1. Description of the Plan

The following description of the GSC Logistics, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted by GSC Logistics, Inc. (the Company) on February 1, 1983. The Plan is a defined contribution plan covering all employees who meet the Plan's eligibility requirements, except for non-resident aliens. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Profit-sharing and matching contributions are discretionary and are subject to certain limitations.

Contributions

Eligible participants may defer up to 75% of eligible compensation, as defined by the Plan, up to the maximum allowed by law. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Plan currently offers various mutual funds as investment options for participants. The Company has elected to make safe harbor matching contributions in an amount equal to 100% of the first 4% of eligible compensation, contributed to the Plan as pretax contributions. Additionally the Company may make discretionary matching contributions, to be determined during the contribution period based on a percentage of the employee's deferral contributions. Participants direct the investment of all contributions into the various investment options offered by the Plan. In addition the employer can make discretionary non-elective contributions to be determined by the Board. Participants are also allowed to make deferral contributions on any employer paid bonuses by electing a flat amount or a percentage from 1% to 100% of the bonus.

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Company's contribution and Plan earnings. Investment income allocations are based on participant account balances on a daily valuation basis. Allocation among the available funds is at the participant's discretion. Participants may change their investment options at any time. The benefit to which a participant is entitled is limited to the amount of the participant's vested account balance.

Vesting

Participants are vested immediately in their contribution and earnings thereon. Participants are also immediately vested in employer's qualified safe harbor matching contributions and earnings thereon. Vesting in discretionary employer matching contributions is based on years of continuous service. A participant is fully vested after six years of credited service.

Break in Service

A participant will incur a break in service during any plan year in which the participant has less than one hour of service in any period of 12 consecutive months.

Payment of Benefits

Participant contributions can be distributed prior to termination or retirement age for hardship claims, death or disability or at 59 ½ years of age as defined in the Plan agreement. The participant may elect either a partial or lump sum distribution equal to the value of the participant's vested interest in his or her account.

On termination of service for account balances less than $5,000, as defined by the Plan, a lump-sum distribution will be made at the employer's discretion. For account balances greater than $5,000, the participant may elect a lump sum cash payment or direct rollover.

The normal retirement age under the Plan is 65 years of age.

Forfeitures
When a participant's employment terminates, the non-vested portion of the participant's account, as defined by the Plan, is forfeited. Forfeitures may be used to pay administrative expenses as directed by the Company and/or to restore previously forfeited account balances as stated in the Plan document. Any remaining forfeitures will then be used to reduce Company contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted within the United States of America.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
The Company absorbed substantially all administrative costs of the Plan for the year ended December 31, 2011.

3. Investments

The following investments represent 5% or more of the Plan's net assets available for benefits at December 31:

	2011	2010

FA Freedom 2050 A	144,390	136,830
FA Freedom 2015 A	116,383	-

During 2011, the Plan's mutual fund investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $140,721.

4. Fair Value Measurement

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are as described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts, including employer contributions.

6. Party-in-Interest

Certain plan investments are shares of mutual funds managed by Fidelity Investments Institutional an affiliate of Fidelity Management Trust. Fidelity Management Trust is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Pursuant to DOL regulation 61FR39988, the aforementioned transactions between the Plan and Fidelity Management Trust are exempt transactions.

7. Information Certified by Trustee

The Plan's investments are currently held in safekeeping with Fidelity Management Trust Company, the Plan's directed trustee and custodian. Investments are in accordance with the policy set by the Plan's Administrator or by subsequent policy amendments.

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the custodian of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2011 and the schedule of assets held for investment purposes as of December 31, 2011, and the related investment activity reflected in the statement of changes in assets available for benefits for the year then ended.

8. Amounts Allocated to Participants Who Have Withdrawn

As of December 31, 2011, 6 account balances totaling $137,163 were allocated to participants who had withdrawn from the Plan, but had not yet been distributed.

9. Income Tax Status

The Internal Revenue Service has determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan received a favorable determination of its amended plan on March 31, 2008. Although the Plan has been amended and restated since receiving its favorable determination letter, the Plan Administrator and tax counsel believe that the Plan is currently designed and being operated within the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or Franchise Tax Board. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for Plan benefits.

