INDEPENDENT AUDITORS' REPORT

To the Plan Trustees
SoftBrands, Inc.
Alpharetta, Georgia

We were engaged to audit the financial statements of the SoftBrands, Inc. Salary Savings Plan as of September 30, 2011 and 2010 and for the year ended September 30, 2011, and the supplemental schedule as of September 30, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Minnesota Life Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that Minnesota Life Insurance Company holds the Plan's assets and executes investment transactions. The plan administrator has obtained a certification from Minnesota Life Insurance Company as of and for the years ended September 30, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SOFTBRANDS, INC. SALARY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Years Ended September 30, 2011 and 2010

1 DESCRIPTION OF PLAN

The following description of the SoftBrands, Inc. Salary Savings Plan (the “Plan”) provides only general information, and therefore, does not include all situations and limitations covered by the Plan. Participants should refer to the plan document for a more complete description of the Plan’s provisions. SoftBrands, Inc. (the “Company” or “Employer”) is the plan sponsor.

General

The Company established the Plan, a defined contribution plan adopted under section 401(k) of the Internal Revenue Code, to provide retirement income and other benefits to qualified employees. The Company is the sponsor and administrator of the Plan. Minnesota Life Insurance Company (the “Trustee”) is responsible for holding the assets of the Plan, executing investment transactions and making disbursements. The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 (ERISA).

On August 13, 2009, the Company was acquired by Infor Global Solutions, Inc., (the “Acquirer”) and became a wholly-owned subsidiary of the Acquirer. On December 31, 2009, the Plan was frozen and no longer accepted new employees or contributions.

Plan Merger

On November 29, 2011, Plan management approved a Plan merger with the Infor Global Solutions 401(k) Plan to take place the first calendar quarter of 2012. All assets of the Plan were transferred to Fidelity Management Trust Company, the trustee and recordkeeper of the Infor Global Solutions 401(k) Plan, on February 10, 2012.

Eligibility

Prior to the Plan being frozen, employees who had completed six months of service and had reached the age of 21 became eligible to participate in the Plan on the first day of the following January, April, July or October.

Contributions

Each year, eligible employees could contribute a percentage of compensation through elective deferrals up to the maximum allowed by the Internal Revenue Code (the IRC). Participants were also able to contribute amounts representing distributions from other qualified plans. Participants who had attained age 50 before the end of the plan year were eligible to make catch-up contributions. The Company was also able to make discretionary matching contributions that were determined by the Board of Directors. As noted above the Plan was frozen on December 31, 2009 and, therefore, there were no contributions during the year ended September 30, 2011.

SOFTBRANDS, INC. SALARY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Years Ended September 30, 2011 and 2010

Participant Accounts

Prior to the Plan being frozen, participant accounts were credited with employee salary deferrals and with an allocation of the Employer's contribution, Plan earnings, and forfeiture of participants' nonvested accounts, if applicable. Subsequent to the Plan being frozen, participant accounts are credited with an allocation of Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The participant accounts are valued on a daily basis.

Vesting

Employee salary deferral contributions are fully vested and nonforfeitable at all times. Vesting in the Employer's contributions is generally based on the number of years for which an employee is credited with 1,000 hours or more of service subject to certain other provisions of the Plan. Participants vest at the rate of 20% per year, beginning in the first year of service and are fully vested after five years of service.

Forfeitures

If an employee is not 100% vested when employment terminates, the portion of any account that is not vested will be transferred to a forfeiture account. A terminated employee's right to the forfeiture account depends upon when and if the employee is rehired and when the vested benefit payment is made to the employee. Forfeitures will be used to offset administrative fees and then to reduce Employer matching contributions. There were no amounts forfeited during the year ended September 30, 2011. Unused forfeited balances amounted to \$2,326 and \$4,223 for the years ended September 30, 2011 and 2010, respectively.

Investments

The Plan's investments are held by the Trustee. Upon enrollment in the Plan, a participant may direct the investment of their accounts in specific investment funds made available by the plan administrator. Participants may change their investment options on a daily basis.

Notes Receivable from Participants

Participants are permitted to borrow up to 50% of their account balances from the Plan, to a maximum of \$50,000. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1% at the date the funds are loaned. At September 30, 2011, the interest rates on participant loans ranged from 7.50% to 9.25%.

NOTES TO FINANCIAL STATEMENTS

Years Ended September 30, 2011 and 2010

Distribution of Benefits

Upon termination of service, death, disability or retirement, a participant (or the participant's beneficiary in the case of death) will receive the vested portion of his or her account either as a lump-sum payment or as an annuity. Hardship distributions during employment are available to participants for medical expenses described in Section 213(d) of the IRC, the purchase of a principal residence, or the payment of tuition and related educational fees for the next 12 months of postsecondary education.

Administrative Expenses

The Company pays certain administrative expenses, including consulting and audit fees, on behalf of the Plan.

Plan Termination and Amendment

The Company has the right to terminate or amend the Plan at any time, subject to the provisions set forth in ERISA. In the event of termination, participants shall become fully vested in all employer contributions.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if applicable.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

SOFTBRANDS, INC. SALARY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Years Ended September 30, 2011 and 2010

Risks and Uncertainties

The Plan offers a number of investment options to participants that are exposed to various risks such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade date basis.

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net Appreciation (Depreciation) in Fair Value of Investments

The statement of changes in net assets available for benefits includes the net appreciation (depreciation) in the fair value of investments which consists of the realized gains or losses on investments sold and the change in unrealized appreciation (depreciation) on held investments.

Benefit Payments

Benefits are recorded upon distribution.

3 FAIR VALUE MEASUREMENTS

Generally accepted accounting principles establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

SOFTBRANDS, INC. SALARY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Years Ended September 30, 2011 and 2010

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value.

Pooled Separate Accounts: Valued at the unit value based on the number of participant units held by the Plan at year end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes to the methodology used at September 30, 2011 and 2010.

6 TAX STATUS

The Company adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of September 30, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability of disclosure in the financial statements. The Plan is subject to audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7 PARTY-IN-INTEREST AND RELATED-PARTY TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Employer and certain others. The Trustee manages the pooled separate account investments. Transactions related to these funds qualify as party-in-interest transactions; however, the Department of Labor has issued prohibited transaction exemptions indicating that these types of transactions are to be considered exempt party-in-interest transactions.

8 SUBSEQUENT EVENTS

As discussed in Note 1, as part of the Plan merger, all of the Plan's assets were transferred into the Infor Global Solutions 401(k) Plan on February 10, 2012.

Plan management has evaluated all other subsequent events through July 12, 2012, the date the financial statements were available to be issued, for potential recognition or disclosure in the financial statements.
