NOTE 1 - Description of the Plan

The following description of The Bergquist Company Profit Sharing and 401(k) Plan (the "Plan") provides only general information. Participants should refer to The Bergquist Company Profit Sharing and 401(k) Plan summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by The Bergquist Company (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company is the sponsor and administrator of the Plan. The Plan has appointed Fidelity Management Trust Company (Trustee) as record keeper and trustee of the Plan.

Eligibility

All full-time equivalent employees of the Company are eligible to participate in the Plan on their date of hire following the attainment of age 18. In addition, employees are eligible for Company matching contributions immediately upon participation.

Contributions

Each year, participants may generally contribute up to 60% of pretax annual compensation (salary reduction contributions), as defined in the Plan. Participants may contribute up to 100% of their annual bonus. Participants 50 years of age or older may elect to defer additional catch-up amounts not to exceed \$5,500 for the year ended October 31, 2011. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). The Company matches up to 50% of the first 6% of the participant's contribution. Additional Company contributions may be contributed at the discretion of the Company's Board of Directors. No discretionary contributions were made for the year ended October 31, 2011. Contributions are subject to certain limitations.

Contributions in excess of the Internal Revenue Code (IRC) limitations are returned to participants. As of October 31, 2010, excess contributions totaling \$915 were due to participants and were classified as excess participant contributions in the Statements of Net Assets Available for Benefits. These amounts were paid during the year ended October 31, 2011. As of October 31, 2011 no excess contributions were due to participants.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions and an allocation of the Company's contributions and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants may direct the balance of their account and their contributions into any of the Plan's investment options. The Plan allows participants to make contributions to the Plan and to direct their investments among various available investment options. Investment options may be changed by the participant daily. Company discretionary and matching contributions are allocated to the participant's accounts based on the participant's investment elections.

The underlying fund invests mainly in the securities of large-sized firms, although the fund may purchase securities across all capitalization ranges. Included in the large cap equity funds, are certain target date funds issued by Fidelity which invest in a combination of equities, bonds, and short-term funds, using a moderate asset allocation strategy designed for investors expecting to retire in specified time periods. Included in the large cap equity funds group are the following investments: American Century Equity Fund, Oppenheimer Developing Markets Fund, Nuveen Tradewinds Value Opportunities Fund, Fidelity Freedom 2030 Fund, Spartan U.S. Equity Index Fund, Fidelity Freedom 2040 Fund Fidelity Freedom 2025 Fund, Fidelity Freedom 2035 Fund, Fidelity Freedom 2045 Fund, and the Fidelity Freedom 2050 Fund.

Mid Cap Equity Funds - These funds invest primarily in equity securities (both domestic and foreign), which seek long-term capital appreciation. The funds may select equity securities of companies of all market capitalization, though current have identified a concentration of those defined as mid cap. The funds seek equity securities of companies that are believed to have prospects for robust and sustainable growth of revenues and earnings. Included in the mid cap equity funds group are the following investments: Wells Fargo Advantage Growth ADM, and Aston Fairpointe Mid Cap N.

Small Cap Equity Funds - These funds invest primarily in equity securities of small market capitalization U.S. companies. Investments in the funds may include common stocks, preferred stocks, securities convertible into common stocks, real estate investment trusts, American Depositary Receipts and U.S. dollar-denominated foreign stocks trading on U.S. exchanges. Included in the small cap equity funds group are the following investments: American Beacon Small Cap Value Fund and TCW Small Cap Growth Fund I.

Fixed Income Funds - The fixed income funds include both shares of an investment company and an interest in a common collective trust. The shares of an investment company invest significant amounts in debt securities with a focus on U.S. Government securities and repurchase agreements for those securities, or other lower-quality debt securities.

The common collective trust invests in benefit-responsive investment contracts issued insurance companies and other financial institutions ("Contracts"), fixed income securities, and money market funds. Under the terms of the Contracts, the assets of the fund are invested in fixed income securities (which may include, but are not limited to, U.S. Treasury and agency bonds, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities, and collective investment vehicles and shares of investment companies that invest primarily in fixed income securities) and shares of money market funds. The fund may also invest in futures contracts, option contracts, and swap agreements. Fidelity Management Trust Company, as investment manager and trustee of the Fidelity Group Trust for Employee Benefit Plans, has claimed an exemption from registration under the Commodity Exchange Act and is not subject to registration or regulation under the Act. At the time of purchase, all Contracts and securities purchased for the fund must satisfy the credit quality standards specified in the Declaration of Separate Fund.

