401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 and 2010

1. DESCRIPTION OF PLAN

The following description of the Redlee/SCS, Inc. (the "Company") 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed 12 months of service, are age 21 or older, and have completed 1,000 hours of service during the twelve month eligibility computation period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

In 2011, participants can contribute up to 100 percent of their compensation not to exceed IRS limits. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). The Company, at its discretion, may match a percentage of a participant's deferred salary contribution. The actual percentage of the match is decided each year by the Company. The percentage for the year ended December 31, 2011 is 50 percent of deferrals limited to 6 percent of a participant's compensation. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. In 2011, the Company did not contribute a discretionary profit sharing contribution. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as

defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Investment Options

Upon enrollment in the Plan, a participant may direct employee and employer contributions into any of 30 investment options. Those investment options representing five percent or more of the Plan's net assets as of December 31, 2011 and 2010 are described below.

Money Market Fund – The fund seeks the maximum current income consistent with preservation of principal and liquidity by investing in high quality, money market instruments with maturities of 397 days or less issued primarily by U.S. entities.

JH Lifestyle Moderate Fund – The investment objective of the portfolio is to provide a balance between a high level of current income and growth of capital with a greater emphasis given to high income. The portfolio seeks to achieve this objective by investing approximately 60 percent of its assets in underlying funds, which invest primarily in fixed income securities and approximately 40 percent of its assets in underlying funds, which invest primarily in equity securities.

JH Short-Term Federal Fund – The fund seeks to provide an attractive level of current income and moderate price volatility by investing solely in short-term U.S. Government and agency securities and by maintaining an average maturity of two to three years. The portfolio is structured to assume minimal credit risk and limited exposure to the price volatility caused by interest rate changes.

JH Lifestyle Growth Fund – The fund provides long-term growth of capital with consideration also given to current income. The portfolio seeks to achieve this objective by investing approximately 20 percent of its assets in underlying funds, which invest primarily in fixed income securities and approximately 80 percent of its assets in underlying funds, which invest primarily in equity securities.

JH PIMCO Total Return Fund **–** The fund seeks to realize maximum total return, consistent with preservation of capital and prudent investment management by investing, under normal market conditions, at least 65 percent of the portfolio's assets in a diversified portfolio of fixed income securities of varying maturities. The average portfolio duration will normally vary within a three- to six-year time frame based on PIMCO's forecast for interest rates.

JH Mutual Beacon Fund **–** The fund seeks capital appreciation. Income is secondary. The fund typically invests in common and preferred stocks, as well as, debt securities and securities convertible into common stock that are, in the opinion of the Fund's Investment Advisor, trading at prices below their intrinsic value. The fund may also invest in securities of companies involved in mergers, consolidations, liquidations and reorganizations as well as corporate debt securities of any credit quality. It may also invest from time to time in foreign securities and in securities of other investment companies.

JH Lifestyle Balanced – The fund provides a balance between a high level of current income and growth of capital with a greater emphasis given to capital growth. The portfolio seeks to achieve this objective by investing approximately 40 percent of its assets in underlying funds, which invest primarily in fixed income securities and approximately 60 percent of its assets in underlying funds, which invest primarily in equity securities.

Mutual Global Discovery – The fund seeks long-term capital appreciation. The fund invests primarily in common and preferred stocks, as well as, debt securities and securities convertible into common stock that are, in the opinion of the Fund's Investment Advisor, trading at prices below their intrinsic value. The fund may also invest in securities of companies involved in mergers, consolidations, liquidations, reorganizations as well as corporate debt securities of any credit quality. It also invests in foreign securities offering similar valuations and companies with small market capitalization.

Participants may change their investment options twice monthly.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan sponsor. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. The Plan may elect to make a mandatory distribution of account balances that are $5,000 or less. Distributions greater than $1,000 will be made as direct rollovers.

Forfeited Accounts

At December 31, 2011 and 2010 forfeited non-vested accounts totaled approximately $781 and $2,446, respectively. These accounts will be used to reduce future employer contributions or to offset plan expenses. Also, for the years ended December 31, 2011 and 2010, employer contributions were reduced by $781 and $2,503 from forfeited non-vested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan sponsor to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Except for loan origination fees associated with notes receivable from participants, all administrative expenses of maintaining the Plan are paid by the Company.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, management has evaluated subsequent events through July 20, 2012, the date the financial statements were available to be issued and determined there were no other items to disclose.

3. INVESTMENTS

The following presents total investments at fair value held by the Plan at December 31, 2011 and 2010. Investments representing five percent or more of the Plan's net assets available for benefits have been separately stated:

Total investments	$ 2,555,155	$ 2,620,637

4. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan's sponsor has elected the method of annual reporting compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The custodian has certified that the following data included in the accompanying financial statements and supplemental information is complete and accurate at December 31, 2011 and 2010 and for the year ended December 31, 2011.

	2011	2010
Cash	$ 781	$ 2,503
Investments, at fair value	$ 2,555,155	$ 2,620,637
Net depreciation in fair value of investments	$ (28,834)	
Interest	$ 977	

5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active

markets for identical assets or liabilities (Level l measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Insurance contracts and pooled separate accounts: Valued at the closing net asset value (NAV) of the shares held by the Plan.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

	Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Investments	$ 2,555,155	$ -	$ -	$ 2,555,155
Total assets at fair value	$ 2,555,155	$ -	$ -	$ 2,555,155

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
Investments	$ 2,620,637	$ -	$ -	$ 2,620,637
Total assets at fair value	$ 2,620,637	$ -	$ -	$ 2,620,637

6. PARTY IN INTEREST TRANSACTIONS

The Plan invests in shares of mutual funds managed John Hancock. John Hancock is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. For the year ended December 31, 2011, fees paid by the Plan for the investment management services amounted to $30,503.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100 percent vested in their employer contributions.

8. TAX STATUS

The Internal Revenue Service has determined and informed the Plan's sponsor by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). The plan sponsor did not request a determination letter. Instead, the plan sponsor relies on the volume submitter approval to comply with the applicable requirements of the Internal Revenue Code (IRC). However, the plan sponsor and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan and the related trust are qualified as tax-exempt as of the financial statement date.

The plan sponsor has concluded that as of December 31, 2011 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan sponsor believes it is no longer subject to income tax examinations for years prior to 2008.

9. INACTIVE PARTICIPANTS WITH ACCOUNT BALANCES

At December 31, 2011 and 2010, the value of the accounts held by participants who have separated from employment with the plan sponsor and have decided to continue to invest in the Plan total $322,250 and $94,118, respectively.

For the year ended December 31, 2011 and 2010, there were no distributions requested but not paid to participants who have elected to withdraw from the Plan.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
