SOS Metals, Inc. 401(K) Profit Sharing Plan

Notes to the Financial Statements

December 31, 2011 and 2010

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of the SOS Metals, Inc. 401(K) Profit Sharing Plan (the "Plan") is provided for general information purposes only. The Plan agreement should be referred to for a more complete description of the Plan's provisions.

General

The Plan, adopted as of January 1, 2000, is a defined contribution Plan covering substantially all employees of SOS Metals, Inc.; SOS Metals San Diego, LLC; SOS Metals Midwest Division, LLC; Trans World Alloys, LP and SOS Waste Management, Inc. dba SOS Ecology (collectively called the "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (the "ERISA").

Eligibility

Employees who have attained 21 years of age and have completed at least 3 months of service are eligible to participate in the Plan and receive Employer matching and profit sharing contributions. Employees can enter the Plan on the first day of the month following satisfaction of eligibility requirements.

Contributions

Each year participants may contribute a certain percentage of their pretax annual compensation as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Employer may match, at its discretion, a fixed amount or a set percentage of each eligible employee's contribution as determined by its board of directors. Additional profit sharing amounts may be contributed at the option of the Employer. Contributions are subject to certain limitations. There were no Employer contributions for the years 2011 and 2010.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's contribution and, (b) Plan's earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled to is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested in annual increments of 20 percent, vesting at 20 percent in the second year of credited service, and up to 100 percent in the sixth year of credited service.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Normal retirement age is 65 years. The Plan does not permit early retirement.

Forfeited Accounts

That portion of an employee's interest, which is not vested upon the employee's break in service, is forfeited. The non-vested forfeited balances will be reallocated as of the end of the Plan year to the participants in the same manner as Employer's contributions. At December 31, 2011 and 2010 the balance in the forfeited non-vested account was \$0 and \$1, respectively.

Notes Receivable from Participants

Participants may borrow from their accounts up to 50 percent of their total vested balance, subject to a minimum of \$1,000 and a maximum amount of \$50,000. The loans are secured by the vested balance in the participant's account. The Plan provisions require a reasonable interest rate to be charged on the loans, and principal and interest to be paid ratably through regular payroll deductions. At December 31, 2011 and 2010 the outstanding participant loan balances were \$114,821 and \$98,240, respectively. Interest rates on the loans range from 5% to 10.25% and the loans mature between April 2012 and September 2016.

Tax Status

The Plan is based on a volume submitter profit sharing 401(K) Plan document. The Internal Revenue Service has issued an opinion letter dated March 31, 2008 granting approval to the volume submitter plan document. Under this arrangement the Plan is not obligated to file for a separate determination letter. Although the Plan has been amended, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE 1 - DESCRIPTION OF THE PLAN (continued)

Tax Status (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions. Currently the U.S. Department of Labor has informed the Plan administrator that the Plan has been selected for a limited review for the period 2008 through 2011. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Investment Options, Management and Administration

The Plan has engaged Fidelity Management Trust Company ("FMTC") as the Plan trustee and the record keeper of the Plan. The assets of each fund within the Plan are invested under an arrangement with FMTC, the trustee. All expenses incurred in maintaining the Plan are paid by the Plan unless the Employer, at its discretion elects to pay all or part of the expenses. These expenses include fees of the Plan trustee, third-party administrators and accountants. Loan origination fees associated with notes receivable from participants are paid by the borrowing participants. Upon enrollment in the Plan, a participant may direct their contributions in the various investment choices, including mutual funds offered by FMTC. Participants should carefully read the prospectus before investing in the various funds offered under the Plan.

Related-Party Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company who is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the trustee for investment management services are included in net appreciation/depreciation in fair value of investments. Other fees paid to the Plan trustee for administrative services aggregated \$10,478 for the year ended December 31, 2011.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

SOS Metals, Inc. 401(K) Profit Sharing Plan

Notes to the Financial Statements (continued)

December 31, 2011 and 2010

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Contributions

Contributions from participants are recorded based on payroll withholdings during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note on fair value measurements below. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Notes to the Financial Statements (continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair Value Measurements (continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Registered investment companies (mutual funds): valued at quoted net asset value of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the Employer's contribution portion of their account.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 7 – SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through May 31, 2012, the date the financial statements were available to be issued.
