Laminations, Inc. 401(k) and Profit Sharing Plan

Notes to Financial Statements

December 31, 2011 and 2010

1. Description of Plan

The following description of the Laminations, Inc. 401(k) and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees of Laminations, Inc. (the "Company") who have completed three consecutive months of employment or been credited with one year of service, and attained age eighteen. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants in the Plan may elect to contribute a percentage of their pretax compensation up to the Internal Revenue Service ("IRS") limit, as defined in the Plan. Participants who have attained the age of 50 before the close of the Plan year are eligible to make an additional catch-up contribution up to \$5,500 for the Plan year ended December 31, 2011. Participants may also contribute amounts representing distributions from other qualified retirement plans or individual retirement accounts.

The Company contributes 25% of the first 6% of compensation that a participant contributes to the Plan. A discretionary profit sharing contribution may also be made by the Company. Contributions are determined annually by the Company's board of directors and are based upon profitability. No profit sharing contribution was made in 2011.

Participants direct the investment of all contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution is based on years of continuous service. Participants are fully vested after six years of credited service based on a graduated vesting schedule.

Laminations, Inc. 401(k) and Profit Sharing Plan

Notes to Financial Statements

December 31, 2011 and 2010

Notes Receivable from Participants

Participants may borrow from their fund accounts, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Borrowings are secured by the balance in the participant's account and bear interest at a rate which is commensurate with local prevailing rates as determined by the Plan administrator. The rates ranged from 4.25% to 9.5% at December 31, 2011. Terms extend up to a period of five years unless used for the purchase of a primary residence. Payments of principal and interest are made through payroll deductions.

Payment of Benefits

Upon termination of service due to retirement, disability, death or termination of employment, a participant is eligible to receive a distribution of their vested account balance. The normal form of benefit payment is a lump-sum distribution. Hardship withdrawals and in-service withdrawals are also permitted subject to certain conditions.

Forfeited Accounts

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account is forfeited. Forfeitures are used to pay Plan expenses and then reduce the Company's future contributions. Forfeiture balances were \$0 and \$43 at December 31, 2011 and 2010, respectively. Forfeitures used to pay Plan expenses were \$43 in 2011.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust fund. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts held in the common/collective trust fund as well as the adjustment of the fully benefit-responsive contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes to Financial Statements

December 31, 2011 and 2010

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investment bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are recorded as distributions based upon the terms of the Plan document.

Benefit Payments

Benefit payments are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through July 25, 2012, the date the financial statements were available to be issued.

New Accounting Standard

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2011-04 "Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRs," ("ASU 2011-04"). ASU 2011-04 will expand disclosures about fair value measurement and result in common fair value measurement and disclosure requirements in U.S. GAAP and IFRs. ASU 2011-04 is effective for fiscal years and interim reporting periods beginning after December 15, 2011. Plan management is evaluating the impact of adopting ASU 2011-04 and believes it will not be material to the financial statements but will provide additional disclosures.

3. Investments

The following investments represent 5% or more of the Plan's net assets available for benefits at December 31, 2011 and 2010:

	<u>2011</u>	<u>2010</u>
Common/collective trust fund, Gartmore Morley Stable Value Fund	\$ 1,093,835	\$ 857,899
Mutual funds:		
AM Fund Growth Fund of America	668,966	773,029
Fidelity Advantage Freedom 2020	245,837	340,981
Delaware High Yield Opportunity Fund	216,411	231,406
Blackrock Latin America Fund	201,989	355,880
Fidelity Advantage Freedom 2030	*	216,057

* Investment did not represent 5% or more of the Plan's net assets, rather this investment is shown for comparative purposes.

During 2011, the Plan's mutual funds (including gains and losses on investments bought, sold, as well as held during the year) depreciated in value by \$259,439.

4. Fair Value Measurements

The Plan measures on a recurring basis its investments at fair value in accordance with FASB codification "Fair Value Measurement," which provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs. The three levels of fair value hierarchy are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible to the Plan for identical assets. These generally provide the most reliable evidence and are used to measure fair value whenever available.

Level 2 - Inputs to the valuation methodology include significant inputs, other than Level 1 inputs, that are observable either directly or indirectly for substantially the full term of the asset through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets or liabilities, quoted market prices in inactive markets for identical or similar assets or liabilities, and other observable inputs.

Level 3 - Inputs to the valuation methodology are unobservable inputs and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Laminations, Inc. 401(k) and Profit Sharing Plan

Notes to Financial Statements

December 31, 2011 and 2010

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

- Mutual funds are valued at the quoted net asset value of shares held by the Plan at year end.
- The common/collective trust fund is valued based upon the unit value of the collective trust fund at year end. Unit value is based on the fair value of the underlying assets of the fund derived principally from or corroborated by observable market data. The objective of the common/collective trust fund is to provide a diversified group of investments offering competitive levels of yield consistent with stable fixed-income methodology and the careful and prudent assumption of investment risk providing for preservation of capital, stability and predictability of returns, liquidity to pay Plan benefits and high credit quality. The common/collective trust fund seeks to achieve this objective by investing in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions. The Plan's investment in the common/collective trust fund is not subject to any withdrawal restrictions, and the Plan has no unfunded commitments relating to the common/collective trust fund at December 31, 2011 and 2010.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

Assets at Fair Value as of December 31, 2011

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the Company contributions.

6. Tax Status

The Company adopted a prototype non-standardized profit-sharing plan with a cash or deferral arrangement, which received an opinion letter dated March 31, 2008 from the Internal Revenue Service indicating this prototype plan was an acceptable plan under Section 401 of the Internal Revenue Code ("IRC") for use of employers for the benefit of their employees. An employer who adopts this plan will be considered to have a plan qualified under Code Section 401(a), provided all the terms of the Plan are followed and the eligibility requirements and contribution or benefit provisions are not more favorable to officers, owners or highly compensated employees than for other employees. Although the Plan has been amended, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan's Form 5500 is no longer subject to examination by the IRS for years prior to 2008.

Notes to Financial Statements

December 31, 2011 and 2010

7. Information Certified by Trustee

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2011 and 2010. Accordingly, Reliance, the trustee, has certified to the completeness and accuracy of all investments reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2011 and 2010 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2011, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2011.

8. Related Party Transactions

The Plan's investments are held by Reliance Trust Company ("Reliance"), the trustee, as defined by the Plan. The Plan also issues loans to participants, which are secured by the balances. These transactions qualify as party-in-interest transactions.

Certain administrative expenses are paid by the Plan and the remainder are paid by the Company. Certain administrative functions of the Plan are performed by officers and employees of the Company. No such officer or employee receives compensation from the Plan.

9. Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
