401(k) Retirement Savings Plan

We were engaged to audit the financial statements of the FUJIFILM Manufacturing USA, Inc. 401(k) Retirement Savings Plan (the "Plan") as of December 31, 2011 and 2010 and for the year ended December 31, 2011, and the supplemental schedule for the year ended December 31, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by the T. Rowe Price Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA.

401(k) RETIEMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2011 and 2010

1. **Description of Plan**

The following description of the FUJIFILM Manufacturing USA, Inc. (the "Company") 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution profit sharing plan covering all full time employees of the Company. The Retirement Committee of the Company controls and manages the operation and administration of the Plan. T. Rowe Price Trust Company serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may contribute up to 100% of their pretax annual compensation, as defined in the plan document, subject to certain Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. The Company makes a safe harbor matching contribution of 50% of the first 6% of eligible compensation contributed by the participant. The Company also makes a safe harbor non-elective contribution of 3% of compensation on a quarterly basis. Additional discretionary amounts may be contributed at the option of the Company's board of directors. No additional contributions were made for the year ended December 31, 2011. Contributions are subject to certain limitations.

Investment Options – Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds and a stable value fund as investment options for participants.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of the Company's contributions, and plan earnings (losses), and charged with benefit payments, transactions fees related to notes receivable from participants and distributions, and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions and Company safe harbor non-elective contributions plus actual earnings thereon. Vesting in other Company contributions portion of their accounts plus actual earnings thereon is based on years of service. A participant is 100% vested after five years of credited service.

Notes Receivable from Participants – Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. At December 31, 2011, outstanding notes bore interest at rates ranging from 4.25% to 10%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits – Upon termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount as provide by the Plan. Hardship distributions are permitted upon demonstration of financial hardship. All fully vested balances are available for distribution after the participant reaches the age of 59 ½.

Forfeitures – At December 31, 2011 and 2010, forfeited nonvested accounts totaled $260,817 and $295,195, respectively. These accounts will be used to reduce future Company contributions and pay administrative expenses. For the year ended December 31, 2011, forfeitures totaling $69,343 were used to pay plan expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investments Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

In accordance with GAAP, the stable value fund held by a defined-contribution plan is required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the stable value fund as well as the adjustment to the fully benefit-responsive stable value fund from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance. Delinquent participant notes are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits – Benefits are recorded upon distribution.

Administrative Expenses – The Plan's administrative expenses are paid by either plan participants or the Company, as provided by the plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivable from participants and distributions) are charged directly to the participant's account.

Reclassifications – Certain 2010 disclosures relating to fair value of investments have been reclassified to conform with the 2011 presentation. There was no impact on Net Assets Available for Benefits or Changes in Net Assets Available for Benefits.

Subsequent Events – The Plan has evaluated subsequent events through July 9, 2012, the date the financial statements were available to be issued.

3. Investments

The following table presents investments that represent 5% or more of the Plan's net assets at December 31:

	2011	2010
T. Rowe Price Spectrum Income Fund	$ 5,769,735	$ 5,190,149
American Europacific Growth Fund	3,945,623	4,835,782
T. Rowe Price Mid-Cap Growth Fund	6,058,019	6,362,969
T. Rowe Price Retirement 2030 Fund	*	3,736,779
T. Rowe Price New America Growth Fund	7,147,669	7,224,905
T. Rowe Price Science & Technology Fund	5,036,120	5,469,886
T. Rowe Price Spectrum Growth Fund	6,951,813	7,614,392
T. Rowe Price Stable Value Fund, at contract value	11,135,369	9,379,488

** Amount represents less than 5% of net assets.*

During 2011, the Plan's mutual funds (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $1,439,832.

4. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

When quoted prices are available in active markets for identical instruments, investment securities are classified within Level 1 of the fair value hierarchy. Level 1 investments include mutual funds.

Level 2 investment securities include investments for which quoted prices are not available in active markets for identical instruments. The Plan has no level 2 investments.

Due to significant unobservable inputs included in the valuation model for the stable value fund, the resulting fair value of this security is classified as Level 3. The fair value of the stable value fund was estimated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. (See Note 6).

The following tables set forth by level within the fair value hierarchy the Plan's assets accounted for at fair value on a recurring basis as of December 31, 2011 and 2010:

	Fair Value as of December 31, 2011			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds:				
Large-cap	$ 16,807,006	$ -	$ -	$ 16,807,006

Total investments	$ 56,172,745	$ -	$ 9,731,215	$ 65,903,960

The Plan recognizes transfers between the levels as of the actual date of the event or change in circumstances that caused the transfer. Gross transfers between the levels were not significant for the years ended December 31, 2011 and 2010.

The following table illustrates the activity of Level 3 assets measured at fair value on a recurring basis from December 31, 2011 and 2010:

	Stable Value Fund
Fair value at December 31, 2010	$ 9,731,215
Interest earned	336,175
Purchases, sales, issuances and settlements	1,465,780
Fair value at December 31, 2011	$ 11,533,170

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Unaudited Information Certified by Trustee

The accompanying financial statements and supplemental schedule include the following unaudited information as of December 31, 2011 and 2010 and for the year ended December 31, 2011 that was obtained from data prepared and certified to be complete and accurate by the Plan's trustee:

	2011	2010
Investments*	$ 64,801,858	$ 65,552,233
Notes receivable from participants	$ 3,124,602	$ 2,958,445
Net depreciation in fair value of investments	$ 1,439,832	
Interest and dividend investment income	$ 336,175	
Interest income on notes receivable from participants	$ 145,334	

The certification mentioned above includes all investment information discussed in Notes 3 and 4 and in the Supplemental Schedule of Assets (Held at End of Year).

