NEW STAR METALS, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A – Description of the Plan

The following description of New Star Metals, Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document, available from New Star Metals, Inc. (the Company), for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on December 10, 2010 covering all employees who have completed 250 hours of service within the first 3 months of employment or 1 year of service, whichever comes first, and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan received a transfer of \$9,816,291 in cash and \$398,225 of notes receivable from participants on January 13, 2011 from another qualified plan that included the participants of this Plan.

Contributions

Each year, participants may contribute a portion of pre-tax or Roth (post-tax) annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributed 50 percent of the first 4 percent of base compensation that a participant contributed to the Plan for 2011, excluding highly compensated employees. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations.

Participants' accounts

Each participant's account is credited with the participant's elective contributions, employer contributions and earnings and losses thereon, and held by TD Ameritrade Trust Company (the Custodian).

Vesting

All participants are 100% vested in employee and employer matching contributions to the Plan.

Notes receivable from participants

Loans are permitted to be made to active participants. The notes receivable documenting the loans are secured by the participant's vested interest in the Plan and must be for a minimum of \$1,000 up to the lesser of one half of the participant's account balance or \$50,000. The loan repayment period may not be less than one year and may not exceed five years unless the loan is used to purchase a participant's principal residence for which the period may not exceed ten years (and 15 years for loans that were transferred into the Plan during 2011). Interest is charged at a reasonable rate determined by the administrative committee.

NEW STAR METALS, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A – Description of the Plan, continued

Payment of benefits

Upon separation of service by reason of retirement, death or total and permanent disability, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments as if the participant had retired. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Hardship withdrawals

Hardship withdrawals are permitted in accordance with Internal Revenue Service guidelines.

NOTE B – Summary of significant accounting policies

Basis of accounting

The accompanying financial statements and supplementary schedule have been prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Payment of benefits

Benefits are recorded when paid.

Administrative fees

Except for loan origination fees associated with notes receivable from participants, all administrative expenses of maintaining the Plan are paid by the Plan Sponsor.

NEW STAR METALS, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE B – Summary of significant accounting policies, continued

Subsequent events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through June 27, 2012, which is the date the financial statements were available to be issued.

NOTE C – Investments

The following presents investments that represent 5% or more of the Plan's net assets as of December 31, 2011.

Hussman Strategic Growth Fund	\$ 850,700
Leuthold Asset Allocation Instl	1,337,831
Oakmark International I Fund	1,407,439
Permanent Portfolio	735,791
Vanguard Index 500 Investor Fund	1,436,154
Wasatch Long/Short Fund	692,516

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$686,495 as follows:

Mutual funds	<u>\$ (686,495)</u>
--------------	---------------------

NOTE D – Fair value measurements

The Plan follows the provisions of Accounting Standards Codification 820 *Fair Value Measurement and Disclosures* (ASC 820). ASC 820 defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America. ASC 820 does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobserved inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

NEW STAR METALS, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE D – Fair value measurements, continued

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the quoted net asset value of shares held by the Plan at year end.

Money market accounts: Valued at \$1 per unit including applicable interest and fees.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

NOTE E – Information certified by the Plan's custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the data included in the accompanying financial statements and supplementary schedule is complete and accurate.

NOTE F – Party-in-interest transactions

Certain Plan investments are shares of mutual funds managed by TD Ameritrade Trust Company, the Custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Usual and customary fees were paid by the mutual fund for the investment management services and are included in net depreciation in fair value of investments.

NOTE G – Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE H – Income tax status

On March 31, 2008, the Internal Revenue Service stated that the prototype plan adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NEW STAR METALS, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE H – Income tax status, continued

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is subject to income tax examinations for the year ended December 31, 2011 and thereafter.

NOTE I – Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
