Report of Independent Auditors

To Plan Administrator
Austin Foam Plastics, Inc. 401(k) Plan

We were engaged to audit the financial statements and supplemental schedule of Austin Foam Plastics, Inc. 401(k) Plan (the “Plan”) as of December 31, 2011 and for the year then ended, as listed in the table of contents. These financial statements and schedule are the responsibility of the Plan’s management. The financial statements of the Plan as of December 31, 2010, were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the employee Retirement Income Security Act of 1974 (“ERISA”), the plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the custodian. Their report, dated October 6, 2011, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the custodian, were presented in compliance with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

As permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (“ERISA”), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by John Hancock Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the 2011 financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan’s investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information in the Plan’s 2011 financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion of the accompanying 2011 financial statements and schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. The form and content of the information included in the 2011 financial statements and schedule, other than that derived from the investment information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

Austin Foam Plastics, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2011

1. Description of the Plan

The following brief description of the Austin Foam Plastics, Inc. 401(k) Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General

The Plan is a defined contribution 401(k) plan covering substantially all employees of Austin Foam Plastics, Inc. (the “Company”). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and qualifies under Section 401(a) of the Internal Revenue Code (the “IRC”). The custodian of the Plan is John Hancock Life Insurance Company (the “Custodian”).

Eligibility

Employees become eligible to participate in the plan on the first day of the calendar quarter after one year of service and the attainment of age eighteen. A year of service is defined by the Plan as 1,000 or more hours of service. Newly eligible employees are automatically enrolled in the Plan with a deferral percentage of 3% as soon as administratively feasible, unless the employee completes an enrollment form with specific instructions or elects to opt out of the Plan. The Plan will automatically increase this percentage annually by 1% of the participant’s compensation up to a maximum of 6%.

Contributions

Participants may contribute up to 100% of their eligible compensation on both a pre-tax basis and an after-tax (“Roth”) basis, not to exceed the annual limit established by the IRC. A participant’s pre-tax and Roth deferrals will be separately accounted for, as will gains and losses attributable to each. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company may make matching contribution or profit sharing contributions. To be eligible for the discretionary profit sharing contributions an employee must be actively employed on the last day of the plan year. The Company did not make any discretionary contributions during the year ended December 31, 2011.

Participants direct the investment of their contributions into various investment options offered by the Plan.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and Plan earnings and may be charged with an allocation of Plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions and employer matching and profit sharing contributions plus actual earnings thereon.

Payment of Benefits

Vested benefits are paid to participants upon death, disability, retirement or termination of employment by either arranging for a rollover to another plan or lump sum payment. Hardship withdrawals are available and will result in a six month suspension during which no contributions may be made to the participant's account. For terminated participants' account balances that are less than \$5,000, the plan administrator may distribute the entire amount in a lump sum without the participant's consent. If the participant's vested portion is greater than \$5,000, the participant may elect to maintain the vested portion in the Plan.

Forfeitures

Forfeitures by participants of unvested Company contributions are used to reduce future employer contributions. At December 31, 2011 and 2010, forfeited unvested account balances totaled \$749 and \$646, respectively.

Administrative Expenses

The Company pays certain administrative costs of the Plan associated with the Custodian's annual fee, auditor's fees and the cost of communications to the participants. The Plan pays all other administrative expenses, including recordkeeping fees.

Austin Foam Plastics, Inc. 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Notes Receivable From Participants

Participants are permitted to borrow the lesser of \$50,000 or 50% of their vested account balance. The minimum that can be borrowed is \$1,000 and only one loan can be outstanding at a time. Notes receivable from participants are secured by the balance in the participant's account and bear interest at a reasonable interest rate as determined by the Company. Loan repayments are automatically deducted through after-tax payroll deductions over a period generally not to exceed five years.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and distributions will be made as soon as administratively practicable after the Plan terminates.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are reported on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States. Benefits are recorded when paid to participants.

Risks and Uncertainties

Financial instruments which potentially subject the Plan to concentrations of credit risk consist primarily of securities in which the Plan invests. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the near-term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

Austin Foam Plastics, Inc. 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain amounts reported in the financial statements and the accompanying notes and schedule. Accordingly, actual results could differ from these estimates.

Valuation of Investments and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

New Accounting Pronouncements

In January 2010, Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements*. ASU No. 2010-06 amends the disclosure requirements of FASB Accounting Standards Codification (ASC) 820 to require new disclosures regarding (a) transfers in and out of levels 1 and 2 and (b) activity in level 3 fair value measurements. ASU No. 2010-6 also provides amendments to FASB ASC 820 that clarify existing disclosures regarding (a) level of disaggregation for each class of assets and liabilities and (b) disclosures about inputs and valuation techniques for fair value measurements that fall in either levels 2 or 3. The new disclosures are effective for interim and annual reporting periods beginning after December 15, 2009 except for the disclosures regarding the rollforward of activity in level 3 fair value measurements that are effective for fiscal years beginning after

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

December 15, 2010. Adoption of the standard did not have a material impact on the financial statements.

In May 2011, FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in US generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures [although certain of these new disclosures will not be required for nonpublic entities]. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

3. Investments

All investment information disclosed in the accompanying financial statements, notes and schedules, including investments and notes receivable from participants held at December 31, 2011 and 2010, and net depreciation in fair value of pooled separate accounts, other income and interest income from notes receivable from participants for the year ended December 31, 2011, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Custodian.

Individual investments that represent 5% or more of the Plan's net assets at December 31, 2011 and 2010 are separately identified.

4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1—Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2—Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liabilities;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability

Level 3—Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

The Plan's investments in shares of pooled separate accounts are valued based on the NAV as determined by the issuer based on the fair value of the underlying securities of the valuation, which is the practical expedient. The NAV is quoted on a private market that is not active; however, the unit price is based on underlying securities that make up the fund, which are traded on an active market. These securities are redeemable at fair value on a daily basis.

4. Fair Value Measurements (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table represents the Plan's fair value hierarchy for its financial assets measured at fair value on a recurring basis as of December 31, 2011 and 2010:

Assets at Fair Value as of December 31, 2011

5. Party-in-Interest Transactions

Plan investments in pooled separate accounts are managed by the Custodian. Transactions such as these qualify as party-in-interest transactions. These transactions are exempt from the prohibited transaction rules.

6. Income Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the form of the plan is qualified under Section 401(a) of the IRC, and therefore, the related trust is tax exempt. The plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Subsequent to receiving the IRS opinion letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits as reported in the accompanying financial statements to the Plan's Form 5500 as of December 31, 2011 and 2010:

	2011	2010
Net assets available for benefits per the financial statements	\$ 8,802,023	\$ 9,262,488
Less: Excess contributions payable	25,693	22,731
Net assets available for benefits per Form 5500	<u>\$ 8,827,716</u>	<u>\$ 9,285,219</u>

The following is a reconciliation of the change in net assets available for benefits as reported in the financial statements to the Form 5500 for the year ended December 31, 2011:

Net decrease in net assets available for benefits as reported in the financial statements	\$ (460,465)
Current year excess contribution payable	25,693
Prior year excess contributions payable	<u>(22,731)</u>
Net decrease in net assets available for benefits as reported in the Form 5500	<u><u>\$ (457,503)</u></u>

8. Subsequent Events

The Plan has evaluated subsequent events through July 3, 2012, the date the financial statements were available to be issued. Effective January 1, 2012, the Plan was amended to require Safe Harbor Employer matching contributions and to change the vesting in employer contributions to 100% after 2 years of service. Effective April 2, 2012, the custodian and recordkeeper changed from John Hancock Life Insurance Company to Transamerica Life Insurance Company.
