Retirement Savings Plan:

We were engaged to audit the financial statements and supplemental schedule of the EGS Electrical Group LLC 401(k) Retirement Savings Plan (the Plan) as of September 30, 2011 and 2010, and for the year ended September 30, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in note 3 to the financial statements, which was certified by T. Rowe Price Trust Company and Vanguard Fiduciary Trust Company, the trustees of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that T. Rowe Price Trust Company held the Plan's investment assets and executed investment transactions for the period from October 1, 2009 to March 31, 2010, and Vanguard Fiduciary Trust Company held the Plan's investment assets and executed investment transactions from April 1, 2010 to September 30, 2011. The plan administrator has obtained certifications from the custodians as of September 30, 2011 and 2010, and for the year ended September 30, 2011, that the information provided by the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

September 30, 2011 and 2010

(1) Plan Description and Benefits

(a) General

The EGS Electrical Group LLC 401(k) Retirement Savings Plan (the Plan) is a defined contribution plan covering all full-time employees of EGS Electrical Group LLC (the Sponsor or Company) with the exception of Fullerton Union, Celina Union, and Birch Hill Union. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants should refer to the plan document for more complete information.

The Plan is administered by a committee appointed by the Company, and all contributions are deposited with the trustees of the Plan.

Prior to March 31, 2010, T. Rowe Price Trust Company (T. Rowe Price) was the trustee, custodian, and record keeper to the Plan. On April 1, 2010 (the Trustee Transfer Date), Vanguard Fiduciary Trust Company (Vanguard) was appointed by the Company as the successor trustee, custodian, and record keeper to the Plan.

(b) Contributions

Each year, participants may contribute from 1% to 75% of their compensation, in increments of 1%, into the Plan, subject to Internal Revenue Service (IRS) limitations. Under the Plan, the Sponsor's contribution is made in accordance with the plan document and varies by location. The Sponsor contributes 50% of the employee contributions, up to 5% of the employee's compensation to employees at most locations. Annual employee contributions are limited as provided by the Internal Revenue Code (Code). The maximum annual basic contribution for 2011 is \$16,500.

Due to changes in the law effective March 28, 2005, the cash-out provisions of the Plan have been revised to require a lump-sum cash-out over \$1,000 of a participant's vested benefit be transferred to an individual retirement account or annuity (an IRA) if the participant has not reached the later of age 62 or the normal retirement age and the participant fails to timely consent to payment or select an IRA or another eligible retirement plan into which to roll the distribution.

(c) Vesting

Employee contributions are fully vested when contributed. Vesting of employer contributions to the Plan is determined in accordance with the following table:

Years of employee service	Vesting percentage
Less than one	—%
One but less than two	20
Two but less than three	40
Three but less than four	60
Four but less than five	80
Five or more	100

Notes to Financial Statements

(d) Forfeited Amounts

Forfeited amounts are first used by the Sponsor to offset employer contributions. Forfeited amounts may be used to pay expenses under the Plan. Forfeited amounts for the year ended September 30, 2011 were \$32,922.

(e) Payment of Benefits

Upon termination of service, a participant may elect to receive either (a) a lump-sum amount equal to the vested value of his or her account or (b) periodic payments if the vested account balance is greater than \$5,000.

Participants may make hardship withdrawals of vested sponsor profit sharing and rollover contributions under certain circumstances as defined by the Plan.

(f) Loans

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested balance. The maximum loan term is generally four years; however, it may be longer if the loan is made to acquire a principal residence. The loans bear interest at rates that range from 4.25% to 9.25%, which are commensurate with local prevailing rates and are secured by the vested balance of the participant's account.

(g) Participant Accounts

Each participant's account is credited with the participant's contribution and plan earnings and allocations of (a) the Sponsor's contribution, (b) applicable administrative expenses, and (c) forfeitures.

Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Purchases and sales of securities are reflected on a trade-date basis. Realized gains or losses on the sale of securities are based on rolling average current value cost, which sets the cost of an asset at the beginning of the current plan year to the total market value of that asset as of the last day of the prior plan year, plus any activity during the current plan year. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on an accrual basis.

The increase or decrease in the fair value of investments represents the net difference between the current value of securities held at the beginning of the year or cost of securities purchased during the

401(k) RETIREMENT SAVINGS PLAN**

Notes to Financial Statements

year and the current value of securities at disposition or current value of securities held at the end of the year.

