The Plan is a defined noncontributory profit sharing plan sponsored by Emerson Electric Co. (the Company). The Plan covers substantially all employees of Liebert Corporation, Liebert North America, Inc., Liebert Field Services, Inc., and Liebert Services, Inc. (collectively defined as Liebert), who become eligible as of the first day of the calendar quarter coinciding with or next following the date they complete one year of service and complete at least 1,000 hours of employment during such twelve month period. At September 30, 2011, there were 2,630 employees participating in the Plan. Liebert is a wholly-owned subsidiary of the Company.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

(b) Employer Contributions

The Company has voluntarily agreed to make discretionary contributions to the Plan, which are determined annually by a resolution of the Company's board of directors, with limitations as described in the Plan. All employer contributions are made conditional upon their deductibility for Federal income tax purposes.

(c) Participants' Accounts

Each participant's account is credited with an allocation of the Company's contributions, Plan earnings, and forfeitures of terminated participants' nonvested accounts. Allocations of the Company's contributions are based on the ratio of a participant's eligible compensation to total eligible compensation of all Plan participants. Earnings and dividends attributable to investments held in participants' accounts are credited to the participants' accounts. Participant loans are not allowed under the Plan.

(d) Vesting

Participants become vested at a predetermined percentage for each full year of participation in the Plan, with 100% vested at the end of five years as described in the Plan.

(e) Investment Options

Participants designate, in increments of 1%, the percentage of their total contribution to be invested in any of the Plan's investment funds. Participants may change their investment options at any time and may transfer, in 1% increments, all or part of an existing account balance in a fund among the other investment funds to the extent permitted by the underlying investment contracts (subject to certain restrictions on transfers into or out of the Emerson Common Stock Fund by the Company's executive officers). A maximum of six transfers may be made per quarter. There are no advance notice periods required for transfers.

Notes to Financial Statements

September 30, 2011 and 2010

Mutual fund investments include the following: equity and equity index funds investing primarily in common stocks – Dodge & Cox Stock Fund, Vanguard Mid-Cap Growth Fund, Vanguard Morgan Growth Fund, Vanguard Selected Value Fund, Vanguard Extended Market Index Fund, Vanguard Growth Index Fund, Vanguard Institutional Index Fund, Vanguard Total International Stock Index Fund and Vanguard Value Index Fund; balanced index funds investing primarily in a mix of stock, bond and money market mutual funds – The Vanguard Target Retirement Funds ranging from 2005 to 2055, and Vanguard Target Retirement Income Fund; fixed income and fixed income index funds investing in a diversified portfolio of bonds – PIMCO Total Return Fund and Vanguard Total Bond Index Fund. The Emerson Stable Value Fund invests mainly in contracts issued by insurance companies or other financial institutions, plus cash. Collective funds are private funds investing primarily in common stocks and include the Capital Guardian International Stock Fund and the Capital Guardian U.S. Equity Fund. Participants may also invest in the Emerson Common Stock Fund. All funds may temporarily invest in cash and cash equivalents and also hold cash for liquidity.

Plan participants previously had the discretion to invest a portion of their respective profit sharing Plan assets in life insurance policies. The life insurance policies are owned by the Plan and the participants designate the beneficiaries. Participants may elect to terminate their life insurance policies at their discretion. The life insurance option was discontinued prior to 1999. All investments in life insurance are 100% vested.

(f) *Payment of Benefits*

Under the terms of the Plan, participants or their designated beneficiaries are entitled to receive the amounts credited to their accounts upon retirement, total and permanent disability, or death and the amounts vested upon termination. The distributions are lump sum or partial and are payable in cash (or cash and shares of Emerson Common Stock if the participant so elects) except that, if applicable, a participant may elect to receive in kind the life insurance policies held in the insurance company general account.

(g) *Forfeitures*

Under the terms of the Plan, forfeitures are allocated to participants based on the proportion of their eligible compensation to the total eligible compensation of all participants for the Plan year. As of September 30, 2011 and 2010, forfeited nonvested accounts allocated to participants totaled \$150,000 and \$130,000, respectively.

(2) *Summary of Significant Accounting Policies*

The following are the significant accounting policies followed by the Plan:

(a) *Basis of Presentation*

The financial statements of the Plan are prepared under the accrual method of accounting, except benefit payments which are recorded when paid. Purchases and sales of securities are recorded on a trade-date basis. The Plan has evaluated subsequent events through June 6, 2012, the date the financial statements are available to be issued.

Notes to Financial Statements

September 30, 2011 and 2010

(b) *Investments*

Investments in the Emerson Electric Co. Master Trust (Master Trust) are stated at fair value (see Notes 7 and 9). Additionally, the Plan has life insurance policies purchased for individual participants that are held in an insurance company general account by New England Financial. These policies are also stated at fair value, which is measured using their cash surrender values as of September 30, 2011 and 2010.

(c) *Administrative Expenses*

Administrative expenses are paid by the Company or, at the direction of the Company, directly from Plan assets. The Company has paid all expenses incidental to the operation and management of the Plan for the periods presented, except brokerage commissions paid for purchases and sales in the Emerson Stock Fund, investment management fees and expenses charged directly against other investment funds.

(d) *Use of Estimates*

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts and related disclosures. Actual results could differ from those estimates.

(e) *Risks and Uncertainties*

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

(3) *Plan Termination*

Although the Company has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In such event, the participants' accounts become fully vested and are not subject to forfeiture.