Vesting

Participants are immediately vested in their salary reduction and rollover contributions, and earnings and losses thereon. Participants who leave the Plan because of death, early or normal retirement, or disability retirement, as defined in the Plan, are considered 100% vested. Matching and Company discretionary contributions and earnings thereon vest in accordance with provisions of the Plan as follows:

<u>Vesting Years of Service</u>	<u>Percentage Vested</u>
1	20%
2	40%
3	60%
4	80%
5	100%

For purposes of determining the extent to which a participant is vested, a year of service is defined as a consecutive twelve-month period in which the participant is credited with 1,000 hours of service.

Forfeited Accounts

If participants terminate their employment with the Company before becoming fully vested, the nonvested portion of the participant's account is forfeited. As of October 31, 2011 and 2010, forfeited nonvested accounts totaled \$7,651 and \$30,906, respectively. These accounts will be used to reduce future Company contributions or administrative expenses. For the year ended October 31, 2011, \$22,901 from forfeited nonvested accounts was used to pay administrative expenses, and \$24,123 was used to reduce Company contributions.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the Plan agreement. The Plan provides for normal retirement at age 62 and early retirement on or after attaining age 55. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment or installments. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the Plan.

These loans are secured by the balance in the participant's account. Loan terms are not to exceed a period of five years unless the loan is for the purchase of a primary residence; then the repayment period may be extended up to ten years. The loans bear interest at a reasonable rate determined by the plan administrator based on prevailing interest rates at the date of loan origination. Principal and interest is paid ratably through payroll deductions. Interest rates ranged from 5.25% to 10.75% as of October 31, 2011.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles general accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments consist of mutual funds and a common/collective trust fund held by the Trustee. Shares of the common collective trust and mutual funds are valued at the net asset value of shares held by the Plan at year-end.

The common collective trust fund is stated at fair value as determined by the issuer based on the fair value of the underlying investments. Its underlying investments in investment contracts are valued at fair value and then adjusted by the issuer to contract value, which is invested principal plus accrued interest using a crediting rate formula. An adjustment from fair value to contract value is provided in the Statement of Net Assets Available for Benefits as contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Changes in Net Assets Available for Benefits is presented on a contract value basis. The crediting rate is the discount rate that equates the estimated future market value with such portfolio's current contract value. Crediting rates are rest monthly, but cannot fall below zero. The common collective trust fund's underlying investments seek to preserve capital and provide a competitive level of income over time that is consistent with the preservation of capital.

NOTES TO FINANCIAL STATEMENTS

As of October 31, 2011 and 2010 and for the Year Ended October 31, 2011

NOTE 2 - Summary of Significant Accounting Policies (cont.)

The common collective trust fund does not have any unfunded commitments relating to its investments, nor any significant restrictions on redemptions. Participant-directed redemptions can be made on any business day and do not have a redemption notice period. Certain events, such as a change in law, regulation, administrative ruling or employer-initiated termination of the Plan, may limit the ability of the Plan to transact the common collective trust fund at contract value with the issuer. The Plan's management does not believe that the occurrence of any such events is probable.

Net appreciation in fair value of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Plan administrative and investment management expenses are paid by the Plan. Loan administrative fees are paid by the Plan and allocated to the respective participant account.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

THE BERGQUIST COMPANY PROFIT SHARING AND 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

As of October 31, 2011 and 2010 and for the Year Ended October 31, 2011

NOTE 3 - Information Prepared and Certified by Trustee - Unaudited (cont.)

For the year ended October 31, 2011, the Plan's mutual fund investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value as follows:

	2011
Value of Interest in Common/Collective trust fund	\$ 31,695
Mutual Funds	<u>1,009,678</u>
Net appreciation in fair value of investments	<u>\$ 1,041,373</u>

Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 4 - Fair Value of Financial Instruments

The Plan follows accounting principles generally accepted in the United States of America for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include

- > quoted prices for similar assets or liabilities in active markets;
- > quoted prices for identical or similar assets or liabilities in inactive markets;
- > inputs other than quoted prices that are observable for the asset or liability;
- > inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Unobservable inputs that are unobservable and not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There has been no changes in the methodologies used at October 31, 2011 and 2010.

NOTE 4 - Fair Value of Financial Instruments (cont.)

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Common collective trust: Valued at fair value as determined by the issuer based on the fair value of the underlying investments.

The plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The tables below presents the balances of assets and liabilities measured at fair value on a recurring basis by level within the hierarchy.

Certain Plan investments are mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the record keeper and Trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for the investment management services amounted to \$50,123 for the year ended October 31, 2011.

NOTES TO FINANCIAL STATEMENTS

As of October 31, 2011 and 2010 and for the Year Ended October 31, 2011

NOTE 6 - Tax Status

The Plan obtained its latest determination letter on May 23, 1996, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan, as amended, is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan. The financial statements effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of October 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

NOTE 7 - Reconciliation of Financial Statements to Form 5500

The Form 5500 is prepared on the cash basis with respect to the recording of Plan contributions. The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of October 31, 2011 and 2010, respectively:
