A. Description of the Plan

The following brief description of the Verde Holdings, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General – The Plan, a defined contribution, trusteed, contributory plan was adopted April 1, 2010 and is a defined contribution benefit plan covering substantially all employees of Verde Holdings, Inc. (the "Company" or "Employer"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Year – The plan year ended September 30, 2010 represents a short plan year from April 1 through September 30, 2010.

Administration – Wells Fargo Bank, N.A. ("Wells Fargo") serves as Trustee, Custodian and Recordkeeper of the Plan. The Trustee is responsible for the safekeeping of the trust fund. Duties of the Custodian include, among others, receiving contributions, collecting income, reinvesting the trust fund and making payments from the trust fund as directed. The term "trust fund" refers to all assets of whatever kind of nature held from time to time by the Custodian under the trust without distinction between contributions and income.

Eligibility – Each employee may become a participant on the first entry date coinciding with, or following attainment of age 21. Entry dates are the first day of the month.

Contributions – Participants may elect voluntary salary deferral contributions withheld from their salary based on an elected percentage, subject to annual individual deferral limitations imposed by the Internal Revenue Code ("IRC"). The limits imposed by the IRC are adjusted annually for increases in the cost of living in accordance with regulations issued by the Internal Revenue Service ("IRS").

Participant contributions are matched by employer contributions of 100 percent of the participant's contribution up to a maximum of 4% of employee's compensation. Participants may also contribute amounts representing distributions from other qualified benefit or contribution plans. Participant's salary deferral contributions are self-directed in the investment funds of the Plan. Employer matching contributions are contributed to Company's Employee Stock Ownership Plan ("ESOP") using cash, Company stock or a combination thereof.

Participant Accounts – Each participant's account is credited with the participant's contribution and an allocation of Plan earnings and losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – In the Plan year ended September 30, 2011 and the short plan year from April 1 through September 30, 2010, participants are immediately 100% vested in their elective contributions and their safe harbor matching contributions made into the ESOP.

A. Description of the Plan (Continued)

Notes from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 8.1%. Principal and interest are paid ratably through monthly payroll deductions for current employees, and remitted directly to the Trustee. Loan balances for terminated employees are payable upon termination of employment.

Notes from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Benefits – On termination of service due to retirement, or prior to retirement, on death, disability, resignation, discharge, or proven hardship, a participant is eligible to receive benefit payments in the amount equal to the value of the participant's vested interest in his or her account. A participant may elect to receive either a lump-sum amount equal to their account, or a rollover to another qualified plan that shall not exceed the life expectancy of the employee or designated beneficiary.

Plan Termination – Although it has not expressed intent to terminate the Plan, the Company's Board of Directors may do so. In such event, the trustee of the Plan will distribute the account balance to each participant.

B. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting.

Risks and Uncertainties – The Plan provides for investments that are exposed to various risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits, and therefore could affect participants' account balances.

Benefits Payable – Benefits are recorded when paid. Accordingly, benefits payable to persons who have elected to withdraw from the Plan but have not yet been paid are not accrued. At September 30, 2011 and 2010, there were no amounts payable to participants.

B. Summary of Significant Accounting Policies (Continued)

Administrative Expenses – Administrative expenses consist of all expenses incidental to the administration, termination or protection of the Plan, including, but not limited to, legal and accounting fees. For the year ended September 30, 2011 and for the period from inception (April 1, 2010) to September 30, 2010, the Company paid $77,330 and $83,746, respectively, in expenses on behalf of the Plan.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from these estimates.

Investment Valuation and Income Recognition – Investments in registered investment companies are valued at quoted market prices as of the date of the statement of net assets available for benefits. Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Realized gains (losses) on sales of investments and unrealized appreciation (depreciation) are reported on the average cost method. The Plan's investments in common collective trusts are stated at fair value as determined by the Custodian based upon the quoted market values of the underlying assets. Interest income is reported on the accrual basis.

Investments in common collective trusts are valued based on the underlying investments comprising the trust based upon audited financial statements.

