**INDEPENDENT AUDITOR'S REPORT**

We were engaged to audit the accompanying statements of net assets available for benefits of the **Parker Towing Company, Inc., 401(k) Profit Sharing Plan** as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011 and the supplemental schedule of Schedule H, line 4i – Schedule of Assets (Held at End of Year) for the year ended December 31, 2011. These financial statements and supplemental schedule are the responsibility of the plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by John Hancock Life Insurance Company (U.S.A.) ("John Hancock USA"), the custodian of the plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the plan's assets and executes transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements, but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

## NOTES TO FINANCIAL STATEMENTS

December 31, 2011

**1. DESCRIPTION OF PLAN**

The following description of the **Parker Towing Company, Inc.**, (the “company”) **Profit Sharing Plan** (the “plan”) provides only general information. For a more complete description of the plan’s provisions, refer to the plan agreement.

***General***

The plan is a defined contribution plan covering all employees, with the exception of leased employees and trip pilots, of the company who are age 21 or older. The plan was established on July 1, 1974, and is subject to the provision of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The plan was adopted under the provisions of Section 401(a) of the Internal Revenue Code (the “code”) with a cash or deferred arrangement qualified under Section 401(k) of the code. Pursuant to the requirements of Section 401(a) 27 of the code, the plan is also a profit sharing plan.

The plan is administered by the company, who, as of January 1, 2010, also serves as plan trustee. The assets of the plan are held and asset transactions are executed by John Hancock USA (the “custodian”).

***Contributions***

Participants may contribute into the plan on a pretax basis up to 60% of their annual salary and/or 100% of any bonus, as defined by the plan. The contribution is subject to a maximum of \$16,500 for 2011. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of the contributions into various investment options offered by the plan. The plan currently offers various mutual funds through pooled separate accounts and guaranteed interest contracts as investment options for participants. Profit sharing amounts may be contributed at the option of the company’s directors and are allocated to all eligible participants in the same proportion that each participant’s compensation bears to the eligible compensation of all participants. Since January 1, 2009, the company has annually elected safe harbor provisions to the plan, which guarantee a matching contribution equal to the participant’s deferral not to exceed 6% of the participant’s compensation in which the participant is 100% vested in those matching contributions.

***Participant Accounts***

Each participant’s account is credited with the participant’s contribution and allocations of (a) the company’s contribution, (b) plan earnings, and (c) forfeitures of terminated participants non-vested company contributions. Allocations are based on participant compensation and account balances, as defined by the plan. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant’s account.

(continued)

## 1. **DESCRIPTION OF PLAN** (Continued)

### ***Vesting***

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the company's discretionary contribution portion of their accounts is based on years of continuous service. A participant is 100% vested in the discretionary match after six years of credited service, using a graduated schedule. However, a participant is immediately 100% vested in any safe harbor matching contribution made by the company.

### ***Notes Receivable from Participants***

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 reduced by the excess of the participant's highest outstanding participant loan balance during the twelve-month period ending on the date of the loan over the participant's current outstanding participant loan balance on the date of the loan or 50% of their vested account balance, whichever is less. Principal and interest is paid ratably through monthly payroll deductions. Loan terms range from one to five years or up to thirty years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and for the year ended December 31, 2011 bear interest at rates ranging from 4.22% to 6.94%, which is commensurate with local prevailing rates as determined by the plan administrator.

Participant loans are recorded on the financial statements as notes receivable from participants at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2011 and 2010. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

### ***Payment of Benefits***

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in installments over a fixed reasonable period of time.

### ***Forfeited Accounts***

At December 31, 2011 and 2010, forfeited nonvested accounts totaled \$66,894 and \$89,210, respectively, which will be used to add to any employer discretionary contribution. In 2011, \$57,718 from forfeited nonvested accounts was used to add to employer discretionary contributions.

### ***Operating Expenses***

The company pays significant plan expenses. For the year ended December 31, 2011, these expenses amounted to \$49,325.

(continued)

## 2. SUMMARY OF ACCOUNTING POLICIES

### *Basis of Accounting*

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. The plan invests in an Allocated Retirement Account Group Annuity Contract, which is a non-benefit-responsive guaranteed investment contract that is measured at fair market value. The custodian measures fair value for its investment contracts at contract value minus early contractually defined withdrawal charges.

### *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

### *Investment Valuation and Income Recognition*

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

### *Payment of Benefits*

Benefits are recorded when paid.

## 3. INFORMATION CERTIFIED BY THE CUSTODIAN

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the plan's independent auditors not to perform any auditing procedures with respect to the following information certified by John Hancock USA, the custodian of the plan, as complete and accurate, except for comparing such information certified by the custodian to information included in the plan's financial statements and supplemental schedule.

	December 31,	
	2011	2010
Investments at fair value:		
Pooled Separate Accounts	\$ 16,753,665	\$ 16,634,107
Guaranteed Interest Contracts	49,712	45,473
Notes receivable from participants	575,267	657,942

(continued)

### 3. **INFORMATION CERTIFIED BY THE CUSTODIAN** (Continued)

The custodian also certified to the completeness and accuracy of \$477,645 of net depreciation in fair value of plan investments, \$1,500 of interest and dividend income related to the aforementioned investments and \$30,868 of interest income on notes receivable from participants for the year ended December 31, 2011.

### 4. **INVESTMENTS**

The following table presents the individual investments, which are all participant directed, that exceeded 5% of the plan's net assets available for benefits at December 31, 2011 and 2010:

	<u>2011</u>	<u>2010</u>
Pooled Separate Accounts:		
John Hancock Lifestyle Moderate Fund	\$ 1,830,159	\$ 1,769,463
John Hancock Lifestyle Balanced Fund	6,200,358	6,604,881
John Hancock Lifestyle Growth Fund	3,086,337	3,011,313
John Hancock Stable Value Return Fund	1,066,157	**

\*\*Investment did not represent 5% or more of the plan's net assets available for benefits.