11. Subsequent Events

In accordance with accounting standards affecting disclosures of subsequent events, the Plan evaluated subsequent events for recognition and disclosure through July 17, 2012, the date which these financial statements were available to be issued.

With the exception of the item below, management concluded that no material subsequent events have occurred since December 31, 2011 that requires recognition or disclosure in such financial statements.

The Teamsters and the Plan Sponsor agreed to revised terms of the pension benefit of the Collective Bargaining Agreement (CBA) to discontinue the funding of the 401(k) match for the union participants effective January 27, 2012.

12. Reconciliation of Financial Statements to Form 5500

1. Description of the Plan

The following description of the GSC Logistics, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted by GSC Logistics, Inc. (the Company) on February 1, 1983. The Plan is a defined contribution plan covering all employees who meet the Plan's eligibility requirements, except for non-resident aliens. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Profit-sharing and matching contributions are discretionary and are subject to certain limitations.

Contributions

Eligible participants may defer up to 75% of eligible compensation, as defined by the Plan, up to the maximum allowed by law. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Plan currently offers various mutual funds as investment options for participants. The Company has elected to make safe harbor matching contributions in an amount equal to 100% of the first 4% of eligible compensation, contributed to the Plan as pretax contributions. Additionally the Company may make discretionary matching contributions, to be determined during the contribution period based on a percentage of the employee's deferral contributions. Participants direct the investment of all contributions into the various investment options offered by the Plan. In addition the employer can make discretionary non-elective contributions to be determined by the Board. Participants are also allowed to make deferral contributions on any employer paid bonuses by electing a flat amount or a percentage from 1% to 100% of the bonus.

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Company's contribution and Plan earnings. Investment income allocations are based on participant account balances on a daily valuation basis. Allocation among the available funds is at the participant's discretion. Participants may change their investment options at any time. The benefit to which a participant is entitled is limited to the amount of the participant's vested account balance.

Vesting

Participants are vested immediately in their contribution and earnings thereon. Participants are also immediately vested in employer's qualified safe harbor matching contributions and earnings thereon. Vesting in discretionary employer matching contributions is based on years of continuous service. A participant is fully vested after six years of credited service.

Break in Service

A participant will incur a break in service during any plan year in which the participant has less than one hour of service in any period of 12 consecutive months.

Payment of Benefits

Participant contributions can be distributed prior to termination or retirement age for hardship claims, death or disability or at 59 ½ years of age as defined in the Plan agreement. The participant may elect either a partial or lump sum distribution equal to the value of the participant's vested interest in his or her account.

On termination of service for account balances less than $5,000, as defined by the Plan, a lump-sum distribution will be made at the employer's discretion. For account balances greater than $5,000, the participant may elect a lump sum cash payment or direct rollover.

The normal retirement age under the Plan is 65 years of age.

Forfeitures
When a participant's employment terminates, the non-vested portion of the participant's account, as defined by the Plan, is forfeited. Forfeitures may be used to pay administrative expenses as directed by the Company and/or to restore previously forfeited account balances as stated in the Plan document. Any remaining forfeitures will then be used to reduce Company contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted within the United States of America.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
The Company absorbed substantially all administrative costs of the Plan for the year ended December 31, 2011.

The Plan received a favorable determination of its amended plan on March 31, 2008. Although the Plan has been amended and restated since receiving its favorable determination letter, the Plan Administrator and tax counsel believe that the Plan is currently designed and being operated within the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or Franchise Tax Board. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for Plan benefits.

11. Subsequent Events

In accordance with accounting standards affecting disclosures of subsequent events, the Plan evaluated subsequent events for recognition and disclosure through July 17, 2012, the date which these financial statements were available to be issued.

With the exception of the item below, management concluded that no material subsequent events have occurred since December 31, 2011 that requires recognition or disclosure in such financial statements.

The Teamsters and the Plan Sponsor agreed to revised terms of the pension benefit of the Collective Bargaining Agreement (CBA) to discontinue the funding of the 401(k) match for the union participants effective January 27, 2012.