(4) *Tax Status*

The Internal Revenue Service issued its latest determination letter on March 5, 2002, which stated that the Liebert Corporation Profit Sharing Plan (the LCPSP) and its related trust qualify under the applicable provisions of the Internal Revenue Code and, therefore, are exempt from Federal income taxes. The LCPSP has been amended in its entirety and renamed the Emerson Electric Co. Profit Sharing Plan since receiving this determination letter. Additional Plan amendments have been made which were not covered by the tax determination letter. In the opinion of the Plan administrator and the Plan's qualified tax advisor, the Plan and its related trust have operated within the terms of the Plan and are qualified under the applicable provisions of the Internal Revenue Code. As of September 30, 2011, there are no uncertain tax positions.

(5) Trustee Certification

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator has obtained certification from the trustee of the Plan that all of the information provided by the trustee and included in the accompanying financial statements and supplemental schedule are complete and accurate. Information as to the value of investments, earnings on investments, and all information in Exhibit I are presented in reliance solely upon this certification, with the exception of the funds held in the life insurance policies, which are not included within the certification.

(6) Investments

As of September 30, 2011 and 2010, the Plan's interest in the Master Trust, was in excess of 5% of net assets available for benefits:

	<u>2011</u>	<u>2010</u>
Emerson Electric Co. Master Trust	\$ 112,580,552	\$ 109,252,266

(7) Master Trust

Most of the Plan's investments are held in the Master Trust. Investment income/(loss) is reported as Interest in Master Trust investment appreciation/(depreciation).

Each participating plan's interest in the assets of the Master Trust is based upon participant account balances. At September 30, 2011 and 2010, the Plan's interest in the net assets of the Master Trust was approximately 3%. Investment income and expenses relating to the Master Trust are allocated to the Plan based upon balances in the Master Trust.

The Plan's investments in the Master Trust are stated at fair value. The fair values of mutual funds and Emerson common stock are based on quoted market prices in active markets. Money market funds are stated at cost, which approximates fair value. Shares of collective funds are valued at the net asset value of shares held by the Plan at year end, which is derived from either broker/dealer quotation or market-observed pricing for the underlying assets. There are no restrictions on the redemption of these investments. Contracts with insurance companies are valued at fair value determined from the discounted cash flows expected to be received from the contracts, based on market-derived yields for instruments with similar duration and issuer credit rating. The cost of investments held under the Plan is determined using the average cost method of accounting. The Company has no unfunded commitments related to these assets.

The Stable Value Fund includes investment contracts with insurance companies which are fixed income fully benefit-responsive contracts known as synthetic guaranteed investment contracts ("synthetic GICs"). Synthetic GICs are designed to preserve principal, provide a stable rate of interest for Plan participants and ensure that participant initiated withdrawals will be paid at contract value. Interest rates on synthetic GICs reset quarterly and cannot be less than zero. Assets underlying the synthetic GICs are portfolios of fixed

EMERSON ELECTRIC CO. PROFIT SHARING PLAN

Notes to Financial Statements

income investments owned by the Plan, which are maintained by a third-party custodian separate from the contract issuer's general assets. The contracts provide that realized and unrealized gains and losses on the underlying assets are not immediately reflected in the value of the Stable Value Fund, but rather are amortized over the remaining duration of the underlying contracts through adjustments to the future interest crediting rate, which is computed based on the current yield-to-maturity of the covered investments, plus or minus amortization of realized gains or losses at the time of computation. At September 30, 2011 and 2010, the weighted average yields for the Stable Value Fund were 2.86% and 3.08%, respectively, and net of fees were 2.68% and 2.91%, respectively.

The Plan is required to present in the Statement of Net Assets Available for Benefits the fair values of these investment contracts plus an adjustment of the synthetic GICs from fair value to contract value. Contract value represents contributions made under the contract plus earnings, less Plan withdrawals and administrative expenses. Certain events can limit the Plan's ability to transact at contract value with the issuers of its investment contracts or may allow for the termination of the contract at less than contract value. Examples of such events include, but are not limited to, default by contract provider, partial or complete legal termination of the Plan, improper communications to participants, group terminations and significant divestitures. The Plan does not believe that the occurrence of any such event is probable.

The following table presents the fair values of all investments in the Master Trust.

(8) Related Parties

Certain investments in the Master Trust are shares of mutual funds and common collective trusts that are managed by Vanguard Fiduciary Trust Company, the Plan's trustee and recordkeeper.

Additionally, Plan investment options include shares of Emerson Electric Co. common stock. Emerson Electric Co. is the Plan sponsor as defined by the Plan. These transactions qualify as party-in-interest transactions and are allowable under ERISA regulations.

(9) Fair Value Measurements

Under Accounting Standards Codification (ASC) 820 *Fair Value Measurements and Disclosures*, there exists a formal hierarchy and framework for measuring fair value and making disclosures about fair value measurements and the reliability of valuation inputs. Measurement assumes the transaction to sell an asset or transfer a liability occurs in the principal or at least the most advantageous market for that asset or liability. Within the hierarchy, Level 1 instruments use observable market prices for the identical item in active markets and have the most reliable valuations. Level 2 instruments are valued through broker/dealer quotation or through market-observable inputs for similar items in active markets, including forward and spot prices, interest rates and volatilities. Level 3 instruments, of which there are none, are valued using inputs not observable in an active market, such as entity-developed future cash flow estimates, and are considered the least reliable.