(c) *Payment of Benefits*

Benefit payments to participants are recorded when distributed.

(d) *Risks and Uncertainties*

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the high level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

(e) *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the disclosure of commitments at the date of the financial statements, and the changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

(f) *Common Collective Trust Fund*

The Plan invests in a common collective trust fund, which owns fully benefit-responsive investment contracts. The Plan reflected the fund at fair value and recognized an adjustment from fair value to contract value for the fully benefit-responsive investment contract of \$(590,065) and \$(651,311) as of September 30, 2011 and 2010, respectively, in the accompanying statements of net assets available for benefits.

(g) *Participant Loans*

The Company reports participant loans at amortized cost plus accrued interest, which approximates fair value.

(h) *Subsequent Events*

The Plan has evaluated subsequent events through July 16, 2012, the date the financial statements were available to be issued. No adjustments or additional disclosure deemed necessary.

(3) *Trustee's Certification*

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. T. Rowe Price for the period from October 1, 2009 to March 31, 2010 and Vanguard for the period from April 1, 2010 to September 30, 2011 have provided certification that the following information, which is contained in or used to develop the Plan's financial statements and supplemental

schedule as of September 30, 2011 and 2010, and for the year ended September 30, 2011, is complete and accurate:

- Investments, as shown in the accompanying statements of net assets available for benefits as of September 30, 2011 and 2010 and in the accompanying notes
- Participant loans, as shown in the accompanying statements of net assets available for benefits as of September 30, 2011 and 2010 and in the accompanying notes
- Investment income, as shown in the accompanying statement of changes in net assets available for plan benefits for the year ended September 30, 2011 and in the accompanying notes
- The information included in schedule H, line 4i – schedule of assets (held at end of year) as of September 30, 2011, as shown in the supplemental schedule

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule.

(4) Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value, which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the assets; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

**EGS ELECTRICAL GROUP LLC
401(k) RETIREMENT SAVINGS PLAN**

Notes to Financial Statements

September 30, 2011 and 2010

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2011 and 2010.

Money Market: Valued at amortized cost with weekly comparisons to market prices.

Mutual Funds: Valued at quoted market prices that represent the net asset value of shares held by the Plan at year-end.

Common Collective Trust: Valued at net asset value at year-end.

The methods described above are considered to produce a fair value calculation that represents a good faith estimate as to what an unaffiliated buyer in the market place would pay to purchase the asset. Since fair value calculations involve significant professional judgment in the application of both observable and unobservable attributes, actual realizable values or future fair values may differ from amounts reported. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments, while reasonable, could result in different estimates of fair value at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2011:

	Investments at fair value as determined by quoted prices in active markets (Level 1)	Valuation techniques based on observable market data (Level 2)	Valuation techniques incorporating information other than observable market data (Level 3)	Total

Investment Elections

Participants may direct the investment of their account balances into the following funds as of September 30, 2011:

- **Dodge & Cox Stock (DODGX)** – The investment seeks long-term growth of principal and income; current income is a secondary consideration. The fund invests primarily in a broadly diversified portfolio of common stocks. It invests at least 80% of total assets in common stocks, including depositary receipts evidencing ownership of common stocks. The fund may also purchase other types of securities, for example, preferred stocks and debt securities, which are convertible into common stock. It may invest up to 20% of total assets in U.S. dollar-denominated securities of non-U.S. issuers traded in the United States that are not in the S&P 500.
- **Explorer Fund Investor** – The fund invests mainly in the stocks of small companies. These companies tend to be unseasoned but are considered by the fund's advisors to have superior growth potential. Also, these companies often provide little or no dividend income. The fund uses multiple investment managers.
- **Extended Mkt Index Inv** – The fund employs a "passive management" or indexing-investment approach designed to track the performance of the Standard & Poor's Completion Index. The Standard & Poor's Completion Index contains all of the U.S. common stocks regularly traded on the New York and American Stock Exchanges, and the NASDAQ over-the-counter market, except those stocks included in the Standard & Poor's 500 Index. The fund invests all, or substantially all, of its assets in stocks of its target index, with nearly 80% of its assets invested in the 1,200 largest stocks in its target index (covering nearly 80% of the index's total market capitalization), and the rest of its assets in a representative sample of the remaining stocks.
- **Growth Index Fund Inv** – The fund employs a "passive management" or indexing-investment approach designed to track the performance of the MSCI® US Prime Market Growth Index, a broadly diversified index predominantly made up of growth stocks of large U.S. companies. The fund attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

