NOTE A—DESCRIPTION OF PLAN (CONTINUED)

Plan Expenses

All reasonable expenses of the administrator or trustee incurred in the performance of their duties hereunder or under the Plan may be paid by the employer at the employer's discretion. Any expenses not paid by the employer are expenses of the Plan.

Notes Receivable from Participants

Participants may borrow from their accounts, amounts not in excess of 50%, up to a maximum of $50,000 of their account balances. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.25%. Principal and interest is paid ratably through payroll deductions.

Retirement Age

Normal retirement age is 65.

NOTE B—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Management has evaluated subsequent events through July 9, 2012, the date which the financial statements were available to be issued.

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the Guaranteed Income Fund with an insurance company which is at contract value (see below). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for further discussion.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the plan's gains and losses on investments held during the year.

NOTE B—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefits are recorded when paid.

Guaranteed Income Fund with Insurance Company

The Plan entered into a benefit-responsive income contract with Prudential Retirement Insurance and Annuity Company (Prudential) which maintains the contributions in a general account. These contracts are considered evergreen group annuity products with guarantees backed by the full faith and credit of Prudential. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Payment obligations represent an insurance claim supported by general assets of Prudential. Expenses are calculated by Prudential and incorporated into the crediting rates. Past interest rates are not indication of future interest rates. The account is credited on a daily basis based on the daily equivalent of the annual effective crediting rate. The contract is included in the financial statement of the plan at contract value.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed income fund does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2011	2010
Average Yields:		
Based on actual earnings	2.60	2.80
Based on interest rate credited to participants	2.60	2.80

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

NOTE E—FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the quoted net asset value (NAV) of shares held by the plan at year end.

Pooled separate accounts: Valued computed by Custodian which represents the pooled market value of underlying assets adjusted for capital gain and dividends which are automatically reinvested and deduction of administrative fee (Net Unit Value).

Guaranteed income fund: Valued at contract value. See Note B for valuation method.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets as of December 31:

2011

	Level 1	Level 2	Level 3	Total
Mutual funds - fair value	$ 5,280,976	-	-	$ 5,280,976

Total investments	$ 5,971,265	$ -	$ 14,892,811	$ 20,864,076

NOTE I—RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rates, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.
