The plan consisted of U.S. corporations, which are part of the Muller Martini worldwide group of companies.

Note 1 - Description of Plan:

The following description of the Muller Martini 401(k) Super Savings Investment Plan provides general information. Reference should be made to the Plan agreement for a more complete description of the Plan's provisions.

(a) General:

The Plan is a defined contribution plan covering all full-time and part-time employees of the U.S. Muller Martini Group who have completed six months of service effective January 1 or July 1, and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974.

(b) Contributions:

Each year participants may contribute from 2% pretax annual compensation, as defined in the Plan, up to a maximum dollar amount allowable by tax law. Participants age 50 or over may contribute an additional catch-up amount. Employees may also roll-over amounts representing distributions from other qualified defined benefit or contribution plans, even if they are not participating in the Plan. The Company contributed matching funds of 3% to 4% for each participant.

Note 1 - Description of Plan: (Continued)

(b) Contributions: (Continued)

Effective April 1, 2009 the Employers 3% Non-Elective Contribution was made discretionary. No discretionary contribution was made for the years 2011 and 2010.

(c) Participant Accounts:

Each participant's account is credited with the participant's pre-tax contribution, the Company's matching contribution, and the participant's rollover contribution, when applicable, and Plan earnings. Each participant's account is reduced by the participant's loan balance, when applicable.

Forfeited balances of terminated participants' non-vested accounts can be used to reduce Company contributions and pay administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting:

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's matching and additional 3% contribution portion of their accounts, plus actual earnings thereon, is based on the following:

Note 1 - Description of Plan: (Continued)

Less than 3 years - 0% vested
3 years or more - 100% vested

A participant is 100% vested when they attain age sixty-five, become disabled or die.

(e) Investment Options:

Upon enrollment in the Plan, participants may direct investment of funds in their accounts, to any of thirteen investment options:

Fundamental Value Portfolio
GIC Portfolio
Intermediate Fixed Income
Large Cap Core Portfolio
Large Company Value Portfolio
Mid-Cap Fundamental Value Portfolio
Mid-Cap Growth Portfolio
Overseas Equity Portfolio
S & P 500 Index Portfolio
Small Company Growth Portfolio
Small Company Value Portfolio
Strategic Growth Portfolio
US Allocation Portfolio

Participants may change their investment allocation daily.

Note 1 - Description of Plan: (Continued)

(f) Participant Loans:

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 - 5 years or longer for a loan used to purchase a primary residence. The loans are secured by the balance in the participant's account and bear interest at prime rate plus 1%. Principal and interest is paid ratably through monthly payroll deductions.

(g) Payment of Benefits:

On termination of service due to death, disability or retirement, on or after reaching age sixty-five, the full value of the Plan account is payable to the participant or beneficiary. For termination of service due to other reasons, a participant will receive the value of their vested interest as a lump-sum distribution.

(h) Forfeited Accounts:

At December 31, 2011, forfeited non-vested accounts totaled $7,595, which will be used to reduce future employer contributions and/or administrative expenses.

In 2011 $104,954 was used as follows:

Reduction of employers contribution	$ 73,108
Audit fees	11,000
Allocated to participant based on the 2010 testing.	20,846

Note 2 - Summary of Accounting Policies:

(a) Basis of Accounting:

The financial statements of the Plan are prepared under the accrual method of accounting.

(b) Use of Estimates:

The preparation of financial statements in conformity with U.S. generally accepted accounting principles require management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition:

The Plan's investments are stated at a fair value measured by quoted prices in an active market.

Purchases and sales of funds are recorded on a trade date basis. Interest income is recorded on the accrual basis.

(d) Participant Loans:

Participant loans receivable are reported at their unpaid principal balances plus any accrued but unpaid interest.

(e) Payment of Benefits:

Benefits are recorded when paid.

Note 4 - Accounts Payable:

Represents 2009 participant excess contribution refunds of $11,366 which were paid in 2011.

Note 5 - **Plan Termination and Amendments:**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6 - **Reconciliation of Financial Statement to Form 5500:**

Net assets available for benefits per the financial statements equal those per the Form 5500, and benefits paid to participants per the financial statements equal those per the Form 5500, for the related periods.

Note 7 - **Tax Status:**

The Plan obtained its latest determination letter in March 2001, which the Internal Revenue Service stated that the provisions of the Plan, as designed, were in compliance with the applicable requirements of the Internal Revenue Code.

In September 2010 the Department of the Treasury notified the Plan that its Form 5500-2008 had been selected for examination. The examination was done and resulted in the return being accepted as filed with no change.

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of the Treasury. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2009.

Note 8 - **Trustee and Administrative Fees:**

As of January 1, 2007 the trustee and administrative fees are paid by the Plan. In prior years the trustee's fees of the Plan were absorbed by the participating companies. Certain operating expenses are still paid by the two participating companies on behalf of the plan.

Note 9 - **Significant Investments:**

There are six investments representing 5% or more of total Plan assets in 2011. (See Note 3)

Note 10 - **Significant Transactions:**

There are no transactions representing 5% or more of total plan assets in 2011.

Note 11 - **Information Certified by the Plan's Trustee:**

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, Wilmington Trust Fiduciary Services Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments in interest bearing cash and funds reflected on the accompanying statements of net assets available for plan benefits as of December 31, 2011 and 2010 and the schedule of assets held for investment as of December 31, 2011 and 2010, the related investment activity reflected in the statements of changes in net assets available for plan benefits for the years ended 2011 and 2010 and the schedule of investment (loss) income for the years ended December 31, 2011 and 2010.

Note 12 - **Fair Value Measurements:**

FASB ASC 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include –

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liability has a specific (contractual) term, the level 2 input must be observed for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 12 - Fair Value Measurements: (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010

Interest Bearing Cash:

Fixed income investments are valued on the basis of valuations furnished by a Trustee-approved independent pricing service, which determines valuations for normal institutional-size trading units of such securities using methods based on market transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders, or at fair value as determined in good faith by the trustee. Short-term investments, if any, are stated at amortized cost, which approximates fair value.
Assigned Level 2

Common/Collective Trusts:

Valued using other significant observable inputs. Observable inputs are inputs that other market participants would use in valuing a portfolio instrument. These may include quoted prices for similar securities, interest rates, prepayment speeds, credit risk and others.
Assigned Level 2

Note 12 - Fair Value Measurements: (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2011 and 2010.

Assets at Fair Value as of December 31, 2011:

	Level 1	Level 2	Level 3	Total
Interest bearing cash	$ 0	$ 38,531	$ 0	$ 38,531
Common/Collective Trusts	0	44,199,106	0	44,199,106
Total assets at fair value	$ 0	$44,237,637	$ 0	$48,237,637

Assets at Fair Value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Interest bearing cash	$ 0	$ 1,077	$ 0	$ 1,077
Common/Collective Trusts	0	48,773,695	0	48,773,695
Total assets at fair value	$ 0	$48,774,772	$ 0	$48,774,772

Note 13 - **Risks and Uncertainties:**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 14 - **Subsequent Events:**

In 2012 the two U.S. corporations were merged and a new related company joined the plan.

The plan has evaluated subsequent events through June 1, 2012, the date this financial statements were available to be issued and has determined that there are no additional subsequent events to be recognized or reported.