Notes to Financial Statements

September 30, 2011 and 2010

- **Inst Index Fund Inst** – The fund employs a “passive management” or indexing-investment approach designed to track the performance of the Standard & Poor’s 500 Index, which is dominated by the stocks of large U.S. companies. The fund attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index.
- **Mid-Cap Growth Fund** – The fund uses a multimanager approach that provides exposure to a broad universe of mid-cap growth stocks. Each advisor independently manages its portion of fund assets, using its own research and investment methods. Both advisors use fundamental, bottom-up stock selection to analyze and identify companies that they believe have outstanding management and catalysts for growth such as new products, market-share gains, and improving cost structure. Both advisors look for strong earnings-per-share growth and proven and sustainable competitive advantages.
- **Morgan Growth Fund Inv** – The fund invests mainly in the stocks of mid- and large-capitalization U.S. companies whose revenues and/or earnings are expected to grow faster than those of the average company in the market. The fund uses multiple investment managers.
- **PIMCO Total Return Instl** – The investment seeks maximum total return. The fund normally invests at least 65% of total assets in a diversified portfolio of fixed-income instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements. It invests primarily in investment-grade debt securities, but may invest up to 10% of total assets in high-yield securities (junk bonds). The fund may invest in derivative instruments, such as options, futures contracts, or swap agreements, or in mortgage- or asset-backed securities.
- **Prime Money Mkt Fund** – The fund invests in high-quality, short-term money market instruments, including certificates of deposit, banker’s acceptances, commercial paper, and other money market securities. To be considered high quality, a security generally must be rated in one of the two highest credit-quality categories for short-term securities by at least two nationally recognized rating services (or by one, if only one rating service has rated the security). If unrated, the security must be determined by Vanguard to be of quality equivalent to those in the two highest credit-quality categories. The fund will invest more than 25% of its assets in securities issued by companies in the financial services industry. The fund will maintain a dollar-weighted average maturity of 60 days or less.
- **PRIMECAP Core Fund** – The fund invests in stocks whose future earnings potential are not considered to be reflected in their current market prices. The fund’s portfolio can consist of stocks across the capitalization spectrum.
- **Retirement Savings Trust** – Vanguard Retirement Savings Trust seeks stability of principal and a high level of current income consistent with a 2 – 3 year average maturity. The trust is a tax-exempt collective trust invested primarily in investment contracts issued by insurance companies and commercial banks, and similar types of fixed-principal investments. The trust intends to maintain a constant net asset value of \$1.00 per share. Investments in Vanguard Retirement Savings Trust are limited to participant-directed defined contribution plans and, with Vanguard’s approval, other qualified pension plans.

**EGS ELECTRICAL GROUP LLC
401(k) RETIREMENT SAVINGS PLAN**

Notes to Financial Statements

September 30, 2011 and 2010

- **Selected Value Fund** – The fund invests mainly in the stocks of medium-size U.S. companies, choosing stocks considered by an advisor to be undervalued. Undervalued stocks are generally those that are out of favor with investors and are trading at prices that the advisor feels are below average in relation to such measures as earnings and book value. These stocks often have above-average dividend yields. The fund tends to invest a high percentage of assets in its ten largest holdings. The fund uses multiple investment advisors.
- **Target Retirement 2005** – The fund invests in Vanguard mutual funds using an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2005 (the target year). The fund's asset allocation will become more conservative over time. Within seven years after 2005, the fund's asset allocation should resemble that of the Target Retirement Income Fund. The underlying funds are: Vanguard Total Bond Market II Index Fund, Vanguard Total Stock Market Index Fund, Vanguard Inflation-Protected Securities Fund, Vanguard Total International Stock Index Fund, and Vanguard Prime Money Market Fund.

The fund's indirect bond holdings are a diversified mix of short-, intermediate-, long-term investment-grade, taxable U.S. government, U.S. agency, and corporate bonds, inflation-indexed bonds issued by the U.S. government, as well as mortgage-backed securities. Its indirect stock holdings consist substantially of large-capitalization U.S. stocks and, to a lesser extent, mid- and small-cap U.S. stocks, and international stocks. The fund's indirect money market holdings consist of high-quality, short-term money market instruments.

