Metalworking Group, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements September 30, 2011 and 2010

Note 1 - Plan Description

The following description of Metalworking Group, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of The Metalworking Group Holdings, Inc. (the "Company") who have completed three months of service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 90 percent of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for employer matching contributions of 100 percent of the first 1 percent of the participant's contribution, and may contribute up to 80 percent on the next 5 percent of the employee's deferred compensation.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings. Allocations are based on the participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. For employer contributions made prior to October 1, 2008, the participant is 100 percent vested after six years of credited service. For employer contributions made after October 1, 2008, the participant is 100 percent vested after two years of credited service.

Benefit Payments - The full value of the employee's account balance is payable on his or her normal retirement age. The Plan defines the normal retirement age as 65. If an employee works beyond age 65, he or she may request to begin receiving the benefit. A participant may elect to receive either a transfer to another qualified plan, a lump-sum amount equal to the value of the employee's vested account (subject to 20 percent income tax withholding), or annual installments over a prescribed period of time.

Metalworking Group, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements September 30, 2011 and 2010

Note 1 - Plan Description (Continued)

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions. At September 30, 2011 and 2010, forfeited account balances totaled \$27,201 and \$27,298, respectively.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, except for its common collective trust fund investment (Invesco Stable Value Retirement Fund), which is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on discounting the related cash flows of the underlying investment contracts based on current yields of similar instruments with comparable durations. Investments in the common collective trust fund (the GM ML Retirement Preservation Trust) are stated at fair value, based on the quoted market values of the underlying assets. All other investments are valued based on quoted market prices. See Note 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Plan.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Metalworking Group, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements September 30, 2011 and 2010

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including July 9, 2012, which is the date the financial statements were available to be issued.

New Accounting Pronouncement - During 2011, the Plan adopted the provisions of a new accounting standard which requires that defined contribution plans classify participant loans as participant notes receivable rather than as investments as was previously required. This standard was adopted retroactively and, as a result, the September 30, 2010 participant loans have been reclassified from investments to participant notes receivable and the 2010 interest income has been reclassified from investment income to interest from participant notes receivable. The adoption of this standard had no impact on the Plan's net assets or changes in net assets.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Note 3 - Unaudited Information

On November 18, 2010, the Plan changed its trustee from JPMorgan Chase Bank to Reliance Trust Company (collectively, the "Trustees"). JPMorgan Chase Bank and Reliance Trust Company held the Plan's investments and participant notes receivable and executed related transactions during the periods under audit. JPMorgan Chase Bank, ADP, Inc., and Reliance Trust Company administered portions of the Plan on behalf of the Company. JPMorgan Chase Bank has certified the investment balances and related transactions as of September 30, 2010. ADP, Inc., as agent for JPMorgan Chase Bank, has certified the investment balances and participant notes receivable and related transactions as of November 18, 2010. Reliance Trust Company has certified the investment balances and participant notes receivable and related transactions as of September 30, 2011. The investment balances and related investment results included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by JPMorgan Chase Bank, ADP, Inc., and Reliance Trust Company.

Accordingly, no provision for income taxes has been made in the accompanying financial statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the trust's tax position and does not believe the trust has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2008.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at September 30, 2011 and 2010 and the valuation techniques used by the Plan to determine those fair values.

Level I - In general, fair values determined by Level I inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Metalworking Group, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements September 30, 2011 and 2010

Note 6 - Fair Value Measurements (Continued)

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Notes to Financial Statements September 30, 2011 and 2010

Note 6 - Fair Value Measurements (Continued)

- (1) This class represents investments in an actively managed common collective trust fund that invests primarily in investment contracts, a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, and wrapper contracts. Investments are valued at the net asset value per share multiplied by the number of shares held as of the measurement date.
- (2) This class represents investments in an actively managed common collective trust fund with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures. Investments are valued at the net asset value per share multiplied by the number of shares held as of the measurement date.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period that caused the transfer.