C. Fair Value Measurements

The Financial Accounting Standards Board ("FASB") established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identifiable assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). An asset or liability's classification within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy are described below:

C. Fair Value Measurements (Continued)

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan's investments measured at fair value on a recurring basis were as follows:

	Investments at fair value as of September 30, 2011			
	Level 1	Level 2	Level 3	Total

A. Description of the Plan

The following brief description of the Verde Holdings, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General – The Plan, a defined contribution, trusteed, contributory plan was adopted April 1, 2010 and is a defined contribution benefit plan covering substantially all employees of Verde Holdings, Inc. (the "Company" or "Employer"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Year – The plan year ended September 30, 2010 represents a short plan year from April 1 through September 30, 2010.

Administration – Wells Fargo Bank, N.A. ("Wells Fargo") serves as Trustee, Custodian and Recordkeeper of the Plan. The Trustee is responsible for the safekeeping of the trust fund. Duties of the Custodian include, among others, receiving contributions, collecting income, reinvesting the trust fund and making payments from the trust fund as directed. The term "trust fund" refers to all assets of whatever kind of nature held from time to time by the Custodian under the trust without distinction between contributions and income.

Eligibility – Each employee may become a participant on the first entry date coinciding with, or following attainment of age 21. Entry dates are the first day of the month.

Contributions – Participants may elect voluntary salary deferral contributions withheld from their salary based on an elected percentage, subject to annual individual deferral limitations imposed by the Internal Revenue Code ("IRC"). The limits imposed by the IRC are adjusted annually for increases in the cost of living in accordance with regulations issued by the Internal Revenue Service ("IRS").

Participant contributions are matched by employer contributions of 100 percent of the participant's contribution up to a maximum of 4% of employee's compensation. Participants may also contribute amounts representing distributions from other qualified benefit or contribution plans. Participant's salary deferral contributions are self-directed in the investment funds of the Plan. Employer matching contributions are contributed to Company's Employee Stock Ownership Plan ("ESOP") using cash, Company stock or a combination thereof.

Participant Accounts – Each participant's account is credited with the participant's contribution and an allocation of Plan earnings and losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – In the Plan year ended September 30, 2011 and the short plan year from April 1 through September 30, 2010, participants are immediately 100% vested in their elective contributions and their safe harbor matching contributions made into the ESOP.

A. Description of the Plan (Continued)

Notes from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 8.1%. Principal and interest are paid ratably through monthly payroll deductions for current employees, and remitted directly to the Trustee. Loan balances for terminated employees are payable upon termination of employment.

Notes from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Benefits – On termination of service due to retirement, or prior to retirement, on death, disability, resignation, discharge, or proven hardship, a participant is eligible to receive benefit payments in the amount equal to the value of the participant's vested interest in his or her account. A participant may elect to receive either a lump-sum amount equal to their account, or a rollover to another qualified plan that shall not exceed the life expectancy of the employee or designated beneficiary.

Plan Termination – Although it has not expressed intent to terminate the Plan, the Company's Board of Directors may do so. In such event, the trustee of the Plan will distribute the account balance to each participant.

B. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting.

Risks and Uncertainties – The Plan provides for investments that are exposed to various risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits, and therefore could affect participants' account balances.

Benefits Payable – Benefits are recorded when paid. Accordingly, benefits payable to persons who have elected to withdraw from the Plan but have not yet been paid are not accrued. At September 30, 2011 and 2010, there were no amounts payable to participants.

B. Summary of Significant Accounting Policies (Continued)

Administrative Expenses – Administrative expenses consist of all expenses incidental to the administration, termination or protection of the Plan, including, but not limited to, legal and accounting fees. For the year ended September 30, 2011 and for the period from inception (April 1, 2010) to September 30, 2010, the Company paid $77,330 and $83,746, respectively, in expenses on behalf of the Plan.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from these estimates.

Investment Valuation and Income Recognition – Investments in registered investment companies are valued at quoted market prices as of the date of the statement of net assets available for benefits. Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Realized gains (losses) on sales of investments and unrealized appreciation (depreciation) are reported on the average cost method. The Plan's investments in common collective trusts are stated at fair value as determined by the Custodian based upon the quoted market values of the underlying assets. Interest income is reported on the accrual basis.

Investments in common collective trusts are valued based on the underlying investments comprising the trust based upon audited financial statements.

