Silver Associates' Savings Plan

Notes to Financial Statements

1. Description of Plan

The following description of Silver Associates' Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was restated and amended effective October 1, 2009, incorporating the Economic Growth and Tax Relief Reconciliation Act of 2001.

General

The Plan is a defined contribution safe harbor plan covering all eligible employees of the following three companies: Silver Ventures, Inc.; NatureSweet, Ltd. (formerly, Desert Glory, Ltd.); and Pearl Brewery, L.L.C. (collectively, the "Control Group" or the "Employer") who have completed 3 months of service and are age 21 or older. In 2010, the Control Group also included La Babia Management ("La Babia"), which only had one employee. La Babia was removed from the Plan effective January 1, 2011 and, subsequently, reinstituted on January 1, 2012. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Company contributes 100% of the first 3% of compensation a participant contributes to the Plan. In addition, the Company will contribute 50% of the amount of the employee's contribution that exceeds 3% of the employee's compensation, but does not exceed 5% of the employee's compensation. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations.

Participants may elect to contribute up to 90% of eligible compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants are always 100% vested in their voluntary contributions.

Participant Accounts

Participants direct the investment of their contributions into various investment options offered by the Plan.

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (continued)

Vesting

Participants are vested immediately in their contributions and in Employer contributions and actual earnings thereon.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lessor of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest, as determined by the Plan administrator. Principal and interest are paid through payroll deductions.

Payment of Benefits

On termination of service, a participant may elect to receive a lump-sum distribution or installment payments equal to the value of the participant's vested interest in his or her account. Any balance under $5,000 is automatically paid out as soon as administratively possible. Hardship withdrawals are also available subject to certain limitations.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Control Group, as provided by the Plan document.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

2. Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

Stable Value Fund

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required, the statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for disclosure of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncement

Fair Value Measurements and Disclosures

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-06, *Improving Disclosures About Fair Value Measurements* ("ASU 2010-06"). ASU 2010-06 amended Accounting Standards Codification ("ASC"), *Fair Value Measurements and Disclosures*, to clarify certain existing fair value disclosures and to require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new

requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and to present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. The guidance in ASU 2010-06 has been adopted for the Plan year ended December 31, 2011.

In May 2011, FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measures and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS")*, ("ASU 2011-04"). ASU 2011-04 amended ASC, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in U.S. GAAP and IFRS. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC, *Fair Value Measurements and Disclosures*. In addition, ASU 2011-04 requires additional fair value disclosures (although certain of these new disclosures will not be required for nonpublic entities). The amendments are to be applied prospectively and are effective for the Plan year beginning January 1, 2012. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent Events

The Plan has evaluated subsequent events through July 13, 2012 the date the financial statements were available to be issued.

3. Information Certified and Provided by State Street Bank and Trust Company

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

3. **Information Certified and Provided by State Street Bank and Trust Company (continued)**

	Years Ended December 31, 2011	2010
Stable value fund	$ **6,209**	$ (125,282)

	$ (478,565)	$ 689,060

5. Fair Value Measurements

FASB's ASC, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB's ASC, *Fair Value Measurements and Disclosures*, are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques that are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010:

- Mutual funds – Valued at the net asset value of shares held by the Plan at year-end
- Stable value fund – Valued at fair value by discounting the related cash flows based on the current yields of similar instruments with comparable durations, considering the creditworthiness of the issuer

5. Fair Value Measurements

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	December 31, 2011			
	Total	Level 1	Level 2	Level 3
Equity securities:				
Mutual funds:				
Index funds	$ 5,580,510	$ 5,580,510	$ -	$ -

Stable value fund	559,861	-	559,861	-
	$ 7,106,407	$ 6,546,546	$ 559,861	$ -

	December 31, 2010			
	Total	Level 1	Level 2	Level 3
Equity securities:				
Mutual funds:				
Index funds	$ 5,591,532	$ 5,591,532	$ -	$ -
Growth funds	1,135,072	1,135,072	-	-
Stable value fund	872,613	872,613	-	-
	$ 7,599,217	$ 7,599,217	$ -	$ -

6. Stable Value Fund

The Plan has entered into a benefit-responsive stable value fund contract with Invesco National Trust Company, known as the Invesco Stable Asset Fund in 2011, and with the SEI Trust Company, known as the Morgan Stanley Stable Value Fund in 2010 (collectively, the "Trust"). The Trust maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The stable value fund contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the stable value fund contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value fund contract. The stable value fund contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by the Trust, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the stable value fund contract at December 31, 2011 and 2010 totaled $559,861 and $872,613, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The stable value fund contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

6. Stable Value Fund (continued)

The average yields consist of the following:

	Years Ended December 31, 2011	2010
Based on actual earnings	1.29%	*
Based on interest rate credited to participants	1.72%	*

* In November 2010, the contracts held by the Trust were terminated with the contract issuers and all the Trust's assets were sold and reinvested in a money market fund; therefore, no crediting rate was calculated, and no interest was accrued to participants.

7. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by State Street Bank and Trust Company. State Street Bank and Trust Company is the custodian, as defined by the Plan and, therefore, these investments qualify as party-in-interest transactions.

The Control Group paid certain administrative expenses related to the Plan for the years ended December 31, 2011 and 2010.

8. Plan Termination

Although it has not expressed any intent to do so, the Control Group has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA.

9. Tax Status

Effective July 1, 1998, the Plan adopted a standardized form of a prototype plan sponsored by Automatic Data Processing, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

9. Tax Status (continued)

FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by United States federal or state tax authorities for years before 2008.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