- **Target Retirement 2010** – The fund invests in Vanguard mutual funds using an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2010 (the target year). The fund's asset allocation will become more conservative over time. Within seven years after 2010, the fund's asset allocation should resemble that of the Target Retirement Income Fund. Its indirect bond holdings are a diversified mix of investment-grade taxable U.S. government, U.S. agency, and corporate bonds, as well as mortgage-backed securities, all with maturities of more than one year.

- **Target Retirement 2045** – The fund invests in Vanguard mutual funds using an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2045 (the target year). The fund's asset allocation will become more conservative over time. Within seven years after 2045, the fund's asset allocation should resemble that of the Target Retirement Income Fund. The underlying funds are: Vanguard Total Bond Market II Index Fund, Vanguard Total Stock Market Index Fund, and Vanguard Total International Stock Index Fund.

Income Fund. The underlying funds are: Vanguard Total Stock Market Index Fund, Vanguard Total Bond Market II Index Fund, and Vanguard Total International Stock Index Fund.

The fund's indirect stock holdings consist substantially of large-capitalization U.S. stocks and, to a lesser extent, mid- and small-cap U.S. stocks, and international stocks. Its indirect bond holdings are a diversified mix of investment-grade taxable U.S. government, U.S. agency, and corporate bonds, as well as mortgage-backed securities, all with maturities of more than one year.

- **Target Retirement Income** – The fund invests in Vanguard mutual funds according to an asset allocation strategy designed for investors currently in retirement. The underlying funds are: Vanguard Total Bond Market II Index Fund, Vanguard Total Stock Market Index Fund, Vanguard Inflation-Protected Securities Fund, Vanguard Prime Money Market Fund, and Vanguard Total International Stock Index Fund. The fund's indirect bond holdings are a diversified mix of short-, intermediate-, and long-term U.S. government, U.S. agency, and investment-grade corporate bonds, inflation-indexed bonds issued by the U.S. government, as well as mortgage-backed securities. Its indirect stock holdings consist substantially of large-capitalization U.S. stocks and, to a lesser extent, mid- and small-cap U.S. stocks, and international funds. The fund's indirect money market holdings consist of high-quality, short-term money market instruments.
- **Total Bond Mkt Index Inv** – The fund employs a “passive management” or indexing-investment approach designed to track the performance of the Barclays Capital U.S. Aggregate Float Adjusted Bond Index. This index measures a wide spectrum of public, investment-grade, taxable, fixed income securities in the United States, including government, corporate, and international dollar-denominated bonds, as well as mortgage-backed and asset-backed securities, all with maturities of more than one year. The fund invests by sampling the index, meaning that it holds a range of securities that, in the aggregate, approximate the full index in terms of key risk factors and other characteristics. All of the fund's investments will be selected through the sampling process, and at least 80% of the fund's assets will be invested in bonds held in the index. The fund maintains a dollar-weighted average maturity consistent with that of the index, which currently ranges between 5 and 10 years.
- **Total International Stock Index Inv** – The fund employs a “passive management” or indexing-investment approach. The fund seeks to track the performance of the MSCI All Country World Index and USA Investable Market Index, an index designed to measure equity market performance in developed and emerging markets, excluding the United States. The index includes more than 6,000 stocks of companies located in over 43 countries. The fund invests substantially all of its assets in the common stocks included in its target index.
- **Value Index Fund Inv** – The fund employs a “passive management” or indexing-investment approach designed to track the performance of the MSCI® US Prime Market Value Index, a broadly diversified index predominantly made up of value stocks of large U.S. companies. The fund attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

Notes to Financial Statements

September 30, 2011 and 2010

(6) Termination

While the Sponsor does not have plans to do so, it has the right under the Plan to discontinue sponsor contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become 100% vested in their portion of sponsor contributions.

(7) Administrative Expenses

Generally, expenses relating to the administration of the Plan are paid by the Sponsor. Expenses not paid by the Sponsor are paid directly from the plan assets to Vanguard. In addition, the Sponsor, on behalf of the Plan, performs various administrative and accounting services. No charges are made to the Plan for these services.

(8) Related-Party Transactions

Certain plan investments are shares of mutual funds managed by Vanguard. Vanguard is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

(9) Tax Status

The Plan has received a favorable determination letter from the IRS dated June 25, 2012 indicating that the Plan is designed in accordance with the qualification requirements of Section 401(a) of the Code. Accordingly, the Plan qualifies for exemption from federal income taxation.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of September 30, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(10) Reconciliation of Financial Statements to Form 5500