C. Fair Value Measurements

The Financial Accounting Standards Board ("FASB") established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identifiable assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). An asset or liability's classification within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy are described below:

C. Fair Value Measurements (Continued)

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan's investments measured at fair value on a recurring basis were as follows:

A. Description of the Plan

The following brief description of the Verde Holdings, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General – The Plan, a defined contribution, trusteed, contributory plan was adopted April 1, 2010 and is a defined contribution benefit plan covering substantially all employees of Verde Holdings, Inc. (the "Company" or "Employer"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Year – The plan year ended September 30, 2010 represents a short plan year from April 1 through September 30, 2010.

Administration – Wells Fargo Bank, N.A. ("Wells Fargo") serves as Trustee, Custodian and Recordkeeper of the Plan. The Trustee is responsible for the safekeeping of the trust fund. Duties of the Custodian include, among others, receiving contributions, collecting income, reinvesting the trust fund and making payments from the trust fund as directed. The term "trust fund" refers to all assets of whatever kind of nature held from time to time by the Custodian under the trust without distinction between contributions and income.

Eligibility – Each employee may become a participant on the first entry date coinciding with, or following attainment of age 21. Entry dates are the first day of the month.

Contributions – Participants may elect voluntary salary deferral contributions withheld from their salary based on an elected percentage, subject to annual individual deferral limitations imposed by the Internal Revenue Code ("IRC"). The limits imposed by the IRC are adjusted annually for increases in the cost of living in accordance with regulations issued by the Internal Revenue Service ("IRS").

Participant contributions are matched by employer contributions of 100 percent of the participant's contribution up to a maximum of 4% of employee's compensation. Participants may also contribute amounts representing distributions from other qualified benefit or contribution plans. Participant's salary deferral contributions are self-directed in the investment funds of the Plan. Employer matching contributions are contributed to Company's Employee Stock Ownership Plan ("ESOP") using cash, Company stock or a combination thereof.

Participant Accounts – Each participant's account is credited with the participant's contribution and an allocation of Plan earnings and losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – In the Plan year ended September 30, 2011 and the short plan year from April 1 through September 30, 2010, participants are immediately 100% vested in their elective contributions and their safe harbor matching contributions made into the ESOP.

A. Description of the Plan (Continued)

Notes from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 8.1%. Principal and interest are paid ratably through monthly payroll deductions for current employees, and remitted directly to the Trustee. Loan balances for terminated employees are payable upon termination of employment.

Notes from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Benefits – On termination of service due to retirement, or prior to retirement, on death, disability, resignation, discharge, or proven hardship, a participant is eligible to receive benefit payments in the amount equal to the value of the participant's vested interest in his or her account. A participant may elect to receive either a lump-sum amount equal to their account, or a rollover to another qualified plan that shall not exceed the life expectancy of the employee or designated beneficiary.

Plan Termination – Although it has not expressed intent to terminate the Plan, the Company's Board of Directors may do so. In such event, the trustee of the Plan will distribute the account balance to each participant.

B. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting.

Risks and Uncertainties – The Plan provides for investments that are exposed to various risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits, and therefore could affect participants' account balances.

Benefits Payable – Benefits are recorded when paid. Accordingly, benefits payable to persons who have elected to withdraw from the Plan but have not yet been paid are not accrued. At September 30, 2011 and 2010, there were no amounts payable to participants.

B. Summary of Significant Accounting Policies (Continued)

Administrative Expenses – Administrative expenses consist of all expenses incidental to the administration, termination or protection of the Plan, including, but not limited to, legal and accounting fees. For the year ended September 30, 2011 and for the period from inception (April 1, 2010) to September 30, 2010, the Company paid $77,330 and $83,746, respectively, in expenses on behalf of the Plan.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from these estimates.

Investment Valuation and Income Recognition – Investments in registered investment companies are valued at quoted market prices as of the date of the statement of net assets available for benefits. Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Realized gains (losses) on sales of investments and unrealized appreciation (depreciation) are reported on the average cost method. The Plan's investments in common collective trusts are stated at fair value as determined by the Custodian based upon the quoted market values of the underlying assets. Interest income is reported on the accrual basis.

Investments in common collective trusts are valued based on the underlying investments comprising the trust based upon audited financial statements.

C. Fair Value Measurements

The Financial Accounting Standards Board ("FASB") established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identifiable assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). An asset or liability's classification within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy are described below:

C. Fair Value Measurements (Continued)

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan's investments measured at fair value on a recurring basis were as follows:

	Investments at fair value as of September 30, 2011			
	Level 1	Level 2	Level 3	Total
