The following description of the Linc Lighting and Electrical, LP Retirement Savings Plan (formerly the Sundown Electric Retirement Savings Plan) (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan was adopted on January 1, 2000 and qualifies as a defined contribution retirement plan for Linc Lighting & Electrical, LP (the “Company”) eligible employees. This Plan was established for the purpose of providing retirement benefits to eligible employees in accordance with the Plan. The Plan is intended to satisfy the provisions of Section 401(a) of the Internal Revenue Code (“IRC”) of 1986, as amended. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Eligibility

Each of the Company’s employees is eligible to participate in the Plan and receive matching contributions if they have completed six months of service and attained age 21. To be eligible for the discretionary profit sharing contributions, participants will have at least 1,000 hours of service and be employed on the last day of the year. Entry dates will be the first day of January and July of the Plan year following the date the employee satisfies the Plan’s eligibility requirements.

Contributions

The Company’s eligible employees may contribute 80% of compensation up to the 402(g) limit and/or the ADP test limit for highly compensated employees. The 402(g) limit for 2011 and 2010 is \$16,500, respectively. In addition, all eligible employees who have attained age 50 before the close of the Plan year shall be eligible to make catch-up contributions in accordance with, and subject to the limitations of, Code Section 414(v).

The Company has elected to may make a discretionary matching contribution equal to 50% of the participant’s contributions up to \$1,000. The Company chose not to make profit sharing contributions for the years ended December 31, 2011 and 2010.

Participant Accounts

Each participant’s account is credited with the participant’s allocation of (a) the Company’s matching contribution, (b) the Company’s discretionary contribution, (c) the participant’s contribution and, (d) Plan earnings.

1. DESCRIPTION OF PLAN - (Continued)

Investment of Plan Funds

A participant may invest his or her respective share in all employee and employer contributions into any one of the investment options offered by the Standard Insurance Company ("Standard").

Allocation of Investment Activity

The net increase or decrease in such values resulting from fund income and allocated expenses, if any, are apportioned to each participant's account in proportion to the value of the participant's account as compared to the investment fund as a whole.

Vesting

Participants are one hundred percent (100%) vested in their contributions plus actual earnings thereon. Participants become vested in their Company matching contributions and profit sharing account and any earnings as follows:

<u>Years of Service For Vesting</u>	<u>Percent Vested</u>
After two years of service	20%
After three years of service	40%
After four years of service	60%
After five years of service	80%
After six years of service or more	100%

Forfeitures

Amounts forfeited from terminating participants' non-vested portion of their Company matching contribution account and Company discretionary contribution account and earnings on Company contributions are used to pay Plan expenses and reduce future Company contributions. Forfeitures were \$2,903 and \$20,244 for the years ended December 31, 2011 and 2010, respectively. At December 31, 2011 and 2010, the amounts available to pay Plan expenses or to reduce future employer contributions were \$34,807 and \$32,933, respectively.

1. DESCRIPTION OF PLAN - (Continued)

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of one-half of the participant's vested account balance or \$50,000, or the limitations set by the Tax Reform Act of 1986 and Section 408(b) of the Employee Retirement Income Security Act of 1974 ("ERISA"). The loans are to be repaid through payroll withholding over a period of five years or longer if the loan is to acquire a principal residence.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Date of Management's Review

Subsequent events were evaluated through July 17, 2012, which is the date the financial statements were available to be used.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Expenses

Substantially all Plan administrative expenses were paid by the Company for the years ended December 31, 2011 and 2010.

Basis of Accounting for Investment Contracts

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2011 and 2010

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Investment Valuation and Revenue Recognition

The Plan's investments are stated at fair value. The net appreciation or depreciation in the fair value of each fund includes interest, dividends, realized appreciation and depreciation, and unrealized appreciation and depreciation less expenses. Any net unrealized appreciation or depreciation for the period is reflected in the statement of changes in net assets available for benefits.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Non-Discrimination for Employee and Employer Contributions

The Plan, as required by the IRC, performs annual tests between highly compensated participants versus non-highly compensated participants to ensure that highly compensated participants are not disproportionately favored under the Plan. If the Plan fails the tests, it must refund excess deferral contributions. For the years ended December 31, 2011 and 2010, excess contributions amounted to \$1,333 and \$-0-, respectively.

3. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become one hundred percent (100%) vested in their accounts.

LINC LIGHTING AND ELECTRICAL, LP RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2011 and 2010

4. TAX STATUS

The Internal Revenue Service made a favorable determination in a letter dated March 31, 2008 that stated that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has since been amended and restated. The trustee, plan sponsor, and plan administrator are not aware of any course of action or series of events that have occurred that would adversely affect the qualified status of the Plan. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

5. RELATED-PARTY TRANSACTIONS

Certain plan investments are managed by Standard Insurance Company, the custodian of the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services and administrative services amounted to \$4,674 and \$7,358 for the years ended December 31, 2011 and 2010, respectively. In addition, the Plan paid StanCorp Financial Group, the parent company of the Standard, \$21,194 and \$23,028 for investment advisory and related fees for the years ended December 31, 2011 and 2010.

6. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Standard, the custodian of the Plan, has certified to the completeness and accuracy of the interest in the pooled separate accounts and unallocated contracts reflected on the accompanying statements of net assets available for benefits as of December 31, 2011 and 2010, the schedule of assets held at year end as of December 31, 2011, and all the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2011 and 2010.

7. INVESTMENTS

The following table represents the fair value of investments at December 31, 2011 and 2010. Investments that represent 5 percent or more of the Plan's net assets are separately identified.

	<u>2011</u>	<u>2010</u>

During 2011 and 2010, the Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in value by \$(86,945) and \$240,540, respectively.

8. FAIR VALUE MEASUREMENT

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

LINC LIGHTING AND ELECTRICAL, LP RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2011 and 2010

8. FAIR VALUE MEASUREMENT – (Continued)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of asset or liability.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair value of the pooled accounts is based on quoted net asset values of the shares held at year end.

The fair value of the stable value fund is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

The following tables set forth by level, within the fair value hierarchy, the plan's fair value measurement at December 31, 2011 and 2010.

<u>December 31, 2011</u>	<u>Fair Value</u>	Quoted Prices in Active Markets For identical Assets (Level 1)	<u>Fair Value Measurement Using:</u>

	<u>\$ 2,211,943</u>	<u>\$ 1,778,595</u>	<u>\$ 433,348</u>	<u>\$ -</u>

9. INVESTMENT CONTRACT

The group annuity contract is a stable value asset fund in which contributions are maintained in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fund is considered a fully benefit-responsive investment contract (as described in Note 2), and thus the fund is presented in the statement of net assets available for benefits at fair value, with an adjustment from fair value to contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate for the stable value investment contract for the years ended December 31, 2011 and 2010 was 2.31% and 2.50%, respectively. The average yield earned by the fund for the years ended December 31, 2011 and 2010 was 2.31% and 2.49%, respectively.

As described in Note 2, because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

The following table presents the adjustments from fair value to contract value for the Stable Value Fund:

	<u>2011</u>	<u>2010</u>
Fair value of Stable Value Fund	\$ 378,391	\$ 433,348

11. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

12. PLAN AMENDMENT

Effective May 26, 2010, the plan was amended to change the plan name to Linc Lighting and Electrical, LP Retirement Savings Plan.
