INDEPENDENT AUDITORS' REPORT

To the Trustees
Data Dimensions Corporation 401(k) Plan
Janesville, Wisconsin

We were engaged to audit the accompanying statements of net assets available for benefits of Data Dimensions Corporation 401(k) Plan (the "plan") as of December 31, 2011 and 2010 and the statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by MG Trust Company, LLC and Johnson Bank, the trustees of the plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that MG Trust Company, LLC held the plan's investment assets and executed the investment transactions as of December 31, 2010 and from January 1, 2011 to October 14, 2011, and that Johnson Bank held the plan's investment assets and executed investment transactions from October 15, 2011 to December 31, 2011. The plan administrator has obtained certifications from the trustees, as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator is complete and accurate.

Because of the significance of the information in the plan's financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

DATA DIMENSIONS CORPORATION 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2011 and 2010 and for the Year Ended December 31, 2011

NOTE 1 - Description of the Plan

The following description of the Data Dimensions Corporation 401(k) Plan (the "plan") provides only general information. Participants should refer to the plan's summary plan description for a more complete description of the plan's provisions.

General

The plan is a defined contribution plan established by Data Dimensions Corporation (the "company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). All employees who have completed at least six months of service with the company, as defined in the plan, and are age 21 or older are eligible to participate. Upon enrollment in the plan, a participant may direct employer and employee contributions to any combination of available investment options.

Contributions

The employees of the company may enter into a salary reduction agreement with the employer which will allow the employer to contribute a portion of the employee's compensation to the plan. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). Participants direct the investment of their contributions into various investment options offered by the plan. For any calendar year, these "elective deferrals" may not exceed a specific dollar amount determined by the Internal Revenue Code. The company matches 25% of employee contributions for contributions up to 6% of the participant's compensation. Additional company contributions may be contributed at the discretion of the company's Board of Directors. No discretionary contributions were made for the year ended December 31, 2011. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions, and an allocation of the company's contributions and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary reduction and rollover contributions plus earnings thereon. Participants who leave the plan because of death, early or normal retirement, or disability retirement, as defined in the plan, are considered 100% vested. Company contributions and earnings thereon vest in accordance with provisions of the plan as follows:

<u>Vesting Years of Service</u>	<u>Percentage Vested</u>
1	10%
2	20%
3	40%
4	60%
5	80%
6	100%

DATA DIMENSIONS CORPORATION 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2011 and 2010 and for the Year Ended December 31, 2011

NOTE 1 - Description of the Plan (cont.)

Forfeited Accounts

As of December 31, 2011 and 2010, forfeited nonvested accounts totaled \$5,529 and \$3,554, respectively. These accounts will be used to reduce future company contributions. In 2011, company contributions were reduced by \$1,645 from forfeited nonvested accounts.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement, or termination of employment, as defined in the plan agreement. The plan provides for normal retirement at age 65. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment, installments, or an annuity. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the plan.

Termination of Plan

Although it has not expressed any intent to do so, the company has the right under the plan to terminate the plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. These loans are secured by the balance in the participant's account. The loans bear interest at rates that range from 3.25% - 11.50%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Administrative Expenses

The company pays a portion of the plan's administrative expenses.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The plan's investments are valued at fair value using quoted market prices.

DATA DIMENSIONS CORPORATION 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2011 and 2010 and for the Year Ended December 31, 2011

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Net depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in the fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Investment Options and Related Risks

The plan invests in mutual funds which are subject to various risks, including credit, interest, and overall market volatility risks. In addition to these general risks, there are additional risks that may be applicable to the specific investments held by the plan as noted below.

Large cap equity funds - The fund's strategy seeks capital growth over time by investing in companies whose earnings and revenues are growing at accelerating rates. The underlying fund invests mainly in the securities of medium-sized firms, although the fund may purchase securities across all capitalization ranges. The fund will usually purchase common stocks of U.S. and foreign companies, but it can purchase other types of securities as well, such as domestic and foreign preferred stocks, convertible securities, equity equivalent securities, and investment-grade debt obligations.

Mid-cap equity funds - Investments in mid-cap companies are subject to more erratic price movements than investments in larger, more established companies. In particular, mid-sized companies may pose greater risk due to narrow product lines, limited financial resources, less depth in management or a limited trading market for their securities.

Small cap equity funds - The fund's investment in smaller companies are subject to more erratic price movements than investments in larger, more established companies. Small cap companies may be developing or marketing new products or services for which markets are not yet and may never become established. Although small, unseasoned companies may offer greater opportunities for capital growth than larger, more established companies, they also involve greater risks and should be considered speculative.

International equity funds - Foreign securities involve special risks, including potentially unfavorable currency exchange rates, limited government regulation (including less stringent investor protection and disclosure standards) and exposure to possible economic, political, and social instability. To the extent the fund invests in emerging market countries, its foreign securities risk will be higher.

Fixed income funds - Fixed-income securities or bonds are subject to credit risk and interest rate risk. The credit rating of bonds in the fund could be downgraded or the issuer of a bond could default on its obligations. In general, lower-rated fixed-income securities involve more credit risk. When interest rates rise, bond prices generally fall.