During the plan year ended December 31, 2011, the plan's investments (including investments bought, sold, and held during the year) decreased in value by \$477,645, as follows:

<u>Investments</u>	
Pooled Separate Accounts	\$ (478,163)
Change in Value of Guaranteed Interest Contracts	<u>518</u>
Net Depreciation in Fair Value	<u><u>\$ (477,645)</u></u>

### 5. **FAIR VALUE MEASUREMENTS**

Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements), and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the plan has the ability to access.

(continued)

## 5. **FAIR VALUE MEASUREMENTS** (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

*Guaranteed interest contracts:* The fair value of the guaranteed interest contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. The fair market value of the contract is the value paid when funds are withdrawn prior to their maturity. If the applicable interest rate is equal to or less than the interest rate on the contract, the fair market value is equal to the contract value. If the applicable interest rate is greater than the interest rate on the contract, the fair market value is the contract value reduced by a percentage. This percentage is equal to (1) the difference between the applicable interest rate and the interest rate on the account, multiplied by (2) the number of years (including fractional parts of a year) until the maturity date (Note 6).

*Pooled separate accounts:* The values of the pooled separate accounts are determined at the close of each business day based on market value. The value of the account is expressed in "units". The "unit value" is the dollar value of one unit and is determined at the close of each business day by dividing the value of the entire account by the total number of units in the account. Since these accounts are separate accounts, realized and unrealized gains and losses from the assets in the accounts are credited to or charged against the account without regard to other income, gains or losses.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(continued)

## 5. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2011 and 2010.

- (a) The plan's policy is to recognize transfers in and out as of the actual date of the event or change in circumstances that caused the transfer.
- (b) Plan participants have the ability to transfer in and out of all levels of investments on a daily basis as allowed by the plan agreement.

(continued)

## **6. INVESTMENT CONTRACT WITH INSURANCE COMPANY**

In 2005, the plan entered into an Allocated Retirement Account Group Annuity Contract with John Hancock USA, which is a non-benefit-responsive guaranteed investment contract. The value of the account at any time during its guarantee period is equal to the sum of all contributions and transfers to it plus interest less any payments or transfers. The contract is included in the financial statements at fair market value as reported to the plan by John Hancock USA. Fair market value represents the value paid (contract value) minus withdrawal charges when funds are withdrawn prior to their maturity.

The guaranteed interest contracts provide a guaranteed interest rate for a specified period of time as determined, or allowed, by the sponsor's retirement plan. Interest rates are established on the first day of each calendar month and apply to all regular ongoing contributions made to the guaranteed account in the first month for all group annuity contract holders. At the end of each reporting year, a composite rate of interest is determined for each participant account in the applicable guaranteed fund. The composite rate is the effective annual rate earned by all contributions to that guaranteed account during that reporting year for that participant. Contributions continue to earn that calculated composite interest rate for the duration of the guaranteed term.

However, if a participant transfers or withdraws all or a part of a guaranteed interest contract prior to the end of its guarantee period (maturity), there is a possible market value adjustment due to potential withdrawal charges. Thus, the guaranteed interest contract is not considered benefit responsive.

The fair value of the guaranteed investment contract at December 31, 2011 and 2010 was \$49,712 and \$45,473, respectively.

In May 2006, the plan offered the John Hancock Stable Value Fund, which is also covered under the Allocated Retirement Account Group Annuity contract. Due to a possible market adjustment on any amount withdrawn from this fund, the John Hancock Stable Value Fund is not considered benefit responsive.

The fair value of the John Hancock Stable Value Fund, which is included in the Pooled Separate Accounts, in the Statement of Net Assets Available for Benefits, at December 31, 2011 and 2010 was \$1,066,157 and \$652,525, respectively.

## **7. PARTY-IN-INTEREST TRANSACTIONS**

Certain plan investments are managed by John Hancock USA, the custodian, as defined by the plan, and, therefore, these transactions qualify as party-in-interest. Certain administrative functions are performed by the officers and employees of the company (who may also be participants in the plan) at no cost to the plan.

## **8. PLAN TERMINATION**

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(continued)

## 9. TAX STATUS

Effective March 31, 2008, the plan adopted a non-standardized form of a prototype plan sponsored by Benefit Administration Service, LLC. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this plan. The plan administrator believes the plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code and, therefore, believes that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

## 10. RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

## 11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010, to Form 5500:

	<u>2011</u>	<u>2010</u>
Net assets available for benefits per the financial statements	\$ 19,233,787	\$ 18,458,840
Miscellaneous	<u>-</u>	<u>(25)</u>
Net assets available for benefits per Form 5500	<u>\$ 19,233,787</u>	<u>\$ 18,458,815</u>

The following is a reconciliation of changes in net assets available for benefits per the financial statements for the year ended December 31, 2011, to Form 5500:

Net increase in assets available for benefits per the financial statements	\$ 774,947
Miscellaneous	<u>25</u>
Net income per Form 5500	<u>\$ 774,972</u>

(continued)

**12. NET ASSETS AVAILABLE FOR BENEFITS**

Net assets available for benefits at December 31, 2011 and 2010, include \$-0- for both years, respectively, allocated to the accounts of persons who, as of or prior to that date, had withdrawn from the plan, but have not been paid.

**13. SUBSEQUENT EVENTS**

The plan administrator has evaluated subsequent events through July 25, 2012, the date which the financial statements were available to be issued.
