical benefits was assumed for 2011 and 2010, respectively. The rate was assumed to decrease gradually to 5% by 2023.

- Dental - A 11% and 5% annual rate of increase in the per capita cost of dental benefits was assumed for 2011 and 2010, respectively. The rate was assumed to decrease gradually to 5% by 2023.

- Prescription - A 11% and 12.5% annual rate of increase in the per capita cost of prescription benefits was assumed for 2011 and 2010, respectively. The rate was assumed to decrease gradually to 5% by 2023.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Actuarial Present Value of Accumulated Post Retirement Benefits (continued)

- Retiree contributions - A 11% and 11.5% annual rate of increase in retiree contributions was assumed for 2011 and 2010, respectively. The rate was assumed to decrease gradually to 5% by 2023.

The following were other significant assumptions used in the valuations as of December 31, 2011 and 2010.

	2011	2010
Weighted-average discount rate	5.50%	6.25%
Average retirement age	65	65

The RP-2000 Mortality Table (male and female) projected to 2020 was utilized for 2011 and 2010, respectively.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the post retirement benefit obligation.

The weighted-average health care cost trend rate assumptions have a significant effect on the amounts reported in the accompanying financial statements. If the assumed rates increased by one percentage point in each year, it would increase the accumulated post retirement benefit obligation as of December 31, 2011 and 2010 by $331,058 and $304,897, respectively. A one-percentage point decrease in each year would decrease the accumulated post retirement benefit obligation as of December 31, 2011 and 2010 by $257,784 and $239,673, respectively.

In December 2003, the Medicare Prescription Drug, Improvement and Modernization Act of 2003 was passed, which introduces into law a prescription drug benefit under Medicare (Medicare Part D) as well as a federal subsidy to sponsors of retiree healthcare benefit plans that provide a benefit that is at least actuarially equivalent to Medicare Part D. As the Employer, not the Plan itself, will receive the subsidy and is not legally required to use the funds to help pay post retirement benefits, the Plan's accumulated post retirement benefit obligation (APBO) and changes in APBO do not reflect the amounts associated with the Medicare subsidy to the Employer for prescription drug coverage.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan measures, monitors and discloses its assets on a fair value basis in accordance with Financial Accounting Standards Board Accounting Standards Codification 820 (FASB ASC 820) *Fair Value Measurements and Disclosures*. FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 - Valuations based on quoted prices for identical assets or liabilities in active markets;
- Level 2 - Valuations based on quoted prices for similar assets or liabilities or identical assets or liabilities in less active markets, such as dealer or broker markets; and
- Level 3 - Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable, such as pricing models, discounted cash flow models and similar techniques not based on market, exchange, dealer or broker-traded transactions.

The following is a description of the valuation methodologies used for assets measured at fair value:

Money market funds are valued at a stable $1.00 net asset value, which is the value at which the fund is traded and approximates fair value of the underlying investments. Money market funds are considered Level 1 investments.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	Fair Value Measurements Using			
December 31, 2011	**Quoted Prices in Active Markets for Identical Assets (Level 1)**	**Significant Other Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**	**Total**
Money market fund	$ 102,850	$ -	$ -	$ 102,850
December 31, 2010				
Money market fund	$ 121,568	$ -	$ -	$ 121,568

NOTE 3 - FAIR VALUE MEASUREMENTS (continued)

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - INVESTMENTS

The Plan's investments are held by a bank-administered trust fund. The fair value of individual investments that represent 5% or more of the Plan's net assets as of December 31, 2011 and 2010 is as follows:

	2011	2010
Wells Fargo Advantage Cash Investment Money Market Fund - Service Class	$ 102,850	$ 121,568

Interest income received from the money market fund totaled $96 and $244 in 2011 and 2010, respectively.

NOTE 5 - PLAN BENEFIT OBLIGATIONS

The Plan's deficiency of net assets over benefit obligations at December 31, 2011 and 2010 relates primarily to the post retirement benefit obligation, the funding of which is not covered by the contribution rate. It is expected that the deficiency will be funded on an as needed basis.

NOTE 6 - TAX STATUS

The Trust established under the Plan to hold the Plan's assets is qualified pursuant to Section 501(c)9 of the Internal Revenue Code, and, accordingly, the Trust's net investment income is exempt from income taxes. The Trust has obtained a favorable tax determination letter from the Internal Revenue Service and the Plan sponsor believes that the Trust, as amended, continues to qualify and to operate as designed.

NOTE 7 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	2011	2010
Net assets available for benefits per the financial statements	$ 79,053	$ 118,401
Benefit obligations currently payable (health claims, death and disability benefits)	(17,171)	(37,591)
Net assets available for benefits per Form 5500	$ 61,882	$ 80,810

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2011:

Change in net assets available for benefits per the financial statements	$ (39,348)
Change in amounts currently payable	20,420
Change in net assets available for benefits per Form 5500	$ (18,928)

Amounts currently payable to or for participants, dependents, and beneficiaries are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31, but not yet paid as of that date.

NOTE 8 - PRIORITIES UPON TERMINATION

It is the intent of the Trustees to continue the Plan in full force and effect. However, in the event of termination, and in order to safeguard against any unforeseen contingencies, the right to discontinue the Plan is reserved by the Trustees. In the event of termination, the Trustees shall first satisfy or make provisions to satisfy the obligations of the Plan. Any remaining assets will be distributed in such manner as will, in the opinion of the Trustees, bring about the purpose of the Plan.

NOTE 9 - RECLASSIFICATION

Certain prior year amounts have been reclassified in order to conform with the current year presentation.

NOTE 10 - PARTY-IN-INTEREST TRANSACTIONS

Blue Cross Blue Shield of Illinois, a party-in-interest to the Plan, received administrative and stop loss insurance fees from the Plan in 2011 of $561,740.

NOTE 11 - RISKS AND UNCERTAINTIES

Contributions to the Plan and the actuarial present value of accumulated post retirement benefit obligations are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Plan invests in a combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 12 - SUBSEQUENT EVENTS

Management evaluated subsequent events through May 24, 2012, the date the financial statements were available to be issued. Events or transactions occurring after December 31, 2011, but prior to May 24, 2012 that provided additional evidence about conditions that existed at December 31, 2011, have been recognized in the financial statements for the year ended December 31, 2011. Events or transactions that provided evidence about conditions that did not exist at December 31, 2011, but arose before the financial statements were available to be issued have not been recognized in the financial statements for the year ended December 31, 2011.