DATA DIMENSIONS CORPORATION 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2011 and 2010 and for the Year Ended December 31, 2011

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Target date funds - Investing in stocks may involve larger price swings and greater potential for loss than other types of investments. As a result, the value of the underlying funds may be subject to sharp, short-term declines in value. These risks will be more significant for the fund in the years preceding its target date because a greater proportion of the fund's assets will consist of underlying funds that primarily invest in stocks. Rising interest rates will generally cause the prices of bonds and other debt securities to fall.

Notes Receivable from Participants

In September 2010, the Financial Accounting Standards Board (FASB) released Accounting Standards Update (ASU) 2010-25, Reporting Loans to Participants by Defined Contribution Pension Plans. The ASU clarifies how loans to participants should be classified and measured by defined contribution pension benefit plans. Participant loans were previously classified as investments at fair value. The ASU requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. As required under the ASU, the plan has retrospectively adopted the ASU for the plan year ended December 31, 2010.

The adoption of the ASU impacted the classification of participant loans on the statement of net assets available for benefits, but had no impact on net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update No. 2010-06, "Fair Value Measurements and Disclosures," which requires new disclosures and provides clarification of existing disclosures about fair value measurements. More specifically, this update requires: (a) an entity to disclose separately the amounts of significant transfers in and out of Levels 1 and 2 fair value measurements and to describe the reasons for the transfers; and (b) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for fair value measurements using significant unobservable inputs (Level 3 inputs). This guidance clarifies existing disclosure requirements for the level of disaggregation used for classes of assets and liabilities measured at fair value and requires disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements using Level 2 and Level 3 inputs.

The update was effective for the 2011 plan year, except for the disclosure requirements related to the purchases, sales, issuances and settlements in the rollforward activity of Level 3 fair value measurements. Those disclosure requirements will be effective for the 2012 plan year. The adoption of this guidance did not have a material impact on the Plan's financial statements.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2011 and 2010 and for the Year Ended December 31, 2011

NOTE 2 - Summary of Significant Accounting Policies (cont.)

In May 2011, the FASB issued Accounting Standards Update No. 2011-04, "Fair Value Measurement," which aligns disclosures related to fair value between U.S. GAAP and International Financial Reporting Standards. The standards update includes changes to the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and changes to the disclosure of information about fair value measurements. More specifically, the changes clarify the intent of the FASB regarding the application of existing fair value measurements and disclosures as well as changing some particular principles or requirements for measuring fair value or for disclosing information about fair value measurements. This update will be effective for the Plan in 2012. The Plan is evaluating the impact that the application of this update will have on its financial statements.

Investments that represent 5% or more of the plan's net assets are separately identified with an "***".

During the year ended December 31, 2011, the plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated (depreciated) in value as follows:

Money Market Fund	\$ (2,310)
Shares of registered investment companies	<u>(76,726)</u>
 Net Depreciation in Fair Value of Investments	 (79,036)
 Interest and dividends	 <u>30,828</u>
 Net Investment Return (Loss) Certified by Trustee	 <u>\$ (48,208)</u>

Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2011 and 2010 and for the Year Ended December 31, 2011

NOTE 4 - Fair Value of Financial Instruments

The plan follows accounting principles generally accepted in the United States of America for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Quoted market prices in active markets for identical assets or liabilities.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data.

- > quoted prices for similar assets or liabilities in active markets;
- > quoted prices for identical or similar assets or liabilities in inactive markets;
- > inputs other than quoted prices that are observable for the asset or liability;
- > inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Unobservable inputs that are not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There has been no changes in the methodologies used at December 31, 2011 and 2010.

Money market funds: Valued at fair value using quoted market prices, where available. Other funds are valued using amortized cost, which approximates the current fair value.

Mutual funds: Valued at fair value using quoted market prices.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date

NOTE 4 - Fair Value of Financial Instruments (cont.)

The plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below presents the balances of assets and liabilities measured at fair value on a recurring basis by level within the hierarchy.

DATA DIMENSIONS CORPORATION 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2011 and 2010 and for the Year Ended December 31, 2011

NOTE 5 - Amount Owed to Participants Withdrawing from the Plan

Amounts owed to participants who have withdrawn from the plan total \$0 as of December 31, 2011 and 2010.

NOTE 6 - Parties in Interest

Fees paid by the plan for the investment management services are with the trustee and are party in interest transactions. These fees are netted against investment income for the year ended December 31, 2011.

NOTE 7 - Tax Status

The plan obtained its latest determination letter on January 31, 2006, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The plan has been amended since receiving the determination letter. The plan administrator believes that the plan, as amended, is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the plan was qualified and the related trust was tax-exempt at the financial statement date.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan. The financial statements effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for tax returns filed in years prior to 2008.

NOTE 8 - Plan Merger

On October 14, 2011 the Home Entry Services, Inc. 401(k) Plan was merged into the Data Dimensions Corporation 401(k) Plan. Prior to the merger, the plan covered eligible employees at Home Entry Services, Inc. The transferred net assets have been recognized in the accounts of the Data Dimensions Corporation 401(k) Plan as of October 14, 2011, at their balances previously carried in the accounts of the Home Entry Services, Inc. 401(k) Plan. The total value of assets transferred in was \$1,404,395.

NOTE 9 - Subsequent Events

The plan administrator has evaluated subsequent events occurring through July 9, 2012, the date that the financial statements were available to be issued, for events requiring recording or disclosure in the plan's financial statements.