* All investments are certified at fair value with the exception of the Stable Value Fund, which is certified at contract value.

6. Stable Value Fund

The stable value fund (the "Fund) is a collective trust fund sponsored by T. Rowe Price Trust Company. The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the Fund's constant NAV of $1 per unit. Distribution to the Fund's unit holders is declared daily from the net investment income and automatically reinvested in the Fund on a monthly basis, when paid. It is the policy of the Fund to use its best efforts to maintain a stable net asset value of $1 per unit, although there is no guarantee that the Fund will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. The Fund imposes certain restrictions on the Plan, and the Fund itself may be subject to circumstances that impact its ability to transact at contract value, as described in the following paragraphs. Plan management believes that the occurrence of events that would cause the Fund to transact at less than contract value is not probable.

Restrictions on the Plan
Participant-initiated transactions are those transactions allowed by the Plan, including withdrawals for benefits, loans, or transfers to noncompeting funds within a plan, but excluding withdrawals that are deemed to be caused by the actions of the Plan Sponsor. The following employer-initiated events may limit the ability of the Fund to transact at contract value:

- A failure of the Plan its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.
- Complete or partial termination of the Plan.

Circumstances that Impact the Fund
The Fund invests in assets, typically fixed income securities or bond funds, and enters into "wrapper" contracts issued by third parties. A wrapper contract is an agreement by another party, such as a bank or insurance company to make payments to the Fund in certain circumstances. Wrapper contracts are designed to allow a stable value portfolio to maintain a constant NAV and protect a portfolio in extreme circumstances. In a typical wrapper contract, the wrapper issuer agrees to pay the difference between the contract value and the market value of the underlying assets if the market value falls below the contract value.

The wrapper contracts generally contain provisions that limit the ability of the Fund to transact at contract value upon the occurrence of certain events. These events include:

- Any substantive modifications of the Fund or the administration of the Fund that is not consented to by the wrapper issuer.

- Any change in law, regulation, or administrative ruling applicable to a plan that could have a material adverse effect on the Fund's cash flow.
- Employer-initiated transactions by participant plans as described above.

In the event that wrapper contracts fail to perform as intended, the Fund's NAV may decline if the market value of its assets decline. The Fund's ability to receive amounts due pursuant to these wrapper contracts is dependent on the third-party issuer's ability to meet their financial obligations. The wrapper issuer's ability to meet its contractual obligations under the wrapper contracts may be affected by future economic and regulatory developments.

The Fund is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrapper contracts covering all of its underlying assets. This could result from the Fund's inability to promptly find a replacement wrapper contract following termination of a wrapper contract. Wrapper contracts are not transferable and have no trading market. There are a limited number of wrapper issuers. The Fund may lose the benefit of a wrapper contract on any portion of its assets in default in excess of a certain percentage of portfolio assets.

Investment Contracts

The Fund primarily invests in a variety of investments such as GICs issued by insurance companies and other financial institutions and other investment products (synthetic GICs) with similar characteristics. Traditional GICs are designed to provide a fixed return on principal invested for specified period of time. The issuer of a traditional contract is financial responsible counterparty. The issuer accepts a deposit from the trust and purchases investments, which are held by the issuer. The issuer is contractually obligated to repay principal and interest at the stated coupon rate to the trust and guarantees liquidity at contract value prior to maturity for permitted participant-initiated withdrawals from the trust.

The Plan provides participants a self-managed stable value investment option ("Synthetic GIC") that simulates the performance of a guaranteed investment contract, whereby participants execute Plan transactions at contract value. Contract value represents contributions made to the Synthetic GIC, plus earnings, less participant withdrawals. The self-managed stable value fund is composed of a portfolio of bonds and other fixed income securities owned by the Plan and an investment contract issued by an insurance company or other financial institution, designed to provide a contract value "wrapper" around the fixed income portfolio to guarantee a specific interest rate which is reset quarterly and that cannot be less than zero. The wrapper contract provides that realized and unrealized gain and losses on the underlying fixed income portfolio are not reflected immediately in the net assets of the Synthetic GIC, but rather are amortized over the duration of the underlying assets through adjustments to the future interest crediting rate. Primary variables impacting future crediting rates of the Synthetic GIC include the current yield, duration, and existing

difference between market and contract value of the underlying assets with the wrapper contractor.

Certain events, such as Plan termination or plan merger initiated by the Plan Sponsor, may limit the ability of the Plan to transact at contract value or may allow for the termination of the wrapper contract at less than contract value. Plan management believes that the occurrence of events that may limit the ability of the Plan to transact at less than contract value is not probable.

7. Exempt Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by T. Rowe Price Trust Company. T. Rowe Price Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were $69,343 for the year ended December 31, 2011. Fees paid by the Plan for administrative services were $5,300 for the year ended December 31, 2011.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.

9. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable requirement of the IRC. The Plan is relying on the IRS approval of the prototype plan that it is utilizing. The IRS has determined and informed the trustee by a letter dated March 31, 2008 that the prototype plan document was designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the accompanying 2011 and 2010 financial statements to Schedule H of Form 5500:

	December 31,	
	2011	**2010**
Net assets available for benefits per the financial statements	$ 68,187,183	$ 68,510,678
